No. 1A.

GENERAL.—*The 29th November* 1890.—Mr. A. W. B. Power, Officiating Commissioner, Dacca Division, is appointed to act as Commissioner of the Chittagong Division, during the absence, on special duty, of Mr. D. R. Lyall, or until further orders.

The 29th December 1890.—Mr. A. G. Halliday, who was in 1889 appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Patna Division, and is posted to the Sadr station of the district of Patna.

The 31st December 1890.—Mr. J. T. Jarbo, Deputy Magistrate and Deputy Collector, Rungpur, is transferred to the district of the Chittagong Hill Tracts, and is appointed to have charge of the Sungu sub-division of that district.

Babu Bejoy Kissen Bose, Deputy Magistrate and Deputy Collector, Contai, Midnapur, is transferred to the Sadr station of the district of Rungpur.

The 2nd January 1891.—Captain Henry Moore, Calcutta Volunteer Rifle Corps, is appointed to be Honorary Pay Master of that Corps, *vice* Captain J. Rose, resigned.

The 5th January 1891.—Babu Dino Nath Mookerjee, Deputy Magistrate and Deputy Collector, is posted to the Sadr station of the district of Rajshahye.

Babu Sarat Chandra Das, Sub-Deputy Collector, Chittagong, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Juggut Chandra Das, Officiating Khas Tehsildar, Raojan, Chittagong, is appointed to act as a Sub-Deputy Collector of the fourth grade, and is posted to Chittagong, during the absence, on leave, of Babu Sarat Chandra Das, or until further orders.

Captain Henry Parnham Phillips, Burma State Railway Volunteer Corps, is appointed to be Captain in the Eastern Bengal State Railway Volunteer Rifle Corps, *vice* Captain A. W. Rendell, transferred.

In modification of the orders dated the 23rd December 1890, Mr. A. Ahmad, Officiating Joint-Magistrate and Deputy Collector, is posted to the Sadr station of the district of Manbhum.

The 6th January 1891.—The services of Mr. A. W. Paul, C.I.E., are placed at the disposal of the Government of India in the Foreign Department.

POLICE.—*The 5th January* 1891.—Mr. C. P. Crouch, District Superintendent of Police, Singbhum, is allowed furlough for nine months, under article 371 of the Civil Service Regulations, with effect from the 1st March 1891.

The 6th January 1891.—Mr. A. S. Judge, Officiating District Superintendent of Police, Rungpur, is allowed leave for two months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Mr. J. Cowie, Assistant Superintendent of Police, Rungpur, is appointed to have charge of the district police of that district, during the absence, on leave, of Mr. A. S. Judge, or until further orders.

In supersession of the order of the 16th December 1890, Mr. E. P. O'Connor is re-appointed to be an Inspector of Police of the second grade, with effect from the 1st December 1890, the date on which his deputation to the Excise Department terminated.

EMIGRATION.—*The 31st December* 1890.—The services of Surgeon-Major D. W. D. Comins, Protector of Emigrants and Superintendent of Emigration, Calcutta, are placed temporarily at the disposal of the Government of India, in the Department of Finance and Commerce.

Dr. B. MacLeod, Health Officer of the Port of Calcutta, is appointed to act, in addition to his own duties, as Superintendent of Emigration and Protector of Emigrants, Calcutta, during the absence, on deputation, of Surgeon-Major D. W. D. Comins, or until further orders.

The following notifications are republished from the *Assam Gazette* :—

No. 10769*G.*—*The 22nd December* 1890.—Mr. J. D. Anderson, C.S., Deputy Commissioner, Darrang, was granted examination leave, under article 314(*a*) of the Civil Service Regulations, from the 3rd to 8th October 1890, in extension of the privilege leave granted in notification No. 5891G, dated the 29th July 1890.

No. 10792*G.*—*The 27th December* 1890.—With effect from 29th October 1890, in consequence of Mr. P. G. Melitus, C.S., Assistant Commissioner, first grade, acting as Deputy Commissioner, Mr. G. Gordon, C.S., Assistant Commissioner, second grade, to act in the first grade.

No. 10793*G.*—With effect from 28th November 1890, *vice* Mr. A. C. Campbell, Deputy Commissioner, first grade (deceased), Messrs. R. B. McCabe, C.S., and F. St. Clair Grimwood, C.S., Deputy Commissioners, fourth, and officiating third, grade, to act in the second grade; Mr. P. G. Melitus, Assistant Commissioner, first, and Officiating Deputy Commissioner, fourth, grade, to act as Deputy Commissioner, third grade; Mr. G. Gordon, C.S., Assistant Commissioner, second, and officiating first, grade, to act as Deputy Commissioner, fourth grade; Mr. C. W. E. Pittar, C.S., Assistant Commissioner, third, and officiating second, grade, to act in the first grade.

No. 5174*J.*—*The 26th December* 1890.—Under the provisions of section 8 of Act I of 1882 (the Inland Emigration Act), the Chief Commissioner appoints Mr. L. St. J. Brodrick, Officiating District Superintendent of Police, to be an Assistant Inspector of Labourers under the said Act in the district of Nowgong.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 6th January, 1891.—The Board of Revenue, Lower Provinces, having submitted, for consideration by the Lieutenant-Governor, a report by the Collector of the 24-Pergunnahs, under section 11 of the "Bengal Embankment Act," II (B.C.) of 1882, on an application made to him, under section 18 of the Act, for the construction of a drainage sluice in the Schedule D Embankment, No. 80, at Nelua, within the jurisdiction of the Diamond Harbour sub-division of the district of 24-Pergunnahs, at an estimated cost of Rs. 1,030 (one thousand and thirty rupees), the Lieutenant-Governor is pleased, under the provisions of section 14 of the aforesaid Act, to order that the drainage sluice shall be constructed in accordance with the plans submitted.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 6th January, 1891.—In continuation of the Government notifications, dated the 14th January, 1890, and 17th March, 1890, published in the *Calcutta Gazette* of the 15th January and 19th March, 1890, the Lieutenant-Governor is pleased to order, under section 3 of Act V (B C.) of 1875, that a survey shall be made of all the lands in the district of Cuttack, with the exception of the following permanently-settled estates, and that the boundaries of estates, tenures, mouzahs and fields be demarcated on the lands to be surveyed:—

1. Bisnupur.
2. Harishpur.
3. Madhupur.
4. Chhedra.
5. Durpan.
6. Kalkala.
7. Dompara.
8. Sukirda.
9. Aul.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 31st December 1890.—Under section 82 of the Bengal Excise Act VII of 1878, as amended by section 11 of Act IV (B.C.) of 1881, the Lieutenant-Governor is pleased to exempt, during the Bándhna festival only, home brewed pachwai from all the provisions of the said Acts which relate to its manufacture and possession within the districts of Burdwan, Bankoora, Beerbhoom, Midnapore, and Moorshedabad, so far as the aboriginal tribes are concerned.

H. J. S COTTON,
Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

IRRIGATION.

The 6th January 1891.

No. 6.—*Notification.*—Notice is hereby given that the Main Western Series of the Sone Canals will be closed for 10 days from the 1st March 1891 to the 11th of March 1891.

No. 8.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a supply pipe at Kalinagar across the Russulpore river, in the villages of Bajbajia and Dakshin Kalamdan, pergunnah Keoramal, zillah Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 55 beegahs 18 cottahs and 6 chittacks of standard measurement, bounded on the north by paddy land belonging to Baidyanath Misar and Kushu Das; on the south by Russulpore river; on the east by paddy land belonging to Kushu Das, Rudra Maiti and others; and on the west by the old embankment and Government land, is required within the aforesaid villages of Bajbajia and Dakshin Kalamdan.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

[Fifth Publication.]

REVISED WATER-RATE RULES FOR THE SONE CANALS.

Notification No. 435, *dated the 9th December* 1890.

IN exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following revised rules for the Sone Canals, in supersession of those passed in Notification No. 148 of the 20th June 1881, which were published in the *Calcutta Gazette* of the 22nd June 1881, which, from the date of the publication of these rules, shall cease to have effect, except in so far as they determine the water-rates to be assessed for water supplied under current permits and the date on which they become due and payable.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76(*c*), or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in the Act and these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub-divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer, and the Sub-divisional and Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the kharif season—(*a*) for annual leases; (*b*) for leases for a term of three or seven years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will be supplied during the *rabi* season at a lower rate than that ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in Rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1890, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. No village channel not entered in the register made in compliance with the rule immediately preceding as existing on the 1st of April 1890 shall be added thereto except at the written request of the owners thereof. But water shall not be supplied for irrigation through any channel other than a registered village channel.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna and shall not exceed four annas per bigah assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than Rules 18 or 19 following the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of three or seven year leases.

IX.—Assisting the Collector by pointing out the residences of the persons assessed and identifying them and giving such general information as may be necessary regarding the persons assessed.

10. In the case of leases for the season the remuneration for performing the duties mentioned in clauses I to VII of the rule immediately preceding shall be 2 per cent. on the assessments which shall be paid by the Canal Officer, and for performing the duty mentioned in clause IX 1 per cent. on the collections, which shall be paid by the Collector.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to VII of Rule 9 shall be 2 per cent. yearly on the assessments of the year, which shall be paid by the Canal Officer, and 2 per cent. yearly on the realizations for performing those mentioned in clauses VIII and IX, which shall be paid by the Collector.

12. The *lambardar* will be appointed by the Sub-divisional Officer in consultation with the applicants for the lease and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for three or seven years the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14. The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-divisional Canal Officer, and shall receive 3 per cent. on the assessment in place of 2 per cent. prescribed in Rules 10 and 11.

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer or the Collector may retrench the whole or any part of the fees payable by them respectively in the event of this condition not being complied with. In calculating the fees payable fractions of an anna will be excluded.

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (schedule No. I), or upon *kharif* season leases (schedule No. II), shall be subject to the following conditions:—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether or no water is required.

III.—The applications may be for a term of three or seven years, or for the season only—

(*a*)—In the case of applications for the season only the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application which must be signed by or by authority of the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement.

(*b*)—In the case of applications for a term of three or seven years a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for three or seven years being issued.

(*c*)—Notice that a permit for three or seven years is required must be given by the 1st of April, and no permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following. An application for a permit for the season must be filed by the 1st of September.

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing five-year leases may be cancelled and included in an application for a seven or three year lease under the preceding rules.

(b) An application may be made for an addition to a seven or three year lease, which, if granted, shall be considered as part of the original lease and terminate therewith.

17. Applications for irrigation in the *rabi* season, 25th October to the 25th March, and the hot-weather season, 25th March to the 25th June, will be subject to the following conditions—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by or by authority of the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated.

18. Applications for the supply of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix VI signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of September to the 31st of October only.

19. Applications for the supply of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VII. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS.

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term 'irrigating' includes the right to drain (*nigar*) the land at the proper season of the year.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 8.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in the application.

NOTE—Where these conditions are infringed appropriate penalties or disabilities to the extent specified in the Act or those rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (schedule No. I) or upon *kharif* season leases (schedule No. II) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16*c* when a permit for a three or seven year lease is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for three or seven years the block must be not less than 50 bigahs in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for seven years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available and that the quantity required is not excessive.

III.—Permits for three years will be issued on the same conditions as those for seven, except that, as the term for which Government is bound is shorter somewhat less favourable conditions as to situation, soil, and the quantity of water required will be accepted.

IV.—A permit for a three or seven years' lease may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

V.—Permits for the season will be issued on the same conditions as those for three years, the essential difference being in the duration of the lease and the later period up to which applications are received.

23. Permits for irrigation in the *rabi* and hot-weather seasons, 25th October to 25th June, will be issued on the following conditions:—

I.—Water-rates will be levied on the area actually irrigated, and not on that specified on the application.

II.—The applicants will undertake to give the *lambardar* notice to close the outlet so soon as the area requiring irrigation has received a sufficient supply of water.

III.—The applicants will undertake to, as far as is practicable, prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any three or seven years' lease if on the 1st of June of any year water-rates are in arrears by more than half a year's demand.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a three or seven years' lease if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration to the Superintending Canal Officer.

II.—The Sub-divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the sub-divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is at the time the outlet is closed being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closure shall not, in the *kharif* season, exceed five days after ten days of consecutive supply and shall be notified to *lambardars*.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29. The Canal Officer will be responsible that the supply through the outlet is in the *kharif* season maintained in accordance with the entries on the permits, and in the *rabi* season in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or Subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has under rule 14 been given charge of the outlet to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared, under the supervision and signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under three or seven years' leases shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *kacha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parchas*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hot-weather or rabi season the following procedure shall be followed :—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khasrah* shall be signed by both the amin and the *lambardar* who shall be present at the measurements. If the *lambardar* is not present, the *amin* shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasrah* prepared by him. The *lambardar* shall be permitted to take a copy of the *khasrah*.

II.—When the measurement is completed the *khasrah* shall be forwarded to the Sub-divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present or declines to grant a receipt for the same in the prescribed form, the Sub-divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding Rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half an anna at all canal offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under Rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries, which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for three or seven years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act shall be at the rates shown in the schedule following or such lower rate as the Divisional Canal Officer may fix :—

	Flow or lift.	
	Rate per bigah.	Rate per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner	5 0 0	0 8 0

Provided that in the *kharif* season, 25th June to the 25th October, no water-rates under this section shall be levied where the unauthorized irrigation is effected with water taken from land included in a lease, but irrigation effected by cutting a village channel or committing a criminal offence the perpetrator of which cannot be discovered may be assessed with the previous sanction of the Collector, which must be obtained before any detailed measurement of the land irrigated without authority is made. *Subject to the proviso regarding irrigation in the kharif season mentioned above, persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates at the rate imposed by this rule.*

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under section 78, 79, or 80 of the Act shall be due and payable on the dates mentioned below:—

Seven-year leases ...	First moiety	15th December.
Three-year leases ...	Second moiety	1st March.
Season or annual leases—		
Bhadoi and crops classed as *bhadoi*		1st November.
Rice and sugarcane waterings, from the 25th June to the 25th October		15th December.
Rabi and crops classed as *rabi*, including sugarcane waterings, from the 25th October to the 25th March ...		1st April.
Hot-weather rate		1st July.
Sugarcane	First moiety	15th December.
	Second moiety	15th February.
Assessments under section 79 of the Act or under Rule 40		On receipt of the demand statement by the Collector.
Assessments under section 80 of the Act		
Water supplied by volume between the 1st of September and 31st of October		One moiety before the outlet is opened; the other moiety 15th December.
Water supplied by volume to fill *aharas*		The whole amount before the outlet is opened.

The Divisional Canal Officer will endeavour to forward as many of the demand statements as possible to the Collector fifteen days before the dates fixed for payment, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VIII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein owing to a request made by a *bhaoli* owner under this rule being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlord, and in other cases any influence which the Collector may possess should be used to make the zemindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76*b* shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in Rule 34 and twenty days before the crop is cut.

47. Before awarding compensation under section 76*c*, the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head extraordinary, so much of the water-rates as are in excess of ten annas a bigah. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remissions under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the kharif season for three or seven years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. The contractor shall as such be responsible for the performance of the duties devolving on the *lambardar* under these rules, but may appoint a *lambardar*, whose name shall be communicated to the Sub-divisional Canal Officer and whose removal, for good cause to be recorded in writing, may be ordered by the Divisional Canal Officer. He shall, whether he appoints a substitute to act as *lambardar* or not, be responsible for reporting all changes in the occupiers of lands included in the lease to the Collector.

55. The contractor as *lambardar* shall be entitled to remuneration at the rate of 5 per cent. on the assessments subject to the provisions contained in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-divisional Canal Officer shall proceed to appoint a *lambardar* under Rule 12 and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at least before the 25th of June next following shall be given, and the removal shall take effect from that date.

59. With the written approval of the Superintending Canal Officer a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collections of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *khaoli*, regarding which the provisions contained in Rule 43 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for three or seven years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be sent to the Divisional Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

65. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others.

66. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing or other purpose charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Engineer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant-Governor

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fee shall be disbursed at the time of attendance as far as practicable by the Sub-divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 12, 43, 52, 53, 54, 57, 59, 61, 62 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under Rules 38, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

REVISED RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

IN exercise of the powers conferred on him by section 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to fix the following rates to be charged for water supplied for irrigation from the Sone Canals:—

1. Schedules I and IV following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1891.

2. Schedule II following will be in force in respect to permits issued for the irrigation of land after the 25th June 1891.

3. Schedule III following will be in force in respect to permits issued for the irrigation of land after the 15th October 1890.

4. Schedule V following will be in force in respect to permits issued for the irrigation of land after the 1st January 1891.

5. Schedule VI following will be in force in respect to water supplied after the 1st of September 1890.

6. Schedule VII following will be in force in respect to water supplied after the 1st of November 1890.

7. For permits issued prior to the dates mentioned above, the rates at present in force enumerated in notification No. 149 of the 20th June 1881, published in the *Calcutta Gazette* of the 22nd June 1881, will be charged.

8. SCHEDULE No. I.

Leases for a term of years.

For water supplied between the 25th of June of one year and the 25th March of the next.	FLOW OR LIFT.	
	Rate per bigah.	Rate per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For leases for seven years, all crops	1 4 0	0 2 0
For leases for three years, all crops	1 9 0	0 2 6

9. SCHEDULE No. II.

Season Leases (Kharif).

Name of crop.	Date of supply.	FLOW OR LIFT.	
		Rate per bigah.	Rate per tenth of a bigah.
		Rs. A. P.	Rs. A. P.
Rice and sugarcane for kharif season only . .	25th June to 25th October	1 14 0	0 3 0
Bhadoi, serha rice, or any other crops .	25th June to 15th October.	1 9 0	0 2 6

10. SCHEDULE No. III.

Season Leases (Rabi).

Time of supply.	Locality.	FLOW.		LIFT.	
		Per bigah.	Per tenth of a bigah.	Per bigah.	Per tenth of a bigah.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
15th October to 25th March.	Water supplied for all crops including sugarcane from distributaries open for kharif irrigation.	1 4 0	0 2 0	0 15 0	0 1 6
25th October to 25th March.	Water supplied for all crops including sugarcane from distributaries or parts of distributaries from which rabi irrigation only is allowed.	0 15 0	0 1 6	0 10 0	0 1 0

11. SCHEDULE No. IV.

Season leases—Hot weather.

	FLOW OR LIFT.	
	Per bigah.	Per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For water supplied between the 25th March and the 25th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	2 8 0	0 4 0

12. SCHEDULE No. V.

Annual leases—Sugarcane.

Time of supply.	FLOW OR LIFT.	
	Per bigah.	Per tenth of a bigah.
First of January one year until the crop is cut, which may be March in the following year.	Rs. A. P. 5 0 0	Rs. A. P. 0 8 0

13. In the case of charges under Schedules I to V any smaller area than one-tenth of a bigah will be charged as one-tenth. The bigah contains 27,225 square feet.

SCHEDULE No. VI.

14. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of September and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VII.

15. For water supplied by volume to fill *aharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

16. In the case of leases under Schedules I and II, water will be supplied for rice seed beds only as early in June as the supply in the river admits.

17. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November if required.

18. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

19. In the case of leases under Schedule V, the charge will be dependent on the crops reaching maturity. A proportionate remission will be granted if the crop suffers from any cause.

20. When the original crops sown in a field irrigated by canal water fail, and a fresh crop is sown in the *same season*, as defined in the schedules above, water-rates shall be levied on the second crop only. If no second crop is sown, water-rate shall be levied at the rate of ten annas a bigah.

21. In assessing water-rates under Schedules III, IV and V the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

II.—When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

23. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

APPENDIX I.

Form of application for a lease for a term of years.

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigah. This sum will be payable independently of our requiring water in any particular year or not.

3. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45, and 46.

4. We agree to pay a moiety of the water-rates due on this application on the 15th December and the remaining moiety on the 1st of March.

5. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If on the 1st of June of any year the water-rates due on this application in the aggregate are in arrear by more than half a year's demand.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bigahs and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

N.B.—1. Charges will be made by tenths of a bigah, any smaller area being charged as one-tenth.
2. The year is reckoned as commencing from the 25th June.

APPENDIX II.

Form of application for a lease for a term of years jointly with a contractor.

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigah. This sum will be payable independently of our requiring water in any particular year or not.

3. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45, and 46.

4. We agree to pay a moiety of the water-rates due on the 15th December and the remaining moiety on the 1st of March.

5. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If on the 1st of June of any year the water-rates due on this application in the aggregate are in arrear by more than half a year's demand.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

6. We desire under Rule 50 that _____ shall be appointed contractor, to whom we agree to pay water-rates as they become due so long as he is authorized by proper authority to receive the same. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to some person authorized by him to receive the same.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bigahs and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

7. I agree to become contractor under Rules 50 to 60 for the collection of all sums payable under this application and to be bound by all the rules passed under Act III (B.C.) of 1876. I will abide by the rules mentioned and all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

N.B.—1. Charges will be made by tenths of a bigah, any smaller area being charged as a tenth.
2. The year is reckoned as commencing from the 25th June.

[*To be added when the contractor takes the responsibility of collecting the entire sum due under Rule* 56.]

8. In consideration of being permitted to deduct 7½ per cent. from the sum due under this application, I undertake to pay the whole amount due to Government on the dates mentioned in clause 4 and to myself take the risk of any default in payment by the applicants.

APPENDIX III.

Form of application for a lease during the kharif season.

Mouzah , *Pergunnah* , *Distributary*

1. We, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th of June to the 25th of October, for the irrigation of the block formed by our holdings as specified below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, and each of us agrees to pay water-rates on the area in his occupation, as found by actual measurement, at the rate of Rs. 1-14 per bigah. This sum will be payable independently of our requiring water during the season or not.

3. This application is made under the rules passed under Act III (B.C) of 1876, more especially Rules 16, 20, 22, 26, 27, 45, and 46. We agree to abide by these and by all the rules passed under the Act.

4. We agree to pay the whole of the water-rates due on the application on the 15th of December.

5. The following are the boundaries of the block :—

North.—
South.—
East.—
West.—

SCHEDULE.

Name of cultivator.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine, and that they comprise the whole of the occupiers of the land included in the block, the boundaries of which are mentioned above, and that the areas given are approximately correct.

N. B.—Charges will be made by tenths of a bigah, any smaller area being charged as a tenth.

Signature of lambardar.

APPENDIX IV.

Form of application for a lease during the rabi season or for crops classed as bhadoi.

Mouzah , *Pergunnah* *Distributary*

1. We, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the of October to the 25th of March, for the irrigation of the areas mentioned below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, but each of us agrees to pay water-rates at Rs. per bigah on the actual area in our occupation as found by measurement, with the proviso that only areas actually irrigated will be assessed.

3. We agree, as far as is possible, to prevent water supplied being wasted or used in an unauthorized manner.

4. This application is made under the rules passed under Act III (B.C.) of 1876, more especially Rules 17, 20, 23, 26, 45, and 46. We agree to abide by these and by all the rules passed under the Act.

5. We agree to pay the water-rates due on this application on the 1st of April.

Name of cultivator.	Description of crop.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine and that the areas mentioned are approximately correct.

N. B.—1. Charges will be made by tenths of a bigah any smaller area than one-tenth being charged as a tenth.
2. For crops classed as *bhadoi*, 25th June to 15th October to be substituted for the dates given in Rule 1.

Signature of lambardar.

APPENDIX V.

Form of application for a lease for sugarcane for the year

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary for the irrigation of the areas mentioned below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, but each of us agrees to pay water-rates at Rs. 5 per bigah on the actual area in our occupation as found by measurement.

3. We agree, as far as possible, to prevent water supplied being used in an unauthorized manner.

4. The full rate will be payable only if the crop reaches maturity. If from any cause it has been materially damaged, we shall be entitled to such proportionate remission as may be fixed by the Canal Officer.

5. This application is made under the rules passed under Act III (B.C.) of 1876, more especially Rules 17, 20, 26, 31, 45, and 46. We agree to abide by these rules and by all the rules passed under the Act.

6. We agree to pay a moiety of the water-rates due on the 15th December and the remaining moiety on the 15th February.

Name of cultivator.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine and that the areas mentioned are correct.

N.B.—Charges will be made by tenths of a bigah, any smaller area than a tenth being charged as a tenth.

Signature of lambardar.

APPENDIX VI.

WE, the undersigned, hereby apply for water to be supplied from the distributary for the purpose of irrigation.

We agree that in consideration of the outlet mentioned at the foot of this application being opened for hours to the extent specified, we will severally pay the sums entered opposite our names in addition to Rs. which we have collectively paid with this application.

This application is made under section 74 of Act III (B.C.) of 1876.

Name.	Residence.	Sum to be paid.	Witness to signature.

Size of outlet—
Head to be maintained—
Approximate discharge—

Certificate of subordinate.—I hereby certify that the outlet specified was open for hours on the of , and that at least the quantity of water stipulated was supplied.

Sectional Officer.

APPENDIX VII.

WE, the undersigned, hereby apply for water to be supplied from the distributary for the purpose of filling the *ahara* mentioned below.

We agree that in consideration of the outlet mentioned at the foot of this application being opened for hours to the extent specified, we will pay Rs. , which sum is herewith tendered.

Name.	Residence.	Ahara to be filled.

Size of outlet—
Head to be maintained—
Approximate discharge—

Certificate of subordinate.—I hereby certify that the outlet specified was open for hours on the of , and that at least the quantity of water stipulated was supplied.

Sectional Officer.

APPENDIX VIII.

To the Collector of

WHEREAS certain cultivators of mouzah , pergunnah of which I am the proprietor, have, under section 74 of Act III (B.C.) of 1876, applied to be supplied with water for the irrigation of lands in the above village of an area of bighas, more or less, the water-rates on which will amount to Rs. approximately, and whereas the above lands are held on a bhaoli tenure, and I desire to pay a portion of the water-rates, I therefore, under section 74 of Act III (B.C.) of 1876, join in the application for water, and authorize you to collect from me (*) of the water-rates assessed.

Signature—
Residence—
Witness—

* Proportion payable to be entered here.

APPENDIX IX.

Permit for a lease for a term of years.

Number of application and date ...	
Name of village	
Name of pergunnah	
Name of distributary	
Position of outlet	
Size of outlet	
Head of water assumed	
Approximate discharge	
Area to be irrigated	
Dates of supply	25th June to 25th March.
Water-rates due	
Dates of payment	One moiety 15th December, one moiety 1st March.
Name of lambardar	
Duration of permit	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provision of all rules passed under the Act, and is liable to be cancelled if the water-rates due under it are in arrear by more than half a year's demand, or if water, which it is expressly agreed is supplied for the sole purpose of irrigating the land mentioned therein, is habitually misused or wasted. Water-rates on the area mentioned will be charged whether in any particular year water is or is not actually required.

Divisional Canal Officer.

APPENDIX X.

Permit for a lease for kharif season.

Number of application and date ...	
Name of village	
Name of pergunnah	
Name of distributary	
Position of outlet	
Size of outlet	
Head of water assumed	
Approximate discharge	
Area to be irrigated more or less ...	
Dates of supply	25th June to 25th October.
Water-rates due	
Dates of payment	
Name of lambardar	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provisions of all rules passed under the Act. It is expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application. Water-rates on the land included in the block specified in the application, the area more or less of which is given above, will be charged, whether water is or is not actually required.

Sub-divisional Canal Officer.

APPENDIX XI.

Permit for a lease other than kharif or for a term of years.

Number of application and date ...	
Name of village	
Name of pergunnah	
Name of distributary	
Area to be irrigated more or less ...	
Dates of supply	
Water-rates due	
Dates of payment	
Name of lambardar	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provisions of all rules passed under the Act. It is expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application. The area actually irrigated will be measured and charged, and the applicants undertake to, as far as is in their power, prevent water being wasted or applied to the irrigation of land not included in the application. Any claims for remission of water-rates must be made 20 days before the crop is cut.

Sub-divisional Canal Officer.

ESTABLISHMENT.

The 5th January 1891.

No. 3.—Mr. T. A. Hindmarsh, class III of the Superior Revenue Establishment, Locomotive Department, Eastern Bengal State Railway, is appointed to officiate in class II, with effect from the 30th October 1890, in place of Mr. Yates, on furlough.

No. 4.—With reference to notification No. 398 of the 17th November 1890, Mr. C. A. Walsh, class III of the Superior Revenue Establishment, Locomotive Department, Eastern Bengal State Railway, ceased to hold officiating rank in class II, with effect from the 30th October 1890.

RAILWAY.

The 5th January 1891.

No. 5.—It is hereby notified that the village of Basant Khurd, pergunnah Babra, Mozufferpore district, should be added to the list of villages published under this Department declaration No. 454, dated the 17th December 1889, for the acquisition of land required to be taken up for the construction of the Durbhunga-Sitamarhi Branch of the Tirhoot State Railway, in the districts of Durbhunga and Mozufferpore.

The 6th January 1891.

No. 7.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the construction of a railway from Dock Junction station on the Eastern Bengal State Railway to Garden Reach, it is hereby declared that for the above purpose a survey party is about to take the field to survey a line of railway through the undermentioned villages in the district of 24-Pergunnahs—

District.	Villages.
24-Pergunnahs ...	Singeratee.
	Belpookooriah.
	Gungooah.
	Kishenpur.
	Indree.
	Atheo.

This declaration is made, under the provisions of section 4 of Act X of 1870, to all whom it may concern.

E. J. MARTIN,
Joint-Secretary to the Govt. of Bengal.

MIDDLE SCHOLARSHIP EXAMINATION FOR 1893.

I.—MIDDLE ENGLISH—

The following text-books in languages have been selected for the examination of 1893—

English—

Royal Reader, No. IV, to page 100.

Bengali—

Padyapath, Part III; Charupath, Part III, Chapter III; Ramer Rajyabhishek, by Sasi Bhushan Chatterjea, omitting Chapters VII and VIII.

Urdu (for Mahomedan candidates only, alternatively with Bengali)—

Kuat Faisla, by M. Hasan Ali; Intikhab Nayab, by M. Suraj Mal.

The following text-books are recommended as defining the scope of the examination in certain subjects; but any other book included in the authorised list, dated 1st June 1890, may, at the option of the managers of schools, be read. In subjects, for which no text-books have been named, school managers are restricted to the use of the books specified in the authorised list. *No book not included in that list must be introduced into any school, aided or unaided, that prepares candidates for this examination.*

English Grammar—

Higher English Grammar in Bengali, by Gangadhar Banerjea; or
Manual of English Grammar, by Mathura Nath Barma; or
Morell's First Essentials of English Grammar; or
Lennie's Grammar (New edition); or
Manual of English Grammar, by Christian Vernacular Education Society.

Bengali Grammar—

Bangala Byakaran, by Loharam Siroratna; or
Ditto, by Krisna Kisor Banerjea; or
Vyakaran, by Kaliprasanna Vidyaratna; or
Sahitya Praves, by Prasanna Chandra Vidyaratna; or
Vyakaran Manjusa, by Umes Chandra Gupta; or
Bangala Vyakaran, by Jagat Bandhu Modak.

Urdu Grammar—

Kawaid Urdu, Part III.

History—

(1) (*a*) History of Greece and Rome, or the history of the world; or

(*b*) History of England, up to the death of Elizabeth.

(2) (*a*) Bharatbarsher Sankshipta Itihas, by Ishan Chandra Ghose; or

(*b*) Bharatbarsher Samasta Itihas, by Ramgoti Nyayaratna; or

(*c*) R. C. Datta's Bharatbarsher Itihas, Hindu and Mahomedan Periods, and British India, by Krishna Chandra Rai; or

(*d*) Tarini Charan Chatterjea's or Rajanikant Gupta's Hindu and Mahomedan Periods, and Rajanikant's British India.

Geography—

(1) General Geography, with special knowledge of India.

(2) Physical character of the earth's crust; internal terrestrial phenomena, including volcanic phenomena; the sea; the atmosphere; evaporation and condensation; action of rain, springs and rivers; distribution of organic life.

Arithmetic (Native and European)—

No text-book.

Geometry and Mensuration—

(1) Euclid, Book I with deductions.

(2) Mensuration of lines and planes.

One of the following subjects in addition to Sanitary Science:—

(*a*) *Elements of Botany*—

First Step in Botany, by Watt; or
Udbhid Bichar, by Jadu Nath Mukherjea.

(*b*) *Elements of Chemistry*—

Non-metals as in Rasayan, by Jadub Chandra Basu; or
Rasayan Bigyan, by Kanai Lal De.

(*c*) *Elements of Natural Philosophy*—

Properties of matter; different kinds of force; centre of gravity; laws of motion; general properties of solids, liquids and gases; heat and its effects.

In Sanitary Science the following text-books have been prescribed by Government:—

(1) Bengali Translation of "The Way to Health"; and

(2) Swasthyaraksha, by Radhika Prasanna Mukherjea.

II.—MIDDLE VERNACULAR—

Same as the Middle English, with the exception of English Reader and English Grammar.

III.—MIDDLE EXAMINATION FOR GIRLS—

Female candidates have the option of substituting the following for Geometry and Mensuration, and Botany, Chemistry or Natural Philosophy:—

(*a*) Cutting and making of pirans, pyjamas, and chapkans.
(*b*) Knitting, darning and embroidery. } 150 marks.

CALCUTTA,
The 27th December 1890.

A. CROFT,
Director of Public Instruction, Bengal.

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

THE next Examination of Candidates for Pleadership will be held on the 24th, 25th, and 26th February next in the Senate House of the Calcutta University.

The next Examination of Candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gouhaty, and Sylhet on the same days, the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership Candidates will be examined *viva voce* only on the 24th February commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 25th and 26th February. Two papers will be set for the Mookhtarship Candidates on the 24th February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 25th and 26th February, commencing at 10 A.M. each day.

Under no circumstances will any candidates be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovenamed).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

WILLIAM GRAHAM,
Offg. Secy. to the Board of Examiners For Pleadership and Mookhtarship.

Mozufferpore Collectorate, the 3rd December 1890. ISHAN CHUNDER SEN, Deputy Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Moorshedabad, will be put up to sale at the Berhampore Collectorate on the 12th day of January 1891, corresponding with the 29th day of Pous 1297 B. S.

The purchasers will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1*st*.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale—

Naga Hills Division.

ASSAM PUBLIC WORKS DEPARTMENT.

NICHUGUARD-KOHIMA HILL CART-ROAD.

1. SCHEDULE RATE TENDERS are invited for the execution of the following works in the first section of the Nichuguard-Kohima Hill Cart-road in the Province of Assam :—

Cutting in earth, estimated 67,000 c ft., @ Rs. 7 per thousand.
Cutting in gravel and soft shale, estimated 41,500 c.ft. @ Rs. 10 per thousand.
Cutting in compact shale, estimated 16,000 c.ft., @ Rs. 15 per thousand.
Cutting in soft sandstone and hard shale, estimated 75,000 c.ft., @ Rs. 20 per thousand.
Cutting in conglomerate and fissured sandstone, estimated 239,000 c ft., @ Rs. 30 per thousand.
Blasting in hard sandstone and gneiss, estimated 195,000 c.ft., @ Rs. 60 per thousand.

2. The position of the work may be described as beginning at a distance of 80 miles inland by cart-road from the Brahmaputra river ghât at Nigriting, Assam, and extending for a distance of 4 miles into the first rang of hills up the Diphupani river.

3. No advances will be given except on Government Promissory Notes, security being furnished; but suitable tools for workmen, not exceeding seven hundred in number, will be supplied by Government. The contractor will be responsible for all tools lost by his labourers.

4. Tenders should be accompanied by a *bonâ fide* deposit of one thousand rupees, which money will be returned to the owners of all rejected tenders.

5. In the case of the accepted tender, the contractor will be required to raise the deposit money from Rs. 1,000 up to a full limit of 5 per cent. on the whole value of the estimated contract as a guarantee for the proper and timely execution of the work.

6. Tenders will be received by the Chief Engineer, Assam, at Shillong, up to 28th February 1891.

7. The covers of all tenders should be marked thus—

"Tenders for Kohima Hill Cart-road Works."

8. The Chief Engineer does not bind himself to accept the lowest or any tender.

9. Intending contractors are urged to make themselves acquainted with the conditions of the district before they submit their tenders. Every information on this head will be afforded to them on application direct to the Executive Engineer, Naga Hills Division, whose head-quarters are at Kohima, Naga Hills, Assam.

SHILLONG,
The 29th November 1890.

F. J. JOHNSTONE,
Chief Engineer, P. W. D., Assam.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed:

1*st.*—Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th or thereabouts. Price Rs. 2-8 per mensem, including postage.

3*rd.*—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

*** *Lists of corrections to the above Rules are supplied monthly at Rs. 3 a year.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

***No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

The Shargi Architecture of Jaunpur, with Notes on Zafarabad, Sahet Maket, and other places in the N.W. P. and Oudh. By A. FUHRER, Ph. D., with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1.)

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

NOTICE TO MARINERS—(No. 208).

MALACCA STRAIT.

BASS HARBOUR.

Shoals near fairway of South-West entrance.

THE British Admiralty has given Notice (No. 644 of 1890) of the existence of two shoals lying northward of the fairway of the south-west entrance to Bass harbour :—

1. A rocky shoal, about 1½ cables in extent, and drying in places at half ebb, lies northward of the fairway of the south-west entrance to Bass harbour, with the east extreme of Pulo Singha bearing W. S. W., distant about 1½ miles.

Approximate position, lat. 6° 15′ 15″ N., long. 99° 44′ 30″ E.

2. A shoal of small extent, with about 2 feet on it at low water spring tides, lies with shoal (1) bearing S. by E. ½ E., distant about 4 cables, and the east extreme of Pulo Singha S. W. ½ W.

NOTE.—Vessels should pass southward of the abovementioned shoals.

(*Variation* 3° *Easterly in* 1890.)

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 29th December* 1890.

NOTIFICATION No. 341Mne.

The 30th December 1890.—The following Notice to Mariners is published for general information.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 209.)

NEW ZEALAND.

MIDDLE ISLAND—WEST COAST.

Sunken rock north-east of Brig rock—Milford sound approach.

THE British Admiralty has given notice (No. 645 of 1890) of the existence of a sunken rock, with 6 feet on it at low water, and on which the sea breaks in heavy weather, lying in the approach to Milford sound from the northward, with Yates point bearing N. ½ E., and Brig rock S.W. by S, distant $1\frac{1}{10}$ mile.

Approximate position: lat. 44° 30′ 50″ S., long. 167° 48′ 40″ E.

NOTE.—Vessels should not navigate inshore of Brig rock, as other foul ground is said to exist in the locality.

(*Variation* 16° *Easterly in* 1890.)

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 29th December* 1890.

NOTIFICATION No. 342Mne.

The 30th December 1890.—The following Notice to Mariners is published for general information.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

NOTICE TO MARINERS—(No. 211.)

JAPAN.

STRAIT OF TSUGAR.

Flashing light on Yesan no saki.

THE British Admiralty has given notice (No. 632 of 1890) that on 1st November 1890 a light would be exhibited from a light-house recently erected on Yesan no saki (cape Yesan), north side of eastern entrance to the strait of Tsugar:—

Yesan no saki light is a *flashing* light, showing alternately a *red flash* and a *white flash every fifteen seconds*, and visible through an arc of 187°, or from the bearing of S. 14° E., through west, to N. 7° W. It is elevated 144 feet above the sea, and should be seen in clear weather from a distance of 17 miles.

The illuminating apparatus is catoptric, or by reflectors, of the second order.

The light-house, 50 feet high, constructed of iron, and hexagonal in shape, is painted white

Approximate position: lat. 41° 49′ 5″ N., long. 141° 10′ 50″ E.

(*Variation* 6° *Westerly in* 1890.)

NOTICE TO MARINERS—(No. 212).

MALACCA STRAIT.

JUGRU RIVER ENTRANCE.

Alteration in colour of light.

THE British Admiralty has given notice (No 661 of 1890) that on 15th October 1890 the following alteration would be made in the colour of the light exhibited on the south side of Jugru river entrance:—

The light at Jugru river entrance is a *fixed red* light, visible in clear weather from a distance of six miles. It is shown from an iron pillar painted white, and situated about 100 yards inshore of the old light-house.

Approximate position: lat. 2° 48′ N., long. 101° 23¼′ E.

By direction of the Government of Bengal,
EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 29th December* 1890.

NOTIFICATION No. 1Mne.

The 6th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNeile, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 1).

AUSTRALIA.

Fitzroy river.

Lights in Old Channel, Central island, discontinued.

The Portmaster, Brisbane, has given notice (No. 34 of 1890) that after 24th November 1890, the lights in the Old Channel at Central island, Fitzroy river, will be discontinued.

The directions for the New Channel as contained in Notice No. 24 of that year continue in force.

By direction of the Government of Bengal,
Eaton W. Petley,
Port Officer of Calcutta.

Port Office, Calcutta, *the 5th January* 1891.

NOTIFICATION No. 2Mne.

The 6th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNeile, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 2).

AUSTRALIA.

North-west coast.

Position of a Magnetic Shoal.

The Portmaster, Brisbane, has given notice (No. 35 of 1890) that the Commander of Her Majesty's surveying vessel *Penguin* reports as follows:—

"When leaving Cossack on 6th instant *Penguin* passed over a Magnetic shoal about one mile in diameter. On examination it was found that the focus or centre of Magnetic attraction was in latitude 20 degrees 32 minutes 35 seconds S., longitude 117 degrees 13 minutes 2 seconds E., directly in the track of vessels visiting Cossack.

"From this focus, which is not more than fifty feet in diameter, the summit of Bezout island bears S. 79 degrees 25 minutes W., distant 2·14 miles, and Jarman island light-house S. 2 degrees 40 minutes E., distant 6·52 miles.

"All compasses were deflected 55 degrees to the right and 23 degrees to the left when passing over the focus. The angle subtended by the extreme points of Bezout island was 16 degrees. Sounding 8 fathoms, sand bottom. It seems probable that this area of Magnetic attraction may be one of many around the coast of Australia."

By direction of the Government of Bengal,
Eaton W. Petley,
Port Officer of Calcutta.

Port Office, Calcutta, *the 5th January* 1891.

NOTIFICATION No. 3Mne.

The 6th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNeile, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 3).

AUSTRALIA.

Pioneer river.

Leading beacons for crossing the bar.

The Portmaster, Brisbane, has given notice (No. 36 of 1890) that in consequence of the growth to the southward of the extremity of East Point, the two large white leading beacons, with their respective lights, have been shifted 420 yards to the southward of their former position, or about 1¼ miles to the southward of the Pilot Station; the line of lights bearing due east and west.

The directions already in use are still to be followed, except that a checkered red and black buoy placed on a sandbank which dries 18 inches at low water springs, and is situated about 50 yards to the southward of the line of lights, may be passed on all sides at a distance of not less than 200 feet.

By direction of the Government of Bengal,
Eaton W. Petley,
Port Officer of Calcutta.

Port Office, Calcutta, *the 5th January* 1891.

[Third Publication]

NOTIFICATION No. 331Mne.

The 23rd December 1890.—The following Notice to Mariners is published for general information.

J. M. McNeile, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No 200).

BAY OF BENGAL.

BURMA COAST.

Position of a wreck—dangerous to navigation.

CAUTION.—The Port Officer, Rangoon, has given notice that the Master of the British barque "*County of Anglesea*" reports having passed on the 10th November a wreck in latitude 15° 40′ N., longitude 96° 8′ E., in 12 fathoms water. She appeared to be a small craft water-logged, her two topmasts being 8 feet above water.

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 22nd December* 1890.

NOTIFICATION No. 332Mne.

The 23rd December 1890.—The following Notice to Mariners is published for general information.

BURMA COAST.

Second class iron buoy laid near the wreck of the "Mary Anne."

THE Port Officer, Rangoon, through the Director of the Indian Marine, has given notice that a second class iron buoy, painted green, has been laid on a shoal patch, on the Hastings shoal, near the wreck of the late ship "*Mary Anne*," with the following magnetic bearings:—

Pegu Saw Mill	N. 69° W.
Pegu Point	N. 9° 30′ E.
Tidal Semaphore at King's Point	S. 19° 30′ W.
Hastings buoy	S. 33° 30′ E.

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 22nd December* 1890.

NOTIFICATION No. 335Mne.

The 23rd December 1890.—The following Notice to Mariners is published for general information.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 204).

JAVA—NORTH COAST.

Batavia Road—principal pier light altered in character.

THE British Admiralty has given notice (No. 635 of 1890) that on 24th September 1890 the following alteration was made in the character of the principal light shown on the western pier, Batavia road:—

Batavia pier principal light, of the fourth order, is a *fixed white* light, varied by a *white flash every two minutes*, in the following order:—*Fixed ninety seconds*, eclipse *ten seconds*, *flashing ten seconds*, eclipse *ten seconds*. It should be visible in clear weather from a distance of 18 miles.

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 22nd December* 1890.

NOTIFICATION No. 336Mne.

The 23rd December 1890.—The following Notice to Mariners is published for general information.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 205).

AUSTRALIA—EAST COAST.

GREAT SANDY STRAIT.

Wide Bay bar—Alterations in channels and beacons, and certain leading lights exhibited.

THE following information has been received from the British Admiralty (No. 639 of 1890), relative to alterations in the channels of Wide Bay bar; to alterations in the beacons on Hook point; and to the exhibition of certain leading lights:—

Vessels are recommended not to use the North channel. New channel, about 1½ cables southward of Middle bank, had a depth of 16 feet over the bar in September 1890. South channel, about $1\frac{4}{10}$ miles north-eastward of Inskip point outer beacon, had a depth of 13 feet over the bar in September 1890.

The western square beacon on Hook point remains in position. The eastern square beacon on the coast, and the two triangular beacons have been removed. A beacon has been

erected on the coast line with the western square beacon bearing W. by N. ¾ N., distant about 400 yards. Another beacon has been erected on the coast line with the western square beacon bearing N. W. ¾ W., distant about 480 yards.

A *fixed white* light is exhibited from the western square beacon; a *fixed white* light from this northern coast beacon; and a *fixed red* light from this southern coast beacon.

The western square beacon in line with the northern coast beacon, or the fixed white lights in line, bearing W. by N. ¾ N., lead through New channel. The western square beacon in line with the southern coast beacon, or the fixed white and red lights in line, bearing N. W. ¾ W., lead through South channel.

NOTE.—The two beacons near the western extreme of Inskip point are now in line when bearing S. W. by W. ¾ W.

(*Variation* 9° *Easterly in* 1890.)

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 22nd December* 1890.

Notification.

The 17th December 1890.—It is hereby notified for general information that the Local Government having cancelled the orders authorizing the levy of tolls on vessels using the Moheshkhali Canal, and the scale of charges to be levied on these vessels, which was sanctioned by it under section 38 of the Chittagong Port Commissioners' Act, 1887, the notification of the 24th July 1890, embodying that scale, which was published at page 1142, Part II, of the *Calcutta Gazette* of the 30th idem, is cancelled.

E. GOOD,
Vice-Chairman of the Port Commrs.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 2nd January, 1891.

RESOLUTION.

READ—

Endorsement from the Director of Public Instruction, No. 7038, dated the 20th December, 1890, and its annexure.

The Lieutenant-Governor has learnt with pleasure that the Maharajah of Doomraon has made a donation of Rs. 1,000 in aid of the funds of the Behar Sanskrit Sanjivan Sabha, and desires officially to recognize the liberality and public spirit of the donor.

ORDER.—Ordered, that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Director of Public Instruction for information and communication to the donor.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 3rd January, 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches	Character of the weather and state and prospects of the crops.
	BENGAL.		
	Western Districts.		
Burdwan Divn. 1	Burdwan Jan. 3, '91	Nil	Weather—fair and cold. Sugarcane and *rabbi* crops doing well. *Amun* is still being harvested. Prices of common rice:— Sudder ... ... 20 Srs. Cutwa ... ... 18½ per rupee. Ranigunge ... . 18 per rupee.
2	Bankoora ,, 3, '91	Nil	Weather—cold Harvesting of *amun* finished *Rabbi* crops and sugarcane doing well. Common rice selling at 20 seers per rupee at Sudder and 21¼ seers at Bissenpore
3	Birbhum ,, 3, '91	Nil	Weather—bright and cold. Harvesting of winter rice nearly over. Price of coarse rice 19 to 23 seers per rupee.
4	Midnapur ,, 3, '91	Nil	Weather—cool and seasonable Reaping of paddy almost finished; outturn above average. *Rabbi* and indigo doing well. Prices of common rice:— Sudder .. .. 18 Srs. Contai ... ... 20 per rupee. Tumlook ... ... 17¼ per rupee. Ghatal ... . 17⅛ per rupee.
5	Hooghly ,, 3, '91	Nil	Weather—seasonable. Harvesting of winter rice nearly completed; outturn all that could be desired. *Rabbi* crops doing well. Locusts are seen in portions of the Serampore subdivision, but are not doing any damage to crops. Prices of common rice:— Sudder ... . 14 Srs. Serampore ... ... 14 per rupee. Jehanabad . ... 16¾ per rupee.
6	Howrah ,, 3, '91	Nil	Weather—seasonable. Reaping of the *amun* crop nearly complete; outturn good. Common rice selling at 14½ seers per rupee.
	Central Districts.		
Presidency Divn. 7	24-Pergns. Jan. 3, '91	Nil	Weather—colder than the preceding week. Winter rice is still being harvested. Prospects good. *Rabbi* crops growing well. Prices stationary.
8	Nuddea ,, 3, '91	Nil	Weather—seasonable and cold. Harvesting of winter rice nearly over and that of *kalai* and *mung* still going on Prospects of *rabbi* crops fair
9	Khoolna ,, 3, '91	Nil	Weather—seasonable. Harvesting of *amun* going on; outturn very good in most parts of the district. Some damage is said to have been done by insects in Kachua outpost. Transplantation of *boro* is going on.
10	Jessore ,, 3, '91	Nil	Weather—seasonable. Harvesting of *amun* in progress. Prospects of standing winter crops good. Rain wanted for linseed, peas, mustard, and tobacco. New rice is being sold at 16 seers per rupee at Magurah and Bongong.
11	Moorshedabad ,, 3, '91	Nil	Weather—seasonable. Harvesting of *amun* going on. Prospects of *rabbi* crops favourable. *Kalai* doing well.
Rajshahye Divn. 12	Dinagepur ,, 3, '91	Nil	Weather—seasonable Prospects continue good. Sugarcane promises well Price of rice at Sudder 19 seers per rupee.
13	Rajshahye ,, 3, '91	Nil	Weather—cold and dry. *Amun* crop is being harvested with good outturn generally Price of rice about 20 seers per rupee. Cold-weather crops already planted doing well. The prospect of crops now being planted is good
14	Rungpur ,, 3, '91	Nil	Weather—cold with heavy fogs. Harvesting of *amun* rice nearly over. Sugarcane ripening. Mustard in flower. Tobacco looks promising. General prospects good, except where damage has been done by caterpillars.
15	Bogra ,, 3, '91	Nil	Weather—seasonable Harvesting of winter rice nearly over; outturn estimated at 14 annas. Spring crops promise well Land is being ploughed for *aus* rice and jute. Common rice selling at 17 seers per rupee.
16	Pubna ,, 3, '91	Nil	Weather—seasonable. Prospects of crops are generally good, with the exception of mustard. Sugarcane has suffered from the last unusual flood; expected outturn is eight annas. Price of rice slightly lower.
17	Darjeeling ,, 3, '91	Nil	Weather—fair. Harvesting of winter rice, *marua*, and *phafar* continues. *Rabbi* crops and potato doing well. Prospects good.
18	Julpigoree ,, 3, '91	Nil	Weather—seasonable. Harvesting of *hatmanti* paddy in progress. Winter crops doing well. Prices stationary.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concluded*.			
	Eastern Districts.		
Dacca Div. 19	Dacca Jan. 3, '91	Nil	Weather—seasonably cold. *Amun* or winter rice nearly harvested. *Boro* or spring rice being sown. Mustard, pulses, and other *rubbi* crops thriving. Common rice is being sold at from 14 to 19 seers per rupee.
Dacca Div. 20	Furreedpur „ 3, '91	Nil	Weather—seasonable. Harvesting of *amun* paddy finished. State of *rubbi* crops fair. Partial damage caused by locusts in Sudder and Goalundo. Common rice selling at from 16 to 17 seers per rupee.
Dacca Div. 21	Backergunge „ 3, '91	Nil	Weather—seasonable. Prospects of crops fair. New common rice selling at from 14 to 17 seers per rupee.
Dacca Div. 22	Mymensingh „ 3, '91	Nil	Weather—cold. Harvesting of *amun* paddy continues. State of sugarcane and *rubbi* crops good. Mustard plants somewhat damaged by insects in the Kishoregunge subdivision. Common rice selling at 16½ seers per rupee.
Chittagong Div. 23	Chittagong „ 3, '91	Nil	Weather—seasonable. Harvesting of *amun* continues. Vegetable crops promise well. Prices stationary.
Chittagong Div. 24	Noakholly „ 3, '91	Nil	Weather—seasonable. *Amun* harvest approaching completion. *Rubbi* crops doing well. Common rice selling at about 20 seers per rupee.
Chittagong Div. 25	Tipperah „ 3, '91	Nil	Weather—seasonable. Cold-weather crops prospering.
Chittagong Div. 26	Chittagong Hill Tracts ...		Report not received.
BEHAR.			
Patna Div. 27	Patna „ 3, '91	Nil	Weather—cold. Harvesting of paddy in progress. Prospects of *rubbi* and poppy continue good. A little damage done to poppy by caterpillars.
Patna Div. 28	Gya „ 3, '91	Nil	Weather—cold and seasonable. Paddy harvest almost completed. Prospects of *rubbi* and poppy favourable. Prices of food-grains falling.
Patna Div. 29	Shahabad „ 3, '91	Nil	Weather—cold and bright. Prospects of crops fair. Poppy plants look healthy. Prices stationary.
Patna Div. 30	Durbhunga „ 3, '91	Nil	Weather—cool with west wind. Harvesting of rice nearly completed; outturn at Madhubani estimated at 14 annas. *Rubbi* prospects good. Mustard in flower. Tobacco and poppy doing well. Prices remain unchanged.
Patna Div. 31	Muzufferpur „ 3, '91	Nil	Weather—seasonable: cold. Harvesting of paddy finished. *Rubbi* crops look promising. Prospects of poppy continue good.
Patna Div. 32	Sarun „ 3, '91	Nil	Weather—seasonable. Prospects of *rubbi* and poppy continue excellent. Pressing of sugarcane in full swing. Lands are being prepared for indigo.
Patna Div. 33	Chumparun „ 3, '91	Nil	Weather—cold; foggy mornings. Reaping of paddy almost over. *Rubbi* and poppy thriving. Estimated outturn of sugarcane 12 to 16 annas. Price of rice falling.
Bhagulpore Div. 34	Monghyr „ 3, '91	Nil	Weather—clear and cold. *Rubbi* crops promise well.
Bhagulpore Div. 35	Bhagulpore „ 3, '91	Nil	Weather—seasonable. Rice harvest closing. Mustard is a full average crop Everything promises well.
Bhagulpore Div. 36	Purneah „ 3, '91	Nil	Weather—seasonable. *Rubbi* crops doing well. *Aghani* or winter rice nearly harvested.
Bhagulpore Div. 37	Maldah „ 3, '91	Nil	Weather—seasonable. Harvest of winter rice and *kalai* still going on with good outturn. Wheat and other crops growing well. Common rice selling at from 14 to 20 seers per rupee.
Bhagulpore Div. 38	Santhal Perghs. „ 3, 91	Nil	Weather—clear and cool. Harvesting of rice is nearly finished with a good outturn. Prospects of all standing winter crops continue favourable.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
ORISSA.			
Orissa Div. 39	Cuttack Jan. 3, '91	Nil	Weather—seasonable. Harvesting of *gury sarad* or late winter rice still going on. Estimated outturn of *laghu sarad* or early winter rice is 12½ annas in the Sudder and Kendrapara subdivisions.
Orissa Div. 40	Pooree „ 1, '91	Nil	Weather—seasonable. Harvesting of *sarad* or winter rice crop continues. Miscellaneous crops doing well. Price of common rice from 21 to 28 seers per rupee.
Orissa Div. 41	Balasore „ 3, '91	Nil	Weather—seasonable. Late winter rice still being harvested.
CHOTA NAGPORE *South-West Frontier Agency.*			
Chota Nagpore Divn. 42	Hazaribagh Jan. 3, '91	Nil	Weather—seasonable. Rain wanted for *rubbi* crops. Sugarcane being pressed; 16 annas yield expected. Poppy doing well.
Chota Nagpore Divn. 43	Lohardugga ...		Report not received.
Chota Nagpore Divn. 44	Singbhoom „ 3, '91	Nil	Weather—cold and seasonable. Some oilseeds and pulses are being harvested with full outturn. Standing winter crops doing well. Prices of common rice range from 16 seers per rupee in Chakradharpur and Monobarpur to 32 seers per rupee in pergunnah Dhalbhoom.
Chota Nagpore Divn. 45	Manbhoom „ 3, '91	Nil	Weather—seasonable. Harvesting of paddy over; outturn varies from 12 annas in Burrabhoom to 20 annas in Jhalda and Chass. Rice sells at from 20 to 26 seers per rupee. All *rubbi* crops doing well.

Published for general information.

The mean temperature of the month	66·5		
The average temperature of December from 24 years' registers	68·0		
The highest temperature in the month	83·5	10th.	
The lowest temperature in the month	47·5	29th.	
The range of temperature during the month	36·0		
The mean daily range of temperature	20·6		
The greatest range of temperature in one day	25·6	27th.	
	Per cent.		
The mean humidity of the month	74		
The average humidity of December from 24 years' registers ...	71		
	Inches.		
The mean vapour tension of the month	0·478		
The average vapour tension of December from 9 years' registers	0·476		
The mean cloud proportion of the month	0·94		
The average cloud proportion of December from 13 years' registers	1·68		
The total rainfall of the month	0·03		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	Nil		
The average fall of November from 48 years' registers ...	0·23		
The greatest fall in 24 hours	0 03	14th.	
	Days.		
The number of rainy days in the month	1		
The average number of rainy days in December from 24 years' registers	1		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	130·7		
The mean difference of sun and air temperatures	53·3		
The greatest sun temperature	143·4	0th	
The greatest excess of sun over air temperature	59·9	10th.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	49·2		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	7·8		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	10 5	29th.	
	Miles		
The mean movement of the wind per day	29·0		
The greatest movement of the wind in one day	92 0	27th.	
The greatest movement of the wind in one hour	12·0	27th, 1 to 2 P.M.	

The number of hours with winds from each of the 8 points—

N. 103, N.E. 49, E. 14, S.E. 3, S. 9, S.W. 33, W. 40, N.W. 73, Calm 420.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 8 feet nigher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2·3° lower; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

A. PEDLER,

* Means of 7 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last

The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the 8 days ending Saturday, the 3rd of January 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for 8 days.	Rainfall of 8 days at observing station.	Of 8 days.		DISTRICT OBSERVATIONS. RAINFALL. Since 1st of December.			Since 15th May 1890.			Average number of rainy days.	Normal number of rainy days.	Representative station.	District.	Meteorological Division.
			Mean for district.	Normal mean.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.

Explanations.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, *the 6th January* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE EIGHT DAYS ENDING SATURDAY, THE 3RD OF JANUARY 1891.

As pointed out in the last weekly report, the day of ending of the meteorological week has been changed from Friday to Saturday. The present report therefore deals with a period of eight days instead of seven; that is, from Saturday the 27th of December 1890 up to Saturday the 3rd of January 1891, both days inclusive. The form of the report is, however, practically identical with previous reports, the only slight difference which has been introduced being in the data referring to the number of rainy days registered. Up to the present time the practice in the India and Bengal meteorological reports has been to call a day in which 0·01 inch of rain has fallen a rainy day, thus following out the custom which has been adopted in European meteorological reports. For several good reasons it has now been decided by the Government of India to introduce a change and to adopt the fall of 0·1 inch, or a tenth of an inch, during the day, or ten times the amount formerly adopted, as the definition of a rainy day in India. This change of definition has been brought into force from the present report, and thus the number of rainy days shown in the normal average column of the tables is considerably smaller than has hitherto been the case.

The period under review has again been one in which the meteorology calls for only brief discussion. The previous week had been characterised by very considerable changes of pressure and of temperature, and though the mean pressure was nearly normal, the mean temperature had been exceedingly high for the time of year in all the western districts. The principal change in conditions has been that though the mean pressure has again been not very far from normal, yet the excess temperature has practically entirely disappeared, and in some districts even very distinct defects have been registered in the mean temperatures of the period now under review. On the 27th pressure had generally fallen over the whole province, but in North Bengal the fall was exceptionally large, amounting at Julpigoree to more than a tenth of an inch, and a feeble but distinct low-pressure area was developed over this district. This was accompanied by a rather considerable increase of temperature, an increase of about 5° taking place in the south-western districts, and on this day temperature was rather largely in excess of the normal in all districts. On the 28th a very rapid increase of pressure had taken place, the rise at Julpigoree and Purneah equalling 0·16 inch, and the depression in North Bengal almost entirely filled up. An extremely rapid fall of temperature accompanied this change, the decrease in the mean temperature averaging from about 5° to 8°, and thus temperature became distinctly below the normal over a large part of the province. The northerly wind current blowing over the province at this time became particularly steady, and a period of four days then set in in which the meteorological changes were particularly small, the changes of pressure rarely exceeding one or two-hundredths of an inch, and the changes of temperature not being more than one or two degrees, and both pressure and the mean temperature were at this time fairly normal. On January 2nd the changes were rather larger, and pressure rose by about 0·07 inch and became again distinctly above the normal, while temperature fell by about 2° and became about this amount below the normal. On the 3rd of January a slight fall of pressure set in, but temperature was nearly unchanged. During the whole of the period from December 28th to January 3rd, 1891, a fairly steady northerly wind has been blowing, humidity has been fairly low, the sky has been almost cloudless, and no rain has been reported at any station.

Pressure.—The mean pressure for the period has been in excess of the normal by one or two-hundredths of an inch in all districts except parts of North Bengal where an almost similar defect is registered, this defect being due to the formation of the low pressure over this area on the 27th December.

Temperature.—The mean temperature has been in defect of the normal by from one to nearly two degrees in South-West Bengal, South Behar, and Chutia Nagpur; it has been almost normal in North Behar, and above the normal by from about half to one degree in Orissa, East Bengal, and North Bengal. For the whole province the variation from the normal has been a defect of about three-tenths of a degree.

The distribution of temperature during the eight days and its variation from the normal are best seen in the table below, where the average maximum, minimum, and mean temperatures for the period at nine typical stations in different districts of the province

are compared with the normal values for the same period. At most stations it has been the night or minimum temperatures which have shown the greatest defects from the normal :—

Table showing the excess or defect of the actual mean temperature from the normal for the 8 *days ending Saturday, the* 3*rd of January* 1891.

	Normal mean maximum temperature for the 8 days ending 3rd January.	Actual mean maximum temperature for the 8 days ending 3rd January 1891.	Variation of actual mean from the normal. The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

Monthly review of deaths registered in forty-five districts of Bengal for the month of October 1890.

THE deaths registered in forty-five districts of Bengal during the month of October 1890 were 130,294, and correspond to an annual rate of 23·64 per 1,000 of the aggregate population of those districts, which is 65,859,534. This rate is 2·64 lower than the mean rate of the corresponding months of the past five years 1885—89, and is also lower than the rate of the corresponding period of any of the past five years with which comparison is instituted, *vide* the figures below:—

	1885.	1886.	1887.	1888.	1889.	Monthly average of five years 1885-89.	1890.
Ratio of deaths per 1,000 of the population per annum	27·00	25·08	24·18	27·00	27·00	26·25	23·64

The following table shows the highest proportions of deaths registered during the month of October 1890, compared with the corresponding month of 1889:—

Districts.	Ratio per *mille* during—		*Districts.*	Ratio per *mille* during—	
	Oct. 1890.	Oct. 1889.		Oct. 1890.	Oct. 1889.
Darjiling	35·52	31·20	Mozufferpore	30·96	27·72
Jessore	35·16	27·12	Serampore	30·60	34·14
Shahabad	84·20	42·12	Monghyr	29·64	52·56
Khulna	33·72	25·32	Pubna	29·52	26·52
Gya	32·76	42·72	Dinajpur	29·28	27·12

The figures for October 1890 against Darjiling, Jessore, Khulna, Mozufferpore, Pubna and Dinajpur show an advance towards accuracy in death registration.

The total mortality during the month under review from the several registered death-causes is compared in the following table with the mortality from those causes in the corresponding month of 1889 and the average of the five years 1885—89:—

	Ratio per *mille* during—		
	Oct. 1890.	Oct. 1889.	Monthly average of five years 1885-89.
Cholera	·84	·84	1·20
Small-pox	·01	·02	·01
Fever	17·88	20·76	20·04
Bowel-complaints	·60	·84	·84
Injury	·48	·48	·48
Other causes	3·60	3·84	3·48

Compared with the figures of both the past periods, there is a noticeable decrease in the mortality of October 1890 under the head fever.

The highest annual death-rates from cholera, fever and other causes occurred in the following districts:—

Cholera.	Ratio per *mille.*	*Fever.*	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Mozufferpore	7·80	Jessore	32·76	Puori	11·04
Shahabad	3·60	Khulna	29·76		
Gya	2·40	Julpaiguri	26·76		
Durbhanga	2·28	Dinajpur	26·10		
Faridpore	2·04	Pubna	26·40		
		Maldah	25·80		
		Rajshahye	25·56		
		Gya	25·56		
		Darjiling	25·32		
		Shahabad	24·84		
		Monghyr	24·36		
		Murshedabad	22·32		
		Serampore	21·72		
		Nuddea	20·76		

The mortality of the month under review, according to *Sex*, *Class* and *Age*, was distributed as follows :—

According to Sex

	Rate per mille
Males	24·72
Females	22·68
Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population ...	109

According to Class

	Ratio per mille
Christians ...	14·04
Hindus	23·76
Mahomedans ..	24·12
Buddhists	14·76
Other classes	17·88

According to Age.

	Ratio per mille.
Under 1 year	170·04
1 and under 5 years	27·00
5 „ 10 „	13·68
10 „ 15 „ ..	11·04
15 „ 20 „ .	14·40
20 „ 30 „	13·44
30 „ 40 „	15·48
40 „ 50 „ ...	21·36
50 „ 60 „ ..	31·68
60 years and upwards ...	61·56

Detailed information regarding the mortuary statistics of the forty-five districts of Bengal during the month under review will be found in the statement appended.

W. H. Gregg, *Dip. Publ Health, Camb.*,

Sanitary Commissioner for Bengal.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,

The 5th January 1891.

W. H. GREGG, *Dip. Publ. Health, Camb.*,

Sanitary Commissioner for Bengal.

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 20th December 1890.

Births.

The births registered during the week ending with Saturday, the 20th December 1890, in twenty-seven principal towns of Bengal correspond to an annual rate of 24·8 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 1·4 below the average rate of the corresponding week of the past five years, and is also below the rate of the corresponding week of any of the past five years except 1885, *vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885-89.	1890.
Ratio of births per 1,000 of the population per annum	24·7	25·9	26·4	28·9	25·3	26·2	24·8

The births registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

Towns.	Weeks ending— 29th Nov. 1890.	6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.	Towns.	Weeks ending— 29th Nov. 1890.	6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.

Dacca	31·4	42·8	35·0	22·1	Total ...	26·5	30·5	28·2	24·8

It will be seen that last week the highest birth-rate was returned from Narainganj (53·8) and the lowest from Purneah (3·5).

Deaths.

The deaths registered during the week under review correspond to an annual rate of 28·3 per 1,000 of the population. The rate of the week is 2·7 below the average rate of the corresponding week of the past five years, and is below the rate of the corresponding week of any of the past five years except 1888, *vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885-89.	1890.
Ratio of deaths per 1,000 of the population per annum	33·0	30·4	29·3	26·0	30·2	31·0	28·3

The deaths registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

Towns.	Weeks ending— 29th Nov. 1890.	6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.	Towns.	Weeks ending— 29th Nov. 1890.	6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.

Dacca	28·5	31·1	36·3	42·2	Total ...	28·7	31·5	31·5	28·3

It will be seen that last week the highest mortality occurred in the town of Naraingani (120·1) and the lowest in Krishnagar (5·7).

Measured by last week's mortality, the highest annual death-rates from the several registered death-causes occurred in the following towns:—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other causes.*	Ratio per mille.
Naraingani	70·4	Chittagong	11·7	Jessore ...	61·2	Serampore	13·7	Comillah ...	23·1
Serampore	28·6	Mozuffer-pore ...	6·1	Darjiling	29·6	Howrah ...	11·5	Naraingani ...	20·7
Bali ...	17·5			Rampore Beauleah	26·3	Rampore Beauleah	10·5	Hughli and Chinsurah	19·7
Howrah ...	16·0			Poori ...	25·1			Poori ...	18·9
Dacca ...	11·7			Serampore ...	21·6			Serampore ...	15·7
				Naraingani ...	20·7			Dacca ...	14·3
								Gya ...	12·3
								Howrah ...	10·9

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 4·8 from cholera, against 4·7 per 1,000 in the preceding week; ·9 from small-pox, against ·6; 10·5 from fever, against 13·4; 3·5 from bowel-complaints, against 3·9; ·3 from injury, against ·6; and 8·2 from other causes, against 8·3 in the preceding week.

The mortality of last week according to *Sex*, *Class* and *Age* was as follows:—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males	31·6	Christians ...	7·5	Under 1 year ...	209·0
Females	24·6	Hindus ...	27·7	1 and under 5 years ...	33·6
Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population...	128	Mahomedans ...	30·4	5 „ 10 „ ...	16·5
				10 „ 15 „ ...	14·0
				15 „ 20 „ ...	15·4
				20 „ 30 „ ...	16·0
				30 „ 40 „ ...	22·8
				40 „ 50 „ ...	22·8
				50 „ 60 „ ...	30·9
				60 years and upwards ...	68·8

Detailed information regarding the vital statistics of the twenty-seven principal towns dealt with in the above review will be found in the statement appended.

W. H. Gregg, *Dip. Publ. Health, Camb.*,

The 5th January 1891. *Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending with Saturday, the 20th December 1890.

Increase.	Tons.
Coal	1,173
Cotton piece-goods—	
(1) European	68
Grains—	
(2) Rice	137
(4) Others	124
The above increases are due to stoppage of traffic owing to floods during the last months.	
Jute—	
(1) Raw	73
Due to the despatches of this traffic by rail this year.	
Oil-seeds—	
(2) Mustard and rape	26
Owing to greater demand at the intermediate stations.	
Salt	38
Owing to greater import in the intermediate stations.	
Sugar—	
(2) Undrained	30
Owing to greater import.	

R. G. Mookerjee,
Manager, Nalhati State Railway.

General remarks on the fluctuation of principal staples carried over the East Indian Railway during 5 weeks ended 29th November 1890.

INCREASES.

Coal and coke.—There was an increase in both the upwards and downwards despatches; the former was due to larger takings by the Bombay, Baroda, and Central India Railway, while the increase in the downward traffic was caused partly by a continued demand for shipment to coast ports, chiefly to Rangoon and Madras.

Piece goods.—The improvement under this head was chiefly in despatches from Howrah to Patna, Dinapore, Arrah, Mirzapore Cawnpore, and Delhi, and to stations on the Tirhoot and Bengal and North-Western Railways, and was due to the occurrence of the Dewali festival

Turmeric.—Chiefly in despatches from Howrah to the North-Western Provinces

Rice (husked and unhusked).—The increase under this head occurred chiefly in despatches from stations on the Howrah and Sahebgunge districts to Howrah for local consumption and export to coast ports; also to up-country stations, chiefly Patna and stations on the Bengal and North Western Railway *vid* Digha, and to Benares, Jounpur and Shahgunge on the Oudh and Rohilkhand Railway *vid* Moghalsarai.

Lac.—Chiefly in despatches from stations on the Asansol-Gaikora section of the Bengal-Nagpur Railway to Howrah for export to Europe.

Iron.—The improvement was chiefly in despatches of iron pipes from Howrah for the Benares and Allahabad water-works, and of pig-iron from Barakar to Howrah and Port Trust Railway stations.

Opium.—Chiefly in despatches of Government opium from Patna and Tarighat to Howrah, the despatches being earlier than last year.

Seeds.—The improvement was chiefly in despatches of linseed and poppy seed from several stations on the Dinapore district and from the Bengal and North-Western Railway *vid* Digha Ghât, and the Oudh and Rohilkhand Railway *vid* Moghalsarai

Sugar (refined and unrefined).—Principally in despatches of jaggree and molasses from stations on the Dinapore district and the Gya line to Howrah, and to stations on the Bombay, Baroda and Central India Railway There was also an increase in despatches of imported sugar from Howrah to stations in the North-Western Railway.

Bones.—Chiefly in despatches from Mokameh Ghât, Digha Ghât, and *vid* Moghalsarai to Bally, Howrah, and Chitpore.

Potatoes.—This increase was chiefly in despatches from Patna, Dinapore, Bankipore, and *vid* Moghalsarai to Howrah.

DECREASES.

Cotton.—The falling off was chiefly in despatches from Cawnpore to Howrah and Bombay, the season this year is later than last, and the estimate of the outturn is not the most favourable.

Indigo.—Chiefly in despatches from Tirhoot and the North-Western Provinces to Calcutta, owing to a poor crop.

Wheat.—The falling off was chiefly in despatches from the Loop-line stations, stations on the Nuddea district, and on the Oudh and Rohilkhand Railway *vid* Moghalsarai, and from the North-Western Railway *vid* Ghaziabad to Howrah.

Other rain and spring crops.—The decrease was chiefly in despatches of indian corn and bajra from stations below Patna on the Dinapore district, owing to the *bhadoi* crops having been almost totally destroyed by the late heavy rains.

Government stores.—Chiefly in despatches of ordnance stores from Howrah to Rawalpindi and Firozepore, and from Agra to Rurki and Meerut City.

Minerals.—Chiefly in lime, kankar and ghooting lime from Rajhband, Durgapur, Ondal, Raneegunge and Katni to Howrah to *vid* Chitpore and other stations.

Oils.—Chiefly in kerosine oil from Howrah to Patna and other stations.

Railway material, foreign.—Owing to despatches of permanent-way materials last year for the Delhi-Umballa Kalka Railway.

Salt.—The heavy falling off in this staple was chiefly in despatches of imported salt from Howrah to stations on the Tirhoot and the Bengal and North-Western Railways, owing to the local markets being overstocked.

Tobacco.—This is a continuation of the decrease recorded for the last few months, chiefly from the Tirhoot State Railway owing to the heavy rains which flooded the country.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3A.

GENERAL.—*The 7th January* 1891.—Babu Kali Kumar Roy Chowdry, Sub-Deputy Collector, Magura, Jessore, is transferred temporarily to Narail in that district.

The 8th January 1891.—Babu Rajendra Chunder Ghose, Deputy Magistrate and Deputy Collector, Faridpur, is transferred to the Sadr station of the district of Khulna.

The 9th January 1891.—Babu Juggo Bandhu Khan, Deputy Magistrate and Deputy Collector, Maimansingh, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Rai Charan Ghosh, Officiating Personal Assistant to the Commissioner, Chutia Nagpur Division, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the 1st proximo, or such subsequent date as he may avail himself of it.

Babu Purna Chunder Mittor, Deputy Magistrate and Deputy Collector, Lohardugga, is appointed to act as Personal Assistant to the Commissioner, Chutia Nagpur Division, during the absence, on leave, of Babu Rai Charan Ghosh, or until further orders.

The 10th January 1891.—Babu Gauendra Chandra Mukerjee is appointed to act, until further orders, as a Sub-Deputy Collector of the fourth grade, in the district of Jalpaiguri, *vice* Babu Chunder Kant Gangooly, on leave.

LEGISLATIVE.—*The 9th January* 1891.—With the sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor appoints Maharajah Sir Harendra Kishore Sing Bahadur, K.C.I.E., of Bettiah, in the district of Champarun, under the provisions of the 29th, 30th, and 45th sections of the Indian Councils Act of 1861, to be a member of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations in the Bengal Division of the Presidency of Fort William, *vice* Rajah Rameswara Sing Bahadur, whose term of office expired on the 22nd ultimo.

POLICE.—*The 9th January* 1891.—Mr. J. Lambert, C.I.E., Commissioner of Police, Calcutta, was on leave for one day, under article 291 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 4th September 1890.

ECCLESIASTICAL.—*The 5th January* 1891.—The Reverend W. B. James, of the Baptist Mission, Jalpaiguri and Dinagepur, is hereby authorized, under section 9, Act XV of 1872, to grant certificates of marriage between persons who are Native Christians in the district of Dinagepur.

The Reverend Mr. James is also appointed to be Registrar of Births and Deaths under Act VI of 1886 in the Dinagepur district.

The 13th January 1891.—The services of the Reverend A. S. Dyer, Chaplain of Darjeeling, are placed at the disposal of the Government of the North-Western Provinces and Oudh, with effect from the 15th January 1891, or such subsequent date as he may be relieved of his duties at that station.

REGISTRATION.—*The 7th January* 1891.—Maulvi Syed Abdar Rub, Special Sub-Registrar of Maimansingh, is allowed leave for six weeks, under article 369 of the Civil Service Regulations, with effect from the 30th October 1890.

Babu Mon Mohun Guha, Rural Sub-Registrar of Muksudpur, in the district of Faridpur, is appointed to act, until further orders, as Special Sub-Registrar of Bogra, with effect from the date on which he joined his appointment.

The 10th January 1891.—Babu Protap Chandra Ghose, District Registrar of Assurances and Registrar of Joint-Stock Companies, Calcutta, is allowed leave for forty-five days, under article 291 of the Civil Service Regulations, with effect from the 15th instant, or such subsequent date as he may avail himself of it.

Babu Panchanan Dutt is appointed to act as District Registrar of Assurances and Registrar of Joint-Stock Companies, Calcutta, during the absence, on leave, of Babu Protap Chandra Ghose, or until further orders.

MEDICAL.—*The 10th January* 1891.—Kumar Bhupendra Narayan is appointed to be Civil Medical Officer of Noakhali, but will continue to act in his present appointment as Civil Medical Officer of Bogra.

The following notifications are republished from the *Assam Gazette* :—

No. 5077*J.*—*The 10th December* 1890.—Babu Okhoy Kumar Mitter, Munsif of Sylhet, has obtained leave of absence for one month and ten days, under article 306 (*b*) of the Civil Service Regulations, with effect from the 2nd December 1890, or from the date on which he may be relieved.

No. 10867*G.*—*The 31st December* 1890.——On the report of the Central Examination Committee, the Chief Commissioner directs the publication, for general information, of the results of the half-yearly examination of Assistant Commissioners, Extra Assistant Commissioners, and others, held on the 17th, 18th, 19th and 20th November 1890 :—

NOTE.—(1) Assistant Commissioners of the third grade, in addition to the subjects shown in the last two columns above are liable to pass by the higher standard in their second language within one year of being posted to a district where it is the vernacular language.

(2). The last two columns are not meant to embody an exhaustive list of all the subjects and standards in which officers are liable to pass, and do not relieve any officer liable to examination, whether mentioned in this notification or not, from the duty of ascertaining for himself the subjects and standards in which he is required to pass.

No. 10862*G.*—*The* 31*st December* 1890.—The Chief Commissioner empowers Mr. F. C. Henniker, C.S., Assistant Commissioner, to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure (Act X of 1882).

No. 10866*G.*—Under the provisions of section 12 of the Criminal Procedure Code (Act X of 1882), the Chief Commissioner invests Mr. B. V. Nicholl, C.S., Assistant Commissioner, Dibrugarh, with the powers of a Magistrate of the second class.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—FORESTS.

NOTIFICATION.

The 10*th January*, 1891.—Mr. H. H. Davis, Deputy Conservator of Forests, in charge of the Darjeeling Forest Division and of the Darjeeling Sub-division, will hold charge of the Teesta Sub-division in addition to his other duties.

Mr. E. J. N. James, Sub-Assistant Conservator of Forests, in charge of the Teesta Sub-division, on being relieved by Mr. Davis, is attached to the Sunderbuns Forest Division.

P. NOLAN,
Secretary to the Govt. of Bengal

NOTIFICATION.

The 12*th January*, 1891.—Under the provisions of section 25 (i) of the Indian Forest Act (VII of 1878), the Lieutenant-Governor is pleased to sanction the closing of the reserved forests in the Angul Sub-division of the Orissa Division against hunting and shooting from the 1st March to the 15th June, 1891, except with the written permission of the Conservator of Forests or the Local Government.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13*th January*, 1891.—Mr. R. L. Heinig, Assistant Conservator of Forests, first grade, having assumed charge of the Chittagong Forest Division on return from the three months' privilege leave (granted him in notification, dated 14th August, 1890) on the afternoon of 19th November, 1890, Mr. H. H. Haines, Officiating Assistant Conservator of Forests, first grade, reverted to his substantive appointment of Assistant Conservator of Forests, second grade, with effect from the 20th idem.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 12*th January*, 1891.—With reference to the notification of 14th October, 1890, published at page 998 of the *Calcutta Gazette* of 15th October, 1890, under section 3 of Act V (B.C.) of 1875, regarding the survey of lands in thana Rauzan Fattickchery and Hathazari, in the district of Chittagong, the Lieutenant-Governor is pleased to appoint Mr. F. Grant, Deputy Superintendent of Survey of the Chittagong Survey Party, to be Superintendent of Survey under section 4 of the Bengal Survey Act V of 1875 for the purposes of the said survey in thanas Fattickchery and Hathazari.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 8*th January*, 1891.—Under the powers conferred upon him by section 101(2)(*b*) of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made, and a record of rights prepared, in respect of all lands included within the boundaries of pergunnah Talipabad, consisting of four estates, viz., No. 273, pergunnah Talipabad, hissa 5 annas 18½ gundas; No. 274, hissa 1 anna 9 gundas; No. 275, hissa 3 annas 11½ gundas; and No. 276, hissa 5 annas 1 gunda, in the district of Dacca.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each proprietor, with the character and extent of his interest.

(*b*) The situation, quantity, and boundaries of proprietors' private lands, as defined in Chapter XI of the Act.

(*c*) The name of each tenant.

(*d*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*e*) The situation, quantity, and boundaries of the land held by him.

(*f*) The name of his landlord.

(*g*) The rent payable.

(*h*) The mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise.

(*i*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*j*) The special conditions and incidents, if any, of the tenancy.

P. NOLAN,
Secretary to the Govt. of Bengal.

DECLARATION.

The 10th January, 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for compensating Radhai Khan, Digwar of ghât Chhota Kundi Goaladanga and Pachai Bawri and Haroo Rai, Ghatwals of ghât Govindapur, whose service lands were previously acquired for the remaining 9½ miles of the Indpur-Khatra road in the villages of Goaladanga and Govindapur, pergunnah Supur, zillah Bankoora, it is hereby declared that for the above purpose pieces of land measuring, more or less, 8 beegahs 6 cottahs and 8¾ gundas of standard measurement, situated in eight plots, one being bounded on the north by Ram Dhun Mundal's land, on the west and south by the road leading from Indpur to Khatra, and on the east by mouza Joogda; the other being bounded on the north and the east by the road leading from Indpur to Khatra, on the west by a cart track, and on the south by the land belonging to Bhairab Banerjea. The third being bounded on the north by the land belonging to Kali Das and the road from Indpur to Khatra, on the west by the land belonging to Kali Das, on the south by Dharma Das Mundal's land, and on the east by the Indpur-Khatra road. The fourth being bounded on the north by Radhai Khan and Kaly Das's land and the Indpur-Khatra road, on the west by ghatwali land, on the south by a cart track, and on the east by the Indpur-Khatra road. The fifth being bounded on the north by Govinda Mundal's land, on the west by Gopal and Dharma Das Mundal's land, on the south by Kali Das's land, and on the east by Dharma Das Mundal's land. The sixth being bounded on the north by Govinda Mundal's land, on the west by the Indpur-Khatra road, on the south by the lands belonging to Gopal Mundal, Kanai Tanti, and Haroo Bagal, and on the east by Kali Saina and Govinda Mundal's land. The seventh being bounded on the north by Gonesh Deshmookh's land, on the west by the Indpur-Khatra road, south by Haroo Bagal's land, and east by Kali Deshmookh's land. And the eighth being bounded on the north by Kali Das's land, on the west by Dharma Das Mundal's land, on the south by Kali Saina's land, and on the east by the Indpur-Khatra road, are required within the aforesaid villages of Goaladanga and Govindapur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th January 1891.—Babu Gunga Churn Chatterjee, Deputy Collector, is appointed Deputy Collector of Income-tax in the district of Noakholly, *vice* Babu Giris Chundra Dutt, and, under section 40 of Act II of 1886, is vested with the powers of a Collector under the Act.

H. J. S. COTTON,
Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 4A.

The 18th January 1891.—Babu Kali Prosonno Roy, Munsif of Purulia, in the district of Manbhum, is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 50, within the local limits of the Purulia Munsifi.

GRANT OF LEAVE TO MUNSIFS.—*The 6th January* 1891.—Babu Bepin Behary Mukerjee, Munsif of Chittagong, is allowed furlough for five months, under articles 264 and 371 of the Civil Service Regulations, with effect from the 21st September 1890.

The 7th January 1891.—Babu Gobinda Chandra De, Munsif of Dacca, is allowed leave for one month, under article 306(*b*) of the Civil Service Regulations, in extension of the leave granted to him on the 14th October 1890.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

[Sixth Publication.]

REVISED WATER-RATE RULES FOR THE SONE CANALS.

Notification No. 435, *dated the 9th December* 1890.

IN exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following revised rules for the Sone Canals, in supersession of those passed in Notification No. 148 of the 20th June 1881, which were published in the *Calcutta Gazette* of the 22nd June 1881, which, from the date of the publication of these rules, shall cease to have effect, except in so far as they determine the water-rates to be assessed for water supplied under current permits and the date on which they become due and payable.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76(*c*), or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in the Act and these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub-divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer, and the Sub-divisional and Divisional Canal Officer shall modify any orders passed by them in accordance with the orders

of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the kharif season—(*a*) for annual leases; (*b*) for leases for a term of three or seven years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will be supplied during the *rabi* season at a lower rate than that ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in Rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1890, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. No village channel not entered in the register made in compliance with the rule immediately preceding as existing on the 1st of April 1890 shall be added thereto except at the written request of the owners thereof. But water shall not be supplied for irrigation through any channel other than a registered village channel.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna and shall not exceed four annas per bigah assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than Rules 18 or 19 following the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of three or seven year leases.

IX.—Assisting the Collector by pointing out the residences of the persons assessed and identifying them and giving such general information as may be necessary regarding the persons assessed.

10. In the case of leases for the season the remuneration for performing the duties mentioned in clauses I to VII of the rule immediately preceding shall be 2 per cent. on the assessments which shall be paid by the Canal Officer, and for performing the duty mentioned in clause IX 1 per cent. on the collections, which shall be paid by the Collector.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to VII of Rule 9 shall be 2 per cent. yearly on the assessments of the year, which shall be paid by the Canal Officer, and 2 per cent. yearly on the realizations for performing those mentioned in clauses VIII and IX, which shall be paid by the Collector.

12. The *lambardar* will be appointed by the Sub-divisional Officer in consultation with the applicants for the lease and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for three or seven years the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14. The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-divisional Canal Officer, and shall receive 3 per cent. on the assessment in place of 2 per cent. prescribed in Rules 10 and 11.

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer or the Collector may retrench the whole or any part of the fees payable by them respectively in the event of this condition not being complied with. In calculating the fees payable fractions of an anna will be excluded.

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (schedule No. I), or upon *kharif* season leases (schedule No. II), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether or no water is required.

III.—The applications may be for a term of three or seven years, or for the season only—

(*a*)—In the case of applications for the season only the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application which must be signed by or by authority of the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement.

(*b*)—In the case of applications for a term of three or seven years a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for three or seven years being issued.

(*c*)—Notice that a permit for three or seven years is required must be given by the 1st of April, and no permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following. An application for a permit for the season must be filed by the 1st of September.

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing five-year leases may be cancelled and included in an application for a seven or three year lease under the preceding rules.

(*b*) An application may be made for an addition to a seven or three year lease, which, if granted, shall be considered as part of the original lease and terminate therewith.

17. Applications for irrigation in the *rabi* season, 25th October to the 25th March, and the hot-weather season, 25th March to the 25th June, will be subject to the following conditions—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by or by authority of the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated.

18. Applications for the supply of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix VI signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of September to the 31st of October only.

19 Applications for the supply of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VII. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS.

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term 'irrigating' includes the right to drain (*nigar*) the land at the proper season of the year.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 8.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in the application.

NOTE—Where these conditions are infringed appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (schedule No. I) or upon *kharif* season leases (schedule No. II) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16*e* when a permit for a three or seven year lease is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for three or seven years the block must be not less than 50 bigahs in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for seven years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available and that the quantity required is not excessive.

III.—Permits for three years will be issued on the same conditions as those for seven, except that, as the term for which Government is bound is shorter somewhat less favourable conditions as to situation, soil, and the quantity of water required will be accepted.

IV.—A permit for a three or seven years' lease may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

V.—Permits for the season will be issued on the same conditions as those for three years, the essential difference being in the duration of the lease and the later period up to which applications are received.

23. Permits for irrigation in the *rabi* and hot-weather seasons, 25th October to 25th June, will be issued on the following conditions:—

I.—Water-rates will be levied on the area actually irrigated, and not on that specified on the application.

II.—The applicants will undertake to give the *lambardar* notice to close the outlet so soon as the area requiring irrigation has received a sufficient supply of water.

III.—The applicants will undertake to, as far as is practicable, prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any three or seven years' lease if on the 1st of June of any year water-rates are in arrears by more than half a year's demand.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a three or seven years' lease if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration to the Superintending Canal Officer.

II.—The Sub-divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the sub-divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is at the time the outlet is closed being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closure shall not, in the *kharif* season, exceed five days after ten days of consecutive supply and shall be notified to *lambardars*.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29. The Canal Officer will be responsible that the supply through the outlet is in the *kharif* season maintained in accordance with the entries on the permits, and in the *rabi* season in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or Subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has under rule 14 been given charge of the outlet to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared, under the supervision and signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under three or seven years' leases shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *karcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parchas*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hot-weather or rabi season the following procedure shall be followed :—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khusrah* shall be signed by both the amin and the *lambardar* who shall be present at the measurements. If the *lambardar* is not present, the *amin* shall arrange that at least two respectable cultivators shall be present and enter their names in the *khusrah* prepared by him. The *lambardar* shall be permitted to take a copy of the *khusrah*.

II.—When the measurement is completed the *khusrah* shall be forwarded to the Sub-divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present or declines to grant a receipt for the same in the prescribed form, the Sub-divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding Rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half an anna at all canal offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under Rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries, which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for three or seven years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act shall be at the rates shown in the schedule following or such lower rate as the Divisional Canal Officer may fix :—

	Flow or lift.	
	Rate per bigah.	Rate per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner	5 0 0	0 8 0

Provided that in the *kharif* season, 25th June to the 25th October, no water-rates under this section shall be levied where the unauthorized irrigation is effected with water taken from land included in a lease, but irrigation effected by cutting a village channel or committing a criminal offence the perpetrator of which cannot be discovered may be assessed with the previous sanction of the Collector, which must be obtained before any detailed measurement of the land irrigated without authority is made. *Subject to the provisos regarding irrigation in the kharif season mentioned above, persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates at the rate imposed by this rule.*

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under section 78, 79, or 80 of the Act shall be due and payable on the dates mentioned below:—

Seven-year leases ...	First moiety	15th December.
Three-year leases ...	Second moiety	1st March.
Season or annual leases—		
Bhadoi and crops classed as *bhadoi*		1st November.
Rice and sugarcane waterings, from the 25th June to the 25th October		15th December.
Rabi and crops classed as *rabi*, including sugarcane waterings, from the 25th October to the 25th March ...		1st April.
Hot-weather rate		1st July.
Sugarcane { First moiety		15th December.
Sugarcane { Second moiety		15th February.
Assessments under section 79 of the Act or under Rule 40		On receipt of the demand statement by the Collector.
Assessments under section 80 of the Act		
Water supplied by volume between the 1st of September and 31st of October		One moiety before the outlet is opened; the other moiety 15th December.
Water supplied by volume to fill *aharas*		The whole amount before the outlet is opened.

The Divisional Canal Officer will endeavour to forward as many of the demand statements as possible to the Collector fifteen days before the dates fixed for payment, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VIII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein owing to a request made by a *bhaoli* owner under this rule being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlord, and in other cases any influence which the Collector may possess should be used to make the zemindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76*b* shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in Rule 34 and twenty days before the crop is cut.

47. Before awarding compensation under section 76*c*, the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head extraordinary, so much of the water-rates as are in excess of ten annas a bigah. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remissions under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the kharif season for three or seven years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. The contractor shall as such be responsible for the performance of the duties devolving on the *lambardar* under these rules, but may appoint a *lambardar*, whose name shall be communicated to the Sub-divisional Canal Officer and whose removal, for good cause to be recorded in writing, may be ordered by the Divisional Canal Officer. He shall, whether he appoints a substitute to act as *lambardar* or not, be responsible for reporting all changes in the occupiers of lands included in the lease to the Collector.

55. The contractor as *lambardar* shall be entitled to remuneration at the rate of 5 per cent. on the assessments subject to the provisions contained in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-divisional Canal Officer shall proceed to appoint a *lambardar* under Rule 12 and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at least before the 25th of June next following shall be given, and the removal shall take effect from that date.

59. With the written approval of the Superintending Canal Officer a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collections of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *bhaoli*, regarding which the provisions contained in Rule 43 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for three or seven years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be sent to the Divisional Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

65. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others.

66. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing or other purpose charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Engineer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant-Governor

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fee shall be disbursed at the time of attendance as far as practicable by the Sub-divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 12, 43, 52, 53, 54, 57, 59, 61, 62 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under Rules 38, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

REVISED RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

IN exercise of the powers conferred on him by section 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to fix the following rates to be charged for water supplied for irrigation from the Sone Canals:—

1. Schedules I and IV following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1891.

2. Schedule II following will be in force in respect to permits issued for the irrigation of land after the 25th June 1891.

3. Schedule III following will be in force in respect to permits issued for the irrigation of land after the 15th October 1890

4. Schedule V following will be in force in respect to permits issued for the irrigation of land after the 1st January 1891.

5. Schedule VI following will be in force in respect to water supplied after the 1st of September 1890.

6. Schedule VII following will be in force in respect to water supplied after the 1st of November 1890.

7. For permits issued prior to the dates mentioned above, the rates at present in force enumerated in notification No. 148 of the 20th June 1881, published in the *Calcutta Gazette* of the 22nd June 1881, will be charged.

8. SCHEDULE No. I.

Leases for a term of years.

For water supplied between the 25th of June of one year and the 25th March of the next.	FLOW OR LIFT.	
	Rate per bigah.	Rate per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For leases for seven years, all crops	1 4 0	0 2 0
For leases for three years, all crops	1 9 0	0 2 6

9. SCHEDULE No. II.

Season Leases (Kharif).

Name of crop.	Date of supply.	FLOW OR LIFT.	
		Rate per bigah.	Rate per tenth of a bigah.
		Rs. A. P.	Rs. A. P.
Rice and sugarcane for kharif season only ...	25th June to 25th October.	1 14 0	0 3 0
Bhadoi, serha rice, or any other crops ...	25th June to 15th October.	1 9 0	0 2 6

10. SCHEDULE No. III.

Season Leases (Rabi).

Time of supply.	Locality.	FLOW.		LIFT.	
		Per bigah.	Per tenth of a bigah.	Per bigah.	Per tenth of a bigah.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
15th October to 25th March.	Water supplied for all crops including sugarcane from distributaries open for kharif irrigation.	1 4 0	0 2 0	0 15 0	0 1 6
25th October to 25th March.	Water supplied for all crops including sugarcane from distributaries or parts of distributaries from which rabi irrigation only is allowed.	0 15 0	0 1 6	0 10 0	0 1 0

11. SCHEDULE No. IV.

Season leases—Hot weather.

	FLOW OR LIFT.	
	Per bigah.	Per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For water supplied between the 25th March and the 25th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	2 8 0	0 4 0

12. SCHEDULE No. V.

Annual leases—Sugarcane.

Time of supply.	FLOW OR LIFT.	
	Per bigah.	Per tenth of a bigah.
First of January one year until the crop is cut, which may be March in the following year.	Rs. A. P. 5 0 0	Rs. A. P. 0 8 0

13. In the case of charges under Schedules I to V any smaller area than one-tenth of a bigah will be charged as one-tenth. The bigah contains 27,225 square feet.

SCHEDULE No. VI.

14. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of September and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VII.

15. For water supplied by volume to fill *kharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

16. In the case of leases under Schedules I and II, water will be supplied for rice seed beds only as early in June as the supply in the river admits.

17. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November if required.

18. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

19. In the case of leases under Schedule V, the charge will be dependent on the crops reaching maturity. A proportionate remission will be granted if the crop suffers from any cause.

20. When the original crops sown in a field irrigated by canal water fail, and a fresh crop is sown in the *same season*, as defined in the schedules above, water-rates shall be levied on the second crop only. If no second crop is sown, water-rate shall be levied at the rate of ten annas a bigah.

21. In assessing water-rates under Schedules III, IV and V the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

II.—When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

23. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

APPENDIX I.

Form of application for a lease for a term of years.

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigah. This sum will be payable independently of our requiring water in any particular year or not.

3. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45, and 46.

4. We agree to pay a moiety of the water-rates due on this application on the 15th December and the remaining moiety on the 1st of March.

5. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If on the 1st of June of any year the water-rates due on this application in the aggregate are in arrear by more than half a year's demand.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bigahs and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

N.B.—1. Charges will be made by tenths of a bigah, any smaller area being charged as one-tenth.
2. The year is reckoned as commencing from the 25th June.

APPENDIX II.

Form of application for a lease for a term of years jointly with a contractor.

Mouzah , *Pergunnah* , *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigah. This sum will be payable independently of our requiring water in any particular year or not.

3. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45, and 46.

4. We agree to pay a moiety of the water-rates due on the 15th December and the remaining moiety on the 1st of March.

5. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If on the 1st of June of any year the water-rates due on this application in the aggregate are in arrear by more than half a year's demand.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

6. We desire under Rule 50 that_____shall be appointed contractor, to whom we agree to pay water-rates as they become due so long as he is authorized by proper authority to receive the same. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to some person authorized by him to receive the same.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bigahs and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

7. I agree to become contractor under Rules 50 to 60 for the collection of all sums payable under this application and to be bound by all the rules passed under Act III (B.C.) of 1876. I will abide by the rules mentioned and all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

N.B.—1. Charges will be made by tenths of a bigah, any smaller area being charged as a tenth.
2. The year is reckoned as commencing from the 25th June.

[*To be added when the contractor takes the responsibility of collecting the entire sum due under Rule* 56.]

8. In consideration of being permitted to deduct 7½ per cent. from the sum due under this application, I undertake to pay the whole amount due to Government on the dates mentioned in clause 4 and to myself take the risk of any default in payment by the applicants.

APPENDIX III.

Form of application for a lease during the kharif season.

Mouzah , *Pergunnah* , *Distributary*

1. We, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th of June to the 25th of October, for the irrigation of the block formed by our holdings as specified below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, and each of us agrees to pay water-rates on the area in his occupation, as found by actual measurement, at the rate of Rs. 1-14 per bigah. This sum will be payable independently of our requiring water during the season or not.

3. This application is made under the rules passed under Act III (B.C) of 1876, more especially Rules 16, 20, 22, 26, 27, 45, and 46. We agree to abide by these and by all the rules passed under the Act.

4. We agree to pay the whole of the water-rates due on the application on the 15th of December.

5. The following are the boundaries of the block :—

North.—
South.—
East.—
West.—

SCHEDULE.

Name of cultivator.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine, and that they comprise the whole of the occupiers of the land included in the block, the boundaries of which are mentioned above, and that the areas given are approximately correct.

N.B.—Charges will be made by tenths of a bigah, any smaller area being charged as a tenth.

Signature of lambardar.

APPENDIX IV.

Form of application for a lease during the rabi season or for crops classed as bhadoi.

Mouzah , *Pergunnah* *Distributary*

1. We, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the of October to the 25th of March, for the irrigation of the areas mentioned below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, but each of us agrees to pay water-rates at Rs. per bigah on the actual area in our occupation as found by measurement, with the proviso that only areas actually irrigated will be assessed.

3. We agree, as far as is possible, to prevent water supplied being wasted or used in an unauthorized manner.

4. This application is made under the rules passed under Act III (B.C.) of 1876, more especially Rules 17, 20, 23, 26, 45, and 46. We agree to abide by these and by all the rules passed under the Act.

5. We agree to pay the water-rates due on this application on the 1st of April.

Name of cultivator.	Description of crop.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	Remarks.

I hereby certify that the signatures above are genuine and that the areas mentioned are approximately correct.

N. B.—1. Charges will be made by tenths of a bigah, any smaller area than one tenth being charged as a tenth.
2. For crops classed as *bhadoi*, 25th June to 15th October to be substituted for the dates given in Rule 1.

Signature of lambardar.

APPENDIX V.

Form of application for a lease for sugarcane for the year

Mouzah , *Pergunnah* , *Distributary*

1. We, whose names are attached, apply for water to be supplied from the above-mentioned distributary for the irrigation of the areas mentioned below.
2. The approximate area to be irrigated by each applicant is stated in the schedule following, but each of us agrees to pay water-rates at Rs. 5 per bigah on the actual area in our occupation as found by measurement.
3. We agree, as far as possible, to prevent water supplied being used in an unauthorized manner.
4. The full rate will be payable only if the crop reaches maturity. If from any cause it has been materially damaged, we shall be entitled to such proportionate remission as may be fixed by the Canal Officer.
5. This application is made under the rules passed under Act III (B.C.) of 1876, more especially Rules 17, 20, 26, 31, 45, and 46. We agree to abide by these rules and by all the rules passed under the Act.
6. We agree to pay a moiety of the water-rates due on the 15th December and the remaining moiety on the 15th February.

Name of cultivator.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	Remarks.

hereby certify that the signatures above are genuine and that the areas mentioned are correct.

N.B.—Charges will be made by tenths of a bigah, any smaller area than a tenth being charged as a tenth.

Signature of lambardar.

APPENDIX VI.

We, the undersigned, hereby apply for water to be supplied from the distributary for the purpose of irrigation.

We agree that in consideration of the outlet mentioned at the foot of this application being opened for hours to the extent specified, we will severally pay the sums entered opposite our names in addition to Rs. which we have collectively paid with this application.

This application is made under section 74 of Act III (B.C.) of 1876.

Name.	Residence.	Sum to be paid.	Witness to signature.

Size of outlet—
Head to be maintained—
Approximate discharge—

Certificate of subordinate.—I hereby certify that the outlet specified was open for hours on the of , and that at least the quantity of water stipulated was supplied.

Sectional Officer.

APPENDIX VII.

WE, the undersigned, hereby apply for water to be supplied from the distributary for the purpose of filling the *ahara* mentioned below.

We agree that in consideration of the outlet mentioned at the foot of this application being opened for hours to the extent specified, we will pay Rs. , which sum is herewith tendered.

Name.	Residence.	Ahara to be filled.

Size of outlet—
Head to be maintained—
Approximate discharge—

Certificate of subordinate.—I hereby certify that the outlet specified was open for hours on the of , and that at least the quantity of water stipulated was supplied.

Sectional Officer.

APPENDIX VIII.

To the Collector of

WHEREAS certain cultivators of mouzah , pergunnah of which I am the proprietor, have, under section 74 of Act III (B.C.) of 1876, applied to be supplied with water for the irrigation of lands in the above village of an area of bighas, more or less, the water-rates on which will amount to Rs. approximately, and whereas the above lands are held on a bhaoli tenure, and I desire to pay a portion of the water-rates, I therefore, under section 74 of Act III (B.C.) of 1876, join in the application for water, and authorize you to collect from me (*) of the water-rates assessed.

Signature—
Residence—
Witness—

* Proportion payable to be entered here.

APPENDIX IX.

Permit for a lease for a term of years.

Number of application and date	...	
Name of village	...	...	
Name of pergunnah	...	...	
Name of distributary	...	...	
Position of outlet	...	...	
Size of outlet ...	...	...	
Head of water assumed	...	...	
Approximate discharge	...	...	
Area to be irrigated	...	...	
Dates of supply	...	...	25th June to 25th March.
Water-rates due	...	...	
Dates of payment	...	...	One moiety 15th December, one moiety 1st March.
Name of lambardar	...	...	
Duration of permit	...	...	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provision of all rules passed under the Act, and is liable to be cancelled if the water-rates due under it are in arrear by more than half a year's demand, or if water, which it is expressly agreed is supplied for the sole purpose of irrigating the land mentioned therein, is habitually misused or wasted. Water-rates on the area mentioned will be charged whether in any particular year water is or is not actually required.

Divisional Canal Officer.

APPENDIX X.

Permit for a lease for kharif season.

Number of application and date	...	
Name of village	...	...	
Name of pergunnah	...	...	
Name of distributary	...	...	
Position of outlet	...	...	
Size of outlet ...	...	...	
Head of water assumed	...	...

Dates of payment	...	...	
Name of lambardar	...	...	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provisions of all rules passed under the Act. It is expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application. Water-rates on the land included in the block specified in the application, the area more or less of which is given above, will be charged, whether water is or is not actually required.

Sub-divisional Canal Officer.

APPENDIX XI.

Permit for a lease other than kharif or for a term of years.

Number of application and date	...	
Name of village	...	...	
Name of pergunnah	...	...	
Name of distributary	...	...	
Area to be irrigated more or less		...	
Dates of supply	...	...	
Water-rates due	...	...	
Dates of payment	...	...	
Name of lambardar	...	...	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provisions of all rules passed under the Act. It is expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application. The area actually irrigated will be measured and charged, and the applicants undertake to, as far as is in their power, prevent water being wasted or applied to the irrigation of land not included in the application. Any claims for remission of water-rates must be made 20 days before the crop is cut.

Sub-divisional Canal Officer.

ESTABLISHMENT.

The 13th January 1891.

No. 13.—The following notification issued by the Government of India, in the Public Works Department, is republished for information :—

No. 4, *dated 8th January* 1891.—Rai Bahadur Khetter Nath Chatterji, Executive Engineer, second grade, Bengal, is permitted to retire from the service of Government, with effect from the 25th November 1890.

RAILWAY.

The 13th January 1891.

No 16.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a brickfield in mouzah Hogulbarea, pergunnah Shindabajoo, zillah Rajshahye, it is hereby declared that for the above purpose a piece of land measuring, more or less, 11 acres 1 rood and 36·6 poles of standard measurement, bounded on the north by the land of Somit Sircar and the railway land; on the east by the railway land; on the south by the land of Hurry Karmokar and Rohim Sircar; and on the west by the land of Kally Komul Moitra, Somir Sircar, Rohim Sircar, and Hurry Karmokar, is required in the aforesaid mouzah.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 17.—*Declaration*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for securing a clear frontage of Eastern Bengal State Railway bungalow No. 44 at Kooshtea, in the village of Bahadur Kali, pergunnah Mohomed Shi, zillah Nuddea, it is hereby declared that for the above purpose a piece of land, measuring, more or less, 4 bighas 15 cottahs and 18$\frac{1}{16}$ chittacks of standard measurement, bounded on the north by the Kooshtea Railway Station road; on the west by land belonging to Hurdeb Kanya; and on the east and south by land belonging to Hurdeb Kanya and Eastern Bengal State Railway, is required within the aforesaid village of Bahadur Kali.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

ESTABLISHMENT.

The 13th January 1891.

No. 18.—Mr. H. Joll, Superintending Engineer, Western Circle, is granted furlough for fourteen months, with effect from the 20th instant, in extension of the furlough for ten months previously granted to him.

E. J. MARTIN,

A. D. LARYMORE,
Offg. Inspr.-Genl. of Jails, Bengal.

No. 800, *dated the 12th January* 1891.—Surgeon-Major F. C. Nicholson made over charge of the Dacca Jail to Mr. H. M. Owen on the forenoon of the 7th December 1890.

J. W. HANLON,
For Offg. Inspr.-Genl. of Jails, Bengal.

CIVIL MEDICAL DEPARTMENT, BENGAL.

No. 347, *dated* 10*th January* 1891.—Assistant Surgeon Rai Kassee Chunder Dutt Bahadur, in officiating charge of the civil station, Pubna, is allowed leave for two months and twenty days, under Article 291 of the Civil Service Regulations.

A. HILSON, M.D.,
Inspr.-Genl. of Civil Hospitals, Bengal.

HIGH COURT NOTICES.

CIRCULAR ORDER ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CRIMINAL.

No. 6, dated the 10th November 1890.

Rules for the Arrangement, Preservation and Destruction of Records of Criminal Proceedings.

The following Rules apply to the

RECORDS OF CRIMINAL COURTS OF ALL GRADES.

SECTION I.

ARRANGEMENT OF RECORDS OF CRIMINAL PROCEEDINGS.

1. Every record of the Criminal Courts of Original Jurisdiction, including Courts of Session, shall consist of two files, to be styled and marked respectively File A and File B.

File A shall contain—

(*a*) Title-page.
(*b*) Table of contents.
(*c*) The order-sheet.
(*d*) Papers showing how the proceedings were initiated, *e.g.*, the petition of complaint, the first information or other report of the police.
(*e*) Final form (A, &c.) submitted by the police.
(*f*) Examination of any witness taken by Commission.
(*g*) Confessions or statements of the accused before trial.
(*h*) Depositions of witnesses, including depositions of absent witnesses admitted in evidence, and depositions of witnesses treated as evidence under Section 288 of the Criminal Procedure Code.
(*i*) Examination and statements, oral or written, of the accused, and statements, oral or written, of the opposite-party, during trial.
(*j*) Charge.
(*k*) Reports of the Chemical Examiner or Assistant Chemical Examiner to Government.
(*l*) *Post-mortem* and other reports of Medical Officers.
(*m*) Verdict of the Jury, or opinion of the Assessors.
(*n*) Finding, sentence and judgment.
(*o*) Form of summary trial kept under Section 263 of the Criminal Procedure Code.
(*p*) Copy of the judgment or order of the Appellate or Revisional Court.
(*q*) Warrant returned after execution by the jail authorities.
(*r*) Any petition or other paper bearing on the offence charged and material to elucidate or justify the decision.

File B shall contain—

(*a*) Title-page;
(*b*) Table of contents; and
(*c*) All other papers not included in File A, except documents admitted as evidence during trial, that is, exhibits which are dealt with in a separate rule.

2. The record of the Appellate or Revisional Court shall be arranged in the same way as that of the Court of Original Jurisdiction, except that there shall be no separate B File, the papers which would belong to the B File being attached to the A File.

3. In every case papers shall, as far as possible, be attached to the file to which they belong as the trial proceeds, and shall be arranged in the order in which they are brought before the Court.

4. The depositions of witnesses shall be arranged in the order in which they are given.

5. The distribution of papers into the proper files must in all cases be made before the record is deposited in the record-room, the object being to avoid the necessity of sorting papers in the record-room.

These rules shall come into force on the 1st of January 1891.
Published in the *Calcutta Gazette* of the 12th November 1890, Part I, pages 1080 to 1084, and in the *Assam Gazette* of the 22nd November 1890, Part III, pages 681 to 685.

6. To each file of every record there shall be prefixed a title-page in the following form :—

TITLE-PAGE.

FILE.

In the Court of the *of*

Case No. *of* 189

Complainant,
Applicant,
Accused.
Opposite Party.

Section of the Indian Penal Code or other law

Date of the decision of the Original Court

Date of the decision of Appellate or Revisional Court

7. Prefixed to every file there shall be a Table of Contents in the form of which the following is a specimen :—

TABLE OF CONTENTS.

District *Court.*

Case No. *of* 189 .

Complainant,
Applicant,
Accused.
Opposite Party.

The 189 .

9. Whenever a document used in evidence is withdrawn, either before or after judgment, a note of the fact shall be made in column 6 of the List stating also whether a copy has or has not been substituted.

SECTION II.

The Transmission of Records to the District Record-room.

10. With the exception of proceedings before the Court of Session, the records of which will be kept in the record-room of the Sessions Judge, the records of all Criminal proceedings will be kept in the record-room of the Magistrate of the District.

11. The records of all decided cases shall be forwarded to the District record-room by Magistrates at head-quarters in the course of the month, and by Magistrates at sub-divisions in the course of the year next succeeding that in which they were decided.

The District Magistrate shall fix the dates on which the records from each Court shall be despatched to the District record-room, endeavouring so to fix the dates that too many records shall not reach the record-room at one and the same time.

12. A list in the following form shall accompany all records sent to the District record-room. These lists must be uniform in size and shape, and will be bound from time to time so as to constitute a "catalogue of records sent to the record-room."

*List of records sent to the District Record-room from the Court of*_____.

Serial number of record.	Sadar Station or Sub-division.	Name of Magistrate.	Serial number of cases in the				Name of complainant.	Name of accused.	Nature of the case with the section of the Penal Code or other Act applicable.	Final order passed, and details of sentence.	Result of appeal or revision.	Date of decision.	Class of case under Rule 13.	File A or B.	Names of proclaimed offenders not arrested.	Note if case falls under Rule 14, clause 3.	Dates of destruction of files and initials of officer superintending destruction.	Remarks.
			Register of complaints of offences.	Magistrate's General Register of cases cognizable by the Police.	Register of unimportant cases cognizable by the Police in which the first information report is not used.	Register of miscellaneous cases.

Date of despatch *Signature of the Officer of Despatching Court.*

Date of receipt *Signature of District Record-keeper.*

SECTION III.

Preservation and Destruction of Records.

13. The period for which the records shall be preserved, such period being calculated from the date of the final judgment or order in each case, shall be as follows:—

I. In—

(*a*) Sessions' cases ... ...
(*b*) Non-bailable Magistrates' cases ... ...
(*c*) Appeals and applications for revision against judgments or orders passed by Magistrates in such cases ... ...

} File A—14 years.

II. In—

(*a*) Possession cases under Chapter XII, C. P. C. ...
(*b*) Security cases under Chapter VIII, C. P. C.
(*c*) Appeals and applications for revision in respect of these cases.

} File A—5 years.

III. In—

(*a*) Other miscellaneous cases ... ...
(*b*) Magistrates' bailable cases ... ... } File A—2 years.
(*c*) Appeals and applications for revision in respect of cases (*a*) and (*b*) ... ...

IV. In cases of all the above descriptions ... ... File B 2 years.

V. In—

(*a*) Cases in which Magistrate has declined to issue process.
(*b*) Cases in which the accused has been acquitted ... } Files A and B—1 year.
(*c*) Cases in which the accused has been executed under a capital sentence.

14. Provided that the following records and papers of records shall not be liable to destruction :—

(1) Record of any case in which the sentence has not expired.

(2) Record of any case in which any of the accused or parties proceeded against has not been apprehended.

(3) In cases in which the accused has been convicted of an offence, a repetition of which renders the offender liable to a whipping or to enhanced punishment, the following papers :—

(*a*) Charge.
(*b*) Finding, sentence and judgment.
(*c*) Copy of the judgment or order of the Appellate or Revisional Court.
(*d*) Form of summary trial kept under section 263 of the Criminal Procedure Code.
(*e*) Warrant returned after execution by the jail authorities.

15. Sessions Judges and Magistrates may, at their discretion, preserve any particular paper on the record of any particular case beyond the above periods.

RETURN OF EXHIBITS.

16. On the judgment or order in any case becoming final, notice shall be given to the person by whom any document admitted and used in evidence was brought into Court, or to his pleader, requiring him to take it into his own keeping, within six months from the date of the notice, failing which the document will be destroyed when the record to which it relates is destroyed. The notice must distinctly warn the owner that the document will be kept at his own risk, and that the Court declines all responsibility for its safe custody The notice should be in the following form :—

NOTICE TO TAKE BACK DOCUMENTS.

In the Court of

Case No. *of* 189 .

of } *Complainant, Applicant,*

versus

of } *Accused. Opposite Party.*

The parties in the above case are hereby required to take back into their custody, within six months from the date hereof, the documents now in the custody of the Court, filed by them as evidence in the above case, the judgment (or order) now having become final. The parties are distinctly warned that the documents are kept at their own risk, and that the Court from this date declines all responsibility for their safe custody, and that, if not taken back, they will be destroyed when the record is destroyed.

The 189 .

Presiding Officer.

A copy of the notice shall be put up in the Court in which the case was tried.

17. When returning documents, care must be taken that any document which the Court has impounded is not delivered out of the custody of the Court.

18. The destruction of records, in accordance with these Rules, shall take place at the end of each calendar year by burning in the presence of the Record-keeper. Sessions Judges and District Magistrates will note in their Annual Reports whether these rules have been duly observed.

NOTE.—The above rules must be read in connection with the provisions of section 8, Act III of 1879

19. The following Rules in the General Rules and Circular Orders, Criminal, have been either superseded or are cancelled by the Rules now issued :—

Chapter V, Rule 7, pages 101 to 105 *(Rule No. 13 of 4th December* 1882 *and Rule No. 7 of 16th September* 1885*)*.

Chapter VI, Rule 7, page 109 *(C. O. No* 1 *of 23rd January* 1872*)*

Chapter VI, Rule 50 and foot-note, pages 144 and 145 *(Rule No.* 5 *of 25th July* 1885*)*.

CIRCULAR ORDER.

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CRIMINAL

No. 8, dated the 16th December 1890.

Rules for the Maintenance and Destruction of the Registers of Subordinate Criminal Courts.

1. In supersession of all previous orders on the subject, the Court is pleased to prescribe the Registers, of which lists and forms are appended, to be kept in the Criminal Courts subordinate to it.

2. The Registers are shown under four classes—

(A) Primary Registers,
(B) Subsidiary Registers,
(C) Statistical Registers,
(D) Accounts Registers.

The Primary Registers are those which have to do directly with cases filed in Court, and which form a *quasi*-record of the progress and disposal of such cases. The Subsidiary Registers are for administrative purposes, and the Statistical Registers are for the purpose of preparing the returns. The Account Registers are those which have to do with the receipt and payment of money.

3. The classes of Courts in which the different Registers are to be kept up, and the periods for which they are to be preserved, are shown in the accompanying lists, and on the forms themselves. The periods stated therein are to be reckoned from the date of the last entry in the Register, and the Court is pleased to direct, under Section 2 of Act III of 1879, that, at the expiration of those periods, the Registers shall be destroyed. It is not necessary to open new Registers in every instance each year.

4. While the Court does not positively forbid the maintenance of other Subsidiary or Statistical Registers in the various Criminal Courts subordinate to it, the accompanying lists specify all the Registers which, it is believed, are absolutely necessary either for judicial or administrative purposes.

5. These rules shall take effect from the 1st of January, 1891.

6. The following forms and rules in the General Rules and Circulars Orders, Criminal, have been either superseded or cancelled by the rules now issued:—

Chapter II, Forms Nos. 27, 28, 29, 30, printed at pages 69 to 71.

Chapter III, Rule 1 and form, page 77 (*C. O. No. 4 of 25th February 1873*).

Chapter III, Form of Register of Criminal Complaints printed at page 78.

Chapter III, Rule 3 and form, page 78 (*Rule No. 2 of 8th February 1882 and Rule No. 3 of 16th April 1886*).

Chapter III, Form attached to clause (*a*), Rule 4, page 79.

Chapter III, Rule 5, clauses (*a*) and (*b*), and forms, pages 81 and 82 (*C. O. No. 23 of 22nd December 1877 and Rule No. 10 of 8th September 1881*).

Chapter III, Rule 6 and form, pages 82 and 83 (*C. O. No. 40 of 10th December 1880*).

Chapter III, Rule 7 and forms, pages 84 and 85 (*C. O. No. 4 of 25th February 1873 and Rule No. 4 of 22nd February 1882*).

Chapter III, Rule 8 and form with foot-notes, pages 85 and 86 (*C. Os. No. 167 of 15th May 1835, No. 11 of 1st October 1886, and No. 1 of 11th January 1871*).

Chapter III, Rule 9 and form, pages 86 and 87 (*C. O. No. 14 of 7th April 1879*).

Chapter VI, Rule 38 and form, page 135 (*C. O. No. 2 of 2nd February 1885*).

Chapter VI, Rule 46, clause (*a*) and form, pages 141 and 142 (*C. O. No. 151 of 24th November 1843*).

List of Registers to be maintained in the Criminal Courts of Bengal.

A.—Primary Registers.

					Preliminary.	Final.	
1	2	3	4	5	6	7	

NOTE.—Each Court will have a serial number of its own.
The column headed "Preliminary" is intended to show orders of transfer, if any.

2.—*Magistrates' General Register of Cases cognizable by the Police.*

(To be maintained in the Courts of District and Sub-Divisional Magistrates and to be preserved for seven years.)

3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
FIRST INFORMATION OF CASE.							RESULT OF POLICE INVESTIGATION.					ORDERS PASSED WITH DATES.		
Police Station Number.	Dates of			Crime as reported to Police, with Section of Penal Code or other law.	Names of parties concerned.	Magistrate's initials.	Date of		Showing arrests made, &c.	Crime established before Police, with Section, &c.	Form of final Report.	Preliminary.	Final.	REMARKS.
	Occurrence.	Information to Police.	Report before Magistrate.				Final Report.	Submission to Magistrate.						
2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17

NOTE.—Every order of transfer shall be entered in column 15.

3.—Register of unimportant Cases cognizable by the Police, in which the first information report is not used.

(To be maintained in the Courts of District and Sub-Divisional Magistrates and to be preserved for seven years.)

Consecutive No. for month.	Police Station.	Complainant.	Accused.	Date of Arrest.	Offence with Section, &c.	ORDERS PASSED WITH DATES.		REMARKS.
						Preliminary.	Final.	
1	2	3	4	5	6	7	8	9

4.—*Register of Miscellaneous Cases*

(To be maintained in the Courts of Sessions Judges, District and Sub-Divisional Magistrates, and to be preserved for seven years.)

Serial No. for the month.	Date of Institution.	Name of the informant.	Nature of Case and Section of Code or other Act applicable.			Persons against whom the information is laid.		Orders passed with dates.		Number of persons discharged.	Number of persons against whom order is made.	Persons ordered to find or give			Persons imprisoned in default of security for good behaviour		Persons imprisoned in default of security to keep the peace.	Remarks.
			Sections 107—8, Criminal Procedure Code.	Sections 109—10, Criminal Procedure Code	Other Cases	Number.	Names.	Preliminary.	Final			Sureties to keep the peace.	Recognizance to keep the peace.	Sureties for good behaviour.	One year and under.	Three years and under		
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19

NOTE.—Register 1 is a register of *complaints of offences*, and Registers 2 and 3 relate only *to cases cognizable by the Police*. In this Register (4) will be entered all other cases whether instituted by formal complaint or other information. Such cases are those falling under Sections 87, 88, 107, 108, 109, 110, 133, 143, 144, 145, 191(c), 480, 485, 488 and 514, Code of Criminal Procedure.

Every order of transfer shall be entered in column 9.

Columns 11—17 are intended to facilitate the preparation of Annual Statements 3 and 5.

The entries in column 18 are not required to be shown in Annual Statement No. 5

5.—*Trial Register.*

Register of cases instituted or received by transfer for enquiry or trial in the Court of *Magistrate of*

(To be maintained in all Magistrates' Courts, and to be preserved for seven years.)

Serial No. for the month	Serial Number in the				Date of receipt of case.	Name of complainant or informant.	Name of accused.	Nature of the case, with the Section of the Penal Code or other Act applicable.	Final order and date.	Remarks.
	Register of complaints of offences.	Magistrates' General Register of cases cognizable by the Police.	Register of unimportant cases cognizable by the Police, in which the first information report is not used.	Register of miscellaneous cases						
1	2	3	4	5	6	7	8	9	10	11

NOTE.—Each Court will have a Serial No. of its own.
The result of any appeal or application for revision should be entered in the column of Remarks.

6.—Register of Appeals

(To be maintained by all Appellate Courts and to be preserved for [illegible] years.)

Serial No. for the quarter.	Date on which the Appeal was filed.	Names of Appellant or Appellants.	From whose order Appeal is preferred.	Sentence or order appealed against.	Final order passed with date.	REMARKS.
1	2	3	4	5	6	7

7.—*Register of Revision Cases.*

(To be maintained in all Appellate Courts and to be preserved for seven years.)

Serial No. for the month.	Date of filing application.	Number and names of applicants.	Number and names of opposite parties.	Order or sentence of which revision is sought.	By whom the order or sentence was passed.	Final order passed with date.	REMARKS.
1	2	3	4	5	6	7	8

8.—*Register of Warrants of Imprisonment.*

(To be maintained in all Criminal Courts and to be preserved till all the Prisoners entered therein have been released.)

Name of person sentenced.	Date of sentence.	Term of imprisonment.	Date on which the imprisonment would ordinarily terminate.	Date on which the Warrant is returned as executed by the Jail Authorities.	REMARKS.
1	2	3 Y. M.	4	5	6

NOTE.—Prisoners should be entered according to the date of sentence in chronological order. Warrants, when returned, shall be filed with the record of the case to which they belong, so as to form part of that record.

9.—*Register of Convicts.*

(To be maintained in the Courts of District and Sub-Divisional Magistrates, and to be preserved for ever.)

Name of the prisoner (including his *alias*, if any).	Name of his father.	Residence.	Profession or trade.	Caste.	Age or supposed age.	Height.	Personal marks, such as squint, lameness, loss of limb, permanent scars, &c.	Of what offence convicted.	Date of conviction.	Sentence passed, and by what Court convicted.	Date of previous conviction (if any) and section of the law under which convicted, and by what Court convicted.	REMARKS.
1	2	3	4	5	6	7	8	9	10	11	12	13

List of Registers to be maintained in the Criminal Courts of Bengal—continued.

B.—Subsidiary Registers.

No.	Name of Register.	By what Court or Officer to be maintained.	Period for which to be preserved.	REMARKS.
1	Register of Petitions . . .	All Criminal Courts.	3 years.	
2	Register of Attendance of Witnesses.	Ditto .	3 „	
3	Register of Processes . . .	Courts of District and Subdivisional Magistrates.	3 „	
4	Register of Affidavits . .	All Criminal Courts.	3 „	
5	Register of Applications for copies	Ditto .	3 „	
6	Register of Pleaders and Mukhtars	Ditto .	For ever.	

List of Registers to be maintained in the Criminal Courts of Bengal—continued.

B.—Subsidiary Registers.

1.—Register of Petitions.

(To be maintained in all Criminal Courts and to be preserved for three years.)

Filed in the Court of _____.

Date.	Serial No.	No. of Case to which Petition relates.	Subject of Petition.	Date of Order passed on Petition.
1	2	3	4	5

2.—*Register of the Attendance of Witnesses.*

(To be maintained in all Courts and to be preserved for three years.)

Serial number of witnesses.	Name of witness.	Register number of case and names of parties.	First appearance.		Second appearance.		Third appearance.		Total number of days in attendance at Court.							Examined or not.	Initials of presiding officer.	Amount paid as expenses.	Receipt of witness.
			Date of attendance.	Date of discharge.	Date of attendance.	Date of discharge.	Date of attendance.	Date of discharge.	One day.	Two days.	Three days.	Four days.	Five to seven days.	Eight to fifteen days.	More than fifteen days.				
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20

Instructions.—This Register will show all witnesses, including complainants, in the Criminal Courts, who attend for the purpose of being examined in any case. A witness will be considered to have appeared on any day if he attended sufficiently early to allow of his deposition being recorded. Columns 1 to 4 will be filled in daily for every witness reported to be in attendance for the first time; column 5 will be filled in when the witness is discharged for the first time; and columns 6 to 9, as may be necessary, on account of the subsequent re-appearance and discharge of the same witness from time to time until the case is terminated. If any witness re-appears after being three times discharged a new series of entries in red ink must be made in columns 4 to 9 against his name, immediately under the previous entries. Columns 10 to 18 will be filled up when the witness is finally discharged, the initials of the presiding officer being intended to vouch for the correctness of the entries. The number of days to be entered in columns 10 to 16 will be calculated by reckoning the total number of days elapsing between each successive appearance and discharge, including the days on which these occurred. In column 17 a distinctive mark should be made to show those witnesses who were finally discharged without examination, in order to assist in the preparation of the Annual Returns. Any amount paid as expenses to witnesses should be entered in column 19 and, if the payment be made in Court, the witnesses' receipt should be taken at the time of payment in column 20.

NOTE.—Witnesses appearing after 12 noon are not to get credit in this register for that day's appearance.

3.—*Register of Processes.*

(To be kept in the Courts of District and Sub-Divisional Magistrates and to be preserved for three years.)

Serial No. of process.	Nature of process.	Court from which the process is issued.	Number and nature of case.	Name of person on whom to be served.	Place and distance from Court.	No. of duplicate processes accompanying the original.	Date of deposit of tulabana.	Date of receipt by Court Inspector.	Date of delivery to serving officer.	Name of serving officer.	No. of days allowed for service.	Date of actual service.	Date of return to Court Inspector.	Date of return to Court.	Signature of Clerk of the Court.	REMARKS.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17

4.—*Register of Affidavits.*

(To be maintained in all Courts and to be preserved for three years.)

Serial number of year.	Date.	Affidavits on which no fee is chargeable.		Affidavits on which a fee is chargeable.		Whether compulsory under the Code of Criminal Procedure or optional	REMARKS.
		Name of declarant.	Whether peon, identifier or public officer	Name of declarant.	Fee paid		
1	2	3	4	5	6	7	8

5.—*Register of Applications for Copies.*

(To be maintained in all Courts and to be preserved for three years.)

Serial No.	Name of applicant.	Date of application.	Nature of document of which copy or inspection is applied for, and No. and year of case in which filed.	Whether applicant requires		Number of folios				Extra fee for urgent copy.	Court-fees for certified copy.	Fees for search or inspection.	Date on which copy was ready for delivery.	Date on which delivery was taken.	Remarks.
				Certified copy.	Uncertified copy.	Filed with application.	Filed afterwards with date of filing.	Used.	Returned unused.						
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16

NOTE.—In the column for Remarks should be noted any copies which, though originally applied for and granted as "uncertified," are subsequently converted into "certified" copies. Searching fees should also be shown column 7 of the Detailed Daily Register of Court-fees realised, and treated as fees payable under Schedule II, Act VII of 1870.

6.—Register of Pleaders and Mookhtars enrolled in the Court of the_____at

(To be maintained in all Criminal Courts and to be preserved for ever.)

Number in the High Court's register, and year of admission.	Name and degree, if any.	Father's name.	Place where practising.	Value of stamp on certificate.	Date of last renewal.	REMARKS.
1	2	3	4	5	6	7

List of Registers to be maintained in the Criminal Courts of Bengal—continued.

C.—Statistical Registers.

No.	Name of Register.	By what Court Officer to be maintained.	Period for which to be preserved.	REMARKS.
1	Register showing under each head of crime the number of offences reported, of cases struck off as false, and of cases brought to trial.	Courts of District and Sub-Divisional Magistrates.	1 year.	
2	Register showing under each head of crime the number of persons acquitted or discharged and convicted.	Ditto .	1 „	
3	Register of cases decided . .	All Magistrates' Courts.	1 „	
4	Register showing the particulars of whipping.	Courts of District and Sub-Divisional Magistrates.	1 „	
5	Register showing under each head of offence the general result of the trial of European British subjects.	Ditto and Magistrates of the 1st class.	1 „	

List of Registers to be maintained in the Criminal Courts of Bengal—continued.

C.—Statistical Registers.

1.—Register showing under each head of crime the number of offences reported, of cases struck off as false, and of cases brought to trial in the 18 .

(To be kept in the Courts of District and Sub-Divisional Magistrates and to be preserved for one year.)

Number of head of crime_____.

[As per Schedule attached to Annual Statement No. 2.]

Serial No. for the year.	Serial Number in the				Offences reported in		Complaints dismissed under Section 203, C. P. C.	Other cases struck off as false.	Brought to trial during the year.	Remarks.
	Register of complaints of offences.	Magistrate's General Register of cases cognizable by the Police.	Register of unimportant cases cognizable by the Police, in which the first information report is not used.	Register of miscellaneous cases.	18 .	18 .				
1	2	3	4	5	6	7	8	9	10	11

Instructions.—Cases on which orders have been passed will be entered under the proper head of crime from time to time, pending cases being added on at the end of the year. Columns 6 and 7 are meant to distinguish cases reported in the previous from those reported in the current year, but the latter only will be entered in column 3 of Annual Statement No. 2.

Note.—All cases under the schedule instituted in any Court in the Subdivision shall be entered in this Register. Offences under each head of crime shall be entered in a separate page or pages as necessary. The Register will not be kept in the form of a bound book, but the pages for the different heads of crime will be strung together and insertions and additions made as required.

2.—Register showing under each head of crime the number of persons acquitted or discharged, or convicted in the Court of *in 18* .

(To be kept in the Courts of District and Sub-Divisional Magistrates and to be preserved for one year.)

Number of head of crime——————.

[As per Schedule attached to Annual Statement No. 2.]

Serial No. for the year.	Serial Number in the				Acquitted or discharged.	Convicted.	Died, escaped, or transferred.	Remarks.
	Register of complaints of offences.	Magistrate's General Register of cases cognizable by the Police.	Register of unimportant cases cognizable by the Police, in which the first information report is not used.	Register of miscellaneous cases.				
1	2	3	4	5	6	7	8	9

Instructions.—Persons entered in columns 14 to 19 of the Register of Cases decided may be entered up under the proper head of crime in this register at the conclusion of the trial. Those entered in column 20 as committed or referred will be entered when the result in the higher Court has been ascertained; until then they will be treated as "pending." At the close of the year an account must be taken of the number of persons under each head of crime whose cases are pending, in order to complete the entries to be made in Annual Statement No. 2.

Note.—Offences under each head of crime shall be entered in a separate page or pages as necessary. The Register will not be kept in the form of a bound book, but the pages for the different heads of crime will be strung together and insertions and additions made as required. All cases under the schedule decided by any Court in the Subdivision shall be entered in this Register.

3.—*Register of Cases decided in the Court of* _____ *exercising the powers of* _____ *at* _____ *in the year 18* .

(To be maintained in the Courts of all Magistrates and to be preserved for one year.)

| Serial No. of the case in this Register. | Number of Case in the Trial Register. | Date of appearance of accused. | Date of decision. | Number of days during which the case lasted. | NUMBER OF PERSONS DEALT WITH. | | | | | | | PERSONS WHOSE CASES WERE DISPOSED OF. | | | | | | | NUMBER OF CASES | | | PERSONS SENTENCED TO | | | | | | |

4.—Register showing the particulars of Whipping——————.

(To be maintained in the Courts of District and Subdivisional Magistrates and to be preserved for one year.)

NOTE.—This Register is intended to facilitate the preparation of Annual Statement 5 A. Juveniles shown in Parts I and II will not appear in Part III.

5.—*Register showing under each head of offence the general result of the trial of European British subjects in* _____ *18*

(To be maintained in the Courts of District and Sub-Divisional Magistrates and Magistrates of the first class and to be preserved for one year.)

[Heads of offence as per "Description of Offence" given in column 1 of Annual Statement No. 8.]

No. of case.	Name of accused.	Number of persons accused and brought before a Magistrate.						Died, escaped, or transferred to another District or Province.	Number actually brought to trial.	Persons whose cases were disposed of												Number of persons under trial at the close of the year.	Number of cases			Remarks.
		Remaining at the close of the previous year.	Within the year.							By District Magistrates and other 1st class Magistrates.						By Courts of Session.				By High Court.					
			On complaint, Section 191 (a) of the Code.	On Police Report, Section 191 (b) of the Code.	By Magistrate *suo motu*, Section 191 (c) of the Code.	On transfer from another District or Province.	Total.			Received by transfer under Section 451B of the Code.	Convicted.	Acquitted or discharged.	Committed.		Transferred by order under Section 451B of the Code.	Received by transfer under Section 451B of the Code.	Convicted.	Acquitted or discharged.	Transferred to High Court under Section 449 of the Code.	Convicted.	Acquitted.		Brought to trial.	Disposed of.	Pending.	
													To Court of Session.	To High Court.											
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27

Instructions.—The final result of trial as regards each person will determine the "Head of Offence" under which he is to be entered. When an accused is tried under more than one "Head of Offence," he should be exhibited under the principal one only, unless he happens to be accused of entirely distinct offences supported by separate evidence, in which case the trials would be separate, and the results independent.

In the column for remarks against the name of each accused a note should be made, stating (1) whether the accused applied to the High Court for an order under Section 456 of the Code; (2) whether he applied to the High Court under Section 526 of the Code for the transfer of his case; and (3) the class of officer (Magistrate or Sessions Judge) who disposed of the case, and whether or not they were European British subjects.

The district or province from or to which the cases of the persons entered in columns 7 and 9 were transferred should also be noted in the column for remarks.

Distinctive marks should be made—

In column 5, to show the number of persons who applied under section 2, Act III of 1884, for transfer or committal of their cases.

In columns 12 to 15 and 18 to 22, to show the number who claimed to be tried (1) by a mixed Jury, section 451A (1) of the Code, or (2) by a mixed number of Assessors, section 451 (2).

A. CROFT, *Director of Public Instruction.*

MIDDLE SCHOLARSHIP EXAMINATION FOR 1893.

I.—MIDDLE ENGLISH—

The following text-books in languages have been selected for the examination of 1893—

English—

Royal Reader, No. IV, to page 100.

Bengali—

Padyapath, Part III; Charupath, Part III, Chapter III; Ramer Rajyabhishek, by Sasi Bhushan Chatterjea, omitting Chapters VII and VIII.

Urdu (for Mahomedan candidates only, alternatively with Bengali)—

Kuat Faisla, by M. Hasan Ali; Intikhab Nayab, by M. Suraj Mal.

The following text-books are recommended as defining the scope of the examination in certain subjects; but any other book included in the authorised list, dated 1st June 1890, may, at the option of the managers of schools, be read. In subjects, for which no text-books have been named, school managers are restricted to the use of the books specified in the authorised list. *No book not included in that list must be introduced into any school, aided or unaided, that prepares candidates for this examination.*

English Grammar—

Higher English Grammar in Bengali, by Gangadhar Banerjea; or
Manual of English Grammar, by Mathura Nath Barma; or
Morell's First Essentials of English Grammar; or
Lennie's Grammar (New edition); or
Manual of English Grammar, by Christian Vernacular Education Society.

Bengali Grammar—

Bangala Byakaran, by Loharam Siroratna; or
Ditto, by Krisna Kisor Banerjea; or
Vyakaran, by Kaliprasanna Vidyaratna; or
Sahitya Praves, by Prasanna Chandra Vidyaratna; or
Vyakaran Manjusa, by Umes Chandra Gupta; or
Bangala Vyakaran, by Jagat Bandhu Modak.

Urdu Grammar—

Kawaid Urdu, Part III.

History—

(1) (*a*) History of Greece and Rome, or the history of the world; or

(*b*) History of England, up to the death of Elizabeth.

(2) (*a*) Bharatbarsher Sankshipta Itihas, by Ishan Chandra Ghose; or

(*b*) Bharatbarsher Samasta Itihas, by Ramgoti Nyayaratna; or

(*c*) R. C. Datta's Bharatbarsher Itihas, Hindu and Mahomedan Periods, and British India, by Krishna Chandra Rai; or

(*d*) Tarini Charan Chatterjea's or Rajanikant Gupta's Hindu and Mahomedan Periods, and Rajanikant's British India.

Geography—

(1) General Geography, with special knowledge of India.

(2) Physical character of the earth's crust; internal terrestrial phenomena, including volcanic phenomena; the sea; the atmosphere; evaporation and condensation; action of rain, springs and rivers; distribution of organic life.

Arithmetic (Native and European)—

No text-book.

Geometry and Mensuration—

(1) Euclid, Book I with deductions.

(2) Mensuration of lines and planes.

One of the following subjects in addition to Sanitary Science:—

(*a*) *Elements of Botany*—

First Step in Botany, by Watt; or
Udbhid Bichar, by Jadu Nath Mukherjea.

(*b*) *Elements of Chemistry*—

Non-metals as in Rasayan, by Jadub Chandra Basu; or
Rasayan Bigyan, by Kanai Lal De.

(*c*) *Elements of Natural Philosophy*—

Properties of matter; different kinds of force; centre of gravity; laws of motion; general properties of solids, liquids and gases; heat and its effects.

In Sanitary Science the following text-books have been prescribed by Government:—

(1) Bengali Translation of "The Way to Health"; and

(2) Swasthyaraksha, by Radhika Prasanna Mukherjea.

II.—MIDDLE VERNACULAR—

Same as the Middle English, with the exception of English Reader and English Grammar.

III.—MIDDLE EXAMINATION FOR GIRLS—

Female candidates have the option of substituting the following for Geometry and Mensuration, and Botany, Chemistry or Natural Philosophy:—

(*a*) Cutting and making of pirans, pyjamas, and chapkans.
(*b*) Knitting, darning and embroidery. } 150 marks.

H. A. BAMFORD,

Inspector of European Schools, Bengal.

NOTICE.

In accordance with the Resolution of the Government of Bengal in the General Department, dated the 6th March 1886, published on page 541 of the *Calcutta Gazette* of the 31st of the same month, notice is hereby given that an examination for the admission of female students to the certificate class of the Calcutta Medical College will be held in the Theatre of that College on Tuesday, the 10th February 1891, and following days.

Hours and Subjects of Examination.

Tuesday.—English dictation, Grammar and Composition—from 1 to 4 P.M.

Wednesday.—History of England and India. Geography: General, and of India in particular—from 1 to 4 P.M.

Thursday.—Arithmetic: the first four rules, vulgar and decimal fractions, and proportion—from 1 to 4 P.M.

Candidates should apply in writing to the Principal of the Medical College, Calcutta, not later than Saturday, the 7th February, for permission to appear at the examination.

Applications for permission to reside in the Sarnamayi Hostel should be addressed to the Honorary Secretary to the Bengal Branch of the Countess of Dufferin's Fund, 36, Chowringhee, Calcutta.

The 7th January 1891. A. CROFT, *Director of Public Instruction.*

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

THE next Examination of Candidates for Pleadership will be held on the 24th, 25th, and 26th February next in the Senate House of the Calcutta University.

The next Examination of Candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gouhaty, and Sylhet on the same days, the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership Candidates will be examined *viva voce* only on the 24th February commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 25th and 26th February. Two papers will be set for the Mookhtarship Candidates on the 24th February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 25th and 26th February, commencing at 10 A.M. each day.

Under no circumstances will any candidates be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovenamed).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

WILLIAM GRAHAM,
Offg. Secy. to the Board of Examiners for Headership and Moolhtarship.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1931B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1888-89, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 2nd February 1891, at 11 A.M., and will comprise 4,750 chests, viz.—

Chittagong Collectorate, the 4th December 1890. CHARLES H. ALLEN, Covtd Dy. Collector in charge.

Naga Hills Division.

ASSAM PUBLIC WORKS DEPARTMENT.

NICHUGUARD-KOHIMA HILL CART-ROAD.

1. SCHEDULE RATE TENDERS are invited for the execution of the following works in the first section of the Nichuguard-Kohima Hill Cart-road in the Province of Assam :—

Cutting in earth, estimated 67,000 c ft., @ Rs. 7 per thousand.
Cutting in gravel and soft shale, estimated 41,500 c.ft. @ Rs. 10 per thousand.
Cutting in compact shale, estimated 16,000 c ft., @ Rs. 15 per thousand.
Cutting in soft sandstone and hard shale, estimated 75,000 c ft., @ Rs. 20 per thousand.
Cutting in conglomerate and fissured sandstone, estimated 239,000 c ft., @ Rs. 30 per thousand.
Blasting in hard sandstone and gneiss, estimated 195,000 c.ft., @ Rs. 60 per thousand.

2. The position of the work may be described as beginning at a distance of 80 miles inland by cart-road from the Brahmaputra river ghât at Nigriting, Assam, and extending for a distance of 4 miles into the first rang of hills up the Diphupani river.

3. No advances will be given except on Government Promissory Notes, security being furnished; but suitable tools for workmen, not exceeding seven hundred in number, will be supplied by Government. The contractor will be responsible for all tools lost by his labourers.

4. Tenders should be accompanied by a *bonâ fide* deposit of one thousand rupees, which money will be returned to the owners of all rejected tenders.

5. In the case of the accepted tender, the contractor will be required to raise the deposit money from Rs. 1,000 up to a full limit of 5 per cent. on the whole value of the estimated contract as a guarantee for the proper and timely execution of the work.

6. Tenders will be received by the Chief Engineer, Assam, at Shillong, up to 28th February 1891.

7. The covers of all tenders should be marked thus—
"Tenders for Kohima Hill Cart-road Works."

8. The Chief Engineer does not bind himself to accept the lowest or any tender.

9. Intending contractors are urged to make themselves acquainted with the conditions of the district before they submit their tenders. Every information on this head will be afforded to them on application direct to the Executive Engineer, Naga Hills Division, whose head-quarters are at Kohima, Naga Hills, Assam.

SHILLONG,
The 29th November 1890.

F. J. JOHNSTONE,
Chief Engineer, P. W. D., Assam.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed:

1st.—Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th or thereabouts. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,

Meteorological Reporter to the Govt. of Bengal.

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta) and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Poorce, and Naraingunge). Volumes I and II. Price Rs. 20 for 1889-90. Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 550 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and thus as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

***No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 3 guineas in England, exclusive of packing and postage.*

The Shargi Architecture of Jaunpur, with Notes on Zafarabad, Sahet Mahet, and other places in the N.W P and Oudh. By A. FUHRER, Ph. D. with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs 16 (Re. 1)

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th January, 1891 :—

NO. 2 OF 1891.

A Bill to amend the Indian Merchandise Marks Act, 1889, and the Sea Customs Act, 1878.

WHEREAS it is expedient to amend the Indian Merchandise Marks Act, 1889, and the Sea Customs Act, 1878; It is hereby enacted as follows :— IV of 1889 VIII of 1878.

1. In section 1, sub-section (*2*), of the Indian Merchandise Marks Act, 1889, the words "subject to the provision of the last section of this Act" are hereby repealed. IV of 1889. Repeal of part of section 1, Act IV, 1889.

2. Section 19 of the Indian Merchandise Marks Act, 1889, and the words "*Transitory Provision*" prefixed to the section, are hereby repealed. IV of 1889. Repeal of section 19, Act IV, 1889.

3. In clause (*e*), sub-clause (*ii*), of section 18 of the Sea Customs Act, 1878, as amended by section 10, sub-section (*1*), of the Indian Merchandise Marks Act, 1889, for the words "that place and the country in which it is situated are" the words "the country in which that place is situated is" shall be substituted. VIII of 1878. Amendment of section 18 (*e*) (*ii*), Act VIII, 1878. IV of 1889.

4. After section 18 of the Indian Merchandise Marks Act, 1889, as amended by this Act, the following shall be added, namely :— IV of 1889. Additions to Act IV, 1889.

"19. For the purposes of section 12 of this Act, and clause (*f*) of section 18 of the Sea Customs Act, 1878, as amended by this Act, the Governor General in Council may, by notification in the Gazette of India, declare what classes of goods are included in the expression 'piece-goods, such as are ordinarily sold by length or by the piece.' VIII of 1878. Definition of piece-goods.

"20. (*1*) The Governor General in Council may make rules, for the purposes of this Act, to provide, with respect to any goods which purport or are alleged to be of uniform number, quantity, measure, gauge or weight, for the number of samples to be selected and tested and for the selection of the samples. Determination of character of goods by sampling.

"(*2*) With respect to any goods for the selection and testing of samples of which provision is not made in any rules for the time being in force under sub-section (*1*), the Court or officer of customs, as the case may be, having occasion to ascertain the number, quantity, measure, gauge or weight of the goods shall, by order in writing, determine the number of samples to be selected and tested and the manner in which the samples are to be selected.

"(*3*) The average of the results of the testing in pursuance of rules under sub-section (*1*) or of an order under sub-section (*2*) shall be *primâ facie* evidence of the number, quantity, measure, gauge or weight, as the case may be, of the goods.

"(*4*) If a person having any claim to, or in relation to, any goods of which samples have been selected and tested in pursuance of rules under sub-section (*1*) or of an order under sub-section (*2*) desires that any further samples of

the goods be selected and tested, they shall, on his written application and on the payment in advance by him to the Court or officer of customs, as the case may be, of such sums for defraying the cost of the further selection and testing as the Court or officer may from time to time require, be selected and tested to such extent as may be permitted by rules to be made by the Governor General in Council in this behalf or as, in the case of goods with respect to which provision is not made in such rules, the Court or officer of customs may determine in the circumstances to be reasonable, the samples being selected in manner prescribed under sub-section (*1*), or in sub-section (*2*), as the case may be.

"(*5*) The average of the results of the testing referred to in sub-section (*3*) and of the further testing under sub-section (*4*) shall be conclusive proof of the number, quantity, measure, gauge or weight, as the case may be, of the goods.

"(*6*) Rules under this section shall be made after previous publication.

"21. An officer of the Government whose duty it is to take part in the enforcement of this Act shall not be compelled in any Court to say whence he got any information as to the commission of any offence against this Act."

Information as to commission of offences.

STATEMENT OF OBJECTS AND REASONS.

IN February last a Committee consisting of three officers of the Government, a representative of the Bengal Chamber of Commerce and a representative of the Calcutta Trades Association was appointed by the Governor General in Council for the purpose of considering, and submitting a report with respect to, certain matters connected with the working of the Indian Merchandise Marks Act, 1889.

2. The last paragraph of the report of the Committee, which was submitted in March last, was as follows:—

"10. We have considered some other questions in addition to those referred to us:

(1) We consider that a section should be inserted in the Act giving power to the Governor General in Council to define from time to time the term 'piece-goods'. Such an amendment is required to give statutory effect to the regulation we have proposed that only certain goods should be treated as piece-goods.

(2) It has been suggested to us that it is a hardship to require in section 10 of the Act [section 18 (*e*) (*ii*) of the Sea Customs Act] the name of both place and country on goods not made in the United Kingdom or British India. We think the objection reasonable and that it is sufficient to require the name of the country. We recommend that section 18 (*e*) be amended accordingly.

(3) We recommend the insertion in the Act of a section giving the Governor General in Council such a power with respect to yarns and certain other goods as in the case of petroleum is given to the Local Governments by section 8 (*1*) (*e*) of the Petroleum Act, XII of 1886.

(4) We also recommend the insertion in the Act of a provision similar to that contained in section 125 of the Indian Evidence Act, 1872, as amended by Act III of 1887. We make this suggestion because we think it desirable that Customs Collectors should not be compelled to disclose the names of their informants."

3. The Governor General in Council has accepted the suggestions of the Committee with respect to the amendment of the Indian Merchandise Marks Act, 1889; and the object of this Bill is to give effect to those suggestions.

The 9th January, 1891.

ANDREW R. SCOBLE.

S. HARVEY JAMES,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th January, 1891 —

NO. 3 OF 1891.

A Bill to amend the Indian Penal Code and the Code of Criminal Procedure, 1882.

XLV of 1860 WHEREAS it is expedient to amend the Indian Penal Code and the Code of Criminal Procedure, X of 1882. 1882, It is hereby enacted as follows:—

Amendment of section 375 of the Indian Penal Code

1. In section 375 of the Indian Penal Code, XLV of 1860. in the clause marked *Fifthly* and in the *Exception*, the word "twelve" shall be substituted for the word "ten".

Amendment of Schedule II to the Code of Criminal Procedure, 1882

2. In Schedule II to the Code of Criminal X of 1882 Procedure, 1882, for the entry respecting section 376 of the Indian Penal XLV of 1860 Code the following shall be substituted, namely —

Column 1	Column 2.	Column 3.	Column 4	Column 5.	Column 6	Column 7	Column 8.
376	Rape— If the sexual intercourse was by a man with his own wife	Shall not arrest without warrant.	Summons	Bailable .	Not compoundable.	Transportation for life, or imprisonment of either description for 10 years, and fine.	Court of Session.
	In any other case .	May arrest without warrant	Warrant.	Not bailable.	Ditto .	Ditto . .	Ditto.

STATEMENT OF OBJECTS AND REASONS.

THE fifth clause of section 375 of the Indian Penal Code declares that the offence of rape is committed whenever a man has sexual intercourse with a woman who is under ten years of age with or without her consent The exception to the section provides that sexual intercourse by a man with his own wife, the wife not being under ten years of age, is not rape. The limit at which the age of consent is now fixed favours the premature consummation by adult husbands of marriages with children who have not reached the age of puberty, and is thus, in the unanimous opinion of medical authorities, productive of grievous suffering and permanent injury to child-wives and of physical deterioration in the community to which they belong. It has, therefore, been determined to raise the age of consent to twelve, and the Bill effects this purpose by substituting the word "twelve" for "ten" in the fifth clause of section 375 of the Indian Penal Code and the exception to that section. In order to prevent the possibility of vexatious and unjustifiable interference with the domestic concerns of respectable people which might result from the raising of the age of consent, it has been determined to withdraw the offence of rape, when alleged to have been committed by a husband on his wife from the cognizance of the police, and the alteration of Schedule II of the Criminal Procedure Code of 1882 contained in the Bill has been made with this object

The 9th January, 1891.

ANDREW R. SCOBLE.

S HARVEY JAMES,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th January, 1891:—

No. 4 OF 1891.

A Bill to amend and supplement the Indian Ports Act, 1889.

WHEREAS it is expedient to amend and supplement the Indian Ports Act, 1889; It is hereby enacted as follows:— X of 1889.

1. For clause (*a*) of section 6, sub-section (*l*), of the Indian Ports Act, 1889, the following shall be substituted, namely:— X of 1889.

Substitution of new clause for section 6 (*l*) (*a*), Act X of 1889.

"(*a*) for regulating the time and hours at and during which, the speed at which, and the manner and conditions in and on which, vessels generally, or vessels of any class defined in the rules, may enter, leave or be moved in any port subject to this Act;".

2. Any direction which, having been issued by a Local Government and published in an official Gazette, expressly purports, or may be reasonably held to have been intended, to be a rule under section 7, clause 8, of Act XXII of 1855, or under section 7, clause (*h*), of the Indian Ports Act, 1875, or under section 6, sub-section (*l*), clause (*h*), of the Indian Ports Act, 1889, or under any other law for the time being in force, with respect to the moving of vessels in any port which is at the commencement of this Act subject to the Indian Ports Act, 1889, shall, if the direction has not been cancelled by the Local Government by a notification in an official Gazette and could, after the commencement of this Act, be issued as a rule made under clause (*a*) of section 6, sub-section (*l*), of the Indian Ports Act, 1889, as amended by the foregoing section of this Act, be deemed to have been issued as a rule made under that clause. XII of 1875. X of 1889.

Saving of past rules respecting the moving of vessels in ports.

3. The expressions "port" and "vessel" in this Act have respectively the same meanings as in the Indian Ports Act, 1889. X of 1889.

Definitions.

STATEMENT OF OBJECTS AND REASONS.

THE question having recently been raised whether clause (*h*) of section 6, sub-section (*l*), of the Indian Ports Act, 1889, is sufficient authority for the making of such rules with respect to the movements of vessels in ports as are not only absolutely essential for the public safety but as have for the last thirty-five years been made under that clause and the corresponding clauses in the Ports Acts of 1855 and 1875 and been consistently acted upon by both Courts and port-authorities, this Bill has been prepared for the purpose of setting that question at rest.

The 9th January, 1891.

D. BARBOUR.

S. HARVEY JAMES,
Secretary to the Government of India.

APPENDIX TO

Strait of Tsugar.

Flashing light on Yesan no saki.

The British Admiralty has given notice (No. 652 of 1890) that on 1st November 1890 a light would be exhibited from a light-house recently erected on Yesan no saki (cape Yesan), north side of eastern entrance to the strait of Tsugar:—

Yesan no saki light is a *flashing* light, showing alternately a *red flash* and a *white flash every fifteen seconds*, and visible through an arc of 187°, or from the bearing of S. 14° E., through west, to N. 7° W. It is elevated 144 feet above the sea, and should be seen in clear weather from a distance of 17 miles.

The illuminating apparatus is catoptric, or by reflectors, of the second order.

The light-house, 50 feet high, constructed of iron, and hexagonal in shape, is painted white.

Approximate position: lat. 41° 49′ 5″ N., long. 141° 10′ 50″ E.

NOTICE TO MARINERS—(No. 2).

AUSTRALIA.

NORTH-WEST COAST.

Position of a Magnetic Shoal.

THE Portmaster, Brisbane, has given notice (No. 35 of 1890) that the Commander of Her Majesty's surveying vessel *Penguin* reports as follows:—

"When leaving Cossack on 6th instant *Penguin* passed over a Magnetic shoal about one mile in diameter. On examination it was found that the focus or centre of Magnetic attraction was in latitude 20 degrees 32 minutes 35 seconds S., longitude 117 degrees 13 minutes 2 seconds E., directly in the track of vessels visiting Cossack.

"From this focus, which is not more than fifty feet in diameter, the summit of Bezout island bears S. 79 degrees 25 minutes W., distant 2·14 miles, and Jarman island light-house S. 2 degrees 40 minutes E., distant 6·52 miles.

"All compasses were deflected 55 degrees to the right and 23 degrees to the left when passing over the focus. The angle subtended by the extreme points of Bezout island was 16 degrees. Sounding 8 fathoms, sand bottom. It seems probable that this area of Magnetic attraction may be one of many around the coast of Australia."

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PIONEER RIVER.

Leading beacons for crossing the bar.

THE Portmaster, Brisbane, has given notice (No. 36 of 1890) that in consequence of the growth to the southward of the extremity of East Point, the two large white leading beacons, with their respective lights, have been shifted 420 yards to the southward of their former position, or about 1¼ miles to the southward of the Pilot Station; the line of lights bearing due east and west.

The directions already in use are still to be followed, except that a checkered red and black buoy placed on a sandbank which dries 18 inches at low water springs, and is situated about 50 yards to the southward of the line of lights, may be passed on all sides at a distance of not less than 200 feet.

By direction of the Government of Bengal,

EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 5th January* 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
	Western Districts.		
Burdwan Divn. 1	Burdwan Jan. 10, '91	Nil	Weather—cool. Outturn of *amun* may be 16 annas. Prospects of *rubbi* crops and sugarcane fair. Prices of common rice :— Srs. Sudder ... ... 18½ Culna ... ... 18 Cutwa ... . 18½ Ranigunge ... ... 18½ } per rupee.
2	Bankoora ,, 10, '91	Nil	Weather—bright and cold. *Rubbi* crops doing well. Cutting and pressing of sugarcane commenced. Common rice selling at 21 seers per rupee at Sudder and 21½ seers at Bishenpore.
3	Birbhum ,, 10, '91	Nil	Weather—bright and cold. Winter paddy is nearly gathered in. Price of coarse rice varies from 17½ to 23½ seers per rupee.
4	Midnapur ,, 10, '91	Nil	Weather—cool and seasonable. Reaping of paddy nearly finished. *Rubbi* and indigo doing well. Prices of common rice :— Srs. Suddet ... ... 20 Contai ... ... 20 } per rupee.
5	Hooghly ,, 10, '91	Nil	Weather—foggy; getting warm. Rice harvest almost over. Sugarcane and *rubbi* crops doing well. Prices of common rice :— Srs. Sudder ... ... 14 Serampur ... ... 14 Jehanabad .. .. 16¾ } per rupee.
6	Howrah ,, 10, '91	Nil	Weather—seasonable. Harvesting of *amun* paddy nearly completed; outturn good. Common rice selling at 14½ seers per rupee.
	Central Districts.		
Presidency Divn. 7	24-Pergns. Jan. 10, '91	Nil	Weather—warm for the season and occasionally cloudy with morning fogs. Harvesting of *amun* going on with good outturn. *Rubbi* crops doing well. Prices stationary.
8	Nuddea ,, 10, '91	Nil	Weather—seasonable. Prospects of *rubbi* crops on the ground are fairly good.
9	Khoolna ,, 10, '91	Nil	Weather—seasonable. Harvesting of *amun* and transplantation of *boro* going on. Prospects of winter crops good, except in Satkhira where they have been damaged by locusts.
10	Jessore ,, 10, '91	Nil	Weather—seasonable. Harvesting of *amun* still going on. Prospects of *rubbi* crops good, but rain wanted. Price of rice stationary everywhere, except in Narail where it has fallen a little.
11	Moorshedabad ,, 10, '91	Nil	Weather—seasonable. Harvesting of *amun* nearly finished. *Rubbi* progressing well. *Kalai* being cut and gathered in Lalbagh.
Rajshahye Divn. 12	Dinagepur ,, 10, '91	Nil	Weather—bright and cold. Prospects of crops good. Price of rice at Sudder and Thakurgaon 19 and 18 seers per rupee respectively.
13	Rajshahye ,, 10, '91	Nil	Weather—seasonable. Winter rice is still being reaped. Sugarcane is being cut and pressed. *Kalai* being gathered. Condition of *rubbi* crops good. Ganja plants thriving tolerably well.
14	Rungpur ,, 10, '91	Nil	Weather—cold with heavy fogs. Tobacco looks promising. Mustard is ripe in some places. Potatoes being gathered. Harvesting of *amun* rice nearly over. Prospects generally good.
15	Bogra ,, 10, '91	Nil	Weather—seasonable. Harvest of *amun* nearly over; outturn estimated at 14 annas. Spring crops promise well. Common rice selling at 18 seers per rupee.
16	Pubna ,, 10, '91	Nil	Weather—seasonable. Rain still wanted for mustard which has been largely sown on flooded lands. Prospects of sugarcane fair, but the area of land planted is below the average. A flight of locusts reported from the south of Dulai thana.
17	Darjeeling ,, 10, '91	Nil	Weather cold and fair. Potatoes and *haimanti* paddy being harvested. Prospects good.
18	Julpigoree ,, 10, '91	Nil	Weather—cold and seasonable. Harvesting of *haimanti* paddy continues. Prospects of winter crops good. Prices stationary.

No.	District and date of return.	Rainfall at Sadder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concluded*.			
	Eastern Districts.		
Dacca Div. 19	Dacca Jan. 10, '91	Nil	Weather—seasonably cold and fine. *Aman* paddy nearly reaped. Cutting of sugarcane commenced. *Rubbi* crops thriving. Common rice is being sold at from 15 to 17 seers per rupee.
Dacca Div. 20	Furreedpur ,, 10, '91	Nil	Weather—seasonable. State of *rubbi* crops fair. Cultivation and sowing of *jali* (spring rice) paddy in progress. Common rice selling at from 16 to 19 seers per rupee.
Dacca Div. 21	Backergunge ,, 10, '91	Nil	Weather—seasonable. Prospects of crops fair. Common rice selling at from 14 to 17 seers per rupee.
Dacca Div. 22	Mymensingh ,, 10, '91	Nil	Weather—cold. Harvesting of winter rice and transplantation of *boro* paddy continue. Prospects good. Common rice sells at 16 seers per rupee.
Chittagong Divs. 23	Chittagong ,, 10, '91	Nil	Weather—seasonable. Harvesting of *aman* continues. Vegetable crops doing well. Prices stationary.
Chittagong Divs. 24	Noakholly ,, 10, '91	Nil	Weather—seasonable. Harvesting of *aman* almost completed. Prospects of *rubbi* crops good. Price of rice stationary.
Chittagong Divs. 25	Tipperah ,, 10, '91	Nil	Weather—seasonable. Cold-weather crops prospering. *Kalai* and *mung* being gathered. Sugarcane pressing has commenced.
Chittagong Divs. 26	Chittagong Hill Tracts. ,, 8, '91	Nil	Weather—very cold with heavy fogs up to 10 in the morning. Gathering of cotton and harvesting of late plough-paddy nearly over. Mustard in flower. Tobacco and chillies progressing. Pressing of sugarcane commenced in some places. Common rice is being sold at 13 seers 5¼ chittacks per rupee.
BEHAR.			
Patna Div. 27	Patna ,, 10, '91	Nil	Weather—cold. Harvesting of paddy almost completed; threshing going on. Prospects of *rubbi* and poppy continue good. Prices of food-grains almost stationary.
Patna Div. 28	Gya ,, 10, '91	Nil	Weather—cold and seasonable. Harvesting of paddy almost over, and threshing going on. Poppy and *rubbi* prospering. Prices falling.
Patna Div. 29	Shahabad ,, 10, '91	Nil	Weather—bright and rather warmer. Prospects of all crops continue good. Prices stationary.
Patna Div. 30	Durbhunga ,, 10, '91	Nil	Weather—bright and cool. Prospects of *rubbi* crops continue favourable; but a few showers would be beneficial. Tobacco and poppy going on well. Price of common rice stationary.
Patna Div. 31	Mozufferpur ,, 10, '91	Nil	Weather—cool. *Rubbi* crops doing well. Prospects of tobacco and poppy continue good.
Patna Div. 32	Sarun ,, 10, '91	Nil	Weather—cool with west wind. *Rubbi* and poppy crops continue to give excellent prospects. Pressing of sugarcane is in full swing; outturn estimated at 8 annas all over the district.
Patna Div. 33	Chumparun ,, 10, '91	Nil	Weather—cold; seasonable. Paddy harvest over. *Rubbi* and poppy in good condition; a little rain would do good. Common rice selling at 18 seers per rupee.
Bhagulpore Div. 34	Monghyr ,, 10, '91	Nil,	Weather—seasonable and cold. Prospects of *rubbi* crops and poppy continue good.
Bhagulpore Div. 35	Bhagulpur ,, 10, '91	Nil	Weather—seasonable. Prospects of *rubbi* crops are fairly good, but a little rain would do a great deal of good just now.
Bhagulpore Div. 36	Purneah ,, 10, '91	Nil	Weather—cold and foggy. *Aghani* harvesting nearly finished. *Rubbi* crops doing well.
Bhagulpore Div. 37	Maldah ,, 10, '91	Nil	Weather—cool and fine: occasionally cloudy. Harvesting of winter rice continues; outturn expected to be about 15 annas in average. *Kalai* is still being gathered. State of other crops good. Common rice selling at from 14 to 20 seers per rupee.
Bhagulpore Div. 38	Santhal Pergns. ,, 10, 91	Nil	Weather—getting perceptibly hotter. Harvesting of paddy completed in nearly all parts of the district. Prospect of *rubbi* crops everywhere favourable. Sugarcane being cut.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
ORISSA.				
Orissa Divn.	39	Cuttack Jan. 10, '91	Nil	Weather—seasonable. Harvesting of late winter rice going on. *Rubbi* crops doing well. Outturn of *laghu sarad* (early winter rice) is estimated at 12 annas.
	40	Pooree „ 8, '91	Nil	Weather—seasonable. Harvesting of *sarad* crop still going on. Cultivation of *mung*, cotton, and *dalua* crop in progress. Miscellaneous crops doing well.
	41	Balasore „ 10, '91	Nil	Weather—getting rather warm for the time of the year. Winter rice harvest continues. Prospects good.
CHOTA NAGPORE.				
South-West Frontier Agency.				
Chota Nagpore Divn.	42	Hazaribagh Jan. 10, '91	Nil	Weather—seasonable. Want of rain is felt everywhere for *rubbi* crops. Poppy reported to be doing well.
	43	Lohardugga „ 10, '91	Nil	Weather—cold. Harvesting of winter rice finished. Outturn in the head-quarters subdivision estimated at 16 annas. Rain wanted for *rubbi* crops.
	44	Singbhoom „ 10, '91	Nil	Weather—seasonable. Reaping of oilseeds and pulses continues with good results. *Rubbi* crops are favourably reported on. No change in price of rice.
	45	Manbhoom „ 10, '91	Nil	Weather—seasonable. Oilseeds being harvested; outturn 12 annas. *Rubbi* crops doing well. Rice sells at from 22 to 28 seers per rupee.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, DURING THE MONTH OF DECEMBER 1890.

THE normal meteorology in December of Bengal and Assam is usually very simple, and the north-east monsoon conditions are almost always present in a well-marked degree. Temperature generally steadily diminishes, and is decidedly low, while pressure increases and becomes very high; humidity remains low, and there is an almost complete absence of cloud. Rainfall is also usually entirely absent from the province, except when the normal conditions become almost reversed by the occurrence of barometric disturbances which appear over Northern India, and drift in a southerly or south-easterly direction. When such depressions pass through the province, the sky becomes heavily clouded, temperature usually increases, particularly at night, while pressure falls with the advance of the depression. If the depression is at all considerable, general light rain will also usually fall. It is from such actions as these that practically the whole of the rainfall of December in Bengal is in most years received, and from the nature of the case the occurrence of any rainfall at all in this month is uncertain, while its amount is always liable to considerable variation. A second class of disturbances may occur in the form of cyclonic storms in the Bay; but usually in December such storms are generated in the extreme south of the Bay, and they are rarely sufficiently large and intense to affect the weather in Bengal to any considerable extent. If, however, such a storm should happen to advance in a north-westerly direction into the northern half of the Bay, then again the normal weather conditions in Bengal will be practically reversed and will become similar to those described as occurring during the passage of the land-formed storms. In this case, however, the rainfall as a rule will be entirely confined to the southern districts of Bengal, and will not penetrate at all into such districts as Behar.

The average rainfall in Bengal is therefore small in all districts; it is slightly over half an inch in Orissa, about equal to a third of an inch in Chutia Nagpur and East Bengal, equal to about a quarter of an inch in South-West Bengal, and a fifth of an inch in South Behar; while in North Bengal and North Behar the average fall is even less than a fifth of an inch.

Meteorology of the month.—The chief features in the meteorology of December have been—

1. That although there have been several storms of the cold-weather type which have formed in North-Western India, none of them have been sufficiently intense to advance far in a south-easterly direction towards Bengal, and no storms of this type have passed through the province. The disturbed conditions brought about by these depressions, however, appear to have influenced the weather in Bengal slightly for a certain part of the month.

2. There has been a complete absence of anything like cyclonic storms in the Bay of Bengal, and the retreat of the south-west monsoon current down the Bay has been remarkably quiet.

3. The pressures recorded in Bengal for the month were at most stations slightly below the normal, but the defects are usually only a few thousandths of an inch. Over parts of North Bengal the defects are much more considerable, and apparently indicate a tendency towards the occurrence of low pressure over this area. The same tendency to decidedly low pressure is also noticeable at Sibsagar and Dhubri in Assam, though pressure at Silchar has been almost normal. Though the mean pressure has been nearly normal over the greater part of the province of Bengal, the changes of pressure during the month from day to day have been unusually large for the season.

4. The mean temperature for the month has been considerably in excess of the normal in all districts, except in East Bengal, where an almost normal temperature has prevailed, and in Assam, where a distinct defect has been registered. The districts of Chutia Nagpur and Orissa have recorded mean excess temperatures of about 3° and 4°.

5. The atmosphere has been decidedly more moist than usual, all stations showing an excess of humidity, the amounts ranging up to 13 per cent. at Jessore and 17 per cent. at Darjeeling.

6. Cloud proportion in Bengal has generally been below the normal, except in the hills, where Darjeeling shows a distinct excess. In Assam, both Dhubri and Silchar show cloud proportion much larger than usual, while at Sibsagar there has been a defect.

7. Owing to the practical absence in Bengal of any storms of either kind mentioned under 1 and 2, rainfall has been almost entirely absent from the province. North Bengal and North Behar have received no rain, and all other districts, except Orissa, have only received an average amount of a few hundredths of an inch. Owing, however, to a slight local disturbance, the rainfall in Orissa was rather larger in amount than elsewhere, and this district received an average fall of nearly half an inch.

The meteorological changes which have occurred during the month do not call for any lengthened review. The first week was characterised by an almost normal mean pressure, though the changes from day to day were rather large. Temperature changes were also rather large, and at one period excess amounts of from 5° to 7° were registered at the western stations. One or two slight showers of no practical importance were also reported at some of the stations in the Darjeeling Hills District during this period. In the second week the changes

of temperature and pressure from day to day were again rather larger than usual, and temperature in particular continued to increase, until by the 10th the mean temperature was in excess over a large part of the province, and particularly in the western districts, the excess ranging from about 5° at Calcutta to 11° at Ranchi and Chybassa. This abnormal temperature was probably connected with the advance of slightly disturbed conditions following after the occurrence of a barometric depression in North Western India, and a few showers of little importance were recorded at this time. Pressure was also falling rather rapidly, and a distinct feeble low-pressure area was developed in North Bengal on the 11th which partially filled up on the 12th. On the 13th, again, a rather rapid fall of pressure took place over Chutia Nagpur and parts of Central and South-West Bengal and Orissa, and these districts, together with parts of North Behar and North Bengal, were distinct areas of comparatively low pressure on this day. These abnormal conditions were followed by a series of local showers in Chutia Nagpur, South-West Bengal, and Orissa, when the falls were heaviest in Orissa, but the disturbed conditions soon passed away. The conditions of rather excessive temperature, however, in the western districts continued throughout the third week and the greater part of the fourth week, but on the 28th an extremely rapid fall of temperature took place, the decrease in the mean temperature averaging from about 5° to 8°, which caused temperature to become rather below the normal, and this comparatively low temperature continued till the close of the month. The cause probably of the rapid fall of temperature was to be found in a heavy fall of snow which had occurred along the line of the hills in North-Western India a few days previously, which fall of snow accompanied a well-defined barometric depression.

In the case of pressure during the second half of the month, the changes from day to day also continued rather large up to about the 28th, when a rapid increase took place, the increase at Purneah and Julpigoree on this day equalling 0·16 inch, and the slight depression which had previously existed in North Bengal completely filled up. From the 28th, however, the changes of pressure also became small, and pressure was nearly normal in amount and distribution. At this time also the northerly winds were very steady in direction and moderate in force, and from about the 28th conditions became normal for the cold weather and typical of the north-east monsoon up till the close of the month.

Pressure.—The mean pressure for the month has been almost normal at the majority of stations, and the variations do not usually exceed a few thousandths of an inch. In North Bengal, however, at Dinagepur, Rungpur, and Julpigoree, a mean defect of about 0·02 inch has been registered, while at Dhubri and Sibsagar the defect is from 0·03 to 0·04 inch. At Darjeeling also a defect of 0·036 inch is recorded, showing the distinct tendency towards low pressure which still exists in the north of the province.

Temperature.—The mean temperature of the month in Bengal has been 1·6° above the normal. In Orissa the excess has been 4°, in Chutia Nagpur 2·9°, and in South Behar 2·1.° In East Bengal there has been a defect of 0·2°, while in Assam the defect has been 1·1°.

The general variation of temperature from the normal for the month is best shown by the following table, which gives the variation of the average maximum, minimum, and mean temperatures at nine typical stations in different districts in the province from the normal value week by week throughout the month :—

Stations.	Week ending 5th December 1890.			Week ending 12th December 1890.			Week ending 19th December 1890.			Week ending 26th December 1890.			8 days ending 3rd January 1891.

Rainfall—Has been almost absent throughout the month except for a day or two about the 13th to the 15th. The only falls of importance occurred in Orissa, which has received an average amount of 0·44 inch In South-West and East Bengal and in Chutia Nagpur the falls average rather less than a tenth of an inch, but elsewhere it has been practically rainless. The falls in all cases have therefore been considerably below the normal amounts.

The following table gives in a condensed form the summary of the rainfall information in Bengal for the whole year. It gives a comparison between the actual monthly and total rainfall of the year, with the normal values in each of the seven meteorological divisions of Bengal, the actual falls being expressed as percentages of the normal amounts. From these figures it will be seen that all the districts except Chutia Nagpur and East Bengal have received good falls during the year, but even in these districts the defects are smaller than 10 per cent. :—

Meteorological Divisions	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December	Actual rainfall of the year 1890 expressed as a percentage of the normal fall for the period.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≡, fog.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Calcutta, the 12th January 1891.

* Means of 5 days. | † Means of 6 days.

Explanations.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last T[illegible] *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Saturday, the 10th of January 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	Rainfall. Since 1st of month. Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, *the 13th January* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING SATURDAY THE 10TH OF JANUARY 1891.

For the first five days of the week under review the meteorological changes from day to day were small and unimportant. Pressure fell slowly on the 4th and 5th, rose on the 6th, and again fell slowly on the 7th and 8th; but even on this day the deficiency from the normal was small, and scarcely amounted to more than a twentieth of an inch, though the deficiency was largest in North Bengal, which was again, as in the previous week, an area of comparatively low pressure. Temperature, which was very distinctly below the normal at the close of the previous week, rose steadily, but by small amounts, during the first five days of the present week, and on the 8th the mean temperature registered was about 2° above the normal. For some days previous to the 8th, however, a barometric depression had existed over North-Western India, which was gradually travelling in a south-easterly direction, though it was at the same time becoming more feeble and diffused. It began apparently to spread over Behar and Bengal during the 8th, and on the morning of the 9th a general fall of pressure averaging about a tenth of an inch was reported in Bengal, and pressure was below the normal by about 0·15 inch, the defect being largest in Behar and North Bengal. This depression in passing over Bengal caused a partial reversion of the wind directions. For the first five days of the week a steady north-westerly and northerly current had been blowing, but on the 9th a many stations over the southern half of the province winds became southerly and south-westerly. Skies also clouded over to a certain extent on this day, and these southerly winds also brought up a large amount of moisture, and humidity therefore became decidedly high The disturbance was, however, not sufficiently important to produce any rainfall even at the stations in the hills, but the effects of the depression were clearly seen in the rapid rise of temperature which took place on the 9th, the mean temperature of the 24 hours previously, as reported on the morning of the 10th, being about 3°, or in some cases even 4° higher than on the day previous. On the morning of the 10th, therefore, temperature was generally about 5° in excess of the normal On the 10th also a rather rapid rise of pressure had taken place, amounting to about 0 08 inch, but the effects of the depression had not entirely passed away, as southerly winds were still reported at several stations, and pressure was also about 0 06 inch below the normal. During the first five days of the week, therefore, conditions were fairly normal for the season, but the weather during the last two days was distinctly abnormal, and was characterised by unusually high humidity and temperature, though the conditions at the close of the week were slowly reverting to the cold weather type.

Pressure.—Owing to the passage of the depression through the province, the mean pressure for the week has been distinctly below the normal. The defects have usually equalled about 0·03 to 0·04 inch, but they are larger than this in North Bengal, where at Rungpore and Julpigoree they exceed 0 06 inch.

Temperature—Has risen pretty steadily throughout the week, and the mean temperature of the whole province for the seven days has been 1·1° in excess of the normal. All districts except Orissa and Chutia Nagpur show a fairly equal excess, but in Orissa it only equals 0·2°, and in Chutia Nagpur it is as large as 2°.

The distribution of temperature during the week and its variation from the normal are best seen in the table below, where the average maximum, minimum, and mean temperatures for the period at nine typical stations in different districts of the province are compared with the normal values of the same periods :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 10th of January 1891.

	Normal mean maximum temperature for the week ending 10th January.	Actual mean maximum temperature for the week ending 10th January 1891.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 10th January.	Actual mean minimum temperature for the week ending 10th January 1891.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 10th January.	Actual mean daily temperature for the week ending 10th January 1891.	Variation of actual mean from the normal.

Meteorological Reporter to the Govt. of India.

Meteorological Office, India; *The 12th January* 1891.

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 27th December 1890.

Births.

The births registered during the week ending with Saturday, the 27th December 1890, in twenty-seven principal towns of Bengal, correspond to an annual rate of 23·5 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is ·7 below the average rate of the corresponding week of the past five years, and is also below the rate of the corresponding week of any of the past five years except 1887 ; *vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885-89.	1890.
Ratio of births per 1,000 of the population per annum	23·7	20·7	23·0	23·6	24·0	24·2	23·5

The births registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

Towns.	Weeks ending— 6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.	Towns.	Weeks ending— 6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.
Burdwan	44·2	13·7	13·7	13·7	Naraingunj	74·5	73·7	53·8	37·3
Midnapore	29·4	33·5	31·7	23·2	Chittagong	18·8	21·1	9·4	2·3
Hughli and Chinsurah	29·5	39·4	24·6	36·1	Comillah	50·1	34·7	23·1	23·1
Serampore	25·5	41·3	21·6	19·6	Patna City	15·3	14·6	13·3	14·0
Utterpara	37·7	47·2	28·3	18·9	Gya	27·3	36·9	19·1	14·3
Howrah	39·9	36·6	36·6	35·5	Arrah	20·9	13·2	15·6	47·9
Bali	35·1	45·6	14·0	24·6	Mozufferpore	31·6	20·7	18·2	24·3
Krishnagar	13·2	15·1	13·2	13·2	Durbhanga	44·1	25·2	39·3	32·3
Ranaghat	6·0	17·9	24·0	41·9	Chupra	35·2	29·2	46·3	34·2
Santipore	17·5	23·8	29·8	31·5	Bhagulpore	31·7	39·8	41·6	11·8
Jessore	...	..	36·7	34·7	Monghyr	41·6	37·1	32·5	24·5
Rampore Beauleah	44·7	26·9	21·0	34·2	Purneah	17·3	20·8	3·5	17·3
Darjiling	20·6	20·6	37·0	7·4	Poori	33·6	18·0	14·7	14·7
Dacca	42·8	35·0	23·1	23·7	Total ...	30·5	28·2	24·8	23·5

It will be seen that last week the highest birth-rate was returned from Arrah (47·9) and the lowest from Chittagong (2 3).

Deaths.

The deaths registered during the week under review correspond to an annual rate of 25·5 per 1,000 of the population. The rate of the week is 2·3 below the average rate of the corresponding week of the past five years, and is also below the rate of the corresponding week of any of the past five years except 1887 and 1888 ; *vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885-89.	1890.
Ratio of deaths per 1,000 of the population per annum	30·3	34·7	21·9	23·9	27·9	27·8	25 5

The deaths registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

Towns.	Weeks ending— 6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.	Towns.	Weeks ending— 6th Dec. 1890.	13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.
Burdwan	27·3	44·2	33·6	21·4	Naraingunj	120·1	128·3	120·1	29·0
Midnapore	29·4	52·7	18·6	23·2	Chittagong	28·2	24·2	25·8	9·4
Hughli and Chinsurah	29·5	30·1	43·7	39·4	Comillah	30·8	42·4	34·7	38·5
Serampore	68·7	74·0	74·6	66·7	Patna City	11·0	16·6	11·0	11·0
Utterpara	66·1	47·2	66·1	28·3	Gya	62·8	47·1	32·1	31·4
Howrah	44·7	42·4	47·0	38·9	Arrah	23·9	7·2	9·6	10·6
Bali	21·1	70·2	28·1	24·6	Mozufferpore	23·1	15·8	20·7	24·3
Krishnagar	18·9	24 6	5·7	37·8	Durbhanga	26 0	2.·6	24·4	31·5
Ranaghat	12·0	53·9	6·0	47 9	Chupra	27·2	19·1	17·1	10·1
Santipore	19·3	7·0	7·0.	8·5	Bhagulpore	23·5	10·0	16·4	2·7
Jessore	18·4	30·6	67·3	86·7	Monghyr	28·0	25·3	22·8	17·2
Rampore Beauleah	31·5	47·3	59·4	26·3	Purneah	13·9	13·9	13·9	10·4
Darjiling	51·9	7·4	51·9	14·8	Poori	73 4	42·0	56·6	60 8
Dacca	31·1	36·3	43·2	43·2	Total ...	31·5	31·5	28·3	25·5

It will be seen that last week the highest mortality occurred in the town of Jessore (85·7) and the lowest in Bhagulpore (2·7).

Measured by last week's mortality, the highest annual death-rates from the several registered death-causes occurred in the following towns:—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other causes.*	Ratio per mille.
Jessore	... 49·0	Jessore	... 36·7	Poori	... 18·9	Ranaghat	... 28·9
Naraingunj	... 20·7	Krishnagar	... 26·5	Serampore	... 11·8	Poori	... 18·9
Serampore	... 19·6	Durbhanga	... 25·2			Serampore	... 15·7
Howrah	.. 16·6	Comillah	.. 23·1			Dacca	... 14·9
Dacca	... 15·6	Rampore Beauleah	21·0			Gya	.. 12·3
Hughli and Chinsurah	... 11·5					Midnapore	... 10·8

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 4·9 from cholera, against 4·8 per 1,000 in the preceding week; 3 from small-pox, against 9; 9·9 from fever, against 10·5; 3·1 from bowel-complaints, against 3·5; ·7 from injury, against ·3; and 6·5 from other causes, against 8·2 in the preceding week.

The mortality of last week according to *Sex*, *Class* and *Age* was as follows:—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males	28·0	Hindus	... 25·5	Under 1 year	... 174·1
Females	22·7	Mahomedans	... 26·1	1 and under 5 years	... 30·2
Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population...	123			5 „ 10 „	... 15·5
				10 „ 15 „	... 15·1
				15 „ 20 „	... 18·6
				20 „ 30 „	... 13·5
				30 „ 40 „	... 19·3
				40 „ 50 „	... 20·8
				50 „ 60 „	... 22·8
				60 years and upwards	... 68·8

Detailed information regarding the vital statistics of the twenty-seven principal towns dealt with in the above review will be found in the statement appended.

W. H. Gregg, *Dip. Publ. Health, Camb.*,

The 12th January 1891. *Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending with Saturday, the 27th December 1890.

Comparative statement of the principal commodities carried over the Bengal Central Railway during the month of October 1890.

Increases. Tons.

Betel-nuts 354
From Bengal Central Flotilla stations.

Decreases.

Jute, unscrewed 1,212

Benapol, Jadhabpore Nabharan, Jhikaragachi show small decreases, and the decrease from Khoolna was 23,575 maunds, said to be due to the dullness of the market.

F. P. Quinlan,
Examiner of Accounts.

Calcutta, *the 9th January* 1891.

NALHATI STATE RAILWAY.

Statement showing Increases and Decreases in tonnage of Staples carried over the Nalhati State Railway during the month of November 1890, *as compared with the same month of the previous year.*

Increase.

	Tons.
Grains—	
(2) Rice	169
Owing to greater export from intermediate stations.	
(3) Gram	23
Owing to higher rate in Calcutta	
(4) Others	76
Owing to greater despatch of paddy.	
Jute—	
(1) Raw	205
This traffic is carried this year by rail by Mr. Yule who has opened a firm at Goaganj.	
Metals—	
(4) Others	10
Due to greater import this year.	
Sugar—	
(1) Drained	13
(2) Undrained	37
Due to greater import owing to higher market rate.	

Decrease.

Coal	897
This increase is due to increase during last month.	
Metals—	
(2) Iron	10
Less imported.	
Railway plant and rolling stock	11
Due to less materials carried during the month.	
Salt	15
Imported by boat.	

R. G. Mookerjee,
Manager, Nalhati State Railway.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 5A.

GENERAL.—*The 29th December* 1890.—Covenanted Deputy Collector Mr. E. H. C. Walsh is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Bhagulpur.

The 14th January 1891.—Babu Dina Nath De, Deputy Magistrate and Deputy Collector, on leave, is posted to the district of Midnapur.

Mr. J. C. Williamson, Deputy Magistrate and Deputy Collector, Murshidabad, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in that district.

The 15th January 1891.—Mr. N. Warde-Jones, Deputy Magistrate and Deputy Collector, Cuttack, is allowed leave for one month and twenty-eight days, under articles 266 and 369 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 27th March 1890.

Babu Rai Charan Ghosh, Officiating Personal Assistant to the Commissioner, Chota Nagpur Division, is confirmed in that appointment.

The 17th January 1891.—Babu Nagendra Nath Gupta, Deputy Magistrate and Deputy Collector, Howrah, is posted temporarily to Cutwa in the district of Burdwan.

Mr L. P. Shirres, C.S., reported his departure from India on furlough on the 3rd January 1891.

The 20th January 1891.—Mr. A. W. B. Power, Magistrate and Collector, Chumparun, is allowed furlough for nine months, under article 319(*b*) of the Civil Service Regulations, with effect from the 4th February 1891, or such subsequent date as he may avail himself of it.

POLICE.—*The 15th January* 1891.—Mr. F. L. Halliday, Assistant Superintendent of Police, Sasseram, Shahabad, is appointed to act as Deputy Commissioner of Police, Calcutta, during the absence, on special duty, of Mr. A. B. Barnard, or until further orders.

The 19th January 1891.—Mr. R. H. S. Hutchinson, Officiating Assistant Superintendent of Police, Patna, is transferred to the district of the Chittagong Hill Tracts.

Babu Rash Behari Biswas is appointed to act, until further orders, as an Assistant Superintendent of Police, and is posted to Midnapur.

The 20th January 1891.—Mr. W. R. Lamb, Superintendent of the Second Division, Town Police, Calcutta, is allowed privilege leave for one month, with effect from the 7th January 1891.

Mr. E. Robertson, Superintendent of the Detective Department, is appointed to have charge of the duties of the Superintendent, Second Division, Town Police, Calcutta, in addition to his own, during the absence, on leave, of Mr. W. R. Lamb, or until further orders.

REGISTRATION.—*The 13th January* 1891.—Babu Chandi Charan Chatterjee, Officiating Deputy Magistrate and Deputy Collector, Rajshahye, is also appointed to be Sadr Sub-Registrar of that district, with effect from the 29th April 1890.

EDUCATION.—*The 20th January* 1891.—Mr. R. W. F. Shaw, M.A., is appointed to be Head Master and Superintendent of the Christian Mess for the Seebpore Civil Engineering College.

ECCLESIASTICAL.—*The 20th January* 1891.—The Revd. W. H. Bray is appointed to be Chaplain of Darjeeling, with effect from the 15th instant, or from such date as he may receive charge of his appointment.

MEDICAL.—*The 15th January* 1891.—The services of Apothecary G. Murphy, Resident Medical Officer, Eden Sanitarium, Darjeeling, are replaced at the disposal of the Government of India in the Home Department.

The 17th January 1891.—Assistant Surgeon Brojo Nath Shaha, in medical charge of the Chittagong Hill Tracts, is allowed leave for two months, under article 291 of the Civil Service Regulations, with effect from the date on which he availed himself of it.

Assistant Surgeon Kali Nath Banerjee is appointed to have medical charge of the Chittagong Hill Tracts, during the absence, on leave, of Assistant Surgeon Brojo Nath Shaha, or until further orders, with effect from the date on which he joined his appointment.

The 19th January 1891.—Assistant Apothecary J. Crabbe, Presidency General Hospital, acted as Medical Officer at the Sandheads from the forenoon of the 29th October to the afternoon of the 13th December 1890, *vice* Apothecary W. Mullins, on leave.

The following notifications are republished from the *Assam Gazette*:—

No. 114*G.*—*The 6th January* 1891.—Mr. J. F. Needham, Assistant Political Officer, Sadiya, having at Dibrugarh, on the 11th December 1890, passed an examination in the Khámpti language according to the tests laid down in Rule XLVII of the rules for the encouragement of the study of frontier languages, is presented with the authorized reward of Rs. 1,000.

REVISED.

No. 153*G.*—*The 8th January* 1891.—On the report of the Central Examination Committee, the Chief Commissioner directs the publication, for general information, of the results of the half-yearly examination of Assistant Commissioners, Extra Assistant Commissioners, and others, held on the 17th, 18th, 19th and 20th November 1890:—

NOTE.—(1) Assistant Commissioners of the third grade, in addition to the subjects shown in the last two columns above, are liable to pass by the higher standard in their second language within one year of being posted to a district where it is the vernacular language.

(2). The last two columns are not meant to embody an exhaustive list of all the subjects and standards in which officers are liable to pass, and do not relieve any officer liable to examination, whether mentioned in this notification or not, from the duty of ascertaining for himself the subjects and standards in which he is required to pass.

No. 166*G* —*The 9th January* 1891.—The following is published for information :—

The undermentioned officer has been granted by Her Majesty's Secretary of State for India extension of leave as advised in list dated 13th December 1890 :—

Extention of leave.

Name.	Service.	Appointment.	Period and nature of extension.
Mr. H. C. Williams ...	C S.	Deputy Commissioner, Assam ...	Eight months' furlough.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January, 1891.—Under the powers vested in him by section 3 of Act V (B C.) of 1875, the Lieutenant-Governor is pleased to order that a survey shall be made, and that the boundaries of estates, tenures, mouzahs and fields shall be demarcated, of the lands comprised in the Kumira, Mirkaserai and Sudder Police thanas, in the district of Chittagong.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 19th January, 1891 —With reference to the notification of this date, published at page 123 of the *Calcutta Gazette* of 21st January, 1891, under section 3 of Act V (B C) of 1875, regarding the survey of lands in the Kumira, Mirkaserai and Sudder police thanas in the Chittagong district the Lieutenant-Governor is pleased to appoint Mr. F. A. Slack, Settlement Officer, and Mr. F. Grant, Officiating Deputy Superintendent of Survey, to be Superintendents of Survey, and Mr. W. J. O. Sullivan, Surveyor, third class, and Mr. J. McHatton, Surveyor, fourth class, to be Assistant Superintendents of Survey under section 4 of the same Act for the purposes of the said survey.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 14th January, 1891.—In exercise of the power conferred upon him by section 3, Regulation III of 1872, the Lieutenant-Governor directs that Act XVI of 1890, an Act to amend the Births, Deaths and Marriage Registration Act, 1886, shall have force and effect in the Sonthal Pergunnahs.

P. NOLAN,
Secretary to the Govt. of Bengal.

The 17th January 1891.—The following notification is published for general information in supersession of the notification of the 2nd December 1890, which was published at page 1136 of Part I of the *Calcutta Gazette* of the 3rd idem:—

NOTIFICATION.

The Lieutenant-Governor is pleased, under section 18 of Act XXV of 1867, as amended by Act X of 1890, to appoint Babu Hara Prosad Shastri, M. A., Librarian of the Bengal Library, to be the officer to keep the catalogue of all books delivered under section 9 of the Act above quoted.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 15th January 1891.—Babu Jnanendra Nath Lahiry, Deputy Collector, is appointed Deputy Collector of Income-tax, in the district of Furreedpore, *vice* Babu Purna Chandra Roy, and under section 40 of Act II of 1886 is vested with the powers of a Collector under the Act.

H. J. S. COTTON,
Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 6A.

The 13th January 1891.—Mr. H. G. W. Herron, Assistant Magistrate and Collector of Birbhum, is vested, under section 32 of Act X of 1882, with the power to pass sentences of whipping.

The Lieutenant-Governor accepts the resignation tendered by Babu Umesh Chunder Mondal of his appointment as an Honorary Magistrate of the Municipal Bench, Hughli.

The 15th January 1891.—Mr. [illegible]. L. Halliday, Officiating Deputy Commissioner of Police, Calcutta, is appointed, under the provisions of section 22, Act X of 1882, to act as a Justice of the Peace within the territories under the Lieutenant-Governor's control, and is vested with the powers of a Magistrate of the first class to be exercised within the district of the 24-Pergunnahs.

The 20th January 1891.—Babu Mohendra Nath Das, Munsif of South Raojan, in the district of Chittagong, on leave, is appointed to act as a Munsif in the district of Sarun, to be ordinarily stationed at Sewan, and is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 50, within the local limits of the Sewan Munsifi, *vice* Babu Nilmadhub De, deceased.

Babu Sasi Bhusan Sen, B.L., is appointed to act as a Munsif in Chota Nagpur, to be ordinarily stationed at Lohardugga, during the absence, on deputation, of Babu Gopal Chunder Bose, or until further orders, on being relieved of his present appointment as Officiating Munsif of Dacca.

Babu Gobinda Chunder Dutt is appointed to be an Honorary Magistrate of the Independent Bench at Diamond Harbour, in the district of the 24-Pergunnahs, and is vested with the powers of a Magistrate of the third class.

Babu Haro Govind Mukerjee, Officiating Subordinate Judge of Dinajpur, is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 500, within the local limits of the Sadr Munsifi of the district of Dinajpur.

The undermentioned gentlemen are appointed to be Honorary Magistrates of the Independent and Municipal Benches at Durbhunga, in the district of Durbhunga, and are vested with the powers of a Magistrate of the third class :—

Maulvi Mahomed Naki Khan. | Babu Dijendra Nath Neogy.

Maulvi Hamiduddin, Munsif of Arrareah, in the district of Purneah, is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 50, within the local limits of the Arrareah Munsifi.

GRANT OF LEAVE TO MUNSIFS.—*The 13th January* 1891.—Babu Jogendra Nath Ghose, Munsif of Jessore, is allowed leave for one month, viz., six days under article 309 of the Civil Service Regulations, and the remaining period under article 306(*b*) of the same Regulations, with effect from the 6th January 1891, or from the date on which he is relieved.

The 16th January 1891.—Babu Upendra Nath Bose, Munsif of Chupra, in the district of Sarun, is allowed leave for one month and a half, viz., nine days under article 309 of the Civil Service Regulations, and the remaining period under article 306(*b*) of the same Regulations, with effect from the 24th November 1890, in supersession of the leave granted to him on the 9th December 1890.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 14th January 1891.—It is hereby notified for general information that the Lieutenant-Governor sanctions the establishment, with effect from the 1st June 1890, of a new outpost at Itahar, within the jurisdiction of the Kaliyaganj police-station, in the district of Dinajpur.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 14th January 1891.—It is hereby notified for general information that the Lieutenant-Governor sanctions the establishment, with effect from the 1st June 1890, of a new outpost at Khansama, within the jurisdiction of the Birganj police-station, in the district of Dinajpur.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 20th January 1891.—Under the provision of section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor sanctions the following revised jurisdictions of the Registration Sub-districts of Sealdah and Cossipore, in the district of the 24-Pergunnahs :—

1. The Registration Sub-district of Sealdah will henceforth comprise thana Bhangor, the Manicktollah Municipality, and the portion of the Calcutta Municipality included between the Circular Road and the Baliaghata Canals and the Baligunge Road.

2. The Registration Sub-district of Cossipore will henceforth comprise thana Baranagore and the Cossipore-Chitpore Municipality.

This notification will take effect on and from the 1st February 1891.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

The 14th January 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a building for police purposes at Khansama, in mouza Gobindapur, pergunna Panjra, zilla Dinajpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 8 cottahs and 10 chittacks of standard measurement, bounded on the north by a mangoe garden belonging to the proprietors; on the east by mal patit land in mouza Gobindapur; on the south by the kachahri house of the proprietors; and on the west by a public road, is required within the aforesaid mouza.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

The 14th January 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a police outpost building at Itahar, pergunnah Kharba, zilla Dinajpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 bighas 8 cottahs and 7 chittacks of standard measurement, bounded on the north by the proprietor's mal land and jot land of Jageswar Das; on the west by Porsha village; on the south by jot land of Pochu Pali; and on the east by mal land and jot land of Gadra Hari, is required within the aforesaid village of Itahar.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 14th January 1891.

No. 19.—Mr. H. F. B. Frost, Executive Engineer, who reported his arrival in Calcutta on the afternoon of 10th instant, on return from furlough, is temporarily attached to the office of the Superintending Engineer of the South-Western Circle.

The 20th January 1891.

No. 22.—Mr. E. J. Martin, Chief Engineer and Joint-Secretary to Government, is granted furlough for four months and two days, with effect from the 8th February 1891, or such subsequent date as he may avail himself of it.

IRRIGATION.

The 20th January 1891.

No. 23.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Atrona distributary from the 6th mile 40th chain to the 7th mile 5th chain, it is hereby declared that for the above purpose two pieces of lands, measuring about 1,935 feet in length and varying from 20 to 85 feet in width, and containing an area of 1 acre and ½ pole, more or less, situated in mouzahs Dharumpura and Chilhar, pergunnah Chowsa, are required in the district of Shahabad.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 24—*Notification.*—It is hereby notified that the Bhangore khal on the Eastern Canals will be closed to traffic for silt clearance from the 2nd February 1891 for about six weeks.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

IRRIGATION.

The 13th January 1891.

No. 15.—*Erratum.*—In Declaration No. 457, dated 22nd December 1890, which was published at page 1237, Part I of the *Calcutta Gazette* of the 24th idem, *read* "Branch D_1" *for* "Branch D."

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

[Seventh Publication]

REVISED WATER-RATE RULES FOR THE SONE CANALS.

Notification No. 435, *dated the 9th December* 1890.

IN exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following revised rules for the Sone Canals, in supersession of those passed in Notification No. 148 of the 20th June 1881, which were published in the *Calcutta Gazette* of the 22nd June 1881, which, from the date of the publication of these rules, shall cease to have effect, except in so far as they determine the water-rates to be assessed for water supplied under current permits and the date on which they become due and payable.

J. M. MCNEILE, *Col.*, R E,
Secretary to the Government of Bengal.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76(*c*), or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2 Except as provided in the Act and these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub-divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer, and the Sub-divisional and Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the kharif season—(*a*) for annual leases; (*b*) for leases for a term of three or seven years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will be supplied during the *rabi* season at a lower rate than that ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in Rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1890, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6 No village channel not entered in the register made in compliance with the rule immediately preceding as existing on the 1st of April 1890 shall be added thereto except at the written request of the owners thereof. But water shall not be supplied for irrigation through any channel other than a registered village channel.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna and shall not exceed four annas per bigah assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than Rules 18 or 19 following the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of three or seven year leases.

IX.—Assisting the Collector by pointing out the residences of the persons assessed and identifying them and giving such general information as may be necessary regarding the persons assessed.

10. In the case of leases for the season the remuneration for performing the duties mentioned in clauses I to VII of the rule immediately preceding shall be 2 per cent. on the assessments which shall be paid by the Canal Officer, and for performing the duty mentioned in clause IX 1 per cent. on the collections, which shall be paid by the Collector.

11. In the case of leases for three or seven years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to VII of Rule 9 shall be 2 per cent. yearly on the assessments of the year, which shall be paid by the Canal Officer, and 2 per cent. yearly on the realizations for performing those mentioned in clauses VIII and IX, which shall be paid by the Collector.

12. The *lambardar* will be appointed by the Sub-divisional Officer in consultation with the applicants for the lease and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for three or seven years the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14. The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-divisional Canal Officer, and shall receive 3 per cent. on the assessment in place of 2 per cent. prescribed in Rules 10 and 11.

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer or the Collector may retrench the whole or any part of the fees payable by them respectively in the event of this condition not being complied with. In calculating the fees payable fractions of an anna will be excluded.

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (schedule No. I), or upon *kharif* season leases (schedule No. II), shall be subject to the following conditions:—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether or no water is required.

III.—The applications may be for a term of three or seven years, or for the season only—

(*a*)—In the case of applications for the season only the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application which must be signed by or by authority of the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement.

(*b*)—In the case of applications for a term of three or seven years a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for three or seven years being issued.

(*c*)—Notice that a permit for three or seven years is required must be given by the 1st of April, and no permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following. An application for a permit for the season must be filed by the 1st of September.

IV.—With the special sanction of the Superintending Canal Officer—

(*a*) Existing five-year leases may be cancelled and included in an application for a seven or three year lease under the preceding rules.

(*b*) An application may be made for an addition to a seven or three year lease, which, if granted, shall be considered as part of the original lease and terminate therewith.

17. Applications for irrigation in the *rabi* season, 25th October to the 25th March, and the hot-weather season, 25th March to the 25th June, will be subject to the following conditions—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by or by authority of the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated.

18. Applications for the supply of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix VI signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of September to the 31st of October only.

19. Applications for the supply of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VII. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS.

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term 'irrigating' includes the right to drain (*nigar*) the land at the proper season of the year.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 8.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in the application.

NOTE—Where these conditions are infringed appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (schedule No. I) or upon *kharif* season leases (schedule No. II) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16*e* when a permit for a three or seven year lease is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for three or seven years the block must be not less than 50 bigahs in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for seven years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is 'known from the experience of previous years' irrigation that a sufficient supply of water is always available and that the quantity required is not excessive.

III.—Permits for three years will be issued on the same conditions as those for seven, except that, as the term for which Government is bound is shorter somewhat less favourable conditions as to situation, soil, and the quantity of water required will be accepted.

IV.—A permit for a three or seven years' lease may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

V.—Permits for the season will be issued on the same conditions as those for three years, the essential difference being in the duration of the lease and the later period up to which applications are received.

23. Permits for irrigation in the *rabi* and hot-weather seasons, 25th October to 25th June, will be issued on the following conditions:—

I.—Water-rates will be levied on the area actually irrigated, and not on that specified on the application.

II.—The applicants will undertake to give the *lambardar* notice to close the outlet so soon as the area requiring irrigation has received a sufficient supply of water.

III.—The applicants will undertake to, as far as is practicable, prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any three or seven years' lease if on the 1st of June of any year water-rates are in arrears by more than half a year's demand.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a three or seven years' lease if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration to the Superintending Canal Officer.

II.—The Sub-divisional Canal Officer may, by written order under section 70*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the sub-divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is at the time the outlet is closed being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closure shall not, in the *kharif* season, exceed five days after ten days of consecutive supply and shall be notified to *lambardars*.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29. The Canal Officer will be responsible that the supply through the outlet is in the *kharif* season maintained in accordance with the entries on the permits, and in the *rabi* season in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or Subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has under rule 14 been given charge of the outlet to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared, under the supervision and signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under three or seven years' leases shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *karcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parchas*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hot-weather or rabi season the following procedure shall be followed :—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khusrah* shall be signed by both the amin and the *lambardar* who shall be present at the measurements. If the *lambardar* is not present, the *amin* shall arrange that at least two respectable cultivators shall be present and enter their names in the *khusrah* prepared by him. The *lambardar* shall be permitted to take a copy of the *khusrah*.

II.—When the measurement is completed the *khusrah* shall be forwarded to the Sub-divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *silladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present or declines to grant a receipt for the same in the prescribed form, the Sub-divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding Rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half an anna at all canal offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under Rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries, which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for three or seven years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act shall be at the rates shown in the schedule following or such lower rate as the Divisional Canal Officer may fix :—

	Flow or lift.	
	Rate per bigah.	Rate per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For water used in an unauthorized manner	5 0 0	0 8 0

Provided that in the *kharif* season, 25th June to the 25th October, no water-rates under this section shall be levied where the unauthorized irrigation is effected with water taken from land included in a lease, but irrigation effected by cutting a village channel or committing a criminal offence the perpetrator of which cannot be discovered may be assessed with the previous sanction of the Collector, which must be obtained before any detailed measurement of the land irrigated without authority is made. *Subject to the proviso regarding irrigation in the kharif season mentioned above, persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates at the rate imposed by this rule.*

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under section 78, 79, or 80 of the Act shall be due and payable on the dates mentioned below:—

Seven-year leases ..	First moiety	15th December.
Three-year leases ...	Second moiety	1st March.
Season or annual leases—		
Bhadoi and crops classed as *bhadoi*		1st November.
Rice and sugarcane waterings, from the 25th June to the 25th October		15th December.
Rabi and crops classed as *rabi*, including sugarcane waterings, from the 25th October to the 25th March ...		1st April.
Hot-weather rate		1st July.
Sugarcane { First moiety		15th December.
Sugarcane { Second moiety		15th February.
Assessments under section 79 of the Act or under Rule 40		On receipt of the demand statement by the Collector.
Assessments under section 80 of the Act		
Water supplied by volume between the 1st of September and 31st of October		One moiety before the outlet is opened; the other moiety 15th December.
Water supplied by volume to fill *aharas*		The whole amount before the outlet is opened.

The Divisional Canal Officer will endeavour to forward as many of the demand statements as possible to the Collector fifteen days before the dates fixed for payment, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VIII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein owing to a request made by a *bhaoli* owner under this rule being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlord, and in other cases any influence which the Collector may possess should be used to make the zemindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76*b* shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in Rule 34 and twenty days before the crop is cut.

47. Before awarding compensation under section 76*c*, the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head extraordinary, so much of the water-rates as are in excess of ten annas a bigah. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remissions under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the kharif season for three or seven years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. The contractor shall as such be responsible for the performance of the duties devolving on the *lambardar* under these rules, but may appoint a *lambardar*, whose name shall be communicated to the Sub-divisional Canal Officer and whose removal, for good cause to be recorded in writing, may be ordered by the Divisional Canal Officer. He shall, whether he appoints a substitute to act as *lambardar* or not, be responsible for reporting all changes in the occupiers of lands included in the lease to the Collector.

55. The contractor as *lambardar* shall be entitled to remuneration at the rate of 5 per cent. on the assessments subject to the provisions contained in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-divisional Canal Officer shall proceed to appoint a *lambardar* under Rule 12 and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at least before the 25th of June next following shall be given, and the removal shall take effect from that date.

59 With the written approval of the Superintending Canal Officer a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collections of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *bhaoli*, regarding which the provisions contained in Rule 43 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for three or seven years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be sent to the Divisional Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

65. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others.

66. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing or other purpose charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Engineer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant-Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fee shall be disbursed at the time of attendance as far as practicable by the Sub-divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 12, 43, 52, 53, 54, 57, 59, 61, 62 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under Rules 38, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

REVISED RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

IN exercise of the powers conferred on him by section 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to fix the following rates to be charged for water supplied for irrigation from the Sone Canals:—

1. Schedules I and IV following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1891.

2. Schedule II following will be in force in respect to permits issued for the irrigation of land after the 25th June 1891.

3. Schedule III following will be in force in respect to permits issued for the irrigation of land after the 15th October 1890.

4. Schedule V following will be in force in respect to permits issued for the irrigation of land after the 1st January 1891.

5. Schedule VI following will be in force in respect to water supplied after the 1st of September 1890.

6. Schedule VII following will be in force in respect to water supplied after the 1st of November 1890.

7. For permits issued prior to the dates mentioned above, the rates at present in force enumerated in notification No. 148 of the 20th June 1881, published in the *Calcutta Gazette* of the 22nd June 1881, will be charged.

8. SCHEDULE No. I.

Leases for a term of years.

For water supplied between the 25th of June of one year and the 25th March of the next.	Flow or lift.	
	Rate per bigah.	Rate per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For leases for seven years, all crops	1 4 0	0 2 0
For leases for three years, all crops	1 9 0	0 2 6

9. SCHEDULE No. II.

Season Leases (Kharif).

Name of crop.	Date of supply.	Flow or lift.	
		Rate per bigah.	Rate per tenth of a bigah.
		Rs. A. P.	Rs. A. P.
Rice and sugarcane for kharif season only ...	25th June to 25th October	1 14 0	0 3 0
Bhadoi, serha rice, or any other crops ...	25th June to 15th October.	1 9 0	0 2 6

10. SCHEDULE No. III.

Season Leases (Rabi).

Time of supply.	Locality.	Flow.		Lift.	
		Per bigah.	Per tenth of a bigah.	Per bigah.	Per tenth of a bigah.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
15th October to 25th March.	Water supplied for all crops including sugarcane from distributaries open for kharif irrigation.	1 4 0	0 2 0	0 15 0	0 1 6
25th October to 25th March.	Water supplied for all crops including sugarcane from distributaries or parts of distributaries from which rabi irrigation only is allowed.	0 15 0	0 1 6	0 10 0	0 1 0

11. SCHEDULE No. IV.

Season leases—Hot weather.

	Flow or lift.	
	Per bigah.	Per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
For water supplied between the 25th March and the 25th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	2 8 0	0 4 0

12. SCHEDULE No. V.

Annual leases—Sugarcane.

Time of supply.	FLOW OR LIFT.	
	Per bigah.	Per tenth of a bigah.
	Rs. A. P.	Rs. A. P.
First of January one year until the crop is cut, which may be March in the following year.	5 0 0	0 8 0

13. In the case of charges under Schedules I to V any smaller area than one-tenth of a bigah will be charged as one-tenth. The bigah contains 27,225 square feet.

SCHEDULE No. VI.

14. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of September and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VII.

15. For water supplied by volume to fill *kharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

16. In the case of leases under Schedules I and II, water will be supplied for rice seed beds only as early in June as the supply in the river admits.

17. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November if required.

18. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

19. In the case of leases under Schedule V, the charge will be dependent on the crops reaching maturity. A proportionate remission will be granted if the crop suffers from any cause.

20. When the original crops sown in a field irrigated by canal water fail, and a fresh crop is sown in the *same season*, as defined in the schedules above, water-rates shall be levied on the second crop only. If no second crop is sown, water-rate shall be levied at the rate of ten annas a bigah.

21. In assessing water-rates under Schedules III, IV and V the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

II.—When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

23. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

APPENDIX I.

Form of application for a lease for a term of years.

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigah. This sum will be payable independently of our requiring water in any particular year or not.

3. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45, and 46.

4. We agree to pay a moiety of the water-rates due on this application on the 15th December and the remaining moiety on the 1st of March.

5. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If on the 1st of June of any year the water-rates due on this application in the aggregate are in arrear by more than half a year's demand.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application

SCHEDULE.

Name of cultivator.	Area to be irrigated in bighahs and cottahs.	Signature or mark of cultivator	Signature of witness to cultivator's signature

N B.—1 Charges will be made by tenths of a bigah, any smaller area being charged as one-tenth
2. The year is reckoned as commencing from the 25th June.

APPENDIX II.

Form of application for a lease for a term of years jointly with a contractor.

Mouzah , *Pergunnah* , *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigah. This sum will be payable independently of our requiring water in any particular year or not.

3. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45, and 46.

4. We agree to pay a moiety of the water-rates due on the 15th December and the remaining moiety on the 1st of March.

5. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If on the 1st of June of any year the water-rates due on this application in the aggregate are in arrear by more than half a year's demand.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

6. We desire under Rule 50 that____ _____ shall be appointed contractor, to whom we agree to pay water-rates as they become due so long as he is authorized by proper authority to receive the same. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to some person authorized by him to receive the same.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bighahs and cottahs	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

7. I agree to become contractor under Rules 50 to 60 for the collection of all sums payable under this application and to be bound by all the rules passed under Act III (B.C.) of 1876. I will abide by the rules mentioned and all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

N.B.—1. Charges will be made by tenths of a bigah, any smaller area being charged as a tenth.
2. The year is reckoned as commencing from the 25th June.

[*To be added when the contractor takes the responsibility of collecting the entire sum due under Rule* 56.]

8. In consideration of being permitted to deduct 7½ per cent. from the sum due under this application, I undertake to pay the whole amount due to Government on the dates mentioned in clause 4 and to myself take the risk of any default in payment by the applicants.

APPENDIX III.

Form of application for a lease during the kharif season.

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th of June to the 25th of October, for the irrigation of the block formed by our holdings as specified below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, and each of us agrees to pay water-rates on the area in his occupation, as found by actual measurement, at the rate of Rs. 1-14 per bigah. This sum will be payable independently of our requiring water during the season or not.

3. This application is made under the rules passed under Act III (B C) of 1876, more especially Rules 16, 20, 22, 26, 27, 45, and 46. We agree to abide by these and by all the rules passed under the Act.

4. We agree to pay the whole of the water-rates due on the application on the 15th of December.

5. The following are the boundaries of the block :—

North.—
South.—
East.—
West.—

SCHEDULE.

Name of cultivator.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine, and that they comprise the whole of the occupiers of the land included in the block, the boundaries of which are mentioned above, and that the areas given are approximately correct.

N.B.—Charges will be made by tenths of a bigah, any smaller area being charged as a tenth.

Signature of lambardar.

APPENDIX IV.

Form of application for a lease during the rabi season or for crops classed as bhadoi.

Mouzah , *Pergunnah* *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the of October to the 25th of March, for the irrigation of the areas mentioned below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, but each of us agrees to pay water-rates at Rs. per bigah on the actual area in our occupation as found by measurement, with the proviso that only areas actually irrigated will be assessed.

3. We agree, as far as is possible, to prevent water supplied being wasted or used in an unauthorized manner.

4. This application is made under the rules passed under Act III (B.C.) of 1876, more especially Rules 17, 20, 23, 26, 45, and 46. We agree to abide by these and by all the rules passed under the Act.

5. We agree to pay the water-rates due on this application on the 1st of April.

Name of cultivator.	Description of crop.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine and that the areas mentioned are approximately correct.

N. B.—1. Charges will be made by tenths of a bigah, any smaller area than one-tenth being charged as a tenth.
2. For crops classed as *bhadoi*, 25th June to 15th October to be substituted for the dates given in Rule 1.

Signature of lambardar.

APPENDIX V.

Form of application for a lease for sugarcane for the year

Mouzah , *Pergunnah* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary for the irrigation of the areas mentioned below.

2. The approximate area to be irrigated by each applicant is stated in the schedule following, but each of us agrees to pay water-rates at Rs. 5 per bigah on the actual area in our occupation as found by measurement.

3. We agree, as far as possible, to prevent water supplied being used in an unauthorized manner.

4. The full rate will be payable only if the crop reaches maturity. If from any cause it has been materially damaged, we shall be entitled to such proportionate remission as may be fixed by the Canal Officer.

5. This application is made under the rules passed under Act III (B.C.) of 1876, more especially Rules 17, 20, 26, 31, 45, and 46. We agree to abide by these rules and by all the rules passed under the Act.

6. We agree to pay a moiety of the water-rates due on the 15th December and the remaining moiety on the 15th February.

Name of cultivator.	Area more or less to be irrigated in bigahs and cottahs.	Signature of cultivator.	REMARKS.

I hereby certify that the signatures above are genuine and that the areas mentioned are correct.

N B.—Charges will be made by tenths of a bigah, any smaller area than a tenth being charged as a tenth.

Signature of lambardar.

APPENDIX VI.

WE, the undersigned, hereby apply for water to be supplied from the distributary for the purpose of irrigation.

We agree that in consideration of the outlet mentioned at the foot of this application being opened for hours to the extent specified, we will severally pay the sums entered opposite our names in addition to Rs. which we have collectively paid with this application.

This application is made under section 74 of Act III (B.C.) of 1876.

Name.	Residence.	Sum to be paid.	Witness to signature.

Size of outlet—
Head to be maintained—
Approximate discharge—

Certificate of subordinate.—I hereby certify that the outlet specified was open for hours on the of , and that at least the quantity of water stipulated was supplied.

Sectional Officer.

APPENDIX VII.

WE, the undersigned, hereby apply for water to be supplied from the distributary for the purpose of filling the *ahara* mentioned below.

We agree that in consideration of the outlet mentioned at the foot of this application being opened for hours to the extent specified, we will pay Rs. , which sum is herewith tendered.

Name.	Residence.	Ahara to be filled.

Size of outlet—
Head to be maintained—
Approximate discharge—

Certificate of subordinate.—I hereby certify that the outlet specified was open for hours on the of , and that at least the quantity of water stipulated was supplied

Sectional Officer.

APPENDIX VIII.

To the Collector of

WHEREAS certain cultivators of mouzah , pergunnah of which I am the proprietor, have, under section 74 of Act III (B.C.) of 1876, applied to be supplied with water for the irrigation of lands in the above village of an area of bighas, more or less, the water-rates on which will amount to Rs. approximately, and whereas the above lands are held on a bhaoli tenure, and I desire to pay a portion of the water-rates, I therefore, under section 74 of Act III (B.C.) of 1876, join in the application for water, and authorize you to collect from me (*) of the water-rates assessed.

Signature—
Residence—
Witness—

* Proportion payable to be entered here.

APPENDIX IX.

Permit for a lease for a term of years.

Number of application and date	...	
Name of village	...	
Name of pergunnah	...	
Name of distributary	...	
Position of outlet	...	
Size of outlet ...	...	
Head of water assumed	...	
Approximate discharge	...	
Area to be irrigated	...	
Dates of supply	...	25th June to 25th March.
Water-rates due	...	
Dates of payment	...	One moiety 15th December, one moiety 1st March.
Name of lambardar	...	
Duration of permit	...	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provision of all rules passed under the Act, and is liable to be cancelled if the water-rates due under it are in arrear by more than half a year's demand, or if water, which it is expressly agreed is supplied for the sole purpose of irrigating the land mentioned therein, is habitually misused or wasted. Water-rates on the area mentioned will be charged whether in any particular year water is or is not actually required.

Divisional Canal Officer.

APPENDIX X.

Permit for a lease for kharif season.

Number of application and date	...	
Name of village	...	
Name of pergunnah	...	
Name of distributary	...	
Position of outlet	...	
Size of outlet ...	...	
Head of water assumed	...	
Approximate discharge	...	
Area to be irrigated more or less	...	
Dates of supply	...	25th June to 25th October.
Water-rates due	...	
Dates of payment	...	
Name of lambardar	...	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provisions of all rules passed under the Act. It is expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application. Water-rates on the land included in the block specified in the application, the area more or less of which is given above, will be charged, whether water is or is not actually required.

Sub-divisional Canal Officer.

APPENDIX XI.

Permit for a lease other than kharif or for a term of years.

Number of application and date	...	
Name of village	...	
Name of pergunnah	...	
Name of distributary	...	
Area to be irrigated more or less	...	
Dates of supply	...	
Water-rates due	...	
Dates of payment	...	
Name of lambardar	...	

This permit is issued under section 75 of Act III (B.C.) of 1876 for the irrigation of the area mentioned above. It is subject to the provisions of all rules passed under the Act. It is expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application. The area actually irrigated will be measured and charged, and the applicants undertake to, as far as is in their power, prevent water being wasted or applied to the irrigation of land not included in the application. Any claims for remission of water-rates must be made 20 days before the crop is cut.

Sub-divisional Canal Officer.

EDUCATION DEPARTMENT, BENGAL.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

IT is hereby notified for general information that a Convocation of the University of Calcutta for conferring degrees will be held at the Senate House, College Square, on Saturday, the 24th January, at 3 P.M.

Graduates of the University in academic costume are admissible, on presenting themselves at the south gate of the Senate House, at 2 P.M.

A. M. NASH, *Offg. Registrar.*

SENATE HOUSE, *the 15th January* 1891.

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

THE next Examination of Candidates for Pleadership will be held on the 24th, 25th, and 26th February next in the Senate House of the Calcutta University.

The next Examination of Candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gouhaty, and Sylhet on the same days, the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership Candidates will be examined *viva voce* only on the 24th February commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 25th and 26th February. Two papers will be set for the Mookhtarship Candidates on the 24th February at 10 A.M. and 2 P.M, respectively, and they will be examined *viva voce* on the 25th and 26th February, commencing at 10 A.M. each day.

Under no circumstances will any candidates be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovenamed).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

WILLIAM GRAHAM,
Offg. Secy. to the Board of Examiners
For Pleadership and Mookhtarship.

The Calcutta Gazette.

WEDNESDAY, JANUARY 21, 1891.

PART I A.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following Extraordinary, issued by the Government of India, Foreign Department, is published for general information.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION

Fort William, the 20th January 1891.

No. 259-*I.*—His Imperial Highness the Grand Duke Cesarewitch of Russia, accompanied by His Royal Highness Prince George of Greece and His Imperial Highness the Grand Duke George Alexandrovitch of Russia, will arrive at Howrah Station by a special train on Monday, the 26th January 1891, at 4-33 P.M. (Calcutta time).

His Imperial Highness will be received at the Howrah Railway Station by His Excellency the Viceroy attended by his Personal Staff. His Honour the Lieutenant-Governor of Bengal and his Personal Staff, the Major-General Commanding the Presidency District and his Staff, and the Commissioner of Police, Calcutta, will attend at the Railway Station.

A Guard of Honour of the East Indian Railway Volunteers will be drawn up on the platform of the Howrah Railway Station, and a Guard of Honour of Native Troops, with Band, outside the station.

A Salute of 21 guns will be fired from the ramparts of Fort William on the arrival of the special train.

The route taken will be across the Hooghly Bridge, by the Strand Road to Fairlie Place, down Fairlie Place, Clive Street to Dalhousie Square, Dalhousie Square North, Dalhousie Square East, and Old Court House Street to Government House.

The route will be lined by troops under the orders of the Major-General Commanding the District.

The escort from the Howrah Station to Government House will be furnished by His Excellency the Viceroy's Body-guard.

A Guard of Honour of British Infantry, with Band, and a Guard of Honour of the Calcutta Volunteers, with Band, will be drawn up in front of the Grand Staircase of Government House. A salute of 21 guns will be fired as His Imperial Highness alights at Government House.

His Excellency the Commander-in-Chief in India, the Chief Justice of Bengal, the Bishop of Calcutta, the Members of Council, the Puisne Judges of the High Court, all Civil and Military Officers present in Calcutta, and other gentlemen who are desirous of attending, will assemble on the Grand Staircase of Government House not later than 4-20 P.M. The Foreign Consuls in Calcutta will also be invited to attend.

The Commander-in-Chief, the Chief Justice, the Bishop of Calcutta, and the Members of the Executive Council will be presented to His Imperial Highness by His Excellency the Viceroy.

Officers and gentlemen wearing uniform will appear in full dress. Gentlemen not wearing uniform will appear in morning dress (frock coats).

W. J. CUNINGHAM,
Secretary to the Govt. of India.

The following order, issued by the Government of India in the Home Department, is republished for general information.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

T. J. MENDES, Dy. Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Jessore, will be put up for sale at the Collector's office of that district on 9th February 1891, corresponding with 28th Magh 1297 (B.S.), for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale:—

C. E LIVESAY, C.E.,
Exe. Engr., Nuddea Rivers Division.
Berhampore, the 19th January 1891.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st.—Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd. Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th or thereabouts. Price Rs 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta) and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Poorse, and Naraingunge). Volumes I and II. Price Rs. 20 for 1889-90. Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price.

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F.R.G.S., of the Bengal Staff Corps, late Deputy Commissioner of Darjeeling. *Price, Rs.* 6; *postage,* 3 *annas.*

Copies are to be had at the Office of the Director of Public Instruction.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage. Rs. A. P.	With postage. Rs. A. P.

*** *Lists of corrections to the above Rules are supplied monthly at Rs. 3 a year.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages; Volume IV, letters G to L, in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

The Shargi Architecture of Jaunpur, with Notes on Zafarabad, Suhet Mahet, and other places in the N.W P and Oudh. By A. FUHRER, Ph. D., with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1)

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JANUARY 21, 1891.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

[First Publication.]

NOTIFICATION No. 6Mne.

The 19th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNeile, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.
NOTICE TO MARINERS—(No. 5).
AUSTRALIA—SOUTH.

PORT DARWIN—NORTHERN TERRITORY.

Position of two Warping buoys placed near the Railway jetty.

THE Secretary, Marine Board, Port Adelaide, has given notice (No. 12 of 1890) that two Warping buoys have been placed near the Railway jetty, Port Darwin, in the following positions, viz. :—

One buoy in 19 feet water L. W. S. with S. E. corner of jetty bearing N. 65° W., distant 85 fathoms ; and

One buoy in 48 feet water L. W. S. with S. W. end of jetty bearing N. 36° E., distant 110 fathoms.

The abovementioned buoys are 170 fathoms apart on a N. 70° E. and S. 70° W. line.

By direction of the Government of Bengal,

E. W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 13th January* 1891.

NOTIFICATION No. 7Mne.

The 19th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNeile, *Col.*, R.E.,
Secretary to the Government of Bengal.

NOTIFICATION No. 338Mne.

The 30th December 1890.—The following Notice to Mariners is published for general information.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 206).

BAY OF BENGAL.

ANDAMAN ISLANDS.

Kohinur Rock—its position.

THE following Notice to Mariners, received from Commander R. J. Hoskyn, R.N., in charge of the Marine Survey of India, is published for general information :—

KOHINUR ROCK.—The rock on which the S. S. *"Kohinur"* struck in Manner's strait, and on which there is but 18 feet at low water Indian springs, lies 9 cables from the south coast of Rutland island with the following bearings :—

South point of Rutland island, N.N E. ¾ E., distant 9 cables.
West ditto ditto N.N.W. ¾ W.
581 foot hill ditto N.E.½ E. ¼ E.
Bare Hill Cinque islands, E.½ S. ¼ S.

Bearings are magnetic. Variation 2° 00′ E.

The following charts are affected hereby :—Nos. 70, 825, 830, 1398, and Preliminary chart, Port Blair, to Sisters islands.

By direction of the Government of Bengal,
EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 29th December* 1890.

NOTICE TO MARINERS—(No. 208).

MALACCA STRAIT.

BASS HARBOUR.

Shoals near fairway of South-West entrance.

THE British Admiralty has given Notice (No. 644 of 1890) of the existence of two shoals lying northward of the fairway of the south-west entrance to Bass harbour :—

1. A rocky shoal, about 1½ cables in extent, and drying in places at half ebb, lies northward of the fairway of the south-west entrance to Bass harbour, with the east extreme of Pulo Singha bearing W. S. W., distant about 1½ miles.

Approximate position, lat. 6° 15′ 15″ N., long. 99° 44′ 30″ E.

2. A shoal of small extent, with about 2 feet on it at low water spring tides, lies with shoal (1) bearing S. by E. ½ E., distant about 4 cables, and the east extreme of Pulo Singha S. W. ½ W.

NOTE.—Vessels should pass southward of the abovementioned shoals.

(*Variation* 3° *Easterly in* 1890.)

NOTICE TO MARINERS—(No. 211.)

JAPAN.

Strait of Tsugar.

Flashing light on Yesan no saki.

The British Admiralty has given notice (No. 652 of 1890) that on 1st November 1890 a light would be exhibited from a light-house recently erected on Yesan no saki (cape Yesan), north side of eastern entrance to the strait of Tsugar:—

Yesan no saki light is a *flashing* light, showing alternately a *red flash* and a *white flash every fifteen seconds*, and visible through an arc of 187°, or from the bearing of S. 14° E., through west, to N. 7° W. It is elevated 144 feet above the sea, and should be seen in clear weather from a distance of 17 miles.

The illuminating apparatus is catoptric, or by reflectors, of the second order.

The light-house, 50 feet high, constructed of iron, and hexagonal in shape, is painted white

Approximate position: lat. 41° 49′ 5″ N., long. 141° 10′ 50″ E.

(*Variation 6° Westerly in* 1890.)

MALACCA STRAIT.

Jugru river entrance.

Alteration in colour of light.

The British Admiralty has given notice (No 661 of 1890) that on 15th October 1890 the following alteration would be made in the colour of the light exhibited on the south side of Jugru river entrance:—

The light at Jugru river entrance is a *fixed red* light, visible in clear weather from a distance of six miles. It is shown from an iron pillar painted white, and situated about 100 yards inshore of the old light-house.

Approximate position: lat. 2° 48′ N., long. 101° 23½′ E.

By direction of the Government of Bengal,
Eaton W. Petley,
Port Officer of Calcutta.

Port Office, Calcutta, *the 29th December* 1890.

NOTIFICATION No. 1Mne.

The 6th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 1).

AUSTRALIA.

FITZROY RIVER.

Lights in Old Channel, Central island, discontinued.

THE Portmaster, Brisbane, has given notice (No. 34 of 1890) that after 24th November 1890, the lights in the Old Channel at Central island, Fitzroy river, will be discontinued.

The directions for the New Channel as contained in Notice No. 24 of that year continue in force.

By direction of the Government of Bengal,
EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 5th January* 1891.

NOTIFICATION No. 2Mne.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 2).

AUSTRALIA.

NORTH-WEST COAST.

Position of a Magnetic Shoal.

THE Portmaster, Brisbane, has given notice (No. 35 of 1890) that the Commander of Her Majesty's surveying vessel *Penguin* reports as follows:—

"When leaving Cossack on 6th instant *Penguin* passed over a Magnetic shoal about one mile in diameter. On examination it was found that the focus or centre of Magnetic attraction was in latitude 20 degrees 32 minutes 35 seconds S., longitude 117 degrees 13 minutes 2 seconds E., directly in the track of vessels visiting Cossack.

"From this focus, which is not more than fifty feet in diameter, the summit of Bezout island bears S. 79 degrees 25 minutes W., distant 2·14 miles, and Jarman island light-house S. 2 degrees 40 minutes E., distant 6·52 miles.

"All compasses were deflected 55 degrees to the right and 23 degrees to the left when passing over the focus. The angle subtended by the extreme points of Bezout island was 16 degrees. Sounding 8 fathoms, sand bottom. It seems probable that this area of Magnetic attraction may be one of many around the coast of Australia."

By direction of the Government of Bengal,
EATON W. PETLEY,
Port Officer of Calcutta.

PORT OFFICE, CALCUTTA, *the 5th January* 1891.

NOTIFICATION No. 3Mne.

The 6th January 1891.—The following Notice to Mariners is published for general information.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

NOTICE TO MARINERS—(No. 3).

AUSTRALIA.

PIONEER RIVER.

Leading beacons for crossing the bar.

THE Portmaster, Brisbane, has given notice (No. 36 of 1890) that in consequence of the growth to the southward of the extremity of East Point, the two large white leading beacons, with their respective lights, have been shifted 420 yards to the southward of their former position, or about 1½ miles to the southward of the Pilot Station; the line of lights bearing due east and west.

The directions already in use are still to be followed, except that a checkered red and black buoy placed on a sandbank which dries 18 inches at low water springs, and is situated about 50 yards to the southward of the line of lights, may be passed on all sides at a distance of not less than 200 feet.

By direction of the Government of Bengal,
EATON W. PETLEY,
Port Officer of Calcutta.

THE CANAL REVENUE REPORTS FOR 1889-90.

No. 971.A.

Government of Bengal,

PUBLIC WORKS DEPARTMENT.

Irrigation.

Dated Calcutta, the 15th January 1891.

RESOLUTION.

READ—

The Canal Revenue Reports for 1889-90, and Chief Engineer's note on the same.

Of the canal systems of Bengal, four are constructed from Imperial Funds and are classed as Major Works. Two of these, the Midnapore and the Sone Canals, have been completed in all their essential features, and are in full operation. The capital account of the first was closed at the end of 1887-88, and that of the second will be closed at the end of 1890-91. In his remarks on the Orissa Canals, the Chief Engineer points out that the outlay on new works in the year under report was again disappointingly small. The expediency of furnishing these canals with an adequate system of distributaries was recognized in the sanction accorded by the Secretary of State in 1883 to the estimates framed with this object; but it is admitted that the works have not been since pushed on with the vigour which their importance demanded. Out of 5 lakhs provided under the head of Capital, only about $3\frac{1}{2}$ lakhs were spent; and only $4\frac{1}{2}$ miles of new distributaries were constructed commanding 1,947 acres. During the current year the completed plans and estimates of a large number of distributaries have been received and sanctioned, and the Lieutenant-Governor is resolved that the full development of the project by the completion of the distributaries shall be pushed on with vigour in the ensuing year 1891-92. The Hidgellee Tidal Canal was completed in 1874, but a design for remodelling

it was submitted and sanctioned in 1889-90. The work was commenced during the year under report, but only about Rs. 50,000 were spent. Since the revised estimate was framed, the country crossed by the canal, much of which has been reclaimed and brought under the protection of agricultural embankments, has been severely devastated by floods, and attention has been drawn to the deteriorated condition of the drainage channels Until the method ultimately to be adopted for the treatment of the drainage question is settled, it is unfortunately necessary to delay the prosecution of some of the more important works included in the remodelling scheme.

2. The whole amount of capital outlay (direct and indirect) during the year on Major Works was Rs. 4,96,559, of which Rs 3,57,043 were spent on the extension of the Orissa system. Up to the end of the year, the gross capital outlay on Major Works was Rs. 6,10,38,620, and the loss since their construction on the working, including interest charges, was Rs. 3,78,15,850, or 61·95 per cent. of the actual cost of the works.

3. On Minor Works and Navigation Rs. 63,771 were spent during the year against the revised estimates of the Orissa Coast Canal—a work which is practically complete and in full operation. About Rs. 5,000 were also spent in extensions and improvements of the Calcutta and Eastern Canals. But by the adjustment of some items which are now credited to Capital, the capital expenditure on Minor Works is returned in the accounts of the year at only Rs. 62,443.

4 The rainfall of the year 1889 90 was generally well distributed ; and though the demand for water was well sustained throughout the kharif season, it does not appear to have been at any time so acute as in 1887 or 1888—years in which by the early cessation of the monsoon rains at the end of September, the safety of the rice harvest over a large part of Bengal was placed in jeopardy. In 1889-90 the system of irrigation on each of the three large canals of the Province worked without friction, and with results which are, comparatively speaking, satisfactory. On the Orissa Canals, where after many years of depression, a demand for irrigation appears now to be gradually becoming established, 186,627 acres were watered against 159,292 acres in 1888-89. The increase, however, is in great part due to a resurvey of the areas already under lease. On the Sone Canals the demand for water during the rabi months was small, and the area irrigated fell from 355,909 acres to 305,282 acres This decrease took place in the area under annual leases, and especially in that under rabi crops, where canal water was not required because of the seasonable rainfall ; the area under five-year leases increased by nearly 25,000 acres. The area of all crops watered from the three major works was 560,719 acres as against 584,978 acres in 1888-89 ; and the total sum earned by the sale of water, that is the demand of the year as opposed to the collections of the year, was Rs. 10,78,303, as against Rs. 11,80,031.

5. Notwithstanding this decline in the water-rates earned on Major Works, the revenue actually realized from this source, which was Rs. 10,01,937 in 1888-89, advanced to Rs. 11,32,662 in 1889-90. As the Chief Engineer points out, a part of the water-rates earned in any year does not fall due and therefore cannot be collected till the year following, and there is, besides, a great accumulation of arrears. Thus, the revenue of any year largely consists of collections made against the earnings of the previous year as well as against the arrears of preceding years. The reduction of the arrear balances by nearly one lakh of rupees in the Shahabad district is a satisfactory sign. In Orissa, though collections are greater by Rs. 48,479 than in 1888-89, and though a larger amount than usual was remitted as irrecoverable, the arrear balances increased by more than Rs. 60,000 ; and steps are therefore being taken to strengthen the establishment employed on collections under the Deputy Revenue Superintendent.

6. The only Minor Works on which water-rates are earned are the Eden and Sarun Canals. During the year under report, 9,693 acres of rice were watered for about 12 annas an acre, and Rs. 6,762 were realized at a trifling cost for collection. The Sarun scheme was undertaken in the interests of the indigo industry ; and under a contract made in April 1880, Government agreed to supply water in return for a revenue of Rs. 21,850 guaranteed by the owners of factories. This contract, which expired at the end of 1889-90, has caused a continuous loss to Government. This loss in 1889-90 was Rs. 16,939. Moreover, a serious diversion, which has taken place in the course of a natural spill-channel utilized in the scheme as a main feeder, and another

diversion in the channel from which the supply in the head sluice is drawn, will, if the canals are kept up, probably entail heavy expenditure for some years to come. The guarantors have been informed that the contract cannot be renewed except on terms more favourable to Government, and that the alternative to a renewal on such terms must be the definite and final closure of the canals.

7. The most important item of the revenue which is derived from navigation is the amount realized on the Calcutta and Eastern Canals. On this route, 1887-88 and 1888-89 had been years of exceptional activity, and in the toll-takings of 1889-90 there is a decrease of more than Rs. 80,000. Trade was also dull on the Nuddea Rivers; while on the Orissa Coast and Hidgellee Tidal Canals no great progress can be hoped for until facilities for through communication are perfected by the remodelling of the latter work. The districts, moreover, traversed by the Orissa Coast Canal are sadly deficient in roads, and the want of good means of access from the various marts to the canal bank no doubt operates injuriously on the expansion of canal traffic. The work which earns the greatest revenue in proportion to its length is the Midnapore Canal; and on this the receipts, though slightly smaller than in 1888-89, are greater than in any other preceding year. The revenue from navigation on the Sone Canals has, since their construction, shown great inelasticity. In Orissa there are signs of improvement and the prospects are more hopeful. The actual tollage-collections for the last three years are as below:—

Year.	Orissa Canal.	Midnapore Canal.	Hidgellee Tidal Canal.	Orissa Coast Canal.	Sone Canals	Calcutta and Eastern Canals.	Nuddea Rivers.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1887-88	66,628	1,26,574	40,476	52,828	50,984	5,71,872	1,98,318	11,07,610
1888-89	69,831	1,46,780	5,910	65,010	52,161	5,61,401	1,91,749	11,44,012
1889-90	78,019	1,45,256	40,348	63,724	51,180	4,82,657	1,86,983	10,47,165

8. The large increase in the number of passengers who travel on the canals, and are carried for the most part in barges towed by inland steamers, is noticed by the Chief Engineer. The expediency of providing some means of controlling and regulating this traffic beyond those permitted by the existing law was recognized by Sir Steuart Bayley, and the form which any remedial legislation should take is now being considered in the Legislative Department of the Bengal Government.

9. While, as compared with those of 1888-89, the receipts from all sources on the canals classed as Major Works have advanced by about Rs. 1,23,000, working expenses have been reduced by nearly Rs. 65,000. In the actual cost of repairs there is a saving in 1889-90, as compared with 1888-89, of about Rs. 68,000. In neither of these years was any large expenditure incurred on repairs of a special character, and the economies now effected in the ordinary charges for up-keep are noted with satisfaction. The cost of establishment employed in revenue management was greater by about Rs. 6,000; but this increase is less than half that unavoidably incurred on the Orissa Canals, where, in order to cope with the increased work, the temporary establishment under the Deputy Revenue Superintendent was strengthened. In the table below the financial results during the past three years of all canals in Bengal, for which capital and revenue accounts are kept, can be compared—

	1889-90.		1888-89.		1887-88	
	Receipts.	Expenditure.	Receipts.	Expenditure.	Receipts.	Expenditure.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Major Irrigation Works						
Orissa Canals	3,04,124	4,56,910	2,49,294	4,05,019	2,22,679	5,02,450
Midnapore Canal	2,77,423	2,08,808	2,51,510	2,09,804	2,33,925	2,50,396
Hidgellee Tidal Canal	41,934	20,742	55,007	78,040	41,958	66,976
Sone Canals	8,50,473	7,29,930	8,31,278	8,94,432	5,85,618	7,62,348
Total ..	14,04,474	14,22,388	13,81,179	14,87,295	10,87,080	15,72,170
Minor Works and Navigation.						
Irrigation and Navigation Works.						
Sarun Canals	23,113	40,032	20,814	88,132	20,905	29,207
Calcutta and Eastern Canals	4,95,548	2,79,133	5,75,125	2,03,801	5,79,934	2,24,656
Orissa Coast Canal	65,333	68,986	86,174	77,018	53,597	83,607
Total ..	5,83,980	3,88,171	6,82,113	4,07,151	6,54,436	3,37,560
Grand Total ..	20,88,403	18,10,559	20,43,292	18,94,446	17,41,516	19,09,730

10. The number of complaints made against the administration is somewhat less on the Midnapore and Sone Canals, but a large increase is noticed in Orissa, where on an average one complaint has been made for 36½ acres irrigated. Of these, the proportion which proved on investigation to be groundless is not stated. On the Midnapore and Sone Canals, on both of which excellent progress was made in dealing with complaints, the percentages of those rejected were 93·2 and 57·6 respectively. As no fees are charged, there is no check on the submission of frivolous complaints. Including those pending from the previous year, the number of complaints on all the three large irrigation systems taken together was 16,727, on 12,783 of which orders were passed. The proportion of complaints to acres irrigated was 1 : 42 as against 1 : 47 in the previous year.

11. There is an increase, as compared with the previous year, in the number of certificates issued for the recovery of arrears. The following table shows that out of 42,523 cases, including those pending at the commencement of the year, 30,518 cases or 71·7 per cent., were disposed of: a better rate of progress than that secured in 1888-89, when the percentage was only 60·5 :—

	Pending at close of 1888-89.	Instituted during 1889-90.	Total.	Disposed of.	Pending at close of 1889-90.
Midnapore	7,185	12,398	19,583	16,139	3,444
Orissa	5,846*	8,586	14,432	7,994	6,438
Sone	2,942	5,566	8,508	6,385	2,123
Total ...	15,973	26,550	42,523	30,518	12,005
Total 1888-89 ...	19,536	20,676	40,212	24,932	15,280

* Includes 93 cases not shown in the return for 1888-89.

12. The gross amount recovered by certificate was Rs. 85,032, or Rs. 5,828 less than in 1888-89. It was noticed last year that in the returns of the Midnapore Canal more than half of the cases were ultimately settled by the remission of the demand. In the year under report the number of cases settled in this way was only 27 per cent. of the number disposed of—a sign that greater caution is observed in resorting to the Act. But the greater number of certificates issued in connection with the administration of the Midnapore Canal, notwithstanding the much smaller area watered by this than by either the Sone or Orissa systems, continues to be a curious feature in the returns. The explanation is, perhaps, in part, that in Midnapore very low special rates of process-fees have been hitherto charged for the recovery of canal dues. In drawing attention to these low rates, the Board of Revenue recently pointed out that the ryots were thereby encouraged to withhold payment until the Act was put in force, and it was recommended that the rates should be raised. Ultimately it was decided, under orders which issued from the Revenue Department of this Government in July 1890, to replace the special rates charged in Midnapore by a general rate of 12 annas, and at the same time to increase the efficiency of the collecting establishment. A reduction in the number of certificate cases may therefore be expected when these measures have begun to take effect.

ORDER.—Ordered that a copy of this Resolution, and of the note and its accompaniments, be submitted to the Government of India, in the Public Works Department, for information; also that copies be forwarded to the Appointment, Revenue and Financial Departments of this Government; the Board of Revenue, Lower Provinces; the Commissioners of the Presidency, Burdwan, Patna, and Orissa Divisions; the Collectors of the 24-Pergunnahs, Nuddea, Hooghly, Midnapore, Burdwan, Patna, Shahabad, Gya, Sarun, Cuttack, and Balasore; the Superintending Engineers of the Orissa, South-Western, and Sone Circles; and the Examiner of Public Works Accounts, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

IRRIGATION BRANCH.

REVENUE REPORT.

Note by COLONEL J. M. MCNEILE, R.E., *Chief Engineer, on the Canal Revenue Reports for the year* 1889-90.

THE Capital expenditure on Irrigation Works, for which Capital Accounts are kept, amounted during the year 1889-90 to Rs. 5,47,242 for direct and Rs. 11,760 for indirect charges:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Capital expenditure not charged against Revenue	4,84,497	12,062	4,96,559
Minor Works and Navigation ...	62,745	(—)302	62,443
Total ...	5,47,242	11,760	5,59,002

2. The total Capital outlay at the end of the year 1889-90, including indirect charges, was as follows:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Major Irrigation Works.			
Productive Public Works ...	5,93,68,000	16,70,620	6,10,38,620
Minor Works and Navigation.			
Protective grants—Imperial ..	8,66,000	...	8,66,000
Ordinary revenue { Imperial and Provincial. }	99,30,042	2,81,183	1,02,11,225
Total ...	7,01,64,042	19,51,803	7,21,15,845

3. The above outlay is divided under the different projects in the following statement:—

Works.	During 1889-90.			To end of 1889-90.		
	Direct charges.	Indirect charges.	Total.	Direct charges.	Indirect charges.	Total.

Revenue.

4. The total revenue receipts, working expenses and charges for interest in respect of the works which are classed as Major Irrigation Works during the year 1889-90 and four previous years, are shown in the following statement:—

Particulars.	1889-90.	1888-89.	1887-88.	1886-87.	1885-86.
	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts from all sources (less refunds of revenue)	15,04,474	13,81,179	10,87,080	13,69,679	15,74,272
Working expenses (direct and indirect charges)	14,22,368	14,87,295	15,72,170	13,76,137	11,98,291
Net revenue	82,106	(—)1,06,116	(—)4,85,090	(—)6,458	3,75,981
Charges for interest	23,65,030	23,39,840	23,13,446	22,91,006	22,66,710
Deficit	22,82,924	24,45,965	27,98,536	22,97,464	18,90,729
Rate per cent. on Capital outlay ...	3·74	4·04	4·68	3·88	3 23

Interest.

5. The total amount of interest payable to the Imperial Treasury on account of Major Irrigation Works for the year 1889-90 is Rs. 23,65,030.

Financial results.

6. The following statement shows the financial results of both Major Irrigation Works and Minor Works and Navigation, of which Capital Revenue Accounts are kept, to the close of the year 1889-90:—

	Major Irrigation Works.	Minor Works and Navigation.
	Rs.	Rs.
Direct revenue	1,66,89,917	2,11,57,471
Working expenses (direct charges) ...	1,71,65,300	83,71,217
Results on direct charges only ... Loss ...	4,75,383 Profit ...	1,27,86,254
Indirect charges debitable to revenue ...	9,11,510 ...	2,20,846
Results on both direct and indirect charges ... ... Loss ...	13,86,893 Profit ...	1,25,65,408
Charges for interest on Capital	3,64,28,957	Not calculated.
Net results, including interest to end of 1889-90 ... ... Loss ...	3,78,15,850	.....

Thus on Major Irrigation Works the net loss up to the end of 1889-90, including interest charges, was Rs. 3,78,15,850, or 61·95 per cent. of the gross Capital outlay.

7. The financial results of Minor Works and Navigation, of which only Revenue Accounts are kept, are shown below:—

		Rs.
Direct revenue		80,08,031
Working expenses (direct charges)		43,31,800
Results on direct charges only	Profit ...	36,76,231
Indirect charges debitable to revenue		2,27,208
Results on both direct and indirect charges ...	Profit ...	34,49,023

EXPENDITURE.

8. The expenditure on, and receipts from, Irrigation, Navigation, and Agricultural Works during the year 1889-90, as compared with those of the year 1888-89, are shown below:—

Expenditure.	1889-90. Rs.	1888-89. Rs.
42—Major Irrigation Works, Working Expenses—		
Provincial	14,22,368	14,87,295
43—Minor Works and Navigation—		
Irrigation and Navigation Works—		
Provincial	5,77,720	7,19,087
Agricultural Works—		
Provincial	8,11,601	7,83,156
Contributions	12,362	9,773

The year's working and its financial results will now be dealt with separately for each of the canal systems of the province, as in previous years.

ORISSA CANALS.

10. The Capital, Interest, and Revenue Accounts of these canals are given below:—

CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1889-90.	Outlay to end of 1889-90.
	Rs.	Rs.
DIRECT CHARGES.		
I.—Works	268,762	1,71,72,041
II.—Establishment	55,842	43,59,512
III.—Tools and plant	9,232	20,10,787
IV.—Suspense accounts	15,267	1,61,792
Loss by exchange	...	2,68,070
Total ...	3,49,103	2,39,72,202
V.—*Less*—Receipts on Capital account	95	85,872
Net total direct charges ...	3,49,008	2,38,86,330
INDIRECT CHARGES.		
Capitalization of abatement of land revenue ...	217	33,059
Leave and pension allowances	7,818	5,06,457
Total indirect charges ...	8,035	5,39,516

The outlay on Capital account is incurred against the revised estimates of the Orissa Canals, sanctioned by the Secretary of State in 1883. The portion of the Orissa system sanctioned and partly completed before that date, included head works and main canals sufficient for the irrigation of 600,000 acres, but was so inadequately furnished with distributaries, that only a third of that area could be supplied with canal water. To remedy this defect, and to distribute the heavy burden of the costly head works and main canals over as large an area as possible, estimates for new works, to cost Rs. 1,04,66,572, were submitted for sanction in 1881, and it was then anticipated that expenditure (on "works" alone) against these estimates and the uncompleted portion of the former estimates would be carried on at the rate of Rs. 9,69,940 per annum, which would admit of the whole project being completed by 1892-93. Against this forecast the average annual outlay for the six years ending with 1888-89 has been less than 4½ lakhs, while in the year under report it was only Rs. 2,68,762. For these very disappointing results some explanation may be found in the insufficiency of the supply of labour and the difficulty in obtaining a suitable class of contractors. They are also due, however, to the slow progress made with the preparation of detailed estimates against which work can proceed. It is true that the necessary surveys and estimates are being carried out by the regular staff in addition to their ordinary duties of maintaining and developing the canals, bnt this does not furnish sufficient warrant for the delay which has occurred. The matter is engaging the serious attention of the Chief Engineer, who trusts that some improvement in the returns of progress may soon be visible.

A list of the new works in progress or completed in 1889-90 is given in the Superintending Engineer's report:—

"The works which have been carried out during the year under the head of Capital have already been fully reported upon, but it may be mentioned here that in the Mahanadi Division they principally consisted in the construction of the Taldundah Extension Canal with its outfall lock at Paradeep, and the completion of the main drainage cut and the Daib embankment; and that in the Brahmini-Byturni Division the principal works in progress were the construction of the newly-sanctioned distributaries and the raising and strengthening

of the flood embankment on the Pattamoondy Canal, the completion of Distributaries Nos. 15 and 17 of the Kendrapara Canal, and the Gobri river improvement works. In the Acquapudda-Jajepore Division the outlay of the year was chiefly incurred upon an extension of the Byturni right embankment below the weir and near Jajepore, and upon the completion of the sanctioned distributaries of the High Level Canal, Range III."

No addition has been made to the length of main canals. 4¼ miles of new distributaries were constructed, commanding an area of 1,947 acres.

13. The following statement gives the average rainfall observed during the kharif and rabi months during the last six years at thirteen stations within the tract irrigated by the Orissa canals:— RAINFALL.

		AVERAGE OF THIRTEEN STATIONS.

The rainfall of the year was above the average, and considerably greater than that of 1888-89. At the two stations on Range III of the High Level Canal which is in Balasore, the quantity registered was much less than the average of the eleven stations in Cuttack, being only 31·40 inches during the kharif and 9·01 inches during the rabi season. The kharif rains appear to have been seasonably distributed. The heavy fall of October stopped the rush which the canals have sometimes to meet at a period which is a critical one for the rice crop, and the Superintending Engineer remarks that any increase in the area irrigated, which has actually taken place during the year, is "due to the joint average rainfall of July and August having been somewhat less than it was in the corresponding period of the year 1888-89." The Deputy Revenue Superintendent of Irrigation states that a break in the rains in the middle of July created a demand for irrigation, and that frequent complaints were made of insufficient supply. The water was required for *beason*—a process which consists in uprooting the young rice plants by the plough, and replanting them by hand; and it is stated that "during *beason* the most copious supply will hardly satisfy the Uria cultivator." It may be said, however, that the question of the alleged discontent was investigated as soon as it was raised, and it was found that the supply of the Kendrapara Canal (which was the one most complained of) during the period of *beason* was sufficient to irrigate the whole area leased at a duty of 65·5 acres per cubic foot, and that no "tatil" was enforced on the distributaries during that period. Moreover, only four complaints of insufficient supply were filed in the Executive Engineer's office.

14. The amount of rain and its distribution among the canals of the Orissa system during the last five years is given in the following statement:—

FLOODS.

15. The average rainfall of the year at ten stations in the Central Provinces which are drained by the Mahanuddy was 55·59 inches, or 12·51 inches more than in 1888-89 and 3·41 inches more than in 1887-88. The highest floods in the Mahanuddy and Byturni were moderate. On the Brahmini the highest level recorded at Janapore weir was only 6 inches lower than that of the greatest known flood. In the lower reaches of this river no extraordinary heights were recorded, as its two tributaries, the Beropa and Burrah, were only in moderate flood.

IRRIGATION.

16. The areas of each crop irrigated during 1889-90 and nine previous years and the yearly rainfall are shown below :—

Year.	Kharif	Rabi.	Perennial	Total.	Rainfall.
	Acres.	Acres.	Acres.	Acres.	Inches.
1880-81 ...	112,161	4 877	173	117,221	85·10*

* Mean of observations in Cuttack and Mursaghai.
† Ditto ditto at 13 stations throughout canal-irrigated area.

17. The whole of the irrigated area was assessed. The figures below show the method of assessment alongside of the figures of the two preceding years for purposes of comparison :—

	1889-90.	1888-89.	1887-88.
	Acres.	Acres.	Acres.
Kharif ... Five-year leases ...	177,169	152,282	102,863
Kharif ... Annual leases ...	...	57	37
Kharif ... Unauthorised irrigation	3,399	3,981	5,975
Rabi	5,897	2,779	501
Perennial ... Sugarcane ...	162	193	130
Total, including unauthorised irrigation	186,627	159,292	109,506
Total, excluding unauthorised irrigation	183,228	155,311	103,531

The increase in the area leased appears to have been chiefly due to a revision of the measurements of leases already in force, which was carried out by the Deputy Revenue Superintendent, who writes as follows:—

"The cadastral survey of areas commanded by the High Level, Patamundi, Gobri, Taldundah and Machgong extension canals, has not been commenced yet. Most of the unsurveyed leased villages have been measured with the *podika* (or native measuring rod) in order to secure the revenue which would have been lost had I waited for the proposed survey maps.

'The increase in the leased area under these canals is due to revision of assessment by measurement of irrigated leased mouzahs, chiefly in the Balasore district. The area under lease and assessed during the year, being the highest ever attained in Orissa, compares most favourably with all previous years."

Beyond the information contained in these remarks, the Deputy Revenue Superintendent, who is the officer responsible both for leases and assessments, gives no reason for the increase shown, nor does he supply any analysis

of the figures to shew what new leases have been contracted or lapsed leases renewed, though attention was directed to the silence observed regarding these points last year. The Superintending Engineer's report, however, deals fully with the progress made on each canal:—

"The alterations which have taken place in the area of each crop upon the various canals, together with the percentages of the area provided with distributaries and under command, which had been leased in each case at the close of the official year, are shown in the two following statements:—

Canal system.	1889-90.			1888-89.			Kharif.		Perennial.		Rabi.

Total ...	434,272	252,866	173,409	39·93	68·58

From the first of these statements it appears that the area of the kharif crop has increased upon all the canals with the exception of the Taldundah Canal System, where there has been a reduction to the extent of 535 acres during the year under review, and that the increase which has taken place is principally due to the I and III Ranges of the High Level Canal, upon the latter of which the greatest amount of increase has occurred.

The rate of increase has also been highest upon the III Range of the High Level Canal, where it has amounted to nearly 54 per cent., and least upon the Kendrapara Canal System, where it has only been about 4 per cent. The percentage of increase has, however, also been high upon the High Level, I Range, where it has amounted to rather more than 44 per cent. during the year. Upon the II Range of the High Level Canal there was also a further increase of about 6 per cent.; but it would seem that the limit of the irrigable area on this canal, upon which no provision has been made in the project for the construction of distributaries, has very nearly been reached, and that it is not likely that any considerable extension will take place in future.

The decrease which has occurred upon the Taldundah Canal System has been small in amount, having only been 1½ per cent. of the area watered in the previous year.

The average increase upon the whole of the canal systems has been about 15½ per cent. during the year under review.

There has been a general improvement during the year under the head of rabi irrigation, and the increase, which has amounted in all to 3,118 acres, or about 112 per cent., has chiefly been due to the Kendrapara Canal System, where it has amounted to 2,231 acres, or nearly 88½ per cent. The total area of rabi irrigation is, however, still very small, and it does not appear to be probable that it will increase to any considerable extent upon these canals.

The increase which has taken place during the year under the head of kharif irrigation upon the Kendrapara Canal System and the I and II Ranges of the High Level Canal

appears to have been solely due to the measurement of land which was leased in previous years, and this explanation also applies to a portion of the large increase which has occurred upon the High Level Canal, III Range.

The remainder of the increase on the last-named canal was, however, due to new five-year leases, which were obtained in consequence of the demand for canal water which arose during the months of July and August 1889, when the rainfall was found to be insufficient for the puddling process as above mentioned. Upon reference to this office letter No. 5269 of the 29th November 1889, it will be seen that the area actually leased for irrigation on the High Level Canal, III Range, up to the close of the irrigation season of the year 1888 was about 30,183 acres, so that as the total area of kharif for the year under review is 39,250 acres, the increase due to the execution of new five-year leases must have been about 9,067 acres, leaving a balance of 4,693 acres to be accounted for by the measurement of areas for which leases had previously been obtained.

The decrease of 525 acres under kharif irrigation on the Taldundah Canal System is wholly due to the reduction which has taken place during the year under the head of unauthorized irrigation, as there was an increase of 955 acres in the area which was brought under irrigation in the ordinary way.

The second statement shows that the total area leased at the end of the year under review was 39·93 per cent. of the area under command of the canals from which the water for irrigation was supplied, and 68 58 per cent. of the area for which distributaries have already been constructed. The total area leased, however, includes an area of 7,169 acres, which is watered from canals in connection with which no distributaries have yet been constructed, and a further area of 11,765 acres on the Pattamoondy Canal, which is distributed over the whole length of that canal, and is not situated solely within the area which is under the command of Distributaries Nos. 7 and 8, so that the average percentage of area provided with distributaries, which is shown by the statement, is somewhat higher than it should be. Deducting these special areas from the total area leased for irrigation, the average percentage for the area provided with distributaries upon the remaining canals is found to be only 63·65 per cent.

The abnormally large percentage which is shown by the last column of this statement for the Pattamoondy Canal is due to the special circumstance above referred to; and putting it aside, the percentage of leased area upon that provided with distributaries is highest in the case of the High Level Canal, III Range, and lowest in that of the I Range of the same canal, the percentages for which are now 78 30 and 52·51 per cent. respectively. Upon comparing this statement with that for the previous year, it appears that a considerable improvement has taken place in the percentage of High Level Canal, I Range, which is now only 7·17 per cent. below that for the Kendrapara Canal in consequence of the rough measurements which have recently been made of the lands leased for irrigation, and it is possible that the percentage may still further increase when the maps of the cadastral survey which is at present in progress become available for use in the assessments.

The following table gives the comparison between the areas which had been leased at the close of the year under review and those which were leased at the end of the previous year:—

Name of Canal.	Area leased.		More.	Less.
	1889-90.	1888-89.		
	Acres.	Acres.	Acres.	Acres.
Kendrapara	55,493	51,845	3,648	...
Gobri	2,608	2,022	586	...
Gobri Extension	2,108	1,499	609	...
Pattamoondy	11,765	10,549	1,216	...
Taldundah	10,879	10,285	594	...
Machgong	27,984	27,241	743	...
High Level Canal, Range I ...	25,631	17,268	8,363	...
Ditto, „ II ...	2,453	1,894	559	...
Ditto, „ III ...	34,488	23,443	11,045	...
Total ...	173,409	146,046	27,363	...

and from this it appears that there has been an increase in the leased area upon each of the canals during the year, and that the increase has been greatest upon the High Level Canal, III Range, where it has amounted to 47·11 per cent. As above explained, a large portion of this increase is, however, due to the revision of leases in consequence of measurements made, and the actual increase of the year, which is due to new leases obtained, only amounts to about 4,305 acres, or 18·36 per cent.

The increase which has occurred during the year upon the other canals appears to be wholly due to the revision of leased areas, and is greatest upon the I Range of the High Level Canal, where it has amounted to 8,363 acres, or 48·43 per cent.

It will be observed that the area shown above as that irrigated during the year is in excess of the total area leased at the end of March 1890 by 13,218 acres, and this difference appears to be partly due to land which was irrigated in an unauthorized manner, and partly to the revision of the areas originally entered in leases, in consequence of the actual measurements of the irrigated lands which were subsequently made by the revenue officers."

18. The Superintending Engineer compares the distribution on the various canals of the area now under five-year lease (taken by him at 173,409 acres, but remeasured by the Deputy Revenue Superintendent at 177,169 acres), with the distribution of the area of 133,028 acres under lease in 1882-83. The comparison shows that, while the area leased on the three ranges of the High Level Canal has increased by more than 46,000 acres, of which 33,000 acres are on Range III, leases on the Machgong Canal have decreased by 6,000 acres, while on the remaining canals no progress is shown. The reasons for the decline of irrigation on the Machgong Canal and the whole subject of the renewal of leases are under investigation. The area of all crops irrigated during the year, being 186,627 acres, bears a ratio of 73 per cent to the area provided with distributaries. The ratio obtained in each canal for the last two years is given below :—

	1888-89.	1889-90.	Increase.
Kendraparah system	70·8	75·5	4·7
			Decrease.
Taldundah ditto	71·0	70·7	0·3
			Increase.
High Level Canal, Range I ...	37·0	54·4	17·4
Ditto do. II ...	No distributaries.		Increase.
Ditto do. III ...	60·3	89·3	29·0

ASSESSMENTS AND COLLECTIONS.

19. At the commencement of the year under review the accounts showed an unrealised balance of Rs. 1,16,771, of which Rs. 1,14,597 was for water-rates and Rs. 2,174 for miscellaneous revenue. The additional assessments which fell due within the year were Rs. 1,26,192, assessments of 1888-89 and previous years, and Rs. 1,71,032, assessments of 1889-90; altogether Rs. 2,97,224, of which Rs. 2,87,277 was for water-rates. Thus, including arrears, the gross amount recoverable during 1889-90 was Rs. 4,13,995, of which Rs. 4,01,874 was for water-rates, and Rs. 12,121 for miscellaneous revenue.

The recoveries were Rs. 2,09,823, and Rs. 27,055 was either remitted or written off as irrecoverable. Accordingly the year closed with a balance of Rs. 1,77,117, of which Rs. 1,76,762 was for water-rates.

Compared with 1888-89, the recoveries of 1889 90 are greater by Rs. 49,495, but the balance outstanding at its close is also greater by Rs. 60,346. A recurring increase in the unrecovered balance has been for some years an unsatisfactory feature in the annual returns of the Orissa Canals, and in October 1889 the attention of the Commissioner was specially invited to the subject. That the work of collection in Orissa is unusually difficult may be admitted; but the difficulties are not such as to justify the excessive accumulation of arrears which has been allowed to occur. The Collector has now arranged to utilise the services of chowkidars and putwaris in assisting the nazir's peons, and it may be hoped that this step may accelerate the collections. From an examination of the balance outstanding at the end of 1889-90, it appears that the older arrears have been wiped off, and that the dues

which still remain to be recovered were all incurred within the last four years :—

Total ...	1,14,597	1,76,762	2,175	355

20. The progress made with collections of water-rates, as compared with the amount of the demand, is further analysed in the following table. Of "outstandings," in which, besides arrears proper, the dues incurred in previous years, but not legally recoverable until 1889-90, are also included, the percentage of adjustment is 67·6 against 71·8 in the previous year, and of the portion of the current demand legally recoverable within the year, it is 39·7 against 45·7. The percentage of remissions is also smaller, being 10 7 against 14·1 for outstanding, and 0·1 against 0·04 for the current demand. As the percentage of balances at the end of the year has risen from 28·1 to 32 4 for outstandings, and from 54·3 to 60·3 for the current demand, the proportionate outturn under either head compares unfavourably with that of 1888-89 :—

	Outstandings of all years up to and including 1888-89.			Demands due in 1889-90 for the irrigation of that year.		
	Rupees.	Percentage of demands outstanding on 31st March 1890.	Rupees.	Rupees.	Percentage of demands for the year.	Rupees.
Outstandings to end of 1888-89, with assessments made in 1889-90	...	100 0	2,33,135	...	100 0	1,68,736

CERTIFICATES.

21. Out of Rs. 2,09,823 realized by the Collector on water-rates and miscellaneous revenue, Rs. 19,502 was recovered on certificates issued under the Public Demands Recovery Act. The amount so collected in 1888-89 was Rs. 24,776. Details below :—

Amounts recovered by certificate.

By whom collected.	Water-rates.	Miscellaneous.	Total water-rates and miscellaneous.	Value of court-fee stamps affixed on the certificates realized by the Certificate Officer during 1889-90.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Cuttack Certificate Officer ...	17,044 1 0	793 3 4	17,837 4 4	4,796 4 2
Balasore Certificate Officer	1,646 7 2	17 15 11	1,664 7 1	344 5 6
Total, 1889-90 ...	18,690 8 2	811 3 3	19,501 11 5	5,140 9 8
Total, 1888 89 ...	23,595 7 6	1,180 1 8	24,775 9 2	5,587 6 9

Number of certificates filed and disposed of.

District.	Number of cases pending from last year.	Number of cases filed during the year.	Total.	Disposed of during the year.	Pending at the end of the year.
Cuttack ...	5,740	7,700	13,440	7,213	6,227
Balasore ...	13	886	992	781	211
Cases not shown in last year's return ...	93	...	...	...	...
	106	...	...	...	...
Total, 1889-90	5,846	8,586	14,432	7,994	6,438
Total, 1888-89	9,047	5,259	14,306	8,553	5,753

Of the cases 'disposed of,' it would be desirable to know how many resulted in the recovery of the demand, and how many were struck off; and the Deputy Revenue Superintendent will be requested to supply the figures in future. The value of court-fee stamps (including arrears) for recovery was Rs. 11,681, on which Rs. 5,141 was realized. It is stated that certificate cases are now being disposed of expeditiously, and arrears wiped off.

COMPLAINTS.

22. The number of complaints received and the progress made in settling them is shown below :—

	Number pending from last year.	Number filed during year.	Total.	Disposed of during year.	Balance left pending.
Complaints against assessments ...	1,182	5,111	6,293	3,243	3,050
Miscellaneous	59	362	421	301	120
Total, 1889-90 ...	1,241	5,473	6,714	3,544	3,170
Total, 1888-89 ...	1,632	4,676	6,308	5,067	1,241

The grounds on which the complaints against assessments were based appear to have been of an ordinary character. The number decided in favour

of the complainants is not given, an omission which should be rectified in future reports. The Deputy Revenue Superintendent states that of complaints which he could settle without reference to the Engineer Department, sixty-two per cent. were disposed of. The accumulation of arrears cannot be looked on as satisfactory.

REMISSIONS. 23. The amounts remitted and written off as irrecoverable were Rs. 27,055 against Rs. 24,003 in the year previous. The following is the Deputy Revenue Superintendent's classification of the reasons for remission:—

Remissions.	Rs.	A.	P.
(*a*) Unirrigated crops	9,651	4	3
(*b*) Damaged	3,729	12	1
(*c*) Chowkidars' jagir	1,794	8	9
(*d*) Waste land	728	10	6
(*e*) Land occupied by channels...	128	14	1
(*f*) Twice assessed	251	4	11
(*g*) Destroyed by insects or worms	573	1	8
(*h*) Barred by limitation	638	4	5
(*i*) Excessive realisations	112	0	3
(*j*) Change of rates	45	12	6
(*k*) Erroneous assessments	50	14	0
(*l*) Commutation of double assessments	4,317	9	6
(*m*) On account of death of defaulters	268	5	4
(*n*) Absconding of defaulters	66	10	3
(*o*) Poverty of ditto	93	4	10
Total ...	22,460	5	4
Written off.			
(*p*) Permanent lands thrown out of cultivation for remodelling, diversion and extension of canals, or excavated for repairs of canals ...	1,024	13	11
(*q*) Rent of trees blown down and damaged by cyclones	524	14	8
(*r*) Loss of fishery rent owing to the removal of water-regulating bunds	162	0	11
(*s*) Irrecoverable demands	2,882	15	0
Total ...	4,594	12	6
GRAND TOTAL ...	27,055	1	10

Under orders passed by the Government of Bengal in December 1889 all lands grown with "boali" rice, a crop which does not ordinarily require canal water, though included in a five-years' lease, are exempted from assessment unless water is actually taken. This exemption was extended in the following August to all low-lying lands which do not ordinarily benefit by canal water. The effect of these orders will be to increase the number of remissions on leases still in force.

DUTY OF WATER. 24. The following statement compares the kharif duties obtained from the several canals with those obtained in the previous year:—

NAME OF CANAL.	Rainfall during the kharif season.		Duty of quantity entering canal per cubic foot.		Duty of quantity utilised per cubic foot.	
	1889-90.	1888-89.	1889-90.	1888-89.	1889-90.	1888-89.
	Inches.	Inches.	Acres.	Acres.	Acres.	Acres.
Kendraparah Canal System	45·85	37·07	80·77	92·48	92·28	100·25
Ditto Canal	46·31	36·65	77·94	86·22	94·80	97·92
Patamoondee do.	44·14	41·19	58·87	84·01	86·74	119·16
Gobri do.	44·93	37·91	42·71	92·33	62·39	99·81
Taldundah Canal System	46·91	41·39	78·19	82·60	107·43	217·40
High Level Canal, Range I	38·12	38·78	102·02	70·73	115·91	112·03
Ditto, ditto II	30·01	42·72	44·46	30·99	126·65	30·99
Ditto, ditto III	31·18	44·56	83·01	200·07	84·34	200·07

The greater quantity of rain which fell over the district of Cuttack in the kharif season of 1889-90, as compared with 1888-89, has been already noticed. Nevertheless lower duties were obtained from the canals of the Kendraparah and Taldandah systems which lie entirely within that district. The explanation is that, whereas in 1888-89 the irrigation took place chiefly in the month of October, when a failure of the rains brought about a large increase of five-year leases, in 1889-90 the demand, though never so severe, was maintained at more equable pressure throughout the season. On Ranges I and II of the High Level Canal better duties have been obtained, notwithstanding that the rainfall was less. On the latter range some difficulty is experienced in making a trustworthy calculation of the discharge utilised. On Range III, which lies in Balasore, the lower duty recorded may be considered a natural consequence of the smaller rainfall.

REVENUE ESTABLISHMENT

25. The cost of Revenue establishment of the year was Rs. 55,502. The following statement shows the details of the year under review with those of the three previous years:—

	1889-90.	1888-89.	1887-88.	1886-87.
Establishment under Collector.	Rs.	Rs.	Rs.	Rs.
Superior officers and permanent and temporary establishment, including travelling allowance	41,228	31,389	28,749	26,007
Contingencies	4,482	2,889	2,218	2,625
Headmen's fees	2,244	1,680	2,208	1,209
Establishment under Executive Engineer.				
Permanent and temporary establishment ..	3,398	3,052	2,964	2,942
Contingencies	.....	... ..	.....	.....
Water-regulation establishment ...	4,150	4,151	4,161	4,222
Total ...	55,502	43,161	40,300	37,005
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department	2,09,823	1,60,328	1,46,039	1,05,775
Percentage ...	26·4	26·9	27·6	34·98

The increase is Rs. 12,341, which occurs almost entirely in the establishment employed under the Collector. The cost of permanent establishment is greater by Rs. 1,451, the scale having been strengthened in 1888 to carry out the assessments of the lands brought under irrigation by the completion of new distributaries. The cost of temporary establishment has advanced from Rs. 9,941 to Rs. 19,118. Additional hands were chiefly required to carry out the revision of the measurements of the areas under five years' lease—a work which has already been noticed as having been the chief factor in bringing about the large increase apparent in the leased area.

NAVIGATION

26. As regards navigation, the management of the canals is in the hands of the engineering staff. Besides tolls on boats and rafts, the receipts include the earnings of the transport service maintained by Government between Bhuddruck on the High Level Canal and Cuttack, a distance of 75 miles—

Year.	Tolls.	Transport service.	Total.
	Rs.	Rs.	Rs.
1880-81 ...	41,297	30,105	71,402
1881-82 ...	53,219	29,987	83,206
1882-83 ...	66,736	41,737	1,08,473
1883-84 ...	61,602	48,550	1,10,152
1884-85 ...	52,784	27,018	79,802
1885-86 ...	64,093	19,919	84,012
1886-87 ...	58,664	8,384	67,048
1887-88 ...	66,628	4,376	71,004
1888-89 ...	69,830	8,078	77,908
1889-90 ...	78,039	10,593	88,632

TRAFFIC.

27. The following statement compares the traffic (excluding the transport service) of all the canals in Orissa during the year under review with that of the previous year:—

CANALS.	Miles open.	Tollage on boats and rafts.		Number of boats plying cargo and passengers.		Tonnage of cargo and passenger boats.		Value of cargo and rafts.		Tollage per mile of canal.	
		1889-90.	1888-89.	1889-90.	1888-89.	1889-90.	1888-89.	1889-90.	1888-89.	1889-90.	1888-89.
	No.	Rs.	Rs.	No.	No.	Tons.	Tons.	Rs.	Rs.	Rs	Rs.
Taldandah and Machgong Canals	31	4,426	4,310	929	926	20,864	23,280	1,51,435	1,02,110	142 8	139
Kendraparah and Gobri Canals (including extensions)	75	60,245	58,786	5,653	5,160	104,893	81,677	35,54,530	34,18,980	803 2	717 1
High Level Canal, Range I	33	8,396	6,612	3,248	2,958	25 940	22,080	7,17,880	6,28,530	254 1	201 3
Ditto ditto II	12½	3,438	3,204	1,723	1,542	24,143½	16,732½	2,75,116	2,03,892	274 6	271 4
Ditto ditto III	19	1,386	1,601	744	736	7,434	7,300½	1,28 529	1,30,472	72 9	84 3
Jajepore Canal	6½	163	90	250	103	880½	534	40,765	24,003	25 0	15 2
Total	177	78,039	69,630	11,937	11,473	186,010½	153,674	48,68,255	45,09,957	440 9	394 5

The sums entered in this table under 'tollage' include the receipts from empty as well as laden boats, and from rafts. In the columns showing 'number' and 'tonnage,' empty boats and rafts are not counted. The Superintending Engineer ascribes the increase in the receipts as largely due to the greater number of empty boats, which is returned at 13,246 against 9,733 in the previous year. On empty boats reduced rates are charged. The timber and bamboos rafted down the canals were measured at 447,980 cubic feet against 336,528 cubic feet. As the quantity of Government materials carried was only slightly larger than the quantity carried in the previous year, the general improvement in the receipts is due to an expansion of the volume of private trade. According to the approximate returns which are based on estimates made by the toll-collectors, the weight of cargo carried in private boats advanced from 55,417 tons in 1888-89 to 61,154 tons in 1889-90, the greatest increase occurring under 'grain,' and the number of passengers from 68,203 to 82,472. The canal which shows most improvement is the Kendraparah canal.

TRANSPORT SERVICE.

28. The cost of working the transport service between Bhuddruck and Cuttack was Rs. 12,088, and the receipts Rs. 10,593. The loss incurred on this service is therefore Rs. 1,495 against a loss of Rs. 4,585 in the previous year. These figures differ from those returned by the Examiner of Accounts, who has debited the working of the inspection-steamer *Garnet* to the transport service instead of to the maintenance charges of the head-works. More passengers were carried, but less goods. The service was crippled by the unavoidable withdrawal of a steamer for famine work from July 22nd to September 17th.

MISCELLANEOUS RECEIPTS

29. The miscellaneous receipts during the year under review are compared by sub-heads with those of the previous year in the following statement:—

SOURCE OF REVENUE.	YEAR IN WHICH RECEIVED.		DIFFERENCE.	
	1889-90.	1888-89.	Increase.	Decrease.

31. The cost of maintenance and repairs on the Orissa Canals is returned in the Examiner's accounts at Rs. 2,31,068, and in the Superintending Engineer's report at Rs. 2,30,464, the difference of Rs. 604 being the sums recovered on the working of the inspection-launch *Garnet*, which are included by the Examiner among the navigation receipts, but are treated by the Superintending Engineer as a deduction on the maintenance charges of the head-works. The Superintending Engineer distributes the expenditure of Rs. 2,30,464 under the following sub-heads:— MAINTENANCE AND REPAIRS.

	1889-90.	1888-89.	1887-88.
	Rs.	Rs.	Rs.
Head-works	75,300	71,168	1,94,272
Main canals	1,09,839	1,11,712	76,219
Distributaries	23,988	31,451	25,594
Drainage and protective works	15,508	15,960	10,778
Cost of working transport service	5,829	6,405	4,117
Total ...	2,30,464	2,36,696	3,10,980

HEAD-WORKS.

Out of total expenditure of Rs. 75,300 on head-works, Rs. 61,453 represents the cost of maintaining the weirs, divided as follows:—

Name of weir.	Length.	Expenditure.		Rate per running foot.	
		1889-90.	1888-89.	1889-90.	1888-89.
	Feet.	Rs.	Rs.	Rs.	Rs.
Naraje	3,833	10,275	10,140	2·68	2·64
Mahanuddy	6,349	30,331	26,539	4·78	4 18
Beropa	1,980	4,709	5,573	2·38	2·81
Brahmini	4,000	2,170	7,471	0·54	1·86
Pattia	783	2,203	5,698	2·81	7·27
Byturni	1,026	6,295	1,440	6 14	1 40
Burrah	526	5,470	5,935	10·40	11·28
Total of all weirs ...	18,497	61,453	62,796	3·32	3·39

The work done on the Mahanuddy and Byturni weirs, on which the chief excesses occur, is described by the Superintending Engineer as follows:—

"The outlay on the Mahanuddy weir was in excess of that of the previous year by a sum of Rs. 3,792; and of the total amount expended, Rs. 10,874 represents the ordinary current repairs of the weir, and Rs. 19,457 is the cost of the flood repairs that were found necessary at the centre sluices. The ordinary repairs included the replacing of a good deal of worn-out laterite packing at the south shore sluices, and the relaying with new stone of a length of 375 feet of the first division of the laterite-packed apron below the body wall of the weir where the work had been injured by the water falling over the tops of the south crest shutters, during the flood season. At the centre sluices the tail apron had again to be repaired with crib work and stone packing, more especially at the south end of the work, where the apron was lengthened during the year in order, if possible, to prevent further injury at that point.

The cost of the repairs carried out at the Byturni weir has been heavier than it was during 1888-89 by a sum of Rs. 4,855, and the increase was principally due to the special repairs which were found necessary for the revetment on the left bank of the river below the weir which had been considerably injured by the floods. The outlay upon the improvements of the beds of the Beropa and Brahmini rivers has this year been shown separately from the expenditure upon the weirs in which it was formerly included, and it is only necessary to explain here that the work consists in the dredging, sand-scraping, and excavation which are carried out annually in the beds of these rivers above the weirs in order to keep a passage open for steamer and boat traffic at all seasons of the year."

As already noticed, the Superintending Engineer has charged the revenue account of head-works with the difference between the expenditure and receipts on the inspection-launch *Garnet*, amounting to Rs. 1,107. The excess of Rs. 4,132 in the total charges is partly due to this cause, and partly to the increased outlay on the improvement of the Beropa and Brahmini rivers, and on the dividing embankment.

MAIN AND BRANCH CANALS.

32. Maintenance charges of main canals fell from Rs. 1,11,712 to Rs. 1,09,839. The Superintending Engineer supplies an analysis for every canal of the expenditure under each sub-head. In "repairs to banks," indicated in the Chief Engineer's report of last year as the sub-head which seemed to offer most scope for economy, considerable savings have this year been effected, notably on the Kendraparah, Gobri extension, and Pattamoondi canals. On the other hand, the cost of silt clearance is generally higher, the only exceptions being the Machgong and Taldandah Canals. The cause of the increase is traced to the high discharges admitted into all the canals during the drought of 1888-89, which brought in the silt deposits which had to be removed in 1889-90. Under 'repairs to masonry,' there was an increase of expenditure on the Taldandah and Machgong Canals, accounted for by renewals to lock-gates; increases also occurred on the Kendraparah Extension Canal, and Ranges II and III of the High Level Canal. An abstract of the expenditure on each canal compared with that of 1888-89 is compiled below. On the Kendraparah Canal the smaller

expenditure, notwithstanding the renewal of the lower gates of Barabaria lock, is satisfactory.

Canals.	Miles.	1889-90.		1888-89.		1887-88.		1886-87.

33. The average mileage rate of maintenance for distributaries was Rs. 36·41 against Rs. 48·77 in the previous year. The rates, however, were greater in the case of the Taldandah and Machgong Canals. DISTRIBUTARIES.

Distributaries.	Miles.	1889-90.		1888-89.		1887-88.		1886-87.	
		Cost.	Per mile.	Cost.	Per mile.	Cost.	Per mile.	Cost.	Per mile.

Total ...	658½	23,988	36·41	31,451	48·77	25,594	39·69	21,457	33·27

With regard to these figures, the Superintending Engineer writes:—

"In the case of the distributaries of the Taldundah Canal the total increase of cost has amounted to Rs 118, and is explained by the Executive Engineer to have been due to an increased quantity of earthwork having been found necessary for raising and strengthening the banks of the channels; and in the case of the Machgong Canal, the total increase of Rs. 184, which has occurred during the year, appears to have been caused by increased outlay upon turfing the banks of the distributaries. But a portion of the total expenditure of the year upon earthwork is reported to have been required for deepening No. 7 distributary, the bed of which was too high. The sum so spent was Rs. 302, or Rs. 2·47 per mile, and would of itself more than account for the increase in the average rate over that found for 1888-89, but even when this allowance has been made, the rate is still much too high.

The special attention of the Executive Engineer has been drawn to this matter, as high mileage rates have prevailed upon the distributaries of this canal for the last three years, and he has been requested to effect a reduction in the average cost in future years."

34. Under the head of Drainage and Protective Works, reductions were effected in the expenditure on the Kendraparah, Taldandah and High Level, Range II, Canals. Increases occur on the protective outlets of Range I of the High Level Canal, caused by more thorough repairs to the left Beropa embankment, and on Range III, where the Salindee embankment was raised and strengthened, and two bridges over the drainage cuts rebuilt. DRAINAGE AND PROTECTIVE WORKS.

35. In the statement of financial results recorded in paragraph 30 it will be noticed that, notwithstanding a reduction of Rs. 5,626 effected in the cost of repairs, the direct working expenses are altogether greater by Rs. 44,651, chiefly in consequence of an enhancement of the establishment charges. As regards the increase under "Revenue Management," amounting to Rs. 12,478, it has been already explained that it was incurred in the entertainment of additional establishment required to cope with the increased work of revenue collection. The remainder of the excess is due, not to additions made to the staff employed on the Orissa canals, but chiefly to the smaller amount of expenditure by the existing staff on works chargeable against the capital account. While the establishment charges against "capital" are calculated at a fixed percentage on the outlay incurred on new works, the remainder of the cost of establishment actually employed is borne by the revenue account. Hence any failure to GENERAL RESULTS.

spend the allotment provided under 'capital' not only has the result of delaying the ultimate development of the project, but also unfavourably affects the balance sheet of the year by burdening the revenue account with an undue proportion of establishment charges. Indirect charges are also greater by Rs. 7,240 than in the preceding year. Notwithstanding these increases, the net loss incurred on the working of the Orissa canals is less than the loss incurred in 1888-89; being Rs. 1,52,786 against Rs. 1,61,725.

MIDNAPORE CANAL.

CAPITAL ACCOUNT.

36. The Capital, Interest, and Revenue Accounts of this Canal are given below—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1889-90.	Outlay to the end of 1889-90.
DIRECT CHARGES.	Rs.	Rs.
I.—Works	7,344	53,50,007

INDIRECT CHARGES.		
Capitalization of abatement of land revenue	27	168
Leave and pension allowances ...	236	1,83,806
Total indirect charges ..	263	1,83,974

The revised estimates of the Midnapore Canal Project, amounting to Rs. 82,49,000, received the Secretary of State's sanction in 1882. The outlay against these estimates up to the end of March 1888 was Rs. 82,63,345, which included an unforeseen charge of Rs. 94,800 as "loss by exchange." The works being then completed and in full operation, the capital account was closed. Some additional works, however, are still being carried out on estimates approved by the Government of India under the rules in force for "open capital" expenditure. The sum of Rs. 14,122 charged against Capital during the year under review was distributed under the following heads:—

	Rs.
Distributaries—	
Relief of the drainage between miles 4 to 12 of No. 1 Narainghur distributary	6,372
Drainage and Protective Works—	
Improvement and extension of Jachpore drainage ...	972
Establishment	1,689
Tools and Plant—	
New barges for dredgers	16,250

RAINFALL

38. The following statement shows the rainfall for the year 1889-90 and the four previous years at four registering stations which lie within the area irrigated by the Midnapore Canal :—

STATIONS.	1889-90	1888-89	1887-88.	1886-87	1885-86.	Average of 20 years previous to 1889-90
	Inches.	Inches	Inches	Inches.	Inches	Inches
Midnapore ...	48·71	68·00	55·38	49·39	76·20	56·67
Panchkoorah .	51·78	59·47	56·21	50·56	86·03	56·43
Luchmapore ...	45·61	60·93	47·00	56·35	81·84	Not available.
Mowah ...	31·80	60·14	49·76	55·93	81·07	Ditto

At all the stations less rain fell than in the year previous, and less than the average of 20 years. During the kharif season the fall, though scanty, was fairly distributed—

	Midnapore	Panchkoorah	Luchmanpore	Mowah	Average, 1889-90	Average, 1888-89

IRRIGATION

39. The area leased and irrigated was 68,810 acres against 69,777 acres returned in 1888-89. Notwithstanding the decline in the totals, an analysis of the figures composing them appears to point to an improvement in the condition of the irrigation system. Five-year leases have advanced from 62,374 acres to 68,349 acres, which may be taken as a sign that the cultivators place greater reliance on the canals. While the figures of 1888-89 included 3,912 acres as irrigated without authority and assessed for one year at penalty rates (of which the penal part was eventually remitted), no entry under the head of surreptitious irrigation appears in this year's return; and though the Superintending Engineer writes that unauthorized irrigation was detected over a large area, the whole was brought during the year under five-year contracts. Of *boro* rice, a crop which is raised during the rabi season, only 440 acres were irrigated, against 3,369 in the previous year, but as the right to the water of the Cossye during the rabi months does not vest in Government, *boro* irrigation is as a rule only undertaken when the kharif rice has suffered from floods. The decline under this head is therefore not to be regarded as an unsatisfactory feature in the returns.

Out of 69,777 acres which were under long or short leases in 1888-89, leases for 11,377 acres expired on the 31st March. The new leases executed in 1889-90 amounted to 10,410 acres. Leases for 2,934 acres expired on the 31st March 1890. The proportion which the area irrigated bore to that commanded is shown in the table below separately for the channels under the Midnapore weir and those under the Panchkoorah weir and tidal reaches There is an increase under the Midnapore weir of 3,335 acres, or 5·53 per cent. The decline under the Panchkoorah weir from 8,914 to 4,754 acres was chiefly due to the smaller amount of boro irrigation. The area irrigated from the tidal reaches is insignificant, amounting to only 458 acres against 600 acres in the previous year:—

PARTICULARS.		Totals provided for in the revised estimate.	Midnapore Weir, Ranges IV and V.			Panchkoorah Weir, Range III, and Tidal Reaches, Ranges I and II			Total.

40. In the revenue report of 1887-88 (paragraph 35), and in the report of last year (paragraph 40), reference was made to the difficulties experienced in the control of irrigation, both from the Orissa and Midnapore Canals, arising chiefly from the want of village channels—a want which the zemindars and cultivators steadily refuse to remedy. Without village channels, the Canal Officer is often powerless to prevent the gratuitous irrigation of fields lying

between a leased area and the distributary from which it is irrigated, since water can only be brought to the leased area over the intervening tract. To meet this difficulty, instructions have now been issued to divide the whole area irrigable from any distributary into "blocks" or units of irrigation, the size of each block being determined by the area irrigable from a separate outlet or set of outlets; to grant no leases within any unit to outlying lands until the lands contiguous to the distributary have been leased; and to make all leases within each unit terminable on the same date. Hopes are entertained that those measures will check the evil of unauthorized irrigation and tend to bring a larger area permanently under lease.

ASSESSMENTS AND COLLECTIONS

41. The following comparative statement shows the balances, assessments and recoveries of water-rates on the Midnapore Canal since the year 1885-86:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
	Rs.	Rs.	Rs	Rs.	Rs.	Rs
1885-86 ..	1,11,212	1,10,868	2,22,080	1,08,709	43,399	69,972
1886-87 ...	69,972	1,06,750	1,76,722	1,08,834	17,139	50,749
1887-88 ...	50,749	1,02,532	1,53,281	90,737	5,951	56,493
1888-89 ...	56,493	1,23,337	1,79,830	91,016	4,041	84,773
1889-90 ...	84,773	1,17,202	2,01,975	1,16,421	34,907	50,644

In the arrear balance of Rs. 84,773 with which the year opened, there were no demands of older standing than 1886-87. Rupees 78,372 was for dues incurred in 1888-89, and Rs. 6,401 for those of the two preceding years.

The current demand, amounting to Rs. 1,17,202. was composed of Rs. 1,03,403 earned within the year, and Rs. 13,799 earned in the two preceding years, but not recoverable till 1889-90.

While the whole amount for recovery, including arrears, was Rs. 22,145 more than in 1888-89, the collections were Rs. 25,408 more. The Deputy Revenue Superintendent succeeded in realizing 57·6 per cent. of the demand, an improvement on 1888-89, when the percentage was 50·6. In the following table arrear and current dues are distinguished, the sums composing the demand are distributed by the years in which they were earned, and the proportions of each year's earnings recovered or remitted are separately shown:—

YEAR.	Amount previously due and unrealized.	Amount falling due within the year.	Total amount due to end of the year.	ADJUSTMENTS OF THE YEAR.				Balance unrealized at end of the month of March 1890.
				Cash recoveries.	Remissions authorized.	Written off as being irrecoverable.	Total.	
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1886-87 .	1,246 12 0		1,246 12 0	585 3 6	498 7 6	.....	1,083 11 0	163 1 0

Total ..	84,773 1 0	1,17,202 4 3	2,01,975 5 3	1,16,423 13 9	34,907 5 9	.....	1,51,331 5 6	50,644 1 9

REMISSIONS.

In these figures the most striking feature, and therefore one which should be noticed in some detail, is the amount of the remissions, amounting to Rs. 34,907, or as much as 17·2 per cent. of the whole demand. It will be seen that the assessments from which nearly the whole amount was struck off were those of 1888-89, a year in which the supply in the Cossye ran short, and the canal was unable to meet all the demands made on it The Officiating Chief Engineer, in the revenue report of last year, admitted that there had been a partial failure, and pointed out that, though the assessments of 1888-89 were large, heavy remissions would probably be necessary, as good reasons for remission,—in some cases insufficiency of supply, in others loss of crop from breaches in the Cossye

embankment—were known to exist. In the report of the Deputy Revenue Superintendent the following classification of the remissions according to the grounds on which they were granted is given:—

	Rs.
By Government, *vide* order No. 150I.A., dated the 28th January 1890, on account of irrecoverable arrears for 1886-87, January 1890	460
By Collector under clause I, rule 22, on account of failure to supply water in 1888-89	10,677
By Collector under clause II, rule 22, on account of damage caused by excess of water in 1888-89	5,259
By Collector under clause II, rule 22, on account of commutation of the penalty rates imposed for theft of water in 1888-89 on execution of five-year leases	18,041
Remissions granted by officers disposing of certificate objection cases	470
Total ...	34,907

The remissions anticipated in the report of last year as likely to be necessary on account of insufficiency of supply and loss of crop by flooding were altogether Rs. 15,936. Regarding the very large amount (Rs. 18,041) of penalty rates imposed for theft of water in 1888-89 but struck off on execution of five-year leases in 1889-90, the Superintending Engineer justly remarks—

"It may be a matter of expediency to remit the sum of Rs 18,041 in cases of illicit irrigation in which leases are subsequently executed, but it is no less a direct incentive to continue in attempts to the same end. Now that rules are under introduction which will reduce the area illicitly irrigated, it is hoped that remissions under this head will be discontinued."

The subject, however, is engaging the attention of the Commissioner, who reports—

"The Collector deprecates the system described in paragraph 37 of the Deputy Revenue Superintendent's report, under which penalties are imposed for taking water surreptitiously. I have asked the Collector to report more fully on the subject."

MISCELLANEOUS REVENUE.

42. The miscellaneous revenue collected was Rs. 15,824, or Rs. 1,805 more than in the previous year. The sum collected by the Deputy Revenue Superintendent was Rs. 14,238, of which Rs. 4,716 was for arrears. The percentage of collection was 78·4 on the amount recoverable.

CERTIFICATES.

43. The number of certificates undisposed of at the end of the previous year was 7,185. In addition, 12,398 new certificates were filed, 2,863 being for surreptitious irrigation and 9,535 for satisfaction of demands under kabuliyats. The number disposed of was 16,139, in 11,672 of which the demand was realized, and in 4,467 struck off. The percentage disposed of was 82·41; and there is a reduction in the balance of cases unsettled at the end of the year from 7,185 to 3,444, of which only 892 were more than six months old. The Deputy Revenue Superintendent reports that in 50 cases in which the demand was realized under warrants, "the money was paid in on their issue, and not a single party had to go to jail." He explains the large proportion of cases struck off thus—

"In cases of theft of water the parties do not execute leases till they are served with certificates for the penalty rate imposed, and it is only when cases are actually proved against them that they execute leases. When the penalty rate is commuted under clause III, rule 22, into ordinary five-year rates, the certificates issued are necessarily struck off: hence the large number shown under that head. They have to be framed as carefully as ordinary certificates for demands under leases.

No certificates were issued in connection with the realization of the current demand.

COMPLAINTS.

44. The number of complaints filed during the year was 1,415 against 1,647 filed during the previous year. That good progress was made in dealing with

the complaints is evident from the figures below, which are furnished by the Deputy Revenue Superintendent:—

Nature of petitions.	Number of petitions to be disposed of.			How disposed of.						Number of petitions pending.	Remarks.
	Number of petitions pending from last year.	Number of petitions filed during the year.	Total.	By order in favour of petitioners.	By realisations.	By execution of leases.	By striking off on account of non-attendance.	By objection rejected.	Total.

Revenue establishment

45. The cost of establishment employed in assessment and collection was only Rs. 20,890, against Rs. 24,728 in the previous year. Almost the whole of this establishment is employed under the Collector. The Commissioner writes as follows on the economies effected:—

"The cost of collection during the year fell from Rs. 24 728, or 23·9 per cent. on the amount recovered, to Rs. 20,890, or 15·9 per cent. It is satisfactory to observe that with an increase in collections, the cost was much less than in any of the preceding five years. The practice of paying the collecting establishment partly by fixed salaries and partly by commission, introduced on the recommendation of my predecessor, Mr. Clay, as an experimental measure, was discontinued under Government order No. 45T.I., dated the 31st May 1890."

From the detailed figures furnished by the Examiner, it is observed that only Rs 49 was paid in commission to headmen. In 1888-89 the fees paid were Rs. 2,135, and the Commissioner then observed that the Deputy Revenue Superintendent was silent on the effects produced by these payments. Nor is any explanation now given why only Rs. 49 was paid in 1889-90.

Navigation receipts.

46 The receipts under the head of Navigation show a slight decline from Rs. 1,49,480 to Rs. 1,48,164. The tolls realized from the Calcutta Steam Navigation Company, whose vessels have been plying on the canal in increasing numbers during the last five years, rose from Rs. 21,428 to Rs. 28,947. On the other hand, the revenue from native crafts declined from Rs. 1,25,332 to Rs. 1,16,409. The usual particulars regarding the traffic carried in vessels, other than those of the Company, are given below:—

Description.		1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88	1888-89.	1889-90.

(a) Exclusive of Rs 28,947 tolls paid by the Calcutta Steam Navigation Company
(b) By private boats Rs. 79,829, and by the Calcutta Steam Navigation Company's steamer, Rs. 90,397.

The Superintending Engineer offers the following remarks regarding the decrease in the tollage from private boats:—

"The total traffic in grain, which consists almost entirely of paddy and rice, was 77,369 tons, against 74,053 tons in the previous year; while the total traffic in all goods was 126,338 tons against 124,951 tons, and 201,849 cubic feet of timber against 186,675 in the previous year. There was a considerable decrease in the item salt of down traffic and in miscellaneous, the latter probably on account of more correct classification. The additional items showing increase were oil-seeds and piece-goods. On the whole, the traffic shows a steady increase.

There is one cause only that can be attributed for the decrease in receipts from tolls which is the increasing business done by the steamer service of the Calcutta Steam Navigation Company. It is quite evident that this Company is drawing the traffic from the native craft, and that the revenue from tolls will suffer. The Company pay only $\frac{3}{10}$th tolls for all their boats in their regular double daily service either way, and the time has arrived when some portion of their concession should be withdrawn. Probably a restriction of abatement to half tolls would at present suffice. The decrease in tollage, however, was not large. Excepting the years 1882-83 and 1888-89, the collections were higher than in any year since 1880-81. The result, taking into account the competition of the Calcutta Steam Navigation Company with the native craft, is very satisfactory."

Since, however, the figures returned in Form IID, as showing the quantities of goods carried on the canal, are based only on information which toll collectors can obtain from boatmen, the data furnished by them are not very trustworthy. The figures representing the number of boats which paid toll, their tonnage as measured by canal measurement, and the ton mileage all show a slight falling off as compared with the previous year. That the competition of the Calcutta Steam Navigation Company may have an unfavourable effect on the canal revenue by absorbing an undue proportion of the trade is a contingency which should not be lost sight of. It is, however, premature to argue its existence from the statistics of a single year. It may be remarked that this Company does not enjoy any special concession from Government. Under rules, which apply to all canals maintained by the Bengal Public Works Department, a deduction is made from the measured tonnage of all steamers, in consideration of the space occupied by the engines, and a further abatement of tolls is allowed on the vessels of any Company which maintains a daily service on any canal.

47. The following statement shows the Receipts on Revenue Account and Working Expenses of the Midnapore Canal since the year 1880-81:— FINANCIAL RESULTS.

REPAIRS.

48. The actual cost of repairs during the year 1889-90 was more than that in the previous year, and is distributed by sub-heads as shown below—

	1889-90.	1888-89.
	Rs.	Rs.
Head works, including buildings	10,541	13,903
Main canal and branches	77,488	65,216
Distributaries	19,769	22,464
Drainage and protective works	2,262	2,113
Working steamers	3,447	2,443
Total ...	1,13,507	1,06,139

HEAD WORKS AND WEIRS.

The expenditure on the Midnapore head works was Rs. 7,097, and on the Panchkoorah head works Rs. 3,444. The expenditure on weirs was Re. 1·38 per foot run of the Midnapore weir, and Re. 0·60 of the Panchkoorah weir, against Rs. 2·70 and Rs. 3·34, respectively, last year. No heavy repairs or renewals were necessary.

MAIN CANAL.

The outlay on repairs to the main canal including that on working steamers and on drainage works was Rs. 93,738 against Rs. 83,675 in the previous year. The Superintending Engineer points out that the charges for earthwork—which rose from Rs. 49,758 to Rs 63,060, were accountable for the increase.

"The cost per mile was over that of the previous year by Rs. 200. This is accounted for by a larger amount of earthwork having been executed in almost every reach owing to the great damage done to the banks by the steamers of the Calcutta Steam Navigation Company. The question of protecting the canal banks from the wash of the steamers by continuous bamboo rivetting is under consideration. Another cause of increase on item earthwork is that more silt was taken out by dredgers and manual labour than in the previous year. In almost every other item of maintenance a marked decrease is visible. The amount of silt cleared by dredgers, excavators, and hand labour during 1888-89 and the past year was as follows:—

	1889-90.		1888-89.	
	Quantity.	Rate.	Quantity.	Rate.
	C. ft.	Rs. A. P.	C. ft.	Rs. A. P.
Silt cleared in 1st reach by hand labour	2,656,004	4 14 6 °/₀₀	1,755,000	8 12 6 °/₀₀
Silt cleared by dredgers in 7th and 8th reach and entrances to locks	5,267,703	5 10 3 °/₀₀	4,176,765	6 5 1 °/₀₀
Silt cleared by excavators and hand in various places ..	3,479,500	5 3 3 °/₀₀	1,931,281	5 5 1 °/₀₀

From the above it will be seen that the work outturned during the year was greatly in excess of 1888-89, while the rate per 1,000 cubic feet has been reduced in every instance.'

DISTRIBUTARIES.

On distributaries, the expenditure on repairs was Rs. 19,769 or Rs. 69 per mile against Rs. 22,464, or Rs. 79 per mile, in the previous year. The saving was effected mainly under earthwork. In the following table mileage rates for the last nine years, both for main canals and distributaries, are worked out:—

Year.	Main Canal and Head Works, &c.			Distributaries.		
	Length of canal open, inclusive of river crossings.	Total cost of work.	Rate per mile.	Length of distributary channels.	Total cost of work.	Rate per mile.
	Miles.	Rs.	Rs.	Miles.	Rs.	Rs.
1881-82 ...	48	1,03,910	2,164	277	11,854	42
1882-83 ...	48	1,01,821	2,121	277	20,407	73
1883-84 ...	48	1,06,425	2,216	277	21,196	76
1884-85 ...	48	1,15,171	2,399	277	18,865	68
1885-86 ...	48	1,10,350	2,299	277	14,424	52
1886-87 ...	48	1,20,135	2,503	283	17,617	63
1887-88 ...	48	1,10,494	2,301	283	20,687	74
1888-89 ...	48	83,676	1,743	283	22,464	79
1889-90 ...	48	93,738	1,953	283	19,769	69

49. There is an increase in the expenditure on tools and plant from Rs. 24,335 to Rs. 27,612, of which Rs. 24,119 was for repairs. Most of the outlay was incurred on the heavy dredging plant maintained on this canal. REPAIRS TO DREDGERS.

50. The Superintending Engineer reports that the year was uneventful as regards floods— FLOODS

"No severe floods occurred during the year in any of the rivers in the Midnapore district, and little or no damage was done to any of the embankments or roads. The highest gauge readings taken above Midnapore weir was R. L. 84·30 on the 26th July 1889 and below R L. 80·50, as against 88·80 and 87·53 respectively of the year before, the highest recorded in 1868 being 92·30 and 91·55. The highest reading of the river Cossye at the Panchkoorah weir was 29·50 on the 19th August 1889, as against 34·30 of the previous year."

51. The supply in the Cossye throughout the kharif season was well maintained, and sufficient to meet all the demands made on it for irrigation. SUPPLY IN THE COSSYE.

52. From the financial statement in paragraph 47, it is apparent that the working of the Midnapore Canal in 1889-90 produced a net revenue of Rs. 68,617—a better result than any secured during the last ten years. It was brought about mainly by the improvement in the collections of water-rates and the smaller outlay incurred in working expenses. The steadiness of the revenue from navigation may also be regarded with satisfaction. GENERAL RESULTS.

HIDGELLEE TIDAL CANAL.

53. The Capital, Interest and Revenue Accounts of this Canal are given below— CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

Total indirect charges ...	—244	44,563

This canal, as originally designed, was completed in 1874 for Rs. 18,40,296, and until the year under report no expenditure had for many years been incurred against the capital account. The works included in the supplementary estimates for Rs. 7,91,963 (direct and indirect charges) sanctioned by the Secretary of State in 1888-89 for the remodelling of the canal, and the arrangement under which the funds required for their prosecution are provided from Imperial revenues on interest being guaranteed by the Government of Bengal on all allotments so made, were described in the report of last year. It was then supposed that the new works included in the scheme of remodelling would be classed under "Minor Works and Navigation." The outlay incurred is, however, being treated in the accounts under "Major Works" as "Capital expenditure chargeable against Revenue" The sum spent under this head during 1889-90 amounted to Rs. 49,414, which represents the progress made in the excavation of the first range, the construction of a supply sluice with double channels at Gewankhally, and the fitting of strut gates. In explanation of the

small progress shown, it may be stated that during recent years great changes have been taking place in the drainage conditions of the country traversed by the Hidgellee Canal. The recurring severity of the floods led in 1888-89 to the appointment of a Committee to investigate the causes of the deterioration of the natural drainage channels, and proposals for the abandonment of some agricultural embankments have been made by the Chief Engineer with the object of restoring these channels to their former efficiency. Until these measures, which will involve the temporary abandonment of considerable areas of cultivated land, and therefore also an immediate loss of revenue, have been finally considered, the present deterioration of some of the main natural drainage and navigation lines in the country must continue and until some definite action is taken in the matter, it is necessary to defer the execution of some of the most important works included in the scheme for the remodelling of the canal.

It appears that the cost of establishment employed in acquiring land for the original project was incorrectly debited to "Establishment." The necessary writeback under "Works," sub-head "Land," has now been made, and explains the occurrence in the accounts of the year of a *minus* debit under the head of Establishment charges.

The decline in the tollage receipts from Rs. 53,910 to Rs. 40,338 is entirely due to the closure of the canal for three months, during which the new works were proceeded with. The Superintending Engineer states that the traffic returns present no abnormal features, and that the receipts would, but for the closure, have equalled, if not exceeded those of the previous year. A falling off observable during the earlier months of the year was doubtless due to losses of crops by floods in 1888-89. The amount paid in tolls by the Calcutta Steam Navigation Company, who maintain a bi-weekly service on the Hidgellee Tidal and Orissa Coast Canals, increased from Rs. 4,590 to Rs. 5,523. It is stated that this service, in spite of great discomfort and delays experienced on the voyage, continues to attract large numbers of pilgrims and passengers to Cuttack and Pooree. Miscellaneous receipts increased from Rs. 1,249 to Rs. 1,614.

55. The following statement shows the receipts on revenue account and working expenses for the last ten years:— FINANCIAL RESULTS.

By the reduction of the expenditure on maintenance and working from Rs. 72,078 to Rs. 22,676, the deficit of Rs. 22,943 in 1888-89 is, notwithstanding the smaller receipts, converted into a profit of Rs. 15,230 in 1889-90. The explanation of the short outlay on repairs is that the usual heavy silt clearance was not needed. About 500,000 cubic feet of silt were, however, taken out of the Kalinagur Reach. The only dredging done was that involved in clearing the lock entrances. The reduction in the cost of establishment charged to maintenance by Rs 12,415 is due to the expenditure of Rs. 51,156 on works chargeable to capital. No additional establishment of consequence was entertained to carry out the remodelling scheme; and the revenue account was therefore relieved of a charge equivalent to 23 per cent. of the cost of the new works constructed.

SILT-CLEARANCE.

56. The Superintending Engineer observes that charges for silt-clearance subject the revenue of this canal to great fluctuations, and that it is unlikely that any large return will be realized until it is remodelled and the accumulation of silt reduced to a minimum.

FLOODS.

57. Fortunately the year was not marked by any extraordinary floods.

SONE CANALS.

CAPITAL ACCOUNT.

58. The Capital, Interest and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT.

Ditto for 1889-90	10,12,826
Total ...	1,45,45,132

Regarding the outlay, during the year, of Rs. 1,28,570 chargeable against the Capital Account of these canals, the Superintending Engineer writes:—

"The principal original works completed during the year were the dock at Deegah; the Executive Engineer's office at Bankipore; an escape to the Rewa distributary; a rest-house on the Sukla distributary; a weir to discharge flood water from the Bihta Ahrah; a syphon under the Doomrain Branch Canal; a Post and Telegraph office at Baroon. Besides these, several minor works, such as distributary bridges, syphons and regulators, were completed. The principal works under construction during the year were a Toll office at Baroon and houses for dredger establishment and khalasies at Baroon; a drain from the canal to the river at Baroon; two inlets at the Shamshernugger escape; the Chowree drainage cut in the Arrah Division and the Chowsa drainage cut in the Buxar Division; rest-houses in three places in the Arrah Division. In addition to these, fair progress was made in the extension of the plantations at Dehree, which are charged to Capital. About 27,000 trees were planted during the year."

LENGTHS OF CANALS AND DISTRIBUTARIES.

60. The following table shows the lengths of canals and distributaries open, and the areas commanded and irrigable:—

DIVISION.	Navigable canals.	Branch canals.	Distributaries	Gross area under command.	Maximum discharge of canal.	AREA WHICH CAN BE IRRIGATED.		
						Kharif.	Rabi.	Total.
	Miles.	Miles.	Miles.	Acres.	Cubic feet per second.	Acres.	Acres	Acres.
Eastern Sone ...	86¼	...	358	406,154	1,613	129,040	180,000	309,040
Arrah ..	69¼	71¼	467¾	618,354	4,342	347,360	360,000	707,360
Buxar ...	63	77¼	354¼	701,000				
Total ...	218¼	148¾	1,180¼	1,728,509	5,955	476,400	540,000	1,016,400

The only additions made were 11¾ miles of distributaries, of which 11½ miles were in the Buxar division.

61. The following statement shows the progress made with village channels and outlets :— VILLAGE CHANNELS AND OUTLETS.

Division.	Total length of village channels completed.	Total number of temporary and permanent outlets.	Number of permanent outlets.
	Miles.	No.	No.
Eastern Sone	206½	1,766	334
Arrah	819¾	2,039	910
Buxar	596¼	791	361
Total, 1889-90 ...	1,622½	4,596	1,605
Total, 1888-89 ...	1,484½	5,397	1,331

The progress made with village channels, as shown in this table, is much above the average. Of about 138 miles added, 126 miles were made by the villagers themselves, and the remainder by Government on behalf of the applicants, under the provisions of Part V of the Bengal Irrigation Act. The construction of 274 new permanent outlets permitted of the removal of 1,075 temporary ones. The Superintending Engineer remarks that the substitution of good outlets for bad ones and the large reduction in the number of bad ones, has helped materially to reduce the area of unauthorised irrigation.

62. The following statements furnish the rainfall statistics of the Sone Canal system and the distribution by canal divisions for the last five years:— RAINFALL

		Average of 22 stations.

	Whole year .	39·27	47·34	40·31	59·34	44·99

The average rainfall for twenty years is 41·09 inches. Of 1889-90 the Superintending Engineer writes :—

"The rainfall in the kharif season was more equally distributed than in the previous year; the rains commenced generally about the 15th of June, or about a fortnight earlier than in 1888-89, and terminated on the 24th September, the fall from that date until the end of October being considerably below the average. The rainfall during the rabi season (November to February inclusive) was extremely small (0·52 inches), the average of the last four years being 2·00 inches."

The figures for each division are given below :—

Year.	Eastern Sone Division.			Arrah Division.			Buxar Division.		
	Kharif season.	Rabi season.	Whole year.	Kharif season.	Rabi season.	Whole year.	Kharif season.	Rabi season.	Whole year.

Total annual leases ...	84,760	81,014	145,407	155,807	72,930	105,216	52,393	73,043
Grand Total ...	309,028	305,282	345,682	356,909	283,516	315,180	246,813	268,204
Percentage of leased to irrigated area	101·22		97·12		89·80		92·01	

The most noticeable feature in these figures is the falling off in the area of rabi under annual lease. In explanation, it is stated that there was sufficient moisture in the soil for the rabi to be sown without the aid of canal water, and the subsequent rain, though scanty, was sufficient for the crop. A reduction in the rate for rabi from Rs. 2-8 to Rs. 2 per acre was made during the season of 1888-89, but the old rate was again enforced during 1889-90. Regarding the extension of five-year leases the Superintending Engineer writes :—

"The increase in the area under five-year leases is satisfactory, especially as there had been a small falling off in the previous year. The increase, moreover, would have been far larger if leases had been granted for the whole of the applications which were received. Applications were received for more than one lakh of acres, which was considerably more than double the area for which leases had lapsed at the beginning of the year, but for various reasons less than three-quarters of the applications for leases were granted. The villagers are gradually learning that five-year leases will not be given unless proper arrangements are made for effective and economical irrigation. In the Buxar Division the area brought under five-year leases during the year was more than double the corresponding area of any previous year. The reduction in the annual kharif and annual rabi irrigation is partly due to the five-year leases.

During the year the number of five-year leases cancelled by the Superintending Engineer on the application of the lessees was five only for 529 acres : no applications to have leases cancelled were pending at the end of the year."

64. The statement below shows the area of each crop irrigated during the year 1889-90, and the two preceding years, as well as 1884-85, the largest on record :—

	1889-90.	1888-89.	Difference.	1887-88.	1884-85.
	Acres.	Acres.	Acres.	Acres.	Acres.
Kharif	216,697	224,453	(—)7,756	220,428	246,740
Rabi	51,464	97,225	(—)45,761	56,090	99,280
Sugarcane	23,364	22,469	(+)895	25,007	23,682
Total ...	291,525	344,147	(—)52,622	301,525	369,702
Add—Hot-weather irrigation, ...	13,757	11,762	(+)1,995	13,855	959
Grand total ...	305,282	355,909	(—)50,627	315,380	370,661

Where block-leases for a term of years are granted, no record of the proportionate area of each crop grown within the blocks is kept. An estimate of these proportions is made for the compilation of the above table, based in the case of the Arrah division on data collected when the leases were first contracted. The percentages estimated in each division are:—

Division.	Rice.	Sugarcane.	Rabi.	Total.
Arrah	85·0	7·6	7·4	100 0
Buxar	66·7	8·3	25 0	100 0
Eastern Sone ...	80 0	10 0	10 0	100 0

These percentages differ slightly from those employed in previous years for the same purpose.

65. The areas irrigated in each division during the last five years are shown by crops below:—

Year.	Eastern Sone Division.				Arrah Division.				Buxar Division.				Total for all Divisions.			
	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.
	Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.		
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
1886-86	20,294	1,041	27,945	49,280	54,903	6,921	95,239	157,021	50,140	13,823	56,607	119,569	131,403	21,884	179,784	332,570
1886-87	11,869	1,316	34,194	47,379	21,710	20,300	98,737	140,747	13,165	5,288	61,625	80,078	46,744	26,904	194 556	268,204
1887-88	20,399	679	40,123	61,201	25,982	13,079	102,423	141,484	38,715	6,162	67,618	112 695	85,096	20,120	210,164	315,380
1888-89	29,470	408	37,117	66,993	52,269	11,891	101,489	165,649	87,706	4,383	61,496	133,585	139,445	16,682	200,102	355,009
1889-90	19,829	295	40,917	60,041	24,265	13,416	108,057	145,738	19,150	5,050	72,194	96,503	63,253	18,761	224,269	306,282

The area irrigated during 1889-90 was 98·8 per cent. of the area leased. The proportion of flow to lift irrigation was 96·3 to 3·7.

66. The following summary of *kharif* operations is taken from the Superintending Engineer's report:— Demand for water.

"The kharif season of the year under review was, on the whole, not altogether an unfavourable one for the rice crop, though the rainfall was at times deficient, especially in the "Hattia" (25th September to 8th October), which is an important period for the crop; the deficiency at this period was quite as marked in 1889 as it was in 1888. The demand for water during this period is compared with that of the previous year in the following table:—

Period.	Discharge in cubic feet per second.			
	Eastern Main Canal.	Western Main Canal.	Arrah Canal System.	Buxar Canal System.
1889.				
September 21st to 30th ...	1,021	1,805	1,003	770
October 1st to 10th ...	1,482	3,357	2,008	1,247
October 10th to 20th ...	1,457	3,474	2,155	1,296
1888.				
September 21st to 30th ...	1,057	2,138	1,700	551
October 1st to 10th ...	1,439	3, 427	2,076	1,225
October 10th to 20th ...	1,450	3,858	2,360	1,492

"It will be noticed that the demand for water was slightly less than in the previous year. This is perhaps accounted for to some extent by the decrease in the area of kharif crops, but it is more probably due to the increased experience of the people in regulating the irrigation of their fields. Some cultivators are beginning to take water at rather an earlier period than they have been accustomed to do, in order to avoid the attempt to irrigate large areas within an inconveniently short time."

DUTY OF WATER.

67. The following statement shows the duty obtained in the year under review and in the years 1888-89 and 1887-88:—

			Eastern Main Canal Series.	Arrah Canal System.	Buxar Canal System.	Western Main Canal Series.	Sone Canals.
1889-90	Kharif	Acres	52,722	115 457	71,882	187,389	240,061
		Duty on gross supply	46 45	79 52	78 38	78 81	68·35
	Rabi	Acres	11,704	31,263	31,861	63,124	74,828
		Duty on discharge utilised	36·69	46·11	72·74	56 56	52·14
1888-89	Kharif	Acres	55,559	120,758	70,605	191,363	246,922
		Duty on gross supply	49 4	68·7	80 1	71·8	65·2
	Rabi	Acres	15,547	47,165	56,982	104,147	119,694
		Duty on discharge utilised	56·5	73 01	94 9	83 5	78·7
1887-88	Kharif	Acres	54,733	112,505	78,197	1,907	245,435
		Duty on gross supply	54 4	85 5	81 2	82·4	73·9
	Rabi	Acres	11,111	31,590	38,306	60,986	81,097
		Duty on discharge utilised	43·9	65·9	84 9	75 09	68·5

The kharif duties are calculated on a base of four months—from July to October. The duties obtained in 1889-90 do not differ materially from those of the previous year.

Of recent years the canals have been often called on to meet an acute demand arising from the failure of the *Hathiya* rains, and it has been usual to test their resources during such periods by experiments of the actual quantity of water used over a limited area. The Superintending Engineer gives an account of one such experiment carried out in 1889-90—

"A careful experiment was made by the Sub-divisional Officer of the Jamrore subdivision, Mr. Arnott, to determine the quantity of water which is really required for irrigation of rice-fields at the time of greatest pressure in October. The experiment was made under favourable circumstances: there was no rainfall at all during the time the fields were being irrigated: the outlet was a permanent one, and the village channel was new and in very good order; the head on the outlet was very nearly constant during the observations: the irrigated block was a compact one, the field nearest to the outlet being about 1,200 feet from it: the area of the block was almost exactly eighty acres, and the soil was that known as "Bhangur." The conditions in the case were favourable for getting a high duty, for not only was the block a small one, but there were several field-channels for delivering the water from the main village channel. This allowed the water to pass readily to the further fields, and it was not necessary to run water day after day through the nearer fields to reach the further ones. The fields had been irrigated from the 26th August to the 9th September, and the "nigaring," or draining of the fields, had been completed on the 25th September. The villagers required water again on the 1st October, and a nearly constant supply of 1¼ cubic feet per second *at the outlet* was given for 10 days 8 hours and 47 minutes from the 1st October: the villagers took the water from their respective fields by arrangement amongst themselves, as it was required, the areas irrigated every day were measured by an ameen, and the results checked by the Subdivisional Officer. The areas irrigated in each complete day of 24 hours varied from about 5·9 to 11·5 acres with the discharge at the outlet of 1·26 cubic feet per second. The entire quantity of water passed through the outlet was equivalent to a depth of water of four inches over the entire area watered. The result of the experiment shows that, under the circumstances detailed, the "duty" of water at the outlet is about $(\frac{80}{1\ 26})$ 63 acres for each cubic foot per second during a time of pressure. This result does not of course prove that a larger duty would not be obtained over a large area, for the demand for water on a large area would, probably, not be simultaneous in all the villages As a matter of fact, however, during the period of greatest demand in 1889-90, which was from the 8th to the 17th of October, the average area which was irrigated in the Sone Canals by each cubic foot of water per second was not greater than 44 acres, so that during that period an average depth of a little less than six inches of water was placed on the fields."

The result obtained in the detailed experiment is a better one than those recorded of similar experiments made in previous years. The general result calculated for all the canals, namely a duty of 44 acres, based on the ten days during which pressure was greatest, compares with 42·3 acres obtained under like conditions in 1888-89 and 45 acres in 1887-88

CROP EXPERIMENTS

68. The difficulties experienced in carrying out experiments with the object of testing the comparative value of rice crops irrigated by canal water and

those raised without its aid, were fully explained in the Revenue Report of last year. To select two plots similarly circumstanced in every respect except the means of irrigation employed, is found to be impossible, and crop experiments are therefore now confined to irrigated lands—in most cases to those which have used canal water for five or more years. The Superintending Engineer sums up the results of 125 experiments carried out in the year under report:—

"The best results were obtained on sand, "poura," (clay and sand) loam, "tând," and "korai," and the worst on "sigta" and "kâval;" or, in other words, high, sandy, "kunkery" soils have shown better results from continuous canal irrigation than the lower "kewal" or "kerail" soils, but the experiments also show that a good crop, *i.e.*, 26 maunds per acre, can be grown on these "kewal" lands with canal irrigation. The highest result of any experiment was 66 maunds per acre in the Buxar Division from an *exceptionally* good crop grown on "banger" (sandy) soil, and continuously irrigated for eleven years from the canal. The general results of the experiments agree very nearly with those of last year, which were recorded by Mr. Luson and the canal officers."

"The results of the experiments taken in the rabi season are tabulated below:"—

DIVISION.	Staple.	IRRIGATED WITH CANAL WATER					IRRIGATED FROM OTHER SOURCES.				
		Number of experiments.	AVERAGE YIELD PER ACRE.				Number of experiments.	AVERAGE YIELD PER ACRE.			
			Grain.		Straw.			Grain.		Straw.	
			Maunds.	Seers.	Maunds	Seers.		Maunds.	Seers.	Maunds.	Seers.
Eastern Sone ...	Wheat	10	16	22	26	15	6	11	17	17	7
Buxar	,, ...	3	12	22	34	17	..	...	...	..	...
Arrah	,, ...	4	21	4	19	30	...	...	...	...	
Sone Circle average ...	...	26	16	33	26	14	6	11	17	17	7
Eastern Sone	Barley ...	6	12	26	17	9	1	10	17	22	19
Buxar	,,	...	...	...	...	...	...	...	...	...	...
Arrah	,, ...	8	18	39	17	5	2	21	25	24	18
Sone Circle average ..	...	16	15	32	17	7	3	17	36	23	32

The experiments of previous years have tended to show that barley does not thrive under canal water. This conclusion is confirmed by the figures in this table.

69. The following statement shows the demands, collections and balance of water-rates for the last five years:— DEMANDS AND COLLECTIONS

YEAR.	DEMAND.			Remission.	Net demand.	Collections.	Balance.	Percentage of collections to current demand.
	Arrears.	Current.	Total.					
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1885-86 ..	6,95,208	8,07,702	15,02,910	1,26,266	13,76,644	9,78,323	3,98,321	121·1
1886-87 ...	3,98,321	6,95,086	10,93,407	35,364	10,58,043	8,26,461	2,31,582	118 9
1887-88 ...	2,31,582	7,25,810	9,57,392	26,525	9,30,867	5,19,586	4,11,281	71 5
1888-89 ...	4,11,281	7,53,217	11,64,498	24,329	11,40,169	7,59,556	3,80,613	100·8
1889-90 ..	3,80,613	7,52,788	11,33,401	35,225	10,98,176	8,16,394	2,81,782	108 4

The figures are those of the Examiner of Public Works Accounts. Those given in the second column of the table as the "current demand" of any year, indicate the gross amount shewn in the assessment-papers which reached the collectors within that year. As it is never possible to complete more than a portion of the rabi assessments before the 31st March, the "current demand" of 1889-90 includes a part of the rabi assessment of 1888-89 and a part of that of 1889-90, and thus differs from the amount already shewn in this report as the "earnings" of the canals.

In the accounts furnished by Executive Engineers, the figures are somewhat different:—

	Demand.			Remission.	Net demand.	Collections.	Balance.	Percentage of collections to current demand.
	Arrears.	Current.	Total.					
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1889-90 ...	3,80,617	7,54,904*	11,35,521	35,374	11,00,147	8,18,505	2,81,642	108·4

* Of this Rs. 7,51,632 were assessments by Executive Engineers and Rs. 272 miscellaneous assessments by the Collector of Shahabad.

The opening balance nearly agrees with that shewn by the Examiner, but the current demand, which includes miscellaneous assessments of Rs. 3,272 made by the Collector of Shahabad, is greater by Rs. 2,116, the remissions by Rs. 149, and the collections by Rs 2,111. The difference in the closing balance is only Rs. 140. The larger discepancies have not been accounted for The explanation probably lies in the way in which the sum of Rs. 3,272 assessed by the Collector, and the recoveries made thereon, were brought into the year's accounts. In the Commissioner's figures, which agree more closely with those of the Examiner, these assessments of the Collector are apparently omitted—

	Demand.			Remission.	Net demand.	Collections.	Balance.	Percentage of collections to current demand.
	Arrears.	Current.	Total.					
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1889-90 ...	3,80,617	7,51,626	11,32,243	35,228	10,97,015	8,15,232	2,81,783	108·4

ARREARS

70. The figures of the Commissioner are employed in compiling the statement below, which exhibits the extent to which the current demand as well as the arrears of earlier years have been worked off:—

	Demand of 1889-90 how composed.	Collected or remitted.	Percentage of demand adjusted.	Balance outstanding at close of year.
	Rs.	Rs.		Rs.
Arrears of 1886-87 and previous years... ...	25,464	10,871	42·7	14,593
„ 1887-88	56,473	38,334	67·8	18,139
„ 1888-89	2,98,680	2,50,560	83·9	48,120
Total of arrear demand outstanding on 1st April 1889	3,80,617	2,99,765	78·7	80,852
Current demand of 1889-90	7,51,626	5,50,695	73·2	2,00,931
Gross demand, including arrears	11,32,243	8,50,460	75·1	...
Total outstanding at close of year ...	...	...	...	2,81,783

The reduction of arrear balances by nearly one lakh is satisfactory. The Commissioner, however, points out that nearly the whole of this reduction was effected in Shahabad alone.

"The subjoined statement shows the demand, collection, and balance in each district during the year 1889-90:—

District.	Demand.			Adjustment.				Balance on 31st March 1890.	Percentage of columns 5 on column 4.
	Arrears on 31st March 1889.	Current demand for 1889-90.	Total.	Collection.	Remission made by canal officers.	Written off as irrecoverable.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs	Rs	Rs	Rs	Rs.	Rs	Rs.	
Patna	87,512	69,797	1,57,320	69,953	1,368	6,234	68,545	88,764	43·5
Gya	45,169	76,993	1,22,151	71,580	451	208	69,237	41,804	65·6
Shahabad	2,47,914	6,04,868	8,52,782	6,74,719	4,984	10,844 / 11,071	7,01,658	1,51,124	82·2
Total ...	3,80,616	7,51,658	11,32,242	8,15,252	6,833	28,395	8,39,440	2,81,783	75·1

"From the above figures it will be seen that in Shahabad 82 per cent. of the total demand was adjusted during the year under report, showing a fair result, while the adjustment in Patna was only 44, against 41 of the preceding year. In the last-mentioned district there has been some improvement in the collections, but the result is far from satisfactory. The results in the Shahabad district are satisfactory, the arrears having been reduced by nearly a lakh of rupees."

71. The following compares by districts the operations of the year under review with those of the preceding year, arrears and current demand being shown separately:—

District.	Arrears due for irrigation effected in previous years.				Demands for irrigation effected in 1889-90.			
	Percentage of total demand.				Percentage of total demand.			
	Demand.	Collections.	Remissions.	Outstanding at end of year	Demand.	Collections.	Remissions.	Outstanding at end of year.
Shahabad—								
1889-90 ...	100·0	74·9	0·8	15·2	100·0	80·8	0·4	18·7
1888-89 ...	100·0	78·7	4·8	16·3	100·0	66·2	0·3	33·4
Patna—								
1889-90 ...	100·0	48·7	8·5	42·6	100·0	26·1	0·2	73·6
1888-89 ...	100·0	53·2	8·7	38·0	100·0	18·6	0·02	81·3
Gya—								
1889-90 ...	100·0	86·5	0·7	12·7	100·0	52·6	0·4	46·9
1888-89 ...	100·0	88·4	0·3	11·2	100·0	48·6	1·0	50·3
Average—								
1889-90 ..	100·0	70·2	8·4	21·2	100·0	72·8	0·3	26·7
1888-89 ...	100·0	74·9	5·1	19·9	100·0	59·8	0·3	39·8

72. In the returns submitted by the Examiner of Accounts, the sums remitted during the year under review and the preceding year are shown as below:— Remissions.

		1889-90.	1888-89.
		Rs.	Rs.
By canal officers	...	6,830	10,776
By civil officers	...	28,395	13,553
		35,225	24,329

In 1889-90 an "extraordinary" remission of Rs. 11,094 (inclusive of Rs. 23 granted by the Superintending Engineer) was made by the Government of Bengal in consequence of the partial destruction of crops by hail, and has been treated by the Examiner as a remission by civil officers.

In the figures supplied by the Superintending Engineer, refunds are treated as remissions :—

	Rs.
Written off as irrecoverable by civil officers ...	17,324
Remissions and refunds by canal officers .	9,886
Extraordinary remissions for destruction of crop by hail	11,094
	38,304

Deducting the sums written off as irrecoverable, the remissions and refunds together amount to Rs 20,980 sanctioned under the several heads given in the following table :—

Division.	Remitted owner to double assessment, land having been subsequently included in a five-year lease or waterrate or an annual lease previously collected.	I	II	III	IV	V	VI	VII	VIII	IX	X	Total.
		Failure of supply, rule 15.	Land not irrigated.	Proof of irrigation insufficient.	Insufficiently irrigated.	Irrigated, but not liable to water-rates under the Act.	Incorrect measurement.	Charge incorrect, i.e., lift charge as flow, &c.	Names incorrect.	Reduction of rate (rabi).	Other causes.	
	Rs.	Rs.	Rs	Rs	Rs.	Rs.	Rs	Rs.	Rs	Rs	Rs.	Rs
Eastern Sone	92*	...	196	.	432	...	293	70	19	111	517	1,760

Buxar	134	4	726	68	14	404	408	59	1	366	.	2,184
Extraordinary remissions	...	.	...	...	...	...	...	...	...	.	..	11,094
Total ..	1,713	2,117	1,572	218	619	988	1,523	415	20	577	517	20,961

* Including Rs. 44 for remissions granted in advance for five-year leases, 1890-91 to 1893-94.

Another table, compiled from the returns submitted by the Commissioner and the Superintending Engineer, shows the sum remitted from the current year's assessment separately from those remitted during the year from the assessments of previous years. Remissions by Collectors are also shown separately from those by Executive Engineers :—

Year.	Remitted by canal officers.			Written off by Collectors as irrecoverable.			
	Eastern Sone Division.	Arrah Division	Buxar Division.	Patna District.	Gya District.	Shahabad District.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1883-84	103	7	9	1,702	5	...	1,826
1884-85	31	1	...	2,019	...	...	2,051
1885-86	128	147	...	1,316	128	...	1,714
1886-87	10	36	...	991	61	702	1,799
1887-88	282	697	107	206	9	8,818	10,119
1888-89	830	10,150	4,510	...	3	1,364	16,857
1889-90	357	2,888	649	...	...	...	3,894
1890-91 to 1893-94 granted in advance ...	44	..	...	...	...	...	44
Total ..	1,780	13,925	5,275	6,234	206	10,884	38,304

The remissions by canal officers may be divided thus:—

	Percentage of remissions and refunds to gross demand.	
	1889-90.	1888-89.
Eastern Sone Division ...	0·63	1·09
Arrah ,, ...	1·22	0 72
Buxar ,, ...	0·59	1·20

73. The expenditure on the revenue establishments employed during the last two years is shown below:— REVENUE ESTABLISHMENT.

	1889-90.		1888-89.	
	Amount.	Percentage on collections.	Amount.	Percentage on collections.
	Rs.		Rs.	
Permanent and temporary establishments, such as zillahdars, ameens, &c. ...	57,629	7·05	54,325	7·15
Establishment employed under Collectors ..	33,821	4·14	33,316	4·38
Headmen's and patwaries' fees ...	61,373	7·51	70,608	9 30
Total ...	1,52,823	18 71	1,58,249	20·83

The figures are those of the Examiner. The smaller expenditure of 1889-90 is chiefly due to a reduction in the amount paid by Executive Engineers in fees to headmen, which fell from Rs. 38,118 to Rs. 29,007. The fees paid in 1888-89 were, however, exceptionally large as they included heavy arrears of previous years The cost of the establishment under Collectors was Rs. 66,187, against Rs. 65,057 in the year previous. These sums include those shown in the accounts as 'fees' paid by Collectors. The system under which the greater part of the work of collection has been carried out by a temporary staff of tehsildars and peons whose wages are charged to a separate fund maintained by setting aside half an anna out of every rupee collected, and technically called "tehsil fees and allowances," continued in force; but it has since been abandoned, and a fixed establishment sanctioned in accordance with the recommendations of the Sone Canals Committee of Enquiry The amount spent in 1889 90 on temporary establishment and charged as 'fees' was Rs. 28,603, inclusive of Rs. 4,426 paid away as commission to contractors of five-year leases. In addition, Rs. 3,763 was paid in fees to putwaries, against Rs. 4,128 in the previous year. The Superintending Engineer considers the attendance of putwaries at measurements unsatisfactory. The percentage of expenditure by Collectors to the collections realised is worked out for each district as below:—

	Cost of establishment	Collections.	Percentage of cost to amount realised
	Rs.		
Patna ...	7,423	60,933	12·18
Gya ...	5,327	79,580	6·6
Shahabad ...	53,439	6,74,719	7·9
Total ..	66,189	8,15,232	8·1

On this the Commissioner remarks:—"As usual, Gya shows the best results and Patna the worst"

COST OF MEASUREMENTS, &C., PER ACRE.

74. The following statement shows the approximate cost of measuring lands brought under assessment during the year under review and of preparing demand statements:—

Divisions.	Area measured during the year and assessed.	Cost of measuring crops.		Cost of preparing demand statements.	
		Total.	Per acre.	Total.	Per acre.
	Acres	Rs.	Pies.	Rs	Pies.
Eastern Sone	29,144	720	4·69	9 8	5 88
Arrah	65,556	3,054	8·94	2,202	6·44
Buxar	55,315	2,807	9 74	2,079	7·21
Total, 1889-90 ..	150,315	6,581	8·40	5,184	6 62
Total, 1888-89 ...	177,309	6,034	6 53	5,,05	5 59

In explanation of the increased charges, the Superintending Engineer says:—

"The reason of this appears to be that, in many cases measurements were made for five-year leases, but the leases were not granted; also in some cases five-year leases were cancelled so as to be included in larger blocks. This necessitated the remeasurement of the whole area, but only the increased area is included in the above calculation; also extra peons were employed to distribute assessment notices more promptly."

COMPLAINTS

75. Petitions and complaints are fully dealt with in Superintending Engineer's report. "Complaints" properly so defined, *i.e.*, objections to assessments actually made or petitions alleging that damage has been sustained through the canals, are classified as follows:—

Division.	(I)—Ordinary remission.				(II to IV)—Other complaints.			Total complaints received during year excluding those pending from previous year.	Pending.
	Received during the year and pending from previous year.	Disposed of—		Pending.	Received during the year and pending from last year.	Disposed of.	Pending.		
		Remission allowed.	Remission refused.						
	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone ...	1,780	841	846	103	119	116	4	1,430	107
Arrah	4,546	1,583	2,551	412	3 5	270	35	3,842	447
Buxar	1,993	890	543	190	98	96	2	1,603	192
Total, 1889-90 ...	8,358	3,313	4,240	705	522	481	41	6 8 5	746
Total, 1888-89 ..	6,970	2,201	2,960	1,809	717	611	100	7,070	1,915

"The total number of 'complaints' received during the year was 6,865 as compared with 7,070 received in 1888-89, so there was practically no decrease in 'complaints.' Better progress was made during the year under review, than in the previous one, in disposing of complaints; this accounts for the decrease in pending cases from 1,915 in 1888-89 to 746 in 1889-90 The percentage of complaints allowed has increased from 39 per cent. in the previous year to 42 per cent. in 1889-90. The most common cause of complaint is on account of land charged but said 'not to be irrigated:' the great majority of these complaints are false. The next most common complaint is on account of 'deficiency of supply,' where about one third of the complaints are admitted to be correct Next in order are complaints of 'excess measurements,' where nearly half the complaints are found to be true. Under the head of 'Wrong names' the great majority of the complaints are well founded. No less than one-third of the total number of complaints fall under the two classes last named, which cannot be regarded as a satisfactory fact, for errors of this kind could be almost entirely avoided if proper information as to the ownership of the fields was given at the time of measurement, by the headmen and patwaries, and if the ameens used due care in recording the facts. The use of temporary ameens is one cause of the frequency of errors in these respects, but the absence of the patwaries from many of the measurements is probably the chief cause. The Executive Engineer of the Arrah Division draws attention to the large number of groundless complaints which are submitted, and suggests that it is worthy of consideration whether in such cases a penalty in the shape of an increased rate might not be imposed.

The number of complaints received in 1889-90 was 2·2 for each 100 acres of crop irrigated. The largest number were received in the Arrah Division, where 2·6 complaints were received for each 100 acres irrigated. The corresponding figures in the Eastern Sone and Buxar Divisions were 2·4 and 1 6 respectively."

In addition 4,439 "applications"—in which term are included petitions for leases and outlets, for change of names in five-year leases, or for the post of

headman—were received, 2,206 were granted, and 1,751 refused. Orders had not been passed on the remainder at the close of the year.

APPEALS.

76. Twelve appeals (including five pending from the previous year) were preferred to Collectors against the orders passed by canal officers on complaints. One was allowed, eight were dismissed, and three are pending.

Nine cases were decided by engineers vested with magisterial powers under the Bengal Irrigation Act. Twelve persons accused of offences under the Act were convicted and ten discharged.

CERTIFICATE PROCEDURE.

77. One of the most important changes recommended by the committee who enquired into the administration of the Sone Canals, was the transfer of the execution of certificates for the recovery of water-rates in Shahabad from the Special Deputy Collector to the regular Revenue establishment. The subject is still engaging the attention of the Board of Revenue, who are strongly in favour of the proposed change on the ground of the impropriety of vesting an officer who certifies a demand with powers to execute the decrees. The employment of some additional establishment, or at least a re-arrangement of the existing Certificate establishment, will be necessary; and the Board are considering how this can be most economically effected. Pending the submission of the detailed proposals of the Board, the old procedure remains in force. The amount of certificate work done in each district can be gathered from the table below:—

	Shahabad.				Patna.				Gya.			
	1889-90.		1888-89.		1889-90.		1888-89.		1889-90.		1888-89.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
		Rs.		Rs.		Rs.		Rs.		Rs.		Rs.
Cases for disposal—												
1. Cases pending at the close of the preceding year.	520	6,567	967	17,043	2,322	19,535	4,046	21,154	100	6,905	167	2,991
2. Cases instituted during the year	4,209	44,075	2,948	36,074	1,051	5,728	1,120	6,103	308	3,248	139	9,044
Total ...	4,729	50,642	3,915	54,917	3,373	25,273	5,174	27,257	336	10,243	306	12,035
Cases disposed of—												
1. By being struck off owing to the demand having been remitted	472	4,303	516	5,612	1,538	7,841	1,426	4,220	8	11	90	4,403
2. By being wholly satisfied ...	3,684	39,582	2,879	42,838	506	1,835	1,427	3,496	182	1,024	116	577
Total ...	4,156	43,885	3,395	48,350	2,044	9,676	2,852	7,723	185	1,935	200	5,040
Balance outstanding at the close of the year.	573	6,757	520	6,567	1,329	15,597	2,323	19,535	221	8,308	100	6,995

Inclusive of cases pending, the number for disposal was 8,438, covering a sum of Rs. 86,158. In the previous year the number was 9,395 and the sum Rs. 94,207. The demand adjusted was Rs. 55,496 as against Rs. 61,112, of which the remissions were Rs. 12,155 against Rs 14,201. On the whole these results show an improvement on the previous year, but the amount remitted in Patna is disproportionately large. The Commissioner observes that he considers that the Act is too freely resorted to.

78. The tables below show the navigation revenue and tollage receipts for the last five years:—

NAVIGATION RECEIPTS.

NAVIGATION RECEIPTS.

Year.	Eastern Main Series.			Western Main Series.			Total.	Total tollage only.
	Number of miles open.	Tollage receipts.	Transport service receipts.	Number of miles open.	Tollage receipts.	Transport service receipts.		
	No.	Rs.	Rs.	No.	Rs.	Rs.	Rs.	Rs.
1885-86	86¼	19,579	...	132¼	22,133	4,531	46,243	41,712
1886-87	86¼	22,506	54*	13 ¼	27,159	4,535*	54,254	49,665
1887-88	86¼	27,622	95*	132¼	23,362	4,825*	55,904	50,984
1888-89	86¼	24,876	60*	132¼	27,286	5,607*	57,829	52,162
1889-90	86¼	25,189	...	132¼	26,000	6,570*	57,759	51,189

* There is no longer any Government transport service. These receipts are on account of hire of steamers, boats and sundries.

TOLLAGE.

TOLLAGE (ASSESSED).

Year.	Patna Canal system, Eastern Main Canal series.	Arrah Canal system	Buxar Canal system.	Total
	Rs.	Rs.	Rs.	Rs
1885-86	19,523	14,808	7,388	41,719
1886-87	22,646	18,289	9,001	49,936
1887-88 .	28,206	15,306	8,030	51,542
1888 89	25,165	18,421	8,826	52,412
1889-90	24,271	18,565	7,479	50,315

TRAFFIC.

COMPARISON OF TRAFFIC.

		1889-90.	1888-89.	1887-88.	1886-87.	1885-86
Number of miles open ...	No.	218½	218½	218½	218½	218½
Toll collections ...	Rs.	50,315	52,412	51,542	49,936	41,719
Collections per mile ...	,,	230	240	236	229	191
Boats, including empties ..	No	8,058	8,096	8,116	8,573	7,210
Tonnage of boats ...	Tons.	104,390	106,788	95,082	104,835	77,006
Estimated value of cargo, including rafts ...	Rs.	49,36,564	58,04,029	56,80 508	64,65,651	36,41,863

The chief fluctuations have been a falling off on the Buxar canal in the traffic in grain and seeds; and on the Patna canal a marked increase in grain and seeds, but a decrease under the head of miscellaneous cargo.

TRANSPORT SERVICE

79. The sum of Rs. 6,570 credited to transport service receipts, is the amount paid for hire of steamers and compounded tollage by the contractors, who continue to maintain a regular service of steamers on each canal, on which the Superintending Engineer reports:—

"The passenger fares cannot be increased without the sanction of the Superintending Engineer during the period of the contract. A maximum rate for parcels on canal service is defined. The steamers run regularly on fixed days: the service is well worked: there have been no accidents reported during the year: there have been no complaints from the public received by the Superintending Engineer: the service is believed to be one which is satisfactory to the large number of native passengers who use it."

MISCELLANEOUS RECEIPTS

80. The miscellaneous receipts for the last five years are given in the following statement:—

		1885-86	1886-87.	1887-88.	1888-89.	1889-90
		Rs	Rs.	Rs	Rs	Rs.
Sale of water		1,742	702	370	387	514
Plantations		307	319	391	383	279
Other canal produce		2,424	2,904	2,145	1,816	1,542
Water power		469	688	708	836	769
Rent of buildings		7,213	7,198	7,197	8,247	8,313
Fines		653	169	317	224	28
Miscellaneous	Rent of lands ...	14,369	15,231	10,997	7,995	6,939
	Fisheries	421	565	502	734	597
	Cost of process .	6,414	6,302	2,474	3,739	3,244
	Sale of old materials	355	443	60	102	17
	Other items ...	3,713	3 213	3,295	2,042	1,100
	Total ...	38,080	37,714	28,459	26,504	23,342

Reasons for the falling off in rent of lands were given in the reports of previous years.

81. The state of the plantations in each division at the close of the years 1888-89 and 1889-90 is shown in the following statement :— PLANTATIONS.

DIVISION.	1889-90.				1888-89.				Increase.	Decrease.
	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.		
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone	80,949	25,312	66,552	181,813	71,478	30,388	53,510	155,376	26,437	...
Arrah	40,642	27,211	77,269	145,122	35,871	23,370	61,018	120,268	24,854	
Buxar	17,544	11,490	17,756	46,790	13,438	6,972	21,306	43,716	3,074	...
Total ...	148,175	64,013	161,587	373,725	120,787	60,719	137,834	319,360	54,365	

The increase in the number of trees is more than twice the increase in 1888-89.

82. The receipts on revenue account and working expenses of the canals for the year 1889 90 and the nine preceding years are shown in the statement below : — FINANCIAL RESULTS.

	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.

Total Working expenses	5,02,571	4,88,864	5,48,537	5,36,730	6, 8,075	5,73,345	5,97,831	7,52,348	7,94,432	7,29,930
Net revenue ...	(—)25,564	2,46,099	1,34,903	61,648	2,26,944	4,78,644	3,04,871	(—)1,63,730	36,846	1,51,045

Compared with 1888-89, the net revenue is Rs. 1,51,045, against Rs. 36,846. While receipts (less refunds) have advanced, mainly in consequence of improved collections of water-rates, from Rs. 8,31,278 to Rs. 8,80,975, working expenses have been reduced from Rs. 7,42,619 to Rs. 6,80,959. These charges will now be briefly dealt with.

EXTENSIONS AND IMPROVEMENTS.

On 'extensions and improvements' Rs. 4,712 was spent, chiefly on the bridges of the Chowsa and Gurrah Chowbey branches, where the old wooden tops are being replaced by brick arches.

REPAIRS.

The expenditure on repairs fell from Rs. 3,28,182 to Rs. 2,92,992, which in the Superintending Engineer's report is distributed thus:—

	Rs.
Head works	32,163
Main canals and branches	1,87,042
Distributaries	60,767
Drainage and protective works ...	8,502
Cost of maintaining telegraph	3,646
Compensation	861
Expenditure by Collector of Gya ...	11
Total ...	2,92,992

REPAIRS TO HEAD WORKS.

83. The cost of repairs to head works during the last five years is shown below:—

	1889-90.	1888-89.	1887-88.	1886-87.	1885-86.
	Rs.	Rs.	Rs.	Rs.	Rs.
Sone River ...	21,133	63,245	47,150	68,570	34,908
Other works ...	11,030	10,097	12,997	10,419	7,697
Total ...	32,163	73,342	60,147	78,989	42,605

For many years after the construction of the Sone weir, the recurring failures of the piers of the river sluices, owing to the inherent weakness of their design, were a constant cause of expenditure in repairs, and in 1885 it was decided to rebuild them on a stronger model. The sums devoted to these special repairs were in 1887-88 Rs. 21,020, in 1888-89 Rs. 50,024, and in 1889-90 Rs. 6,809. The work is now completed. In the general reduction of working expenses already noticed, the savings effected on the repairs of the weir are the chief feature.

MAINTENANCE OF MAIN CANALS AND DISTRIBUTARIES.

84. The expenditure on maintenance and repairs on the main canals and distributaries in each division during the last two years is shown below:—

	Arrah Division.		Buxar Division.		Eastern Sone Division.	
	1889-90.	1888-89.	1889-90.	1888-89.	1889-90.	1888-89.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Western Main Canal	48,430	44,298	15,423	20,109	...	...
Eastern ditto	...	...	...	...	32,267	22,722
Canals	26,654	34,443	10,543	10,766	25,077	23,015
Branch Canals	15,179	14,559	13,269	14,206	...	...
Distributaries	29,682	29,453	17,106	15,172	13,979	17,216
Drainage and protective works ...	5,285	2,358	168	153	3,048	2,753
Total ...	1,25,430	1,25,111	56,509	60,406	74,371	65,706

Out of Rs. 48,430 spent on the first five miles of the Main Western Canal, the charges under the sub-head 'Earthwork' are Rs. 47,196, or considerably greater than the average of the last three years. On silt-clearance by hand Rs. 11,638 was spent, against Rs. 3,460 in the year previous; on the other hand, the cost of dredging was reduced from Rs. 36,918 to Rs. 31,463. A saving of more than Rs. 5,000 effected under the same sub-head on the portion of the Western Main Canal which is within the Buxar Division was due to a reduction in the amount of work done. The expenditure under other sub-heads does not appear to call for special remark.

85. The quantity of silt dredged from the Eastern and Western Main Canals and the rate at which the work was done during the last two years, are given below:— SILT-CLEARING AND DREDGING ON MAIN CANALS.

Canals.	1889-90.			1888-89.		
	Cubic feet dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Cubic feet dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.
		Rs.	Rs. A. P.		Rs	Rs. A. P.
Eastern Main and Patna	2,369,143	13,867	5 13 7	2,327,518	12,944	5 9 0
Western Main ...	6,410,767	40,033	6 3 10	7,514,478	49,724	6 9 5
River Sone ..	1,563,222	3,285	2 1 7	1,059,684	2,944	2 12 5
Head Lock ...	35,620	210	5 14 3	51,205	157	3 1 0
Total ...	10,378,752	57,395	...	10,982,885	65,769	...

The rates shown in this table include the cost of lifting the silt into barges, and either depositing it behind the spoil bank of the canal, or boating it out into the river. They vary therefore with the height of the spoil bank at the point where the dredging takes place, or the distance of that point from the river.

The cost of 'lifting' taken separately is given below:—

	Cubic feet dredged.	1889-90— Cost of lifting.	Rate per 1,000 cubic feet.	Cubic feet dredged	1888-89— Cost of lifting.	Rate per 1,000 cubic feet.
		Rs.	Rs. A. P.		Rs	Rs. A. P.
Eastern Main and Patna	2,369,143	3,750	1 9 8	2,327,518	4,999	2 2 4
Western Main ...	6,410,767	12,707	1 15 8	7,541,478	20,398	2 11 3
River Sone ...	1,563,222	2,835	1 13 0	1,059,684	2,757	2 9 8
Head Lock ...	35,620	135	3 12 7	51,205	157	3 1 0

The rates of 1889-90 compare very favourably with those of the previous year. The reduction was effected mainly under the head of fuel, but the savings in the consumption of rope and belting are also noteworthy. The reason for the greater cheapness of the work on the eastern as compared with the western bank of the Sone is that firewood is available at Baroon. Notwithstanding, however, the decrease in the rate for "lifting" it will be noticed that the whole cost of dredging and discharging in the Eastern Sone Division was greater this year than last. The explanation is that every year the lead increases, and that in 1889-90 particular care was taken that the silt should be thrown far back to fill up gaps in the spoil bank.

86. The expenditure on repairs to dredgers during the year under review is compared with that of the previous year in the following statement :—

	1889-90.	1888-89.
	Rs.	Rs.
12 Fouracres' dredgers ...	6,675	7,704
2 Bruce's ditto ...	374	754
2 English ditto ...	3,439	4,300
Mud punts	3,178	2,870
Total ...	13,666	15,628

In order to arrive at a true estimate of the economical value of each type of dredger, the Superintending Engineer has worked out the charges for repairs

as well as interest on first cost per thousand feet of silt dredged. The calculation conclusively demonstrates the superiority of the dredger invented by the late Mr. Fouracres:—

	Average in 1889-90 of the cost of "lifting" per 1,000 cubic feet.	Add for repairs and interest as detailed in report for 1886-87.	Cost of "lifting" per 1,000 cubic feet when all items of expenditure are taken into consideration.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
Fouracres' dredger ...	1 15 0	2 12 8	4 11 8
Bruce's „ ...	1 12 8	4 14 4	6 11 0
English „ ...	2 1 5	8 13 3	10 14 8

The quantity of silt cleared by hand from main canals in the Eastern Sone Division and the cost are compared below with the figures for the previous year:—

	1889-90.			1888-89.		
	Cubic feet cleared by hand.	Cost.	Rate.	Cubic feet cleared by hand.	Cost.	Rate.
		Rs.	Rs. A. P.		Rs.	Rs. A. P.
Eastern Main and Patna Canals ...	2,491,847	13,067	5 3 10	2,773,668	10,542	3 12 9

SILT-CLEARANCE ON BRANCHES AND DISTRIBUTARIES.

On branch canals and distributaries the sums spent on dredging and silt-clearance were:—

Eastern Sone Division.

	1889-90.	1888-89.
	Rs.	Rs.
Distributaries, Patna Canal system	792	1,359

Arrah Division.

Doomraon Branch Canal	77	938
Behea Branch Canal	47	88
Distributaries	2,896	4,934
Drainage and protective works	2,594	813

Buxar Division.

Buxar Canal	243	453
Chowsa Branch Canal	...	56
Distributaries	407	479

WEED-CLEARING.

87. The cost of weed-clearing for the last five years is shown in the following table:—

	1889-90.	1888-89.	1887-88.	1886-87.	1885-86.
	Rs.	Rs.	Rs.	Rs.	Rs.
Eastern Sone Division	9	217	558	314	2,115
Arrah Division	1,418	1,725	3,342	2,218	2,491
Buxar Division	726	869	1,015	2,065	77
Total ...	2,153	2,811	4,915	4,597	4,683

88. The mileage rates of cost of repairs are worked out both for canals and distributaries, and compared with the rates of the two previous years in the statement below :— MILEAGE RATES OF REPAIRS.

CANAL.	Division.	1889-90.		1888-89.		1887-88.	
		Number of miles.	Cost per mile.	Number of miles.	Cost per mile	Number of miles	Cost per mile.

CALCUTTA AND EASTERN CANALS.

CAPITAL ACCOUNT

90. The Capital and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1889-90.	Outlay to end of 1889-90.
DIRECT CHARGES.	Rs.	Rs
Old outlay prior to the year 1861-62	...	24,91,012
I.—Works	(—)157	20,35,156
II.—Establishment	(—)800	3,84,396
III.—Tools and plant	2,420	3,48,236
IV.—Profit and loss	...	847
V.—Suspense accounts	1,269	12,066
Total	2,732	52,71,713
Less—Receipts on capital account	2,901	44,454
Total direct charges ...	(—)169	52,27,259
INDIRECT CHARGES.		
Leave and pension allowances	(—)112	60,945

The sums actually spent during the year on original works cannot be at once ascertained from the figures in this table, which require some explanation. A sum of Rs. 5,021 spent in March 1880 on the construction of mud barges and erroneously debited to "Works," was written back during 1889-90 to "Tools and plant." Consequently the outlay on new works, which was really Rs. 4,864, appears in the accounts as(—) Rs. 157. In "Tools and plant" the only transaction of the year was the sale of a steam-launch; but the credit of Rs. 2,601, which were the sale-proceeds, is converted by the write-back into a debit of Rs. 2,420.

Of the outlay of Rs, 4,864 on "Works," Rs. 3,075 was spent on completing the wrought-iron caissons required for closing the Dhappa and Chitpore locks during repairs, and Rs. 1,789 on an inspection bungalow at Basirhat.

The receipts of 1889-90 as compared with those of 1887-88 and 1888-89, which were years of exceptional prosperity for the Calcutta Canals, show a great falling off.

92. The tolls collected from boats, which are the main source of revenue, were Rs. 4,71,555, or Rs. 83,606 less than in the previous year. The abstract below shows that against this loss there were small increases in rents realised Collections.

on canal property, demurrage charges, ferry-tolls, and other miscellaneous sources of revenue :—

Canals.	Number of boats and rafts.	Collections by Collector and Superviser.						Collections by Executive Engineers.	Grand Total, Gross Revenue.
		Tolls from boats and rafts.	Demurrage.	Ferry tolls.	Tolls from steamers and flats.	Rents of buildings, lands, and other miscellaneous receipts.	Total.	Rents of buildings, lands, and other miscellaneous receipts.	
	No.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta and Eastern ...	77,442	3,66,876	5,092	4,226	4,640	3,918	3,84,752	3,409	4,96,621
Tolly's Nullah	70,821	1,04,679	993	1,090	...	608	1,07,370		
Total 1889-90 ...	148,263	4,71,555	6,085	5,316	4,640	4,526	4,92,122	3,409	4,95,621
Total 1888-89 ...	168,309	5,55,161	5,660	4,427	4,670	3,446	5,73,364	1,780	5,75,144

Boats.

93. Boats of all sizes frequent the Calcutta Canals, the measurements in some cases exceeding 5,000 maunds. To the decrease of 20,023 in the number of boats which paid toll during the year, every class of boats contributed except the largest class, which includes those of more than 5,000 maunds. For the Circular Canal the figures are :—

		Number and class of boats.					Total.
		Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000 maunds.	Over 5,000 maunds.	
Circular and Eastern Canals ...	1889-90 ...	34,016	24,124	17,153	2,039	74	77,426
	1888-89 ...	36,376	31,020	20,492	2,100	72	90,060

and for Tolly's Nullah :—

Tolly's Nullah ...	1889-90 ...	16,784	17,894	5,280	51	...	40,009
	1888-89 ...	18,766	24,104	6,067	56	..	48,993

Besides the boats enumerated in these tables, a number of small boats and *dinghies* enter Tolly's Nullah from the Kourapokhur khall, paying toll at Russa. These boats are not classified. Their number rose from 29,127 to 30,731; probably in consequence of the improvements carried out in the channel of the Kourapokhur khall, which was brought into the Circular Canal System at the end of 1888-89.

Traffic.

94. The figures showing the tonnage of the boats by canal measurement and the estimated weight and value of the cargoes are shown below separately for the Circular Canal and for Tolly's Nullah, and compared with the returns of the preceding year:—

	Number of boats.	Tonnage of boats by canal measurement.	Weight of cargo carried.	Value of cargo carried.	Tollage including demurrage.	Percentage of toll on value of cargo.
	No.	Tons.	Tons.	Rs.	Rs.	
1889-90 ... Calcutta Canals	77,425	1,797,810	610,349	5,15,09,515	3,76,607	
Tolly's Nullah ...	70,740	652,249	212,476	152,9 4,352	1,05,672	
Total ...	148,165	2,450,059	822,825	6,68,03,867	4,82,279	0·72
1888-89 ... Calcutta Canals	90,068	2,005,703	701,513	5,48,67,758	4,32,288	
Tolly's Nullah...	78,120	796,275	250,456	1,62,07,771	1,33,203	
Total ...	168,188	2,801,978	951,969	7,10,75,529	5,65,491	0·79

The Superintending Engineer ascribes the decrease in the traffic to two causes: the falling off of the rice traffic, and the competition of the Central Bengal Railway between Khulna and Calcutta. In the rice trade the number of boats engaged was 2,164 less, representing a decrease of 21,45,239 maunds in measurement and Rs. 42,060 in tolls. The jute traffic on the canals was fairly steady, but the Superintending Engineer believes that this crop is supplanting rice in the eastern districts, and that the railway, and not the canals, is being benefitted by the increased production.

MISSING TICKETS.

95. The improvement which has been effected in the organisation and management of the toll system is attested by the recurring decreases in the number of missing tickets. The following are the figures for eight years:—

YEAR.	No.	YEAR.	No.
1882-83	5,459	1886-87	542
1883-84	3,086	1887-88	677
1884-85	1,404	1888-89	329
1885-86	653	1889-90	238

MAINTENANCE.

96. In the direct expenditure charged against the revenue account of the canals, there is on the whole a decrease of Rs. 14,980

In extensions and improvements the decrease is Rs. 3,329. Rs. 1,244 was spent on improvements to the toll inspector's quarters at Russa.

In the cost of repairs there are increases, as compared with the previous year, of Rs. 11,268 in dredging, of Rs. 9,918 in improving the Kourapokhur khall, of Rs 2,355 in protecting the banks of the Calcutta Canal, and of Rs. 4,043 in the hire of a launch for the supervisor's use. On the other hand, as no silt-clearance was carried out during the year on the Tetooa, Assassoni, and Bhyrub khalls, a saving of Rs. 27,058 was effected in maintaining the channels of the Eastern Boat route. On the steamer route, as no wrecks were blown up, the saving is Rs. 3,258. On the whole, the cost of repairs is greater by Rs. 1,659, while that incurred on tools and plant is less by Rs. 15,544.

REVENUE ESTABLISHMENT.

97. Charges for establishment are greater by Rs. 2,234. The cost of the revenue establishment employed on toll collections fell from Rs. 37,684 to Rs. 36,281. The statement below shows that a steady reduction in the cost of collections has been effected during the last five years:—

	Gross collections made by the Collector and Supervisor.	Cost of entire revenue establishment.	Percentage.
	Rs.	Rs	
1885-86 ...	5,13,839	44,751	8 70
1886-87 ...	4,81,048	42,714	8·84
1887-88 ...	5,78,288	38,920	6·73
1888-89 ...	5,73,364	37.684	6·57
1889-90 ...	4,92,122	36,281	7·37

DREDGING OPERATIONS.

98. The following account of the dredging operations of the year is given by the Superintending Engineer:—

"The dredger "Victoria" worked for 266 days during the year. The total quantity of silt dredged was 2,222,100 cubic feet at a cost of Rs. 17,866, or the average rate of Rs. 8 per 1,000 cubic feet.

The "Fouracres" dredger worked for 212 days, during which period she dredged 395,100 cubic feet of silt at a cost of Rs. 4,041, or at the rate of Rs. 10-3-6 per 1,000 cubic feet. From May to July she was chiefly engaged in removing cross bunds in the Tetooa khall

The rate of working the dredgers has been reduced as compared with that of the previous years, due to the fact that they were constantly at work throughout the year; but it is still capable of reduction. The value of the silt sold during the year was Rs. 1,149, which, if deducted from the cost of dredging, would still further reduce the rate of work."

FLOODS.

99. There were no extraordinary floods. 45 boats were wrecked, against 106 in the previous year.

FINANCIAL RESULTS.

100. The profits in the working of the canals were Rs. 2,16,410, or 4·1 per cent. on the capital outlay. Results for ten years are given below:—

YEAR.	CAPITAL OUTLAY—		RECEIPTS AND WORKING EXPENSES.			Percentage of net revenue to capital outlay to end of year.
	During the year.	To end of the year.	Gross revenue.	Charges (direct or indirect).	Net revenue.	
	Rs.	Rs.	Rs.	Rs.	Rs.

The expenditure on capital is incurred against the revised estimates, amounting to Rs. 43,46,873 (direct charges), sanctioned by the Secretary of State in August 1889. The work done included the construction of quarters for the collector's establishment and of ferry ghâts and other small works. Some charges incurred in former years in acquiring land were incorrectly debited to establishment. These have now been written back to the proper sub-head. The establishment charges of the year are consequently shown as a *minus* debit in the accounts.

The gross income from tolls declined from Rs. 65,010 to Rs 63,724. While the tolls paid on vessels of the Calcutta Steam Navigation Company rose from Rs. 14,380 to Rs. 22,290, the receipts from country boats fell from Rs. 50,630 to Rs. 41,434. The slackness of the traffic is chiefly attributable to the heavy losses of crops by flooding which affected the exports. The revenue earned on Range III is again disproportionately large, a subject on which the Superintending Engineer writes as follows:—

"The receipts from traffic on Range III contributed Rs. 37,743, or more than the three other ranges put together. This is, as explained in former reports, due to the country on Range III in Midnapore district being more advanced and civilized than Balasore It is better provided with roads, hâts, boats and other conveniences as already reported. However, signs of awakening are visible across the Subarnarekha at points along the country traversed by the canal on Range IVA, and considering the closure of the Hidgellee Tidal Canal and the loss of crops, the year's traffic receipts do not appear unfavourable. The traffic on Range III was, as the return shows, naturally most affected by the closure of the Hidgellee Tidal Canal."

The expediency of reducing the tolls on through traffic has been under consideration, but it has been decided to postpone taking any steps in this direction until the remodelling of the Hidgellee Tidal Canal is completed. The attention of the District Board of Balasore has been called to the backward state of the southern part of the district, and some assistance has been promised from provincial funds for the construction of feeder roads.

NAVIGATION RECEIPTS.

103. The receipts on each range are compared with those of the previous year below:—

RANGES.	Miles of canal open.	Navigation receipts, 1889-90.	Navigation receipts, 1888-89.
		Rs.	Rs.
Range III ...	36	37,743	45,575
Do. IVA ...	17	3,654	4,110
Do. IVB ...	6½	8,468	5,729
Do. V ...	38	13,859	9,596
Total ...	97½	63,724	65,010

MAINTENANCE

104. There is an increase in the cost of repairs of Rs. 7,922 Some special charges, however, were incurred: Rs. 10,509 on clearing silt at Bhaitghur, and Rs 6,292 on adapting the Bhograi sluice to drainage as well as supply purposes. In consequence of the expenditure on remodelling the Hidgellee Tidal Canal, a share of the cost of establishment employed on the Balasore executive division was apportioned against the Capital Account of that work, and the incidence of establishment charges debited to the Revenue Account of the Orissa Coast Canal is therefore much lighter than usual. A saving of Rs. 3,949 was effected in the cost of repairing tools and plant. The indirect charges also show a decrease. For these reasons the working of the canal, notwithstanding the smaller receipts and greater cost of repairs, resulted in a net loss of only Rs. 3,653, as against Rs. 10,844 in the previous year.

FLOODS

105. There were no floods of any consequence during the year. Grave apprehensions are felt regarding the action of the Subarnarekha river, near the point where it is crossed by the canal. In consequence of a sudden diversion of the river, the lock at Jamcoonda is left on a backwater, which at present is silting up, and there is reason to fear that it will soon cease to be navigable. On the other hand, the velocity of the river during freshets in the shorter channel which it has made for itself is so great as to endanger the safety of the boats.

SARUN CANALS.

The only revenue, other than miscellaneous, earned by these canals is Rs. 21,850 annually guaranteed by the proprietors of indigo factories in the district of Sarun, under an agreement made in 1880. The canals were constructed mainly to supply water for indigo manufacture, but some irrigation also takes place under the management of the guarantors; the proceeds realised by each of whom are treated as a deduction from the amount payable under his guarantee; and if they exceed that amount, are credited to the canals.

ASSESSMENTS AND COLLECTIONS

108. From the statement of receipts and expenditure for ten years given above, it will be evident that dues incurred under the guarantee are very irregularly paid; and a large arrear balance has collected. The recoveries in 1889-90 were, however, better than those of previous years—

REMISSIONS

Rupees 1,250 was finally remitted from the guarantee of the canal manager of Arwa, on the ground that he was deprived of his share of water in the Dhanai feeder in 1882-83, in consequence of the reconstruction of the sluice in that year.

109. The area irrigated is returned in the reports of the canal managers at 4,215 acres, of which 2,574 acres were rice and 1,327 acres rabi and opium. These figures must be taken as approximate. The areas returned as irrigated for each year since 1881-82 are given below:— IRRIGATION

	Acres
1881-82	666
1882-83	1,741
1883-84	21,123
1884-85	7,223
1885-86	4,565
1886 87	2,146
1887-88	4,218
1888-89	7,213
1889-90	4,215

110. The cost of maintenance (direct charges) during 1889-90 was Rs. 38,313, or more than in any year since 1881 82. MAINTENANCE AND REPAIRS.

The expenditure on repairs was Rs. 24,900, the details of which can be compared with those of the two previous years in the following statement—

	Miles.	1889-90.	1888-89.	1887-88.
Repairs to head cut and river protective work.	6 33	Rs 10,026	Rs. 11,666	Rs. 10,429

„ to dams and channels for irrigation purposes	...	11,357	8,235	3,158
Total ...	...	24,900	23,976	18,601

The cost of silt clearance at the head of the "Thakraha sota" was Rs. 2,149, against Rs 1,475 in the previous year; and in the head cut Rs. 612 against Rs 329.

The increased expenditure on dams and channels was chiefly incurred in efforts to restore the Roopan Chap sota to its old channel. This "sota" or spill channel of the Gundak has since 1887 shown a tendency to rejoin the parent stream by forcing for itself a new channel through a depression on its left bank at Chittahi.

As in the Sarun scheme the Roopan Chap has been utilised as a high level feeder for all the distributing channels except the "Daha," the accomplishment of the threatened diversion would be attended with the most serious consequences; and an attempt was made in 1887 to frustrate it by throwing a bund across the depression. During the flood season of 1888, however, this bund was outflanked and carried away, and the depression deepened into a well-defined channel. It was then decided to effect a temporary repair of the breach so as to secure a supply of water for the manufacture of indigo during the season of 1889-90, and to defer any attempt to permanently restore the channel till the rains were over. The work done during the year and the results effected are thus described by the Superintending Engineer:—

"During the early part of the year under review a bund of 600 feet in length was constructed across the channel, and was extended some 300 feet on to the north. The floods in June were, however, high, and the embankment was again outflanked and carried away. The nallah was still further deepened, and nearly the whole of the discharge in the Roopan Chap sota passed into the Gunduk by this new channel. Efforts were made to turn the current into its original course, but without success, and as a natural consequence the bed of the Roopan Chap below Chattahi silted up rapidly. Thus a serious state of things has come to pass, and it became evident that unless this new sota could be effectually closed, the Gunduki, Dhanai, and Gungri canals would be rendered useless for want of a feeding channel; consequently it was decided to construct an embankment across this new Chattahi sota, extending some distance on either side of it to high ground. This work was put in hand in December 1889, and was well advanced by the end of March, and will, it is hoped, prove a success."

The canals were worked in 1889-90 at a loss of Rs 16,939, and the average annual loss during the last ten years has been Rs. 10,520.

GENERAL RESULTS.

111. The agreement under which a revenue of Rs. 21,850 was guaranteed by the users of canal water for irrigation and the manufacture of indigo expired on the 31st March 1890; and in October 1889 proposals were made to the guarantors for contracting a fresh and enhanced guarantee of Rs. 28,800. In consequence, however, of the doubts entertained regarding the channel of the Roopan Chap sota, the Collector of Sarun was requested to suspend the negotiations for an extended guarantee, and to enter into a temporary agreement regarding the supply of water in 1890-91. The terms of the old guarantee under which water was to be supplied both for irrigation and the manufacture of indigo whenever needed were very one-sided; and under them claims for remission, grounded on the failure of Government to perform its share of the contract, could not be resisted. In any future contract no specific assurance that water shall be always available can be given, while on the other hand the regular payment of the annual guarantee must be secured, which, moreover, must be raised to an amount equivalent to the cost of maintenance. Definite proposals based on these lines have been placed before the gentlemen in whose interests the project was originally carried out. The alternative to the conclusion of an agreement on fair terms appears to be the entire closure of the canals.

NUDDEA RIVERS.

112. The approximate length of the channels comprising the Nuddea rivers system was given in last year's note. No capital account of expenditure is kept.

REVENUE ACCOUNT.

The revenue account is given below :—

Net revenue	1,07,425	(—)63,554	61,686	71,919	94,814	1,01,694	1,38,936	1,00,783	51,119	92,834

There is again a small decline in the receipts, which were Rs. 1,85,823 against Rs. 1,91,888 in the preceding year. The collections on boats fell from Rs. 1,79,543 to Rs. 1,66,599. On steamers and flats they increased from Rs. 11,367 to Rs. 16,810, and on rafts from Rs. 839 to Rs. 2,573. In the falling off of the revenue all three rivers share. It was due to a general depression of trade, and also to a larger proportion of the traffic being taken by the Steamer Companies, who, from the construction of their vessels, gain an advantage over the boats under the system of measurement adopted

114. The number of the boats of each class which paid toll and the navigation receipts are shown in the following return :— BOATS AND COLLECTIONS.

MAINTENANCE

115. The direct charges on the revenue account have been reduced from Rs. 1,34,694 to Rs. 87,591. The cost of repairs was less by Rs. 41,090. Of Rs. 47,843, the outlay on repairs, Rs. 27,671 was the cost of training works, while Rs 14,195 were spent in deepening the lower and attempting to close the upper intakes of the Bhagiruthi. The attempt was a failure, and the Bhagiruthi was closed, as in the two previous years, to through traffic during the dry season. The Superintending Engineer in describing these operations comes to the following conclusion:—

"There is no doubt, unless we are assisted by natural advantageous changes in the river, it is useless to attempt to keep open the mouth of the Bhagiruthi, unless we are prepared to expend a very large amount for which there will be no corresponding return.

REVENUE ESTABLISHMENT

116. There is a decrease in the establishment charges of Rs. 4,858. The charges for collection were Rs. 21,760 against Rs. 23,006 in the previous year. The percentage of these charges to receipts is 11·7 against 12.

FLOODS.

117. The floods in the Bhagiruthi rose to an extraordinary height. Readings of 1·1 ft. above the maximum of 1885 were taken at Gheria near the head of the river, and of three inches above the maximum of 1888 at Berhampur. As at the same time the height of the Ganges at Sahibgunj was 3¼ feet short of the maximum, the severity of the Bhagiruthi floods is probably due to the widening of the upper intake. Much mischief was caused by the breaching of the embankments. A survey of the intakes and connected channels has now been carried out, with the view of dealing with this question.

EDEN CANAL.

118. It has been stated in the reports of previous years that the Eden Canal was undertaken mainly to supply water for drinking and not for irrigation. Since its construction, however, it has more than once happened that the crops in the district through which it runs have been threatened with failure from drought; and in these emergencies, in answer to the appeals of the people and the representations of the district officers, the sluices have been opened and irrigation permitted. In 1888-89 and previous years the arrangements for leasing and assessing the irrigation were carried out by the Collector, whose efforts to recover a revenue at all proportionate to the benefit granted cannot be said to have been attended with success.

IRRIGATION.

In 1889-90 the Executive Engineer entered into timely arrangements with the cultivators regarding the terms on which their lands would receive water, stipulating chiefly that payments must be made in advance; and 29,080 bighas (equivalent to about 9,693 acres) were irrigated at a rate of 4 annas per bigha. The assessments were altogether Rs. 7,292, of which Rs. 6,171 was recovered in advance and Rs. 591, on measurement of the irrigated crop. The cost of the establishment employed on irrigation was Rs. 421. The following remarks on these operations are taken from the Superintending Engineer's report:—

"The balance remaining, it is expected, will be realized without difficulty. Judging from the eagerness for water on the part of the ryots, for which payment in advance was demanded, and the facility with which the arrears for excess irrigation are being collected, there is little doubt that the simple procedure adopted will prove successful in future where considerable difficulty had previously been experienced. There was at first great opposition to payment of water-rates in advance When it was found that under no other circumstances would water be given, the cultivators, represented by their zemindars or headmen, came forward towards the end of the season, executed the leases, and paid the rates."

RECEIPTS AND EXPENDITURE

119. The receipts from this canal amounted altogether to Rs. 9,370. The expenditure on works and maintenance, exclusive of charges for establishment and tools and plant, was Rs. 17,478 against Rs. 25,413 in the preceding year.

MADHUBAN CANAL.

120. During the year under review 9,134 acres were irrigated from this small canal. Hitherto no revenue has been derived from the sale of water, but the expediency of making a charge for its use is about to be considered. The cost of maintaining the canal was greater than usual, as the weir across the Teur

river suffered severely from floods, one of the return walls being carried away and the apron eroded. The expenditure for three years is given below:—

	1889-90.	1888-89.	1887-88.
	Rs.	Rs.	Rs.
Works	2,957	582	4,729
Maintenance ...	3,257	2,297	1,810
Establishment	3,100	1,315	3,204
Tools and plant ...	23	...	78
Total ...	9,337	4,194	9,821

GENERAL RESULTS.

NET INCOME.

121. The net income of the year 1889-90 from Major Irrigation Works was Rs. 1,65,709. This result is a better one than any secured since 1885-86, a year of which the profits, which amounted to Rs 4,31,519, were greatly enhanced by the realization of a heavy arrear demand In 1887-88, when the receipts were unduly affected by the agitation against the Sone Canal system, there was a loss on the working of more than four lakhs, and in 1888-89, when this influence had subsided, the loss was Rs. 23,721, but it must be remembered, in comparing the results of these two years with those of the years preceding them, that a new system of apportioning establishment charges was first introduced into the accounts of 1887-88, and that the effect of its introduction has been to increase the share of working expenses annually charged against Major Irrigation Works by more than two lakhs of rupees. The receipts and charges of 1889-90 and 1888-89 are placed side by side below :—

	1889-90.		1888-89.
	Rs		Rs.
Gross direct receipts ...	15,21,274		13,94,369
Ditto charges ...	13,55,565		14,18,090
Profit ...	1,65,709	Deficit	23,721

122. The balance-sheet of 1889-90 exceeded the anticipations of the budget estimates :—

	Budget estimate.	Revised estimate.	Actuals.
	Rs.	Rs.	Rs
Direct receipts ...	13,58,000	14,41,000	15,21,274
„ charges ...	14,20,000	14,36,500	13,55,565
Net revenue ...	(—) 62,000	7,500	1,65,709

The surplus of receipts occurred chiefly in the collections of water-rates. In Orissa, where the collections were Rs. 1,99,844 against a revised budget estimate of Rs. 1,70,000, the excess is due to the development of the distributary system and the greater demand for water ; and on the Sone canals, where they were Rs. 8,16,394 against a revised estimate of Rs. 7,83,000, to the energy shown by the Special Deputy Collector of water-rates in Shahabad in realizing arrears. The navigation receipts on each major work were also greater than those anticipated. The lesser working expenses were due partly to stricter economy observed on all the canals, and partly to the lighter incidence of the establishment charges occasioned by the larger proportion of Provincial Civil Works executed by the Irrigation staff.

ARREARS.

123. The revenue derived from navigation and miscellaneous receipts is practically realized in full within the year in which it is earned, and the arrears are insignificant. But of the revenue earned on major works by the sale of water for irrigation, a part does not fall due, and a part, though due, is not legally recoverable till after the close of the year in which the water is sold. For this reason, even if collecting officers were able to realize all water-rates at the time when they are legally recoverable, the amount collected would not necessarily be a guide in determining the progress made with irrigation; and there is another confusing element in the accumulation of arrears, on the recovery of which the revenue of each year largely depends. The arrear balances with which the year 1889-90 opened were altogether Rs. 5,79,983; at its close they were Rs. 5,09,188. On the Sone system a reduction in the balances of nearly one lakh of rupees was effected. On the Midnapore Canal arrears have decreased by more than Rs. 34,000; but as this is slightly less than the sum which it was found necessary to remit from the arrear demand, the reduction cannot be regarded with equal satisfaction. In Orissa there is an increase in the balance of more than Rs. 62,000.

EARNINGS.

124. Like the previous year, that under report was one of considerable activity in irrigation. The net income from major works calculated on the earnings and actual expenditure of the two years are compared below:—

	1889-90.	1888-89.
	Rs.	Rs.
Orissa Canals	(—) 69,893	(—) 70,282
Midnapore Canal	55,597	82,123
Hidgellee Tidal Canal	15,520	(—) 22,943
Sone Canals	26,813	83,080
	27,747	71,978

In Orissa the spread of irrigation brought about an increase in the "earnings," which was balanced by higher working expenses. On the Midnapore Canal those areas, the irrigation of which either cannot be clearly established or is known to have been insufficient, are no longer assessed; and thus the earnings are smaller than in the previous year. The chief cause of the decline in the earnings of the Sone Canals is the smaller area of rabi irrigated. The excess of the revenue realized on major works over that earned is chiefly due to collections made against the arrear demand.

VALUE OF CROPS.

125. The approximate value of crops irrigated by major irrigation works during the last two years is shown below:—

CANALS.	1888-89.		1889-90.	
	Area irrigated.	Value of crops	Area irrigated.	Value of crops.
	Acres.	Rs.	Acres.	Rs.
Orissa Canals	159,292	51,64,168	186,627	40,45,961
Midnapore Canal	69,777	17,44,425	68,810	17,20,250
Sone Canals	355,909	1,10,07,607	305,282	1,05,14,074
Total ...	584,978	1,79,16,200	560,719	1,63,10,285

The average values per acre of the various crops irrigated have undergone little variation since last year.

126. The state of the canal plantations on major works is shown in the following statement:— PLANTATIONS

CANALS.	1888-89			1889 90		
	Trees 12 feet high and above.	Saplings between 4 and 12 feet.	Seedlings.	Trees 12 feet high and above.	Saplings between 4 and 12 feet.	Seedlings.

GRAND TOTAL ...	11,44,912	10,47,165	...	...	...	...

Among major works the traffic returns of the Midnapore Canal are those watched with most interest. Trade on this route was more active in 1888-89 than in any previous year, and the figures for the year under report show that this activity has been maintained. The receipts of the Hidgellee Tidal and Orissa Coast Canals are temporarily affected, while the works undertaken in connection with the remodelling of the former are being carried out. Of the river systems, the Calcutta and Eastern Canals suffered from a depression in the rice trade. The Nuddea rivers were affected by the same cause, though not to a like extent.

128. The only regular steam transport service now maintained by Government on any canal in Bengal is that between Bhuddruck and Cuttack on the High Level Canal in Orissa. On the main canals of the Sone system the services are carried on by a firm of contractors, to whom the steamers of Government are leased on conditions which secure regularity in running and moderation in rates. On other lines the Government steamers have retired before the enterprise of the Inland Steam Navigation Companies. On the Midnapore Canal a double daily service of steamers with barges in tow runs between Calcutta and Midnapore; and on the Hidgellee Tidal, Orissa Coast and Kendrapara Canals a similar service runs twice a week between Calcutta and Cuttack. Regular services are also maintained on the Nuddea rivers. It is now suggested that the terms on which the Inland Companies compete with the country boats are TRANSPORT SERVICE.

unequal. In 1883 it was decided, in consideration of the space occupied by boilers and engines, to calculate the tolls payable by steamers on half only of their measured tonnage, and to grant a further abatement to the vessels of companies maintaining a daily steam service on any definite length of canal. The Companies gain another advantage by the build of their vessels, which is suited to the system of measurement in force on the canals; while on the other hand the lines of the country craft are such as to cause a great disparity between the actual displacement and that on which tollage is assessed. The danger, indicated in the report of the South-Western Circle, that the steamers will eventually absorb an undue proportion of the traffic, with serious results to the revenues of the canals, will be carefully watched.

Another subject to which attention has been paid recently is the necessity for the better regulation of the passenger traffic carried on barges in tow of steamers. Grave abuses, such as overcrowding and the neglect of ordinary sanitary precautions, are reported in the management of these vessels, especially of those despatched on special trips during the season of pilgrimage to Puri by the enterprise of private persons or firms. For these evils it is found that existing legislation provides no sufficient remedy, but it is hoped that they will be effectually reached by a draft Bill, now under preparation in the Legislative Department, which will in due course be submitted to the Government of India for sanction.

129. The date fixed for the submission of Revenue Reports to the office of the Chief Engineer is the 15th September. The dates when the different reports were received are shown below:—

		In 1889.	In 1890.
Orissa Circle ...	Commissioner's report ...	3rd October ...	19th September.
	Superintending Engineer's report	9th ditto ...	6th October.
South-Western Circle...	Commissioner's report .	16th September	22nd September.
	Superintending Engineer's report	28th ditto ...	26th ditto.
Sone Circle ...	Commissioner's report .	28th September	20th September.
	Superintending Engineer's report	14th ditto ...	15th ditto.

The reports were punctual with the exception of that of the Superintending Engineer, Orissa Circle. The finance and administrative accounts of the year 1889-90, due in the Chief Engineer's office on the 1st, were received from the Examiner of Public Works Accounts, Bengal, on the 23rd and 29th August 1890 respectively.

J. M. McNEILE, Col., R.E.,

The 24th December 1890. *Chief Engineer.*

DISTRICT ROAD FUND.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT

Road Cess.

No. 194R.C.

Dated Calcutta, the 17th January 1891.

RESOLUTION.

READ—

Letter from the Accountant-General, Bengal, No. 685L.F., dated the 7th January 1891, submitting an abstract of receipts and expenditure of the several District Road Committees in Bengal for the quarter ending 30th September 1890.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal for the second quarter of the year 1890-91 be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette*.

Ordered also that a copy of this Resolution, and of the abstract referred to, be forwarded to the Commissioners of the Rajshahye, Bhagulpore, Chittagong, and Chota Nagpore Divisions; to the Superintending Engineers of the Eastern and Western Circles; and to the Financial Department of this Government for information.

By order of the Lieutenant-Governor of Bengal,

W. B. BESTIC,

Under-Secretary to the Government of Bengal.

C. R KIERNANDER,

Offg. Accountant-General, Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 17th January, 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches	Character of the weather and state and prospects of the crops.
BENGAL.			
	Western Districts.		
Burdwan Divn. 1	Burdwan Jan 17, '91	Nil	Weather—cool. *Rubbi* and sugarcane crops doing well. Potato promises well. Prices of common rice:— Sudder ... ... 18½ Culna ... ... 18 Cutwa ... ... 18 3/16 Ranigunge ... ... 19 } per rupee.
2	Bankoora „ 17, '91	Nil	Weather—seasonable. *Rubbi* crops thriving. Cutting and pressing of sugarcane continue. Common rice selling at 21 seers per rupee both in the Sudder and Bishenpur subdivisions.
3	Birbhum „ 17, '91	Nil	Weather—bright and cool. Harvesting of paddy finished. Common rice selling at from 17½ to 20 seers per rupee.
4	Midnapur „ 17, '91	Nil	Weather—cold and seasonable. Rice crop generally has proved a success. Sugarcane doing well. Prices of common rice:— Sudder ... ... 20 Contai ... . 22 Tamluk ... ... 16 Ghatal ... ... 19 } per rupee.
5	Hooghly „ 17, '91	Nil	Weather—cold. Paddy harvest over except in portions of Jehanabad. Winter crops doing well. Some damages done by locusts in Khanakul and Goghat. Presence of locusts reported from Balagur; extent of damage not yet ascertained. Prices of common rice:— Sudder ... ... 15 Serampur ... ... 15 Jehanabad .. .. 16½ } per rupee.
6	Howrah „ 17, '91	Nil	Weather—seasonable. Reaping of *amun* nearly over. Harvest good. Coarse rice selling at 15 seers per rupee.
	Central Districts		
Presidency Divn. 7	24-Perghs. Jan. 17, '91	Nil	Weather—getting rather warm for the time of the year. Harvesting of winter rice completed in nearly all parts of the district. *Rubbi* crops continue to give excellent prospects. Common rice sells at from 14 to 18 seers per rupee.
8	Nuddea „ 17, '91	Nil	Weather—seasonable. Cold-weather crops on the ground are doing well, but require more rain.
9	Khoolna „ 17, '91	Nil	Weather—seasonable. Harvesting of *amun* going on. *Boro* is being transplanted. Prospects of crops good except in some parts in Satkhira.
10	Jessore „ 17, '91	Nil	Weather—seasonable. Harvesting of *amun* nearly completed. Prospects of winter crops good. Rain wanted. Price of rice stationary.
11	Moorshedabad „ 17, '91	Nil	Weather—seasonable. Harvesting of *amun* almost completed. Prospects of *rubbi* crops favourable.
Rajshahye Divn. 12	Dinagepur „ 17, '91	Nil	Weather—seasonable. Prospects continue good. Outturn of *haimanti* rice expected to be 16 annas. Mustard reported to be doing well. Price of rice stationary.
13	Rajshahye „ 17, '91	Nil	Weather—seasonable. Reaping of *amun* paddy almost finished. *Kalai* is still being reaped. Sugarcane and other standing crops doing well. A little rain will do much good to them. Ganja plants thriving tolerably well.
14	Rungpur „ 17, '91	Nil	Weather—cool and foggy with occasional clouds. Tobacco looks promising. Mustard is ripe. Prospects generally good.
15	Bogra „ 17, '91	Nil	Weather—seasonable. All crops promise well. Ploughing for jute and *aus* rice going on. Common rice selling at 18 seers per rupee.
16	Pubna „ 17, '91	Nil	Weather—seasonable. Mustard reported to be a poor crop in Serajgunge, but in the Sudder subdivision it is expected to yield an outturn of 10 annas. Rain urgently wanted for this crop as well as for other standing crops.
17	Darjeeling „ 17, '91	Nil	Weather—fair. Winter rice is still being harvested. *Rubbi* crops doing well. Prospects good.
18	Julpigoree „ 17, '91	Nil	Weather—seasonable. Harvesting of *haimanti* paddy still going on with good outturn. Winter crops doing well. Common rice selling at 16 seers per rupee.

No.	District and date of return.	Rainfall at reader Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concluded*.			
	Eastern Districts.		
DACCA DIVN. 19	Dacca Jan. 17, '91	Nil	Weather—seasonably cold and fine. *Boro* paddy is being sown. Cutting of sugarcane continues. *Rubbi* crops thriving. Common rice is being sold at from 14 to 20 seers per rupee.
20	Furreedpur „ 17, '91	Nil	Weather—seasonable. State of *rubbi* crops fair. Cultivation and sowing of *jati* paddy in progress. Common rice selling at from 16 to 18 seers per rupee.
21	Backergunge ...		Report not received.
22	Mymensingh „ 17, '91	Nil	Weather—cold, but the evenings getting warmer. Mornings foggy. Harvesting of *amun* paddy nearly completed. Prospects of crops continue good. Common rice sells at 16 seers per rupee.
CHITTAGONG DIVN. 23	Chittagong „ 17, '91	Nil	Weather—seasonable. Harvesting of *amun* completed: average outturn estimated at 16 annas. Vegetable crops doing well. Prices stationary.
24	Noakholly „ 17, '91	Nil	Weather—seasonable. Harvesting of *amun* completed; outturn reported to be 15 annas. *Rubbi* crops going on well. Price of rice 19 seers per rupee.
25	Tipperah „ 17, '91	Nil	Weather—seasonable: cold by night. Sugarcane is being cut. Reaping of *amun* completed. Winter crops flourishing. Prices stationary. Ordinary rice selling at 18 seers per rupee.
26	Chittagong Hill Tracts. „ 15, '91	Nil	Weather—very cold with heavy fogs up to 10 in the morning. Mustard is in flower. Tobacco, chillies, and other cold-weather crops progressing. Pressing of sugarcane commenced in some parts of the district. Common rice is being sold at 13 seers 5¼ chittacks per rupee.
BEHAR.			
PATNA DIVN. 27	Patna „ 17, '91	Nil	Weather—cold. Harvesting of paddy almost completed; threshing is going on. Prospects of *rubbi* and poppy continue favourable. Mustard is being gathered in places. Price of food-grains almost stationary.
28	Gya „ 17, '91	Nil	Weather—cold and seasonable. Paddy harvest nearly over. *Rubbi* and poppy doing well.
29	Shahabad „ 17, '91	Nil	Weather—bright and cold. Prospects of all crops good. Rain said to be wanted in Bhabuah. Prices stationary.
30	Durbhunga „ 17, '91	Nil	Weather—seasonable. Prospects of *rubbi* continue favourable. Mustard approaching to maturity. Poppy doing well. Tobacco is being harvested. Common rice selling at from 15 to 17 seers per rupee.
31	Muzufferpur „ 17, '91	Nil	Weather—seasonable: cold. Prospects of *rubbi*, tobacco, and poppy crops continue good.
32	Sarun „ 17, '91	Nil	Weather—cold and fine with west wind. *Rubbi* and poppy crops excellent. Sugarcane is being pressed.
33	Chumparun „ 17, '91	Nil	Weather—cold and clear. *Rubbi* and poppy doing well, and being irrigated in places. A little rain would do good. Prices of food-grains stationary.
BHAGULPORE DIVN. 34	Monghyr „ 17, '91	Nil	Weather—cold and seasonable. Harvesting of winter rice over; outturn about 16 annas. Prospects of *rubbi* crops continue good.
35	Bhagulpur „ 17, '91	Nil	The rice crop has been a good one, and the *rubbi* crop prospects are favourable. Outturn of the winter rice reported to be 16 annas.
36	Purneah „ 17, '91	Nil	Weather—cold. Harvesting of *aghani* not yet completed. *Rubbi* crops doing well. Condition of rape-seed good.
37	Maldah „ 17, '91	Nil	Weather—cold and foggy. Harvesting of winter paddy almost completed; threshing going on. *Kalai* and mustard are being gathered. Prospects of *rubbi* crops good. Lands are being prepared for *boro* cultivation. Common rice selling at from 14 to 21 seers per rupee.
38	Santhal Pergha. „ 17, 91	Nil	Weather—seasonable. Harvesting of rice nearly completed, and the outturn is decidedly good. Prospects of *rubbi* crops continue favourable. Sugarcane is being cut.

	No.	District and date of return.	Rainfall at Sudder Station during the week in inches.	Character of the weather and state and prospects of the crops.
ORISSA.				
Orissa Dists.	39	Cuttack Jan. 17, '91	Nil	Weather—seasonable. Harvesting of late winter rice nearly completed. *Mung* and other *rubbi* crops doing well. Transplantation of *dalua* rice has just commenced.
	40	Pooree „ 15, '91	Nil	Weather—seasonable. Harvesting of *sarad* crop going on. *Rubbi* crops doing well. Price of common rice from 21 to 28 seers per rupee.
	41	Balasore „ 17, '91	Nil	Weather—seasonable. Harvesting of winter rice almost over. *Rubbi* crops are in a state of maturity and estimated at 11 annas.
CHOTA NAGPORE.				
		South-West Frontier Agency.		
Chota Nagpore Dists.	42	Hazaribagh Jan. 17, '91	Nil	Weather—seasonable. *Rubbi* crops doing well. Want of rain continues to be felt in several parts of the district. Poppy prospects good.
	43	Lohardugga „ 17, '91	Nil	Weather—seasonable. *Rubbi* crops doing well, but rain badly wanted for the development of wheat and barley.
	44	Singbhoom „ 17, '91	Nil	Weather—seasonable. Cold-weather crops doing well. Oil-seeds and pulses are being gathered with full outturn. Prices stationary.
	45	Manbhoom „ 17, '91	Nil	Weather—seasonable. Prospect of crops good. Rice selling at from 22 to 24 seers per rupee.

Published for general information.

The total fall from 1st to 17th January 1891		Nil
The average fall of the corresponding period for 24 years, S.-G.'s Office ...		0·14

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≡, fog.

JOHN ELIOT,
Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Calcutta, the 19th January 1891.

* Means of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The humidity of the atmosphere is expressed as percentage saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10 The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Saturday, the 17th of January 1891.

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, *the* 21*st January* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING SATURDAY, THE 17TH OF JANUARY 1891.

THE past week has again been a period of comparatively small meteorological change, and north-east monsoon conditions have prevailed throughout The two last days of the previous week had been characterised by unusually high humidity and temperature, though the changes at the close of the week indicated a rapid return to normal cold weather conditions. Pressure, which had been rising rapidly on the 10th, continued to rise on the 11th and 12th, and became from 0·03 inch to 0·07 inch above the normal. This increasing pressure was accompanied by a reduction of temperature, so that on the 12th the general temperature which had been decidedly above the usual amount at the close of the previous week was only about a degree or two in excess On the 13th, 14th, and 15th there was a continuous reduction of pressure, the daily fall averaging about two or three hundredths of an inch, and thus pressure became below the normal by about 0·01 inch to 0·03 inch. Temperature generally continued to fall slowly on the 13th and 14th, but an increase of one or two degrees was registered on the 15th, and on this date temperature was from one to three degrees above the normal. During the whole of these five days a steady north westerly wind was blowing at almost all stations, and on the 15th in particular the current was very steady. On the 16th the changes of pressure were small, but temperature fell by about 3°, and at the same time wind directions became a little variable. On the 17th a rise of pressure of about four-hundredths of an inch had occurred, and pressure again became two or three-hundredths of an inch in excess, but the changes of temperature were variable, there being a decided rise at the western and north-western stations, while an equally decided fall had happened at the southern and south-western stations, and temperature was above the normal by one or two degrees in Chutia Nagpur, Behar, North Bengal, and East Bengal, while it was below it by from two to three degrees in South-West Bengal and Orissa. Wind directions on this day became much more variable than they had been, pointing to conditions being slightly disturbed This may perhaps have been caused by the formation of a rather deep depression in North-Western India about this date For the whole week, however, absolutely no rain has been reported, humidity has been moderate, and cloud proportion very low.

Pressure.—The mean pressure for the week has generally been about one to three-hundredths of an inch in excess of the normal. The excess has again been generally smallest in parts of North Bengal and also in Behar.

Temperature.—The mean temperature for the week has been slightly but distinctly below the normal in Orissa and South-West Bengal, but it has been generally above it elsewhere by about one to two degrees, the largest excess being in Chutia Nagpur, where it equals 2 10 In the whole province temperature has been in excess of the normal by nearly one degree. The distribution of temperature during the week and its variation from the normal are best seen in the table below, where the average maximum, minimum, and mean temperatures at nine typical stations in different districts of the province are compared with the normal values for the same periods From the table it will be seen that the day temperatures have been almost all in excess of the normal, while the night temperatures have many of them been below the normal :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 17th of January 1891.

	Normal mean maximum temperature for the week ending 17th January.	Actual mean maximum temperature for the week ending 17th January 1891.	Variation of actual mean from the normal. MEMORANDUM.

Monthly review of deaths registered in forty-five districts of Bengal for the month of November 1890.

THE total deaths registered in forty-five districts of Bengal during the month of November 1890 were 154,891, and correspond to an annual rate of 28·20 per 1,000 of the aggregate population of those districts, which is 65,859,534. This rate is ·12 higher than the mean rate of the corresponding months of the past five years 1885—89, and is also higher than the rate of the corresponding period of any of the past five years except 1885 and 1886, *vide* the figures below :—

	1886.	1886.	1887.	1888.	1889.	Monthly average of five years, 1885—89.	1890.
Ratio of deaths per 1,000 of the population per annum	29·64	31·92	26·64	25·23	26·88	28·06	28·20

Of the total deaths, 79,792 were males and 75,099 females, or in other words they occurred in the relative proportion 108 of the former to 100 of the latter, calculated on the proportion such mortality bears to the total male and female population.

The following table shows the highest proportions of deaths registered during the month of November 1890, compared with the corresponding month of 1889 :—

Districts.	Ratio per *mille* during—		*Districts.*	Ratio per *mille* during—	
	Nov. 1890.	Nov. 1889.		Nov. 1890.	Nov. 1889.
Faridpore	46 80	27·12	Serampore	31·68	47·04
Khulna	45 48	32·16	Dinajpur	31·56	33·48
Jessore	44·04	37·92	Dacca	31·56	24·12
Pubna	40 14	24·00	Balasore	31·44	34·56
Backerganj	39 84	37·08	Midnapore	30·96	25·44
Rajshahye	35·04	31·68	Darjiling	30·96	28·80
Julpaiguri	34·32	35 40	Shahabad	30·96	33·60
Bhagulpore	32·64	32·28	Maldah	30·00	26·76

The total mortality during the month under review from the several registered death-causes is compared in the following table with the mortality from those causes in the corresponding month of 1889 and the average of the five years 1885—89 :—

	Ratio per *mille* during—		
	Nov. 1890.	Nov. 1889.	Monthly average of five years 1885—89.
Cholera	1·56	·96	1·56
Small-pox	·04	·01	·02
Fever	21·36	20·76	21·72
Bowel-complaints	·60	·72	·84
Injury	·24	·24	·24
Other causes	4·08	3·84	3 60

The figures of November 1890 are very much the same as those of the five years 1885-89. Compared, however, with November 1889, there is a pretty large increase in the mortality of November 1890 under the heads cholera and fever.

The highest annual death-rates from cholera, fever and other causes occurred in the following districts :—

Cholera.	Ratio per *mille.*	*Fever.*	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Faridpore	18·12	Jessore	41·16	Poori	13·44
Pubna	8·40	Khulna	39·24	Backerganj	11·52
Mozufferpore	5·40	Julpaiguri	32 88		
Dacca	3 96	Rajshahye	30 60		
Mymensing	3·60	Pubna	30 00		
Bhagulpore	2·76	Dinajpur	28·68		
Backerganj	2 04	Maldah	27·72		
		Rungpore	26·76		
		Backerganj	25·68		
		Noakhali	24·96		
		Shahabad	24·96		
		Bhagulpore	24·72		
		Faridpore	24·48		
		Darjiling	24 36		
		Murshedabad	24·24		
		Midnapore	24 12		
		Gya	23·76		
		Serampore	23 40		
		Monghyr	23·40		
		Nuddea	22·92		
		Hazaribagh	22·08		
		Bogra	22·20		
		Chittagong	21 96		
		Hughli	21·60		
		Purneah	21·48		
		Dacca	20 64		

The mortality of the month under review, according to *Sex*, *Class* and *Age*, was distributed as follows:—

According to Sex.

	Ratio per mille.
Males	29·28
Females... ...	27·12
Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population ...	108

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 3rd January 1891.

Births.

The total births registered during the week ending with Saturday, the 3rd January 1891, in twenty-seven principal towns of Bengal, correspond to an annual rate of 28·6 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 3·3 below the average rate of the corresponding week of the past five years, and is also below the rate of the corresponding week of any of the past five years with which comparison is instituted, *vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years, 1885–89.	1890.
Ratio of births per 1,000 of the population per annum	34·9	32·5	27·3	26·1	33·8	30·5	28·6

The births registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

Towns.	Weeks ending— 13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.	3rd Jan. 1891.	Towns.	Weeks ending— 13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.	3rd Jan. 1891.

Dacca	35·9	23·1	20·7	19·5	Total ...	28·2	24·8	23·5	28·6

It will be seen that last week the highest birth-rate was returned from Gya (60·1) and the lowest from Ranaghat (6·).

Deaths.

The total deaths registered during the week under review correspond to an annual rate of 28·8 per 1,000 of the population. The rate of the week is 2·9 higher than the average rate of the corresponding week of the past five years, and is also higher than the rate of the corresponding week of any of the past five years except 1885 and 1886, *vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years, 1885–89.	1890.
Ratio of deaths per 1,000 of the population per annum	30·5	29·0	24·4	21·9	23·7	25·9	28·8

The deaths registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

Towns.	Weeks ending— 13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.	3rd Jan. 1891.	Towns.	Weeks ending— 13th Dec. 1890.	20th Dec. 1890.	27th Dec. 1890.	3rd Jan. 1891.
Burdwan	44·2	33·6	21·4	28·9	Naraingunj	128·3	120·1	20·0	58·0

Jessore	30·6	67·3	35·7	73·5	Monghyr	25·5	32·6	17·3	23·5
Rampore Beauleah	47·3	30·4	20·3	47·3	Purneah	13·9	13·9	10·4	17·3
Darjiling	7·4	51·9	14·8	51·9	Poori	42·0	56·6	60·8	32·9
Dacca	36·3	42·2	42·2	33·1	Total ...	31·3	28·3	25·6	28·8

It will be seen that last week the highest mortality occurred in the town of Chittagong (77·5) and the lowest in Arrah (9·6). Next to Chittagong comes Jessore with a death-rate of 73·5. The high death-rates in these two towns (Chittagong and Jessore) are due to an excessive prevalence of small-pox and cholera respectively.

Measured by last week's mortality, the highest annual death-rates from the several registered death-causes occurred in the following towns :—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other causes.*	Ratio per mille.
Jessore ...	49·0	Chittagong ...	54·0	Rampore Beauleah	39·4	Poori ...	16·8	Bhagulpore	18·1
Naraingunj ...	33·1	Midnapore ...	6·2	Darjiling ...	37·0			Chupra ...	16·1
Howrah ...	18·9			Comillah .	34·7			Serampore	13·7
Serampore ...	9·8			Hughli and Chinsurah ...	29·5			Dacca ...	12·3
				Serampore ...	23·6			Monghyr ...	11·8
								Midnapore	10·8

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 3·8 from cholera, against 4·9 per 1,000 in the preceding week; 1·6 from small-pox, against 3; 12·1 from fever, against 9·9; 3·5 from bowel-complaints, against 3·1; ·3 from injury, against ·7; and 7·4 from other causes, against 6·5 in the preceding week.

The mortality of last week according to *Sex*, *Class* and *Age* was as follows :—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males	30·9	Christians ...	52·3	Under 1 year	163·9
Females	26·5	Hindus ...	26·5	1 and under 5 years	36·9
Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population...	116	Mahomedans ...	36·9	5 „ 10 „	16·9
				10 „ 15 „	12·4
				15 „ 20 „	20·6
				20 „ 30 „	15·0
				30 „ 40 „	18·7
				40 „ 50 „	24·9
				50 „ 60 „	45·6
				60 years and upwards	77·5

Detailed information regarding the vital statistics of the twenty-seven principal towns dealt with in the above review will be found in the statement appended.

W. H. Gregg, *Dip. Publ. Health, Camb.*,

The 19th January 1891. *Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending with Saturday, the 3rd January 1891.

Comparative statement of the principal commodities carried over the Eastern Bengal State Railway during the month of October 1890.

INCREASES.

	Tons.
Coal	2,311
For railway and flotilla con-umption principally.	
Cotton piece-goods	1,561
An increase in de patches probably due to a large demand from up-country stations for sale during the Poojahs	
Jute, unscrewed	1,205
The increase is in despatches from stations on the Eastern and Western Sections. The Dacca Section and Serajganj show large decreases.	
Kerosine oil	1,646
Due to the opening of the Budge-Budge Branch line.	
Salt	8,163
Principally from Chitpore.	
Sugar	718
Ordinary fluctuations.	

DECREASES.

Screwed jute	2,719
From Narayanganj principally.	

F. P. QUINLAN,
Examiner of Accounts.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 7A.

GENERAL.—*The 7th January* 1891.—Maulvi Gowar Ali, Deputy Magistrate and Deputy Collector, Monghyr, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in that district.

The 20th January 1891.—Babu Ramanugrah Narain Singh, Deputy Magistrate and Deputy Collector, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Gya.

The 21st January 1891.—Mr. R. M. Waller, Officiating Magistrate and Collector, Monghyr, is confirmed in that appointment.

The 22nd January 1891.—Babu Dina Nath De, Deputy Magistrate and Deputy Collector, Midnapur, is appointed to have charge of the Contai sub-division of that district.

Captain C. W. Thomas, Northern Bengal Mounted Rifles, is allowed leave of absence for nine months, with effect from the 1st February next.

The 23rd January 1891.—Lieutenant Charles Lewis Taylor, of the 3rd Punjab (North-Western Railway) Volunteer Rifle Corps, is appointed to be Lieutenant in the Eastern Bengal State Railway Volunteer Rifle Corps, *vice* Lieutenant J. A. Anderson, transferred to the supernumerary list.

The Lieutenant-Governor is pleased to accept the resignation tendered by the undermentioned officers of their commission in the Presidency Volunteer Reserve Battalion:—

Captain John Cameron Guest Kiernander.

Second Lieutenant Henry Hamilton Rowe.

The 24th January 1891.—Mr. H. Cox, Joint-Magistrate and Deputy Collector, is posted temporarily to the Sadr station of the 24-Pergunnahs district.

The 26th January 1891.—Babu Digendra Nath Pal is appointed to act as a Sub-Deputy Collector of the second grade in the district of Gya, during the absence, on leave, of Babu Dina Nath Chuckravarti, or until further orders.

The 27th January 1891.—Mr. C. R. Marindin, Magistrate and Collector, Durbhunga, is allowed furlough for one year, under article 340(*b*) of the Civil Service Regulations, with effect from the 1st March 1891, or such subsequent date as he may avail himself of it.

Mr. H. C. Streatfeild, C.S., is appointed to be substantive *pro tempore* Under-Secretary to the Government of Bengal in the Financial and Municipal Departments, with effect from the 12th November 1890.

Mr. W. B. Oldham, Magistrate and Collector, Burdwan, is appointed to act temporarily as Magistrate and Collector of Chittagong.

Mr. A. C. Tute, Magistrate and Collector, Cuttack, on furlough, is appointed to act as Magistrate and Collector of Burdwan, during the absence, on deputation, of Mr. W. B. Oldham, or until further orders.

Mr. R. W. Carlyle is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to the Sadr station of the district of Chittagong, on being relieved of his present appointment as Officiating Magistrate and Collector of that district.

Babu Ram Churn Lal, Deputy Magistrate and Deputy Collector, Gya, is transferred to the Sadr station of the district of Shahabad.

Babu Raj Kissore Naram, Deputy Magistrate and Deputy Collector, Shahabad, is transferred to the Sadr station of the district of Gya.

Babu Ram Churn Bose, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he availed himself of it.

Maulvi Fuzlul Karim, Deputy Magistrate and Deputy Collector, Nilphamari, Rungpur, is vested with the powers of a Collector under Act X of 1870 in that district.

POLICE.—*The 20th January* 1891.—The services of Colonel W. L. N. Knyvett, Deputy Inspector-General of Police, Bengal, are placed at the disposal of the Government of India in the Military Department, with effect from the 1st April 1891.

The 22nd January 1891.—Babu Kanti Chunder Mullick is promoted from the third to the second grade of Inspectors of Police, *vice* Maulvi Dost Mohomed Khan.

Maulvi Mohamed Azim Khan is promoted from the third to the second grade of Inspectors of Police, *vice* Mr. M. Peters.

This cancels the order of the 18th November 1890, promoting Babu Chunder Sikur Bose from the third to the second grade of Inspectors.

Mr. W. E. Rees is promoted from the third to the second grade of Inspectors of Police, *vice* Babu Purno Chunder Banerjee.

NOTIFICATION.

No. 88.—*The 27th January*, 1891.—The Lieutenant-Governor is pleased to sanction the following addition to the Junior Scholarship Rules:—

RULE 13. "The right of sending up candidates for Junior Scholarships may, at the discretion of the Director of Public Instruction, be withheld for any period from any school (*a*) which is convicted of wilful transgression or colourable evasion of the transfer rules for high schools, or (*b*) the maintenance of which appears to the Director of Public Instruction to be for any sufficient reason injurious to the interests of education, or (*c*) which is not certified by the Inspector of Schools as having been in existence since the 1st July next preceding the examination, and as qualified to teach up to the Entrance standard."

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23rd January 1891.—The following rules, framed by the Board of Revenue under clause (*c*), section 9 of the Sea Customs Act VIII of 1878, to provide for the weighment of salt by licensed weighmen at the Port of Chittagong, having received the sanction of the Lieutenant-Governor, are published for general information :—

Rules framed under clause (c), section 9 of the Sea Customs Act VIII of 1878, *to provide for the weighment of salt by licensed weighmen in the Port of Chittagong.*

I. From the date of the publication of these rules, no person other than a weighman licensed under them shall be employed to weigh salt either on board importing vessels or at the Sudder ghât warehouses.

II. Licensed weighmen may employ such coolies or other assistants as are necessary for conducting the duties.

III. Any person wishing to become a licensed weighman will be supplied, on application to the Collector of Customs, with a form which he will be required to fill up, and such application should ordinarily be supported by a recommendation from some person directly interested in the importation and weighment of salt. If he is considered suitable, a license will then be granted to the applicant.

IV. A licensed weighman, who is guilty of refusal or neglect of duty, may be suspended or dismissed.

V. Licensed weighmen will make their own arrangements with those persons who require their services, and in this respect Government will not exercise any control over them; but they are strictly prohibited from receiving any reward or present from the buyers, or their representatives, under penalty of dismissal and of a criminal prosecution.

VI. When on duty, a licensed weighman will be required to wear a brass badge, and will be bound to produce his license if asked to do so.

VII. A complete list of weighmen will be supplied to any person interested in the weighment of salt upon application.

Form of weighmen's license.

A B. is hereby appointed a licensed weighman under the rules prescribed by the Board of Revenue.

Descriptive Roll.

Name.	Father's name.	Residence.	Present residence.	By whom recommended.

Form of application for weighmen's license.

I , son of , resident of , in the district of , at present residing at , desiring to obtain a license authorising me to weigh salt on board ships as well as at the Sudder ghât warehouses, beg respectfully to submit this petition.

I undertake to perform my duties faithfully to Government, and to obey any lawful commands that I may receive.

H. J. S. COTTON,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 24th January 1891.—Babu Chandi Charun Chatterjee, Deputy Collector, is appointed Deputy Collector of Income-tax in the district of Rajshahye, with retrospective effect from the 13th December 1890, *vice* Babu Akhoy Kumar Chatterjee, transferred, and under section 40 of Act II of 1886 is vested with the powers of a Collector under the Act.

H. J. S. COTTON,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 27th January 1891.—It is hereby notified that Rule 5 of the Rules framed under section 157 of the Sea Customs Act VIII of 1878, published at page 1014 of Part I of the *Calcutta Gazette* of the 22nd October 1890, is cancelled.

H. J. S. COTTON,
Secretary to the Govt. of Bengal.

HIGH COURT NOTICES.

NOTIFICATION.

IT is hereby notified that the Additional Subordinate Judge of Rungpore will hold his sittings at Julpaiguri on the following dates during the year 1891 :—

February, 9th.	August, 6th.
April, 13th.	September, 14th.
June, 15th.	December, 14th.

H. W. C. CARNDUFF, *Registrar.*

HIGH COURT, *the 15th January* 1891.

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL.

Rule No. 15, *dated the 5th November* 1890.

EXISTING RULE.

54.—The balances of the Cashier's account in respect of diet money should be observed every day in passing the General Cash Book. To prevent excessive accumulations under this head, the Judge in charge should transfer to deposits such portions of the balance as he may consider advisable. Amounts so transferred, if subsequently required, shall be withdrawn from deposits in the manner described above, and credited in the Peremptory Cash Book. If such sums remain in deposit for three years, they must be carried to credit of Government under Rule 95, relating to lapsed deposits.

For Rule 54, Chapter III, at pages 53 and 54 of the Rules and Orders (Civil), *substitute* the following :—

54.—The balances of the Cashier's account in respect of diet money should be observed every day in passing the General Cash Book. To prevent excessive accumulations under this head, the Judge in charge should transfer to deposits such portions of the balance as he may consider advisable. Amounts so transferred shall be treated in the same manner as money received in Court and entered in the Cashier's General Cash Book both on the credit and debit sides. Should the money be subsequently required, it shall be withdrawn from deposits in the manner described above, and credited in the Peremptory Cash Book. If such sums remain in deposit for three years, they must be carried to the credit of Government under Rule 95, relating to lapsed deposits.

Published in the *Calcutta Gazette* of the 12th November 1890, Part I, page 1079, and in the *Assam Gazette* of the 15th November 1890, Part III, page 670.

Sheriff's Office, the 21st January 1891.

NOTICE is hereby given that the First Criminal Sessions of the year 1891 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house in the Town of Calcutta, on Wednesday, the eighteenth day of February next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

EXEMPTIONS AND REDUCTIONS UNDER THE ACT.

The 21st January 1891.

No. 259.—In exercise of the power conferred by section 8 of the Indian Stamp Act, 1879, the Governor-General in Council is pleased to direct that, if any Company limited by shares which has paid the full stamp-duty chargeable on its share-warrants or the composition therefor, mentioned in notification No. 1661, dated 14th November 1890, subsequently issues an addition to its subscribed capital, the share-warrants issued by such Company under section 30 of the Indian Companies Act, 1882, with respect to such additional capital, shall be exempt from payment of the duty specified in section 35 of the said Indian Companies Act, 1882, upon payment, as composition for that duty, to the Collector of Stamp Revenue, of ½ per centum of the additional capital so issued.

No. 338.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

The 23rd January 1891.

READ—

Despatch from Her Majesty's Secretary of State for India, No. 291 (Financial), dated the 31st December 1890.

INDIA OFFICE;
London, 31st December 1890.

FINANCIAL,

No. 291.

To His Excellency The Most Honourable The Governor-General of India in Council.

MY LORD MARQUIS,—I have to inform you that the rate of exchange for the adjustment of financial transactions between the British and Indian Governments for the year 1891-92 has been fixed, with the concurrence of the Lords Commissioners of Her Majesty's Treasury, at one shilling and sixpence halfpenny (*1s. 6½d*) the rupee, and I request that you will give the necessary instructions for the due observance of this rate in respect to all transactions to which it is applicable.

Official Rate of Exchange, 1891-92.

I have, &c.,
(Signed) CROSS.

Ordered that this Despatch be published in the *Gazette of India* for general information.

J. F. FINLAY,
Secretary to the Govt. of India.

The following orders, issued by the Government of India in the Military Department, are republished for general information.

JOHN EDGAR,

E. HUTTON,
Presidency Postmaster, Calcutta.

Notification.

THE following notification is issued as to the conditions under which correspondence and parcels may be sent between India (including Burma) and the Miranzai Field Force :—

FROM INDIA TO THE FIELD.

Mode of addressing Correspondence.

Correspondence posted in India for delivery in the Field should be addressed as follows :—

A. B.,
Regiment, Battery, or Office,
Miranzai Field Force.

No post-town should be apded to the address, and special care should be taken to insert the Regiment or Battery with which the addressee is serving, or the special appointment which he may hold with the force.

What may be sent.

Unregistered letters, post-cards, newspapers, book-packets, and parcels (private and service) may be posted in India for delivery in the Field. *Full prepayment of postage is compulsory.* Delivery will be made through orderlies.

Parcels.

Parcels will be delivered through the Transport Department. The Post Office will forward parcels from India to the Base Office, and its responsibility will cease there.

No Registration, Insurance, Value-payable Post, or Money-orders.

Letters cannot be registered, nor can letters or parcels be insured, for despatch from India to the Field. No article can be accepted for despatch to the Field by Value-payable Post. Money-orders will not be issued in favour of payees in the Field.

FROM THE FIELD TO INDIA.

What may be sent.

Unregistered letters, post-cards, and book-packets may be posted to addressees in India. Prepayment of postage is optional. No registered or insured letters or ordinary or insured parcels or value-payable articles will be accepted for despatch.

Money-orders.

Money-orders will be issued on India at inland rates of commission. Remittances by telegraphic money-orders can also be sent on the ordinary conditions.

FROM ONE FIELD POST OFFICE TO ANOTHER.

What may be sent.

Only unregistered letters, post-cards, newspapers, and book-packets may be posted at one Field Post Office for delivery from another Field Post Office. *Full prepayment of postage is compulsory.*

OFFICIAL CORRESPONDENCE

From India to the Field must be fully prepaid. Service parcels can be sent.

From the Field to India need not be stamped. Postage at the prepaid rate will be charged on delivery in India. Service parcels cannot be sent

From one Field Post Office to another will be delivered free if properly superscribed and franked. Service parcels cannot be sent.

POSTAGE STAMPS.

Postage stamps, post-cards, and embossed envelopes can be purchased at any Field Post Office.

H. M. KISCH,
Offg. Director-General of the Post Office of India.

CALCUTTA,
The 17th January 1891.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage. Rs. A. P.	With postage. Rs. A. P.

„ each of the Madras, Bombay, and Allahabad Series ...	6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit.

	For town. Rs. A. P.	For mufasil. Rs. A. P.
For the Calcutta Series per copy ...	0 8 9	0 10 3
„ each of the Madras, Bombay and Allahabad Series per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year ...	7 2 6	8 6 3
„ each of the Madras, Bombay and Allahabad Series. For the year ...	4 4	4 11 3

Persons desiring to subscribe for or purchase the Reports should apply to—

Superintendent, Government Press, Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal

Orders and subscriptions for 1890 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat Calcutta.

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. Rs. A. P.	With postage Rs. A. P.
Bengal Law Reports for one year	20 0 0	23 8 0

*** *Lists of corrections to the above Rules are supplied monthly at Rs.* 3 *a year.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages; Volume IV, letters G to L, in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs.* 45 *in India, and* 3 *guineas in England, exclusive of packing and postage.*

The Shargi Architecture of Jaunpur, with Notes on Zafarabad, Sahet-Mahet, and other places in the N.W. P. and Oudh. By A. FUHRER, Ph. D., with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1.)
